1 Introduction

The ISOTC Server is using the document management system OpenText Content Server 10 (formerly known as Livelink), which is part of the Enterprise Content Management (ECM) offering by the Canadian company Open Text.

The eCommittees on the ISOTC server are using the Open Text module Communities of Practice (CoP) which was redesigned and optimized for the ISO committee work by ISO Members in the IT Strategies Implementation Group (ITSIG) in 2007.

The basic principle of the ISO eCommittees on the ISOTC server is to provide the secretariats of ISO Committees with the tools to manage their committee work in a decentralized manner through the eCommittee application. This guide addresses the needs of the Committee Secretaries, Working Group Convenors and their support teams as the managers of the main committee processes.

The environment provided by the ISOTC server aims at enabling Secretaries of ISO Committees (and their support teams) as well as WG Convenors to make documents available to their Committee Members and Experts and notify them.

The role of the ISO Central Secretariat is restricted to providing a server with a basic working environment (including Helpdesk and backup services), tools supporting the Committee work and directives to ensure a basic commonality of the working structures between different Committees.

In addition to the eCommittee working environment, the ISOTC server is also the platform that links to other committee work related applications, such as Electronic Balloting, Meeting Management and Project Portal.
2 Logging in and logging out

2.1 Logging in

Your username will be sent to you by e-mail after your initial registration by your National Member Body in the ISO Global Directory and will contain a link to choose a password and activate your account. Please follow the instructions in the email to activate your account and choose a password.

a) Start your Internet browser and open the following URL: https://login.iso.org. You will be directed to the ISO electronic applications login page. Click on eCommittees (ISOTC) to access the committee working areas:

![List of ISO electronic applications](image1)

**Figure 1 - List of ISO electronic applications**

b) The public open area of the ISOTC server will be displayed. In the upper right corner of the screen, you’ll find the button **click to login**

![Livelink Log-In](image2)

**Figure 2 - Livelink Log-In**

Please note that both username and password are case-sensitive, i.e. they have to be entered exactly as provided.
c) Enter your username and password

d) Read the declaration and tick the box to accept the conditions

e) Click on Sign in. The ISOTC server top level Enterprise Workspace opens.
2.2 Logging out

a) Choose Log-out on the Tools menu.
b) Click on Log-out on the Log-out screen to leave the ISOTC server.
c) You will be forwarded to the list of ISO applications.

![Figure 4 - Logout Button](image)

2.3 Password forgotten

If you forgot your password, click on the link I forgot my password on the right and follow the instructions on the screen. Within the next few minutes you will receive an e-mail with a link to reset your password.

![Figure 5 – Password forgotten](image)
3 User interface and navigation

3.1 Common navigation items

Throughout the eCommittees application and the ISOTC server, there are some navigation items that will be common to all screens.

Global menus

These menus appear on every page in the ISOTC server:

- **Enterprise**: Allows you to access the Enterprise Workspace (top level of the ISOTC server)
- **Personal**: Allows you to access your Personal Workspace and information pages
- **Tools**: Allows you to search the ISOTC server, log out, and modify your Livelink settings.
- **Help**: Allows you to access the Livelink context sensitive help (help for individual pages) and the Table of Contents (all help pages in Livelink).

Search Bar

Enables a full text search on the ISOTC server and the documents.

Figure 6 - Common items
3.2 Items and icons

There are several types of items in the Electronic Committee. The most common items are folders and documents. To see the item’s type, move the cursor over the icon to the left of the name. The type of the item is displayed, i.e. whether the item is a folder or a document.

