**Subject:** IPR statement for ATIS

Title: ANSI Extensions to Q.1980.1: The Narrowband Signaling Syntax (NSS)

Project: PTSC-SAC: Supporting phased migration of existing services and CPE to an IP environment

Cisco has one or more unpublished pending patent applications related to the subject matter of "ANSI Extensions to Q.1980.1: The Narrowband Signaling Syntax (NSS)". If this document is adopted by ATIS as a standard and any claims of any Cisco patents are necessary for practicing this standard, any party will be able to obtain a license from Cisco to use any such patent claims under reasonable, non-discriminatory terms, with reciprocity, to implement and fully comply with the standard
