

FOR ULTIMATE CONFIDENCE: ANSI-ANAB ACCREDITATION

ANSI-ANAB Joint Accreditation Program for Certification Bodies, Testing Laboratories, and Inspection Bodies

The American National Standards Institute (ANSI) and the ANSI-ASQ National Accreditation Board (ANAB) offer a single accreditation program for organizations providing certification bodies, testing, and inspection services. Accreditation is offered to ISO/IEC 17065, ISO/IEC 17025, ISO/IEC 17020, and ISO/IEC 17021-1

Combining assessment requirements provides a cost-effective and value-added resource to organizations involved in multiple conformity assessment activities. Organizations seeking accreditation under both the ANSI and ANAB programs can save time and effort by submitting application materials to the joint program.

ANSI and ANAB are recognized globally through regional and international multilateral recognition arrangements (MRAs) covering all major scope of recognition. The one-stop service eliminates the need for customers to pursue costly multiple assessments and reduces technical barriers to trade.

ANSI-ANAB accreditation provides organizations with highly nationally and internationally recognized accreditation for respective field of operation as it streamlines accreditation process for the multidisciplinary organizations.

Benefits of ANAB-ANSI joint accreditation:

- Reduces multiple assessments and removes barriers to trade.
- Provides international recognition of accreditation and accredited services.
- Demonstrates effective and robust management system as well as technical competence.
- Clearly indicates the organization's desire to have a competitive advantage.
- Provides marketplace confidence to consumer and end user.
- Positively influences customer satisfaction with accredited organizations and their clients via greater quality awareness and enhanced communication.
- Potential reduction in liability insurance costs.
- Continual improvement for accredited organizations and their clients.

To begin the accreditation process or see a list of accredited organizations, go to www.ansi.org/accreditation or www.anab.org.