### 3.2.1 Items

<table>
<thead>
<tr>
<th>Item</th>
<th>Icon</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Folder</td>
<td>🗂️</td>
<td>Folder (containing other items, i.e. folders or documents).</td>
</tr>
<tr>
<td>N-Folder</td>
<td>🗂️</td>
<td>N-Folder (containing N-Documents or other N-Folders)</td>
</tr>
<tr>
<td>Document</td>
<td>📄️, 📄️, ...</td>
<td>Different types of documents.</td>
</tr>
<tr>
<td>N-Document</td>

</tr>
<tr>
<td>📌</td>
<td>Indicates an attachment.</td>
</tr>
<tr>
<td>✖️</td>
<td>Document withdrawn</td>
</tr>
</tbody>
</table>
3.3 The Enterprise Workspace

After logging into the system, you will be directed to the **Enterprise Workspace**.

The Enterprise Workspace is the top level of the ISOTC Server and provides a set of useful links relevant to your ISO work, as for example the ISOTC Home folder or guides to ISO IT applications.

---

**Figure 7 - Enterprise Workspace**

*The Enterprise Workspace can be accessed from anywhere within the ISOTC server by clicking Enterprise and Workspace in the Global Menu.*
3.4 ISOTC Home

ISOTC Home is the home page to find and access all the ISO Committee and Working Group areas. It also provides a set of links to tools and documents that can be useful to your ISO work, for example a link to the Guides to ISO IT applications.

![Figure 8 - ISOTC Home](image)

3.5 Accessing eCommittees

On the start page there are two alternatives for finding the Committee you would like to access:

1. Through the **Personal menu** – this will filter the list of Committees to only show the Committees you are listed in
2. Through **ISOTC Home** – this will allow you to see the complete list of Committees, regardless of your access rights

You can also access the eCommittees for a particular Committee by typing the following URL in your browser:

http://www.iso.org/CommitteeName

For example to access TC11:

http://www.iso.org/tc11

To access TC11/WG10:

http://www.iso.org/tc11wg10
3.5.1 Through the Personal menu

a) Click on the Committees item in the personal menu:

![Figure 9 – Committees in Personal menu](image)

b) All committees of which you are a member will be listed:

![Figure 10 - My Committees list](image)
3.5.2 Through ISOTC Home

a) Click on **ISOTC home**

![Figure 11 - ISOTC Home link](image1)

b) On the next page you can find a complete list **ISO Electronic Committees**. Please choose the Committee you are looking for.

![Figure 12 - Committee List ISOTC home](image2)

---

*Every Committee has a public area (**Folder 01 Public information**) which is accessible to anyone from the Internet without an ISO login. All other folders and objects are only accessible if you are registered with this Committee.*
4 Electronic Committee (eCommittee) Homepage

The below figure shows the homepage of an Electronic Committee. The items on the homepage are described in the following paragraphs.

Figure 13 - eCommittee Home Page
4.1 Committees hosted externally

Some committees have chosen to use the DIN or AFNOR Livelink servers to host their committee work. In this case, the homepage on ISOTC will be simplified to show you that the work is happening on a different server:

![Diagram showing a link to the DIN or AFNOR server hosting the committee.]

**Link**

Link to the DIN or AFNOR server hosting the committee

Even if a committee is working on the DIN or AFNOR server, the Global Directory is the source for membership in the committee. Experts therefore still need to be registered in the ISO Global Directory to gain access to the working area.

Watch out: the password between DIN, AFNOR and ISOTC are not synchronized, therefore you will have different login information for each server.
4.2 Navigation Menu

The Navigation Menu is a collection of links to help you navigate within the Committee.

In the table below you will find a short description of the items in the Navigation Menu.

Please note that the Navigation Menu is role-based, i.e. users can only see the items in the menu that are accessible to them.

