_____ signature

[fee schedule]

Affiliate Program* (\$100)

* The Affiliate Program (AP) is an annual flat fee of \$100 and is based on a calendar year billing cycle. The AP provides you with a personalized, professional affiliation with ANSI, up to a 5% discount on selected standards purchased through ANSI, and informational access rights to a select ANSI Member Forum of your choice.

AP participation is limited to a single representative and is not available to full or individual ANSI members.

An individual employed by a Basic ANSI member company/organization, and who is not the member contact, is eligible to participate in the AP. Basic ANSI member contacts are not eligible for the AP.

Please check one (1) of the following Forums that you would like to receive informational access to:

Company Member Forum (CMF): The ANSI CMF provides a venue for ANSI members representing the broad spectrum of U.S. industry to come together to discuss national, regional and global standards and conformity assessment issues and collectively shape and influence U.S. policy in the domestic and international arena.

Government Member Forum (GMF): The ANSI GMF provides a forum for the discussion of government standards and conformity assessment issues, as they relate to the American National Standards Institute and its members.

Organizational Member Forum (OMF): The ANSI OMF provides a forum for U.S. professional societies, trade associations, standards developers and academia to come together to discuss national and international standards and conformity assessment issues of interest.

Consumer Interest Forum (CIF): The CIF seeks to promote the education of consumers regarding the activities of ANSI and the standards development community, and the involvement of consumers in these areas.
