A Standards Story: AI

Jason Matusow General Manager, Corporate Standards Group

Act 1: Learning The Ropes

Scale

Shared Obligations

Privacy

Act 2: The Regulatory Tsunami

Horizontal

Global

Non-Coherent

Act 3: Separating Signal From Noise

Culture

Strategy

Commitment

Trust

Cloud + Data + Research

Marketplace Competition

string4replace = string4replace = str(row value = float(value) tempValue = str(row seferent = 14 #Replace string by value's One serving)) tempString = tempString.replace("ccData intimizer pow(10,14-tmpFormat)))) tempString = temp static typeOfFID == "BUFFER"): s = value dataCal = tmpString.replace("czFieldID",str(key)) tempStri dis(typeOfFID == "ASCII_STRING"): s = value dataC > tempString = tempString.replace("ccData") wrothers: of come values" in line and flagCheckRicnam mlyfilename+"\n" if typeOfFile == support tellamer (path): os.makedirs(path)
surchobj = re.search(pin)

Act 4: We Don't' Know \$#@! How Cool is That?

Ubiquitous

Regulated

Concepts & Behaviors

Specific AI

General AI

Generative Transformers

Tools Weapons

Engineering & Ethics

Act 5: Timing is Everything

JTC 1 Standards for Responsible AI

- Differentiated components
- A system of related standards
- Not standardized regulation
- Dependence on strong accreditation and certification practices

Foundation Junction Measurement

Terminology and concepts

Risk management

Governance implications of the use of AI

Data quality management

High Quality models for AI systems

AI Management system

AI system impact assessment

Unwanted bias, transparency, etc. (trust elements)

Testing of AI systems

Audit Guidance

Act 6: What's Next?

Solutions Integration

Regulatory Roadmap

Frontier Models

Responsible AI Standards: Meet the Scale of an Economy

Define Behaviors for Good Actors

Enable Efficient Contracting

Promote Supply Chain Trust

Preserve Competent Authority Resources

Facilitate Cross-Border Commerce

Get AIMS Right

Address Digital Services Conformity

Establish Technology & Vertical Controls
