

11th IEC Young Professionals Workshop

In conjunction with the 84th IEC General Meeting

Stockholm, Sweden – 05-09 Oct 2020

Are you

A young and dynamic manager, engineer or technician aged from early 20s to mid-30s?

Experienced in working with or developing standards or conformity assessment schemes?

Working for a company, business or industry that uses or benefits from IEC International Standards or Conformity Assessment Systems?

Wanting to become more involved in IEC-related activities?

Why attend

Participate in the only annual workshop dedicated to the next generation of experts and leaders on IEC standardization and conformity assessment activities.

Experience the IEC General Meeting: a key annual event that brings together the IEC technical and management community.

See how international standards are managed and developed through the opportunity to attend management and technical meetings.

Benefit from increased opportunities to get involved in IEC work after the workshop.

This programme was very valuable to me and my employer as it enabled us to get a different perspective on certain problems we encounter and understand how other people are dealing with similar challenges. We use IEC Standards daily and it is very important for us to have an understanding on how IEC works and to get involved so we can make the standards work for us - this workshop will help us in this process.

Owen Palmer, Australia

This workshop will support me in my international standards involvement. It was packed with information and I learnt a lot in a very short time; every session was very valuable. This is a great platform to help Young Professionals get involved in IEC.

Xun Gong, China

Benefits for you

Exceptional networking opportunities with >2 500 international key players.

Build knowledge and expand professional contacts.

Participate in interactive sessions and events where you can exchange with peers.

Have your voice heard: your ideas are reported to IEC management.

Benefits for your company

Be ahead of the technology curve in your field.

Help to ensure technology transfer.

Foster a culture of innovation.

Cultivate long-term involvement in the international arena.

How to register

Contact your national committee of the IEC for details of the selection process in your country www.iec.ch/members
