

STANDARDS CONNECT

STANDARDS MANAGEMENT MADE EASY

Standards Connect provides an online management solution for all of your standards needs. By **customizing content** from multiple publishers, you can build a unique subscription while only paying for the standards that your company wants.

Save time and increase productivity by accessing standards from our **powerful web platform**. Updates to standards are included at no additional expense and multi-year agreements control costs.

webstore.ansi.org

A digital standards management solution that simplifies searching, collaborating, and accessing standards

- Filter by publisher or document status
- Set up alerts to keep up with changes
- Share watchlists with project teams
- Make personalized annotations
- Connect to dedicated customer support

Content collections

Select from curated groups of standards that easily can be edited to fit your company's requirements.

Publisher's content

Choose what you need from over 540,000 different standards by 140 standards publishers. We build a pricing plan that fits your organization's needs and allows you to control costs.*

*ANSI members receive discounts on eligible standards.
