DEADLINE: SEPTEMBER 9, 2005

**F**rom inception to implementation, the law in some way influences every stage in the life of a standard.

The 2005 ANSI Annual Conference, *From A to Veeck: Standardization and the Law*, provides an opportunity for anyone involved in the standards process — lawyers and non-lawyers alike — to get up to speed on the legal issues impacting their work. The conference is a unique forum for standards developers and conformity assessment bodies, industry and government representatives, manufacturers and service providers, consumers and other end-users to explore the peaks and pitfalls of the current legal landscape.

- Antitrust issues
- Embedded patents
- Open Source / Open Standards
- Tort liability
- Copyright issues
- Legislative updates
- Legal aspects of standardization and global trade

ANSI is proud to sponsor the 2005 Annual Conference as a cornerstone of this year's U.S. Celebration of World Standards Week.

We look forward to your participation.
