The **ANSI Conference on U.S. Leadership in ISO and IEC** will be held November 9-10 in Phoenix, Arizona. The conference is intended to facilitate the collaboration among U.S. leaders in differing sectors in ISO and IEC to consider key issues, common concerns and related strategies and tactics, which will ultimately assist in the formulation of a coordinated U.S. approach to strategic engagement in both ISO and IEC. The conference attracts an audience comprised of U.S. officers of ISO and IEC technical committees and subcommittees, U.S. technical advisory group (TAG) officers, and U.S. heads of delegations to ISO and IEC meetings.