<table>
<thead>
<tr>
<th>Menu item</th>
<th>Comment</th>
</tr>
</thead>
<tbody>
<tr>
<td>Committee Home</td>
<td>Link to the Committee homepage</td>
</tr>
<tr>
<td>Child Committees</td>
<td>Link to the Committee Homepage for a Sub-Committee</td>
</tr>
<tr>

<td>Sortable and printable list of Committee Members, showing all roles that can be considered part of the “membership” of the committee</td>
</tr>
<tr>
<td>E-Mail to Secretary</td>
<td>Opens an e-mail window to send an e-mail to the Committee Secretary; CC: Convenor, Twinned Secretary, Twinned Convenor and Secretary/Convenor Support Team</td>
</tr>
<tr>
<td>Mail Archive</td>
<td>All emails sent to committee through N-doc notifications and email to members</td>
</tr>
<tr>
<td>Committee News</td>
<td>Link to the Committee News Channel</td>
</tr>
<tr>
<td>Committee Task List</td>
<td>Link to the default committee task list</td>
</tr>
</tbody>
</table>
4.2.1 Member List

When accessing the Member List from the Navigation menu, a list of the Committee Members by role is displayed. This information is always up-to-date with the Global Directory.

Roles displayed on the Member list:

- Secretary (SEC)
- Convenor (CNV)
- Chairperson (CHP)
- Committee Member (MBR)
- Technical Program Manager (TPM)
- Twinned Secretary (ASE)
- Twinned Convenor
- Vice-Chairperson (VCH)
- Liaison Representative
- Secretary Support Team (SST)
- Secretary/Convenor Support Team (SST)
- Chairperson Support Team (CST)
- TPM Assistant (TPS)
- Decentralized document monitor
- Centralized document monitor

Figure 15 - Member List

You can sort the Member List by clicking on the header row of the list.
4.2.2 Email to Secretary

This menu item enables the Committee Members to send an email to the Committee Leadership directly from the eCommittees application.

By clicking on **Email to Secretary**, an email window will open where the To: field is pre-populated with the email of the Secretary and the CC: field with the email of the Convenor, Twinned Secretary, Twinned Convenor, Secretary Support Team and Secretary/Convenor Support Team.
4.2.3 Mail Archive

The Mail archive is a centralized e-mail storage for all e-mail messages (including attachments) sent to the Committee Members through the eCommittees application. The e-mail can be viewed by the sender and the addressees.

The most current e-mails are displayed on the **Newest E-Mails** list.

All e-mails are organized in folders by year, month and day under **E-mails By Date**.

Click on the **subject line** to view the contents of the mail.
4.2.4 N-Documents List

The N-Documents List lists all numbered documents of the Committee irrespective of their position in the folder structure. The list is sorted by document number, but can be resorted by clicking on the column headers.

Search in Document Title
Search for a keyword in the title of the document

Filter criteria
Filter the list based on certain criteria:
- Due Date
- Creation Date
- N-Number Range
- Doc Type/Sub Type

Figure 18 - N-Documents List

The N-Documents list can be printed by clicking on the Print this page button.
4.3 Folder Structure (Library)

4.3.1 Standard Folder Structure

All Electronic Committees have a predefined top level folder structure, explained below. The Secretary, the Secretary Support Team and the Convenor may add subfolders inside this default structure to organize their Committee work as they wish.

**All Electronic Committees have a predefined folder structure, which is the same for all TCs, SCs and WGs. This folder structure cannot be changed.**

You can open a folder by clicking on the folder name. By clicking View More under the folders you can open the library. You will get a full overview of the existing folders.

**Historically, the folder structure was free and every Committee Secretary/Convenor could organize the folders as they saw fit. Therefore, you might still see some TCs, SCs or WGs that have a folder structure which is inconsistent. If this is the case for your committee, please contact the ISO Helpdesk (helpdesk@iso.org) who will assist you in cleaning up the folder structure.**

4.3.2 The standard folders

For all TCs and SCs, you will find the following default folder structure in the **Library**:

![Figure 19 – Default Folder structure](image)

By default, all folders in the structure are empty. The table below shows the recommended usage for each folder so that Committee Members can easily find information across different Committees:

