

ENROLLMENT FORM University Outreach Program

Thank you for your interest in participating in the American National Standards Institute (ANSI) University Outreach Program. Under the terms of this program, ANSI will make standard(s) from the collection of the International Organization for Standardization (ISO) and International Electrotechnical Commission (IEC) available to the faculty and students identified on this enrollment form at no cost. Access and downloading instructions will be sent to you upon ANSI's receipt of a completed and signed copy of this enrollment form.

With permission from ISO and IEC, ANSI is making the standards identified below available only to participating universities and for classroom use only. In order to protect the standards from distribution beyond the scope of this program, the participating faculty member agrees to forward to each student a copy of the ANSI University Outreach Program End User License Agreement prior to the student accessing the ISO or IEC Standard(s). These students must also be advised that they may download, print and/or electronically store only one copy of each ISO or IEC Standard. Each participating faculty member may also download, print and/or store a personal copy for your use as instructor of the class(s). Unauthorized use or sale of the standard(s) for commercial purposes is not allowed.
