**CALL FOR NOMINATIONS**

two thousand and seven leadership and service awards

 On behalf of the ANSI Board of Directors and its Awards Committee, I am pleased to invite your nomination of deserving candidates for the Institute's 2007 Leadership and Service Awards.

This annual awards program is a long-standing tradition that honors the best in the field, recognizing outstanding achievements across the broad spectrum of ANSI members and the stakeholders that comprise our nation's standardization and conformity assessment community.

As you will see on page thirteen, a new medal is being introduced to this year's program. Recommended by the U.S. National Committee of the International Electrotechnical Commission, the Elihu Thomson Electrotechnology Medal honors an individual who has made exceptional contributions to the field of electrotechnology standardization.

Please join ANSI in recognizing those men and women who have made generous donations of their time and energy in support of domestic, bi-lateral, regional and international efforts to improve our quality of life and strengthen global commerce.

We look forward to receiving your nominations.

S. Joe Bhatia