<table>
<thead>
<tr>
<th>Folder Name</th>
<th>Intended use</th>
</tr>
</thead>
<tbody>
<tr>
<td>00.Secretariat workspace</td>
<td>This folder can only be seen by the Secretary/Convenor and Secretary Support Team and should be used for documents in preparation.</td>
</tr>
<tr>
<td>Folder Name</td>
<td>Intended use</td>
</tr>
<tr>
<td>-------------------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>01. Public information</td>
<td>This folder has public access and can be viewed without a log-in to the ISOTC server. It should therefore only contain information that may be viewed by anyone, e.g. information on the Committee, its work programme, secretariat etc.</td>
</tr>
<tr>
<td>02. General committee documents</td>
<td>This folder should be used to store all documents that do not relate to meetings or projects (as there are separate folders for these documents).</td>
</tr>
<tr>
<td>03. Meetings and resolutions</td>
<td>This folder should be used for all documents relating to meeting organisation and meeting resolutions, e.g. invitations, agendas and minutes.</td>
</tr>
<tr>
<td>04. Projects</td>
<td>This folder should be used for all documents relating to projects of the Committee.</td>
</tr>
<tr>
<td></td>
<td><em>Recommendation: Create one sub-folder for each project and one sub-folder for finalized projects called Projects – finalized under which you can move the project folders once the project is finalized.</em></td>
</tr>
<tr>
<td>05. Drop-in box for members</td>
<td>The drop-in box is the only folder in which Committee Members can upload documents. It should therefore be used for the transmission of documents from Committee Members to the Committee Secretariat. The Secretary/ Convenor can then work on the documents and upload them into the right folder and notify the Committee Members.</td>
</tr>
</tbody>
</table>
4.4 Forums
You can share thoughts and ideas in the Committee using the Forum. Since Content Server 10, each committee has a default forum created that is easily accessible through the Committee homepage:

![New Forums](image)

**Figure 20 - Committee Default Forum**

Like in any discussion forum on the Internet, the Livelink Discussion Forum is organized by Topics to which people can reply.

4.4.1 Adding a discussion topic to a Forum
Open the Forum by clicking on the link from the Committee homepage. Click on "New Topic":

![Add topic](image)

**Figure 21 - Add topic**

From the next screen, enter the title of the topic as well as the more detailed description of the topic, then click "Next". You can also choose an icon to be displayed next to the topic.
Figure 22 - Add topic: General

From the next screen, you can add attachment, refer to particular people or enter a URL relevant to the discussion topic. These items are optional. When you have entered all information you want, click "Finish" to create the topic in the committee Forum:

Figure 23 - Add topic: more Options

The new topic is now available from the Forum page and people can start posting replies:

Figure 24 - new Topic
4.4.2 Viewing a discussion topic and posting replies

To view a discussion topic, click on its name from the Forum homepage. You will then see the discussion:

![Figure 25 - Discussion topic details](image)

You can **reply to a discussion topic** with or without a quote:

![Topic]

![Figure 26 - Post reply to topic](image)
When you post a reply with Quote, the description text of the topic will be copied into your reply as a quote (you can edit this text):

Figure 27 - Post reply to topic with Quote

You can also reply to a response to the topic:

Figure 28 - Post reply to response
Different views are available depending on your preference:

<table>
<thead>
<tr>
<th>View</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Date View</strong></td>
<td>This is the default view, it will show the posts ordered by date from oldest to newest</td>
</tr>
<tr>
<td><strong>Reply View</strong></td>
<td>Shows the replies in chronological order, slightly indented to show the hierarchy of replies</td>
</tr>
<tr>
<td>View</td>
<td>Description</td>
</tr>
<tr>
<td>----------</td>
<td>----------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Thread View</td>
<td>Shows the topic and the replies, slightly indented to indicate the hierarchy of replies as discussion threads</td>
</tr>
<tr>
<td>Print View</td>
<td>Opens a separate window to enable easy printing of the discussion topic</td>
</tr>
</tbody>
</table>

### 4.4.3 Forum Notifications

By default, all roles on the committee are notified by email when a new topic or a new response is posted to the Committee Forum.

