

U.S. Federal Register Update: September 3 – September 7, 2018

The U.S. Federal Register Update contains summaries of entries in the U.S. Federal Register that may be of particular interest to the standards and conformity assessment community. This update is provided on a weekly basis by ANSI as a service to its members as part of the Institute's e-newsletter, *What's New?*

[Agency Information Collection Activities; Submission for Office of Management and Budget Review; Comment Request; Medical Device Labeling Regulations](#)

Published 9/4/2018

Reference ANSI

The Food and Drug Administration (FDA) is announcing that a proposed collection of information has been submitted to the Office of Management and Budget (OMB) for review and clearance under the Paperwork Reduction Act of 1995. **Fax written comments on the collection of information by October 4, 2018.**

[Hazardous Materials: Notice of Applications for Special Permits](#)

Published 9/6/2018

Reference ANSI, ISO

In accordance with the procedures governing the application for, and the processing of, special permits from the Department of Transportation's Hazardous Material Regulations, notice is hereby given that the Office of Hazardous Materials Safety has received the application described herein. **Comments must be received on or before October 9, 2018.**

[Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving Proposed No Significant Hazards Considerations and Containing Sensitive Unclassified Non-Safeguards Information and Order Imposing Procedures for Access to Sensitive Unclassified Non-Safeguards Information](#)

Published 9/4/2018

Reference ASME

The U.S. Nuclear Regulatory Commission (NRC) received and is considering approval of two amendment requests. The amendment requests are for Waterford Steam Electric Station, Unit 3, and Calvert Cliffs Nuclear Power Plant, Units 1 and 2. For each amendment request, the NRC proposes to determine that they involve no significant hazards consideration. Because each amendment request contains sensitive unclassified non-safeguards information (SUNSI), an order imposes procedures to obtain access to SUNSI for contention preparation. **Comments must be filed by October 4, 2018. A request for a hearing must be filed by November 5, 2018. Any potential party as defined in section 2.4 of title 10 of the Code of Federal Regulations (10 CFR), who believes access to SUNSI is necessary to respond to this notice must request document access by September 14, 2018.**

[Special Conditions: The Boeing Company \(Boeing\) Model 747-8 Airplane, Dynamic Test Requirements for Single-Occupant, Oblique \(Side-Facing\) Seats, With or Without Airbag Devices or 3-Point Restraints](#)

Published 9/5/2018

Reference SAE

These amended special conditions are issued for the Boeing Model 747-8 airplane. This amendment states that the Boeing Model 747-8 airplane oblique (side-facing) seats may be installed at an angle of 18 to 45 degrees to the airplane centerline and may include a 3-point or airbag restraint system, or both, for occupant restraint and injury protection. Additionally, this amendment changes paragraphs 4 through 8 of the special conditions section. This airplane will have novel or unusual design features when compared to the state of technology envisioned in the airworthiness standards for transport category airplanes. These design features are oblique (side-facing) single-occupant seats equipped with or without airbag devices or 3-point restraints.

The applicable airworthiness regulations do not contain adequate or appropriate safety standards for these design features. These special conditions contain the additional safety standards the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards. **This action is effective on Boeing on September 5, 2018. Send comments on or before October 22, 2018.**
