Austin, TX 78759

Subject: Freescale RAND Letter of Assurance for INCITS 413 proposal

To Ms. Bara:

Freescale Semiconductor, Inc. ("Freescale") believes that it owns patented inventions that may be required for implementation of the proposed standard INCITS 413, entitled "Information Technology – RAPIDIO™ Interconnect Specification (version 1.3)". In accordance with the ANSI Patent Policy, this letter provides assurance that a license to such patented inventions will be made available to applicants under reasonable terms and conditions that are demonstrably free of unfair discrimination if such patented inventions are required for implementation.

If you have any questions, please contact Mr. Michael Hoghooghi, Director, Corporate Standards and Technologies, TSO, Freescale Semiconductor, Inc., 6501 William Cannon Drive West, Austin, Texas 78735 USA, Phone 512.895-7377, email hoghooghi@freescale.com.

Best Regards,

A handwritten signature in black ink, appearing to read 'Michael Hoghooghi', written over a circular stamp or mark.