It is not possible to customize the notifications by user. It’s either all users in the committee are notified, or none are notified.

If there is a problem with these notifications and the frequency, please contact helpdesk@iso.org
4.5 Ballots
The **Ballots** pane shows all current and active ballots of your Committee along with their type and end date.

![Figure 29 - Ballots on eCommittee Home](image)

To see the details of a ballot, click on its reference.

**Registered voters** of the committee will be able to see the details of the ballot in the electronic balloting application by clicking on the ballot reference.

By default, **Committee Members do not have voting rights** assigned and cannot see ballot details.

The only exception is on Working Groups where Committee Members have full voting rights and access to the Working Group consultations.

4.6 Meetings
The **Meetings** pane shows all the active meetings of the Committee along with their date, location and status.

![Figure 30 - Meetings on eCommittee home](image)

To see the details of a meeting, click on its title. You will then be forwarded to the meeting entry in the ISO Meeting Management application in a new window.
4.7 Structure

The **Structure** pane shows the entire structure of your Committee with its Sub-Committees and Working Groups. You can easily identify how a Sub-Committee is related to a Committee, what other Working Groups exist in the Committee etc.

In the screenshot above, you can see that **WG AG “Advisory group”** is part of the **TC 034 “Food Products”**.

4.8 Committee Scope

The “Overview” section shows the official scope of the Committee as defined in the ISO Global Directory. This information is available for all Technical Committees and some Sub-Committees and Working Groups.

In the figure below, you can see the official scope of the Committee.

- **Scope:** Standardization of the materials, equipment and offshore structures used in the drilling, production, transport by pipelines and processing of liquid and gaseous hydrocarbons within the petroleum, petrochemical and natural gas industries.
- **Excluded:**
  - aspects of offshore structures subject to IMO requirements (ISO / TC 8).
4.9 Committee Task List

The committee Task List is a feature that has not been used much in the previous versions of Livelink but that is useful to manage milestones and tasks and assign them to different people in your committee.

By default, each committee has a dedicated task list that can be accessed through the "Committee Task List" item in the Navigation menu:

Figure 33 - Committee Task List

By default, the committee task list is empty. You can add Milestones and tasks from the "Add item" menu on the top left:

Figure 34 - Add item
4.9.1 Milestones

Milestones are, as their name indicates, milestones for the committee, i.e. important dates for the committee. This could be the next plenary meeting, the publication of a new Standard or the completion of a particular phase of a project.

Adding Milestones will enable you to then create tasks that have to be done for this milestone.

To add a milestone, go to the Committee Task List and select Add item – Milestone as shown in the figure above. On the next screen, enter a name for the milestone, a description and target date and time and click "Add":

**Figure 35 - Add Milestone**
After creation, the Milestone will appear in the Committee task list:

Clicking on the Name will open the details of the milestone where you will see the description and related metadata. You will see that Percent complete will be calculated based on the completion of the tasks assigned to the milestones.

4.9.2 Tasks
Tasks can be created as part of a Milestone or without. The goal is to assign tasks to different groups within your committee and to track progress of these tasks.

To add a task, go to the Committee Task List and select Add item – Task. On the next screen, enter the details of the task with start date, due date, priority, status etc. If you want to associate the task to an existing milestone, you can select any existing milestone of the committee from the drop-down menu:
You can assign a task to roles on your committee by clicking on the yellow face icon next to the Assigned To field:

**Figure 38 - Add Task**

**Figure 39 - Assign to role**
In the next screen, you will see all role listed, you can select a role by clicking on "select" next to the role:

![Select roles](image)

**Figure 40 - Select roles**

You can also assign tasks to individuals with a given role. When you click on the name of the role instead of "Select", you will see the list of people assigned to the role and can then individually select people:

![Select individuals](image)

**Figure 41 - Select individuals**

The new task will then appear in the Committee Task List below the milestones:
People that you have assigned tasks to, either directly or through their role on the committee, will see the task appear under My Tasks, accessible through the Navigation menu.

