(T1.107b 244)  
and ANSI T1.107b*

Dear Mr. Lai:

This letter is a follow-up to our recent conversation regarding ANSI Standard T1.410. Integrated Network Corporation (INC) is a patent holder in the area of 19.2 kbps digital data transmission. As we discussed, the T1.410 standard may encompass patent rights of INC. I understand T1.410 will include the standard footnote providing notice to this effect. I have attached a copy of an earlier letter to ANSI with regard to the companion standard titled, "Addendum T1.107b (Synchronous Digital Data)" drafted by the T1X1 Committee. INC believes the attached information will satisfy the requirements of the ANSI patent policy for these standards dealing with 19.2 kbps transmission.

Please feel free to contact me if there are any questions. I can be reached at (908) 218-1600.

Sincerely,

Frederick E. Weber  
Assistant Vice President  
Systems Engineering
