

## **INCITS PATENT STATEMENT AND LICENSING DECLARATION FORM**

INCITS serves as the U.S Technical Advisory Group to ISO/IEC JTC 1, Information Technology, and most of the JTC 1 subcommittees and working groups. INCITS also serves as U.S. TAG to other technical committees, subcommittees, and working groups in ISO.

Many INCITS standards go forward to ISO/IEC JTC 1 or other ISO TCs for consideration and adoption at the international level. Conversely, INCITS may adopt ISO or ISO/IEC International Standards as American National Standards. ISO and IEC, along with ITU, have jointly adopted a harmonized “Patent Statement and Licensing Declaration Form for ITU-T/ITU-R Recommendation | ISO/IEC Deliverable” (the “Declaration”) that can be used to identify patents owned by firms or individuals and their associated licensing terms. This form may be found at:  
([http://www.incits.org/patdec\\_form.doc](http://www.incits.org/patdec_form.doc))

INCITS has endorsed this Declaration for use in its own standard-setting activities to simplify the declaration process for patent holders. With its use, standards adopted by INCITS may be forwarded for consideration at the international level without requiring a restatement of patent declarations. This form is consistent with the ANSI Patent Policy used by INCITS.

A patent holder answering a call for patents at any stage in the standards process should fill out and sign the Declaration. The decision to license, the terms of the license, and even the decision to use and/or forward the form, must be the patent holder’s decision and it must be voluntary. INCITS cannot force a patent holder to license its intellectual property. Once completed and signed, the Declaration should be sent to [patents@itic.org](mailto:patents@itic.org) for consideration and handling. Questions on filling out the form for US use should be directed to this email address.

**Licensing declaration:**

The Patent Holder believes that it holds granted and/or pending applications for patents, the use of which would be required to implement the above document and hereby declares, in accordance with the Common Patent Policy for ITU-T/ITU-R/ISO/IEC, that (check one box only):

1. The Patent Holder is prepared to grant a free of charge license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and under other reasonable terms and conditions to make, use, and sell implementations of the above document.  
Negotiations are left to the parties concerned and are performed outside the ITU-T, ITU-R, ISO or IEC.  
*Also mark here \_\_\_ if the Patent Holder's willingness to license is conditioned on reciprocity for the above document.*  
*Also mark here \_\_\_ if the Patent Holder reserves the right to license on reasonable terms and conditions (but not free of charge) to applicants who are only willing to license their patent claims, whose use would be required to implement the above document, on reasonable terms and conditions (but not free of charge).*

2. The Patent Holder is prepared to grant a license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and on reasonable terms and conditions to make, use and sell implementations of the above document.  
Negotiations are left to the parties concerned and are performed outside the ITU-T, ITU-R, ISO, or IEC.  
*Also mark here \_\_\_ if the Patent Holder's willingness to license is conditioned on reciprocity for the above document.*

3. The Patent Holder is unwilling to grant licenses in accordance with provisions of either 1 or 2 above.  
In this case, the following information must be provided to ITU, and is strongly desired by ISO and IEC, as part of this declaration:

- granted patent number or patent application number (if pending);
- an indication of which portions of the above document are affected;
- a description of the patent claims covering the above document.

**Free of charge:** The words "free of charge" do not mean that the Patent Holder is waiving all of its rights with respect to the essential patent. Rather, "free of charge" refers to the issue of monetary compensation; *i.e.*, that the Patent Holder will not seek any monetary compensation as part of the licensing arrangement (whether such compensation is called a royalty, a one-time licensing fee, etc.). However, while the Patent Holder in this situation is committing to not charging any monetary amount, the Patent Holder is still entitled to require that the implementer of the above document sign a license agreement that contains other reasonable terms and conditions such as those relating to governing law, field of use, reciprocity, warranties, etc.

**Reciprocity:** As used herein, the word "reciprocity" means that the Patent Holder shall only be required to license any prospective licensee if such prospective licensee will commit to license its essential patent(s) or essential patent claim(s) for implementation of the same above document free of charge or under reasonable terms and conditions.
