

# ANSI Energy Efficiency Standardization Coordination Collaborative (EESCC)

## Working Group 4: Evaluation, Measurement, and Verification

### Inaugural Plenary Status Report

*January 22-23, 2013 | Arlington, VA*

# ANSI EESCC WG4

## Co-Chairs

- **Kevin Cooney**  
Managing Director  
Navigant Consulting
  
- **Bill Miller**  
Program Manager and Senior Advisor  
Lawrence Berkeley National Laboratory

# ANSI EESCC WG4 - Scope

## Initial Scope

- Evaluation, measurement, and verification (encompassing EM&V, energy performance metrics, and standardized and portable data collection and reporting)

## Sub-Issues

- WG4 sub-issues could include net-to-gross, behavior-oriented programs, and deemed calculated savings
- WG4 participants agreed that sub-issues and structure will likely emerge from the EESCC inventory
  - National standards, regional guidelines used in the United States, and relevant international standards, should be included in the EESCC inventory

# ANSI EESCC WG4- Structure

- **Bottoms-up or top-down?**
  - WG4 is discussing the need to consider both bottoms-up and top-down approaches to evaluations
  
- **Financing**
  - Perspectives of those involved in financing projects was identified as key - WG4 participants will reach out to contacts involved in financing to gather input on what they see as issues