Here, all tasks assigned to the person from any committee will be grouped in a single view:

4.9.3 Task Groups

Task Groups are a way to organize tasks. The concept is the same as creating folders to organize files. If you have a lot of tasks in your committee, it could be a good idea to create task groups to keep the list of tasks to a manageable size.

To create a task group, select Add item – Task Group and enter a name and description for the group. You can also select an existing milestone to associate to the task group:

![Figure 43 - Add task Group](image-url)
4.10 News

On the Committee Home page, the News Player located right under the search bar displays news items. You can open the news item by clicking on its name in the News Player.

These news items are linked to a News Channel which is managed by the Secretary/Convenor or the Secretary Support Team. Clicking on the news will open the details.

4.10.1 The News Channel

For each Committee, a news channel is setup at its creation.

To access the news channel, click on Committee News from the Navigation menu:
5 Working with Folders and Documents

5.1 Working with documents

5.1.1 Viewing documents

There are three options to view a document in the eCommittee:

a) Click on the document's icon.

b) Click on the document's name.

c) Click on the small arrow behind the document to open the Functions menu. Select Fetch from the menu for N-Documents, Open or Download for regular documents. The document will either open directly or a download window opens first. This behaviour depends on your computer's settings. In the download window select Open to view the document.

Fetch/View for N-Documents:

Figure 46 - Fetch Document
5.1.2 Downloading several documents in a Zip file

You can add several documents from a folder into a Zip file and then download to your computer. To open and unpack a Zip archive you may need an archiving program like WinZip.

a) Navigate to the folder from which you would like to download the documents.

b) Select the documents by checking the appropriate check box.

c) Click on the Zip & Download button.

![Figure 47 - Select Documents for zip](image)

d) The window Items to be Zipped & Downloaded opens. You can change the suggested download name in the Archive Name field. The items to be downloaded and the number of items are listed under Items.

![Figure 48 - Zip Archive settings](image)

e) Click on the Zip & Download button.

![Figure 49 - Zip & Download archive](image)
f) Livelink will now prepare the ZIP archive. When it is done, you will see the **Zip & Download Status** window. Once all items have the status completed, click on the **Download the zip file** button.

![Figure 50 - Zip & Download status](image)

g) When your browser's Download window opens, click **Open** in the Download window to open the archive or **Save** to save the archive to your computer.

h) Click **OK** to return to the Committee page you have been working on before the download.

![Figure 51 - Zip & Download status OK](image)

### 5.1.3 Zip & E-mail several documents

You can send several documents from a folder within an e-mail. To open and unpack a Zip archive you may need a packing program like WinZip.

⚠️ **Before sending documents by e-mail, please remember any copyright issues that might apply and that you accepted by working in the electronic Committee.**

a) Navigate to the folder from which you would like to download the documents.

b) Select the documents by checking the appropriate check box. You can only add individual documents, not folders.

c) Click on the **Zip & E-mail** button.

![Figure 52 - Select Documents for Zip & E-mail](image)
d) The window **Items to be Zipped & E-mailed** opens. You can change the suggested download name in the **Archive Name** field. The items to be downloaded and the number of items are listed under **Items**.

![Items to be Zipped & E-mailed](image)

**Archive Name**
You can change the suggested name for the Zip Archive here.

**Items**
A list of all items to be included in the Zip Archive.

**To/Cc**
Enter the email addresses of the recipients here.

**Subject/ Message**
Enter the email subject and message you want to include.

**Attach Archive**
- **As File**: will send the Zip archive as an attachment to the email.
- **As URL reference**: will include a URL link to the archive download page.

