ANSI Company Member Forum (CMF) Spring 2018

Monday, May 7, 2018 (12 pm - 5:00 pm) - Tuesday, May 8, 2018 (8:00 am - 5:00 pm)

American Institute of Architects

1735 New York Ave NW, Washington, District of Columbia 20006

[VIEW AGENDA](#)

The CMF serves as a venue for ANSI members representing the full spectrum of U.S. industry to examine issues related to national and global standards, as well as conformity assessment developments.

The forum allows industry members an opportunity to collectively shape and influence U.S. policy in the domestic and international arena, while bolstering cross-networking and alliances. Participation in the CMF Spring meeting offers many benefits to attendees, including (but not limited to):

Meaningful takeaways

- ▶ Data, information and best practices – garnered from the discussion topics and invited experts.
- ▶ Opportunities to collaborate with colleagues to identify industry-wide challenges faced by many other CMF members, and learn and share new approaches that effectively address these issues.
- ▶ A chance to network and build productive and meaningful relationships with industry peers in the standardization community.

The CMF agenda is robust with topics that have broad interest to companies across all sectors of the economy, including: China Standards Reform, Blockchain, Artificial Intelligence (AI), Cybersecurity, and Standards Management.
