

LISTENING SESSION

ON THE U.S. GOVERNMENT NATIONAL STANDARDS STRATEGY FOR CRITICAL AND EMERGING TECHNOLOGY

The session will begin at 1:00 pm ET.

Please note that the listening session will be recorded for
notetaking purposes only.

AGENDA &

IN-PERSON ATTENDEES:

- When asking a question or speaking from the floor, please use the table microphone and introduce yourself (name and organization).

VIRTUAL ATTENDEES:

- Audio will be muted.
- Please use the chat function for technical questions only.
- Join the discussion at Slido.com with the code #2438879.

USG NATIONAL STANDARDS STRATEGY FOR CRITICAL AND EMERGING TECHNOLOGY (USG NSSCET)

Jayne B. Morrow, PhD

Senior Advisor on Standards Policy

Directors Office

National Institute of Standards and Technology

LEADERSHIP IN STANDARDS

USG National Standards Strategy for Critical and Emerging Technology supports the development of federal standards policy to ensure continued U.S. global economy competitiveness and technology leadership

DYNAMIC GLOBAL LANDSCAPE OF STANDARDS DEVELOPMENT

The future of U.S. innovation, competition, and national security is at risk

The U.S. must uphold the integrity of international standards in coordination with likeminded partners and allies

A clear vision is needed to sustain engagement in global standards-setting

CRITICAL AND EMERGING TECHNOLOGIES IDENTIFIED IN THE USG NSSCET

**ARTIFICIAL INTELLIGENCE &
MACHINE LEARNING**

**COMMUNICATION & NETWORKING
TECHNOLOGIES**

BIOTECHNOLOGIES

**SEMICONDUCTORS
& MICROELECTRONICS**

**DIGITAL ID
INFRASTRUCTURE & DISTRIBUTED
LEDGER TECHNOLOGIES**

**QUANTUM INFORMATION
TECHNOLOGIES**

**RENEWABLE ENERGY
GENERATION & STORAGE**

SPECIFIC CET APPLICATIONS IDENTIFIED IN THE USG NSSCET

Automated & Connected Infrastructure

Smart cities, Internet of Things, and other novel applications

Biobanking

Involves the collection, storage, and use of biological samples from individuals

Automated & Connected Transportation

Autonomous vehicles, unmanned aircraft systems, automated subway systems, smart cities, internet-of-things, and other possible applications

Electric Vehicles (EVs)

Standards to integrate EVs with the electrical grid

Critical Mineral Supply Chains

Cross-cutting issues that are critical to enabling the development and deployment of emerging technologies and data security

Cybersecurity & Privacy

Cross-cutting issues that are critical to enabling the development and deployment of emerging technologies and data security

USG NSSCET OBJECTIVES

Objective 1: Investment

Objective 2: Participation

Objective 3: Workforce

Objective 4: Integrity & Inclusivity

USG NSSCET LINES OF EFFORT

GREATER **INVESTMENT** IN PRE-STANDARDIZATION RESEARCH

- Increase R&D funding for CETs
- Support development of standards that address risk, security, and resilience

1

PARTICIPATION IN STANDARDS DEVELOPMENT

- Remove and prevent barriers to private sector participation
- Improve communication between public and private sector
- Enhance USG and like-minded nations' representation and influence in international standards governance and leadership

2

WORKFORCE DEVELOPMENT

- Educate and empower the new standards workforce

3

INTEGRITY AND INCLUSIVITY IN STANDARDS DEVELOPMENT

- Deepen standards cooperation with allies and partners to support a robust standards governance process
- Facilitate broad representation in standards development

4

USG NSSCET IMPLEMENTATION: LISTENING

Credit : Have a Nice Day Photo/Shutterstock

The U.S. Government National Standards Strategy for Critical and Emerging Technology (USG NSSCET) was released in May 2023

Request for Information (RFI)

- September 7 RFI seeking public input on how to best implement the Strategy
- Seeking input on investment, participation, workforce, and integrity and inclusivity
- Responses are due **22 DEC 2023**

Listening Sessions and Stakeholder Engagements

- National Listening Sessions and stakeholder engagement workshops (SEP – DEC 2023)
- NIST Visiting Committee on Advanced Technology Subcommittee on International Standards Development

USG NSSCET IMPLEMENTATION: RFI

**NOTE: THE RFI WILL CLOSE
ON 22 DEC 2023**

Broad questions: Benefits, risks, and challenges faced by small- and medium-sized enterprises

Investment: Policies, R&D and pre-standardization budget to support standards development and encourage USG adoption of standards and demonstrated CETs.

Participation: Support coordination, communication, collaboration with private-sector, civil society and state and local government in participation in CET standards development

Workforce: Tools, resources, curricula, activities to encourage engagement and awards for increased recognition for participation in CET standards development

Integrity and Inclusivity: Support coordination, communication, and collaboration with partners and allies to reinforce TBT principles

LISTENING SESSIONS: LOCATIONS

- Listening sessions planned around the country
- Align with the RFI to increase coordination and engagement in standards development
- Updated list on standards.gov

LISTENING SESSIONS: KEY FINDINGS

Workforce

- Framing standards as a critical component to the innovation ecosystem
- Recognition and incentives for sustained engagement (5-10 years)
- Training – taking research to standards vs bootcamps and skill development

R&D Coordination

- Technology convergence is a unique challenge
- Interagency coordination of CET programs and credit for standards essential to sustained standards investment

International Coordination

- Better coordination and support through the WTO TBT
- Need stronger engagement with industry to define policy engagement
- Establish strong coordination of standards with conformity assessment processes