**Figure 53 - Zip & email**

e) Livelink will now prepare the Zip archive. When it is done, you will see the **Zip & Email Status** window. Once all items have the status completed, click on the **OK** button. This will trigger the sending of the email and return to the eCommittees page you were working on.

![Zip & Email Status](image)

**Figure 54 - Zip & email status OK**
6 Searching

The full text of all files on the ISOTC server is indexed, unless they are scanned. It is therefore possible to search for any term or a combination of terms inside the text of the documents. Whether a document is found depends on the access rights to the particular document on the server. Only documents that you can actually access will be listed as search results.

To search, enter a search term in the input field of the search bar and click on the icon to launch the search.

6.1 Search Options

By default a search is conducted from where you are currently located in the folder structure (Search From here) including all folders at lower levels.

Clicking on the functions menu of the search bar will open more search options:

![Figure 56 - Search Options](Image)

You can search in different areas of the ISOTC server by modifying the Slices selected:

<table>
<thead>
<tr>
<th>Slices</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>From Here</td>
<td>Searches in all the folders and subfolders of the location you are currently in</td>
</tr>
<tr>
<td>From Here (Expanded)</td>
<td>Opens the Advanced search window</td>
</tr>
<tr>
<td>Enterprise</td>
<td>Searches in all folders that you have access to on the ISOTC server, regardless of your current location in the folder structure</td>
</tr>
<tr>
<td>Enterprise (Expanded)</td>
<td>Same search as Enterprise search, but also searches in previous document versions</td>
</tr>
</tbody>
</table>

You can narrow down your search by selecting a particular Object type from the list or indicating a range in which the document was last modified.
6.2 Search Results

The search results in listing all file names and folder names which have been found based on your search criteria.

**Search Filters**
Narrow down your search results by creation date, content type etc

**Display Style**
Choose between different ways to display the results

**Sort**
Sort results by different criteria from the drop-down menu

![Figure 57 - Search Results List](image)

Each document found will be displayed with a short excerpt as well as the document location and a rating on the search relevance:

**ISO Standards Development** ➔ **ISO TC home** ➔ **01. Public Information** ➔ **ISO Commenting template**

**Document location**
Displays the path to the document’s location on the server

**Search relevance**
Displays the relevance of the document (in %) related to the search
You can select the documents you are interested in directly from the search results by checking the tickbox next to their name and selecting an action to take:

Figure 58 - Search results action

Available Actions are:

<table>
<thead>
<tr>
<th>Menu option</th>
<th>Function</th>
</tr>
</thead>
<tbody>
<tr>
<td>Add to Collection</td>
<td>Livelink default feature, please ignore</td>
</tr>
<tr>
<td>Apply Classifications</td>
<td>Livelink default feature, please ignore</td>
</tr>
<tr>
<td>Print</td>
<td>Print all selected documents</td>
</tr>
<tr>
<td>Save Your Results</td>
<td>Saves the list of selected documents as a personal search.</td>
</tr>
<tr>
<td>Zip &amp; Download</td>
<td>Create a Zip archive containing the selected documents and save to your computer</td>
</tr>
<tr>
<td>Zip &amp; E-mail</td>
<td>Create a Zip archive containing the selected documents and send per email</td>
</tr>
</tbody>
</table>
7 Helpdesk and Info

For further questions and assistance for eCommittees and other ISO IT applications, please contact the ISO helpdesk helpdesk@iso.org.

For assistance with meeting setup, meeting updates, registration of users to ISO official roles (e.g. Secretary, Convenor, chairperson,..) please contact the ISO STAND Administrator at tcsupport@iso.org.

To gain access to the ISOTC eCommittees server, experts need to be registered by their National Standardization Body and assigned a role on a committee. Non-official roles (like Committee Member, Document Monitor) should be assigned by the NSB's user administrator. The list of user administrators can be found under https://directory.iso.org.

You will find the user guides for all ISO applications under http://www.iso.org/e-guides
