

## U.S. Federal Register Update: June 8 – June 12, 2020

The U.S. Federal Register Update contains summaries of entries in the U.S. Federal Register that may be of particular interest to the standards and conformity assessment community. This update is provided on a weekly basis by ANSI as a service to its members as part of the Institute's e-newsletter, *What's New?*

### [Protection of Stratospheric Ozone: Listing of Substitutes Under the Significant New Alternatives Policy Program](#)

**Published** 6/12/2020

**Reference** ANSI, ASHRAE, ASTM, NFPA, UL

Pursuant to the U.S. Environmental Protection Agency's (EPA) Significant New Alternatives Policy program, this action proposes to list certain substances in the refrigeration and air conditioning sector and the foam blowing sector. For the retail food refrigeration—medium-temperature stand-alone units (new) end-use, EPA is proposing to list substitutes as acceptable subject to narrowed use limits. For the residential and light commercial air conditioning and heat pumps (new) end-use, EPA is proposing to list substitutes as acceptable subject to use conditions. For the foam blowing sector, extruded polystyrene: Boardstock and billet end-use, EPA is proposing to list substitutes as acceptable. This action also proposes to remove an acceptable subject to use conditions listing for the fire suppression sector because EPA more recently listed the substitute as acceptable with no use restrictions. **Comments must be received on or before July 27, 2020. Any party requesting a public hearing must notify the contact listed below under FOR FURTHER INFORMATION CONTACT by 5 p.m. Eastern Daylight Time on June 17, 2020. If a virtual hearing is held, it will take place on or before June 29, 2020 and further information will be provided on EPA's Stratospheric Ozone website at [www.epa.gov/ozone/snap](http://www.epa.gov/ozone/snap).**

### [Energy Conservation Program: Test Procedure for Room Air Conditioners](#)

**Published** 6/11/2020

**Reference** ANSI, AHAM, ASHRAE, IEC

The U.S. Department of Energy (DOE) proposes to amend the test procedure for room air conditioners ("room ACs") to address updates to the industry standards that are incorporated by reference, provide for the testing of variable-speed room ACs to better reflect their relative efficiency gains at lower outdoor temperatures as compared to single-speed room ACs, and to provide specifications and minor corrections that would improve repeatability, reproducibility, and overall readability of the test procedure. Because there are no testing modifications proposed for single-speed room ACs, DOE expects that the proposed changes will not affect the measured energy use for these models. For variable-speed room ACs, the proposed changes will improve the representativeness of the measured energy use of these models. As part of this proposal, DOE is announcing a public meeting to collect comments and data on its proposal. **DOE will hold a webinar on Wednesday, July 8, 2020, from 10:00 a.m. to 3:00 p.m. See section V, "Public Participation," for webinar registration information, participant instructions, and information about the capabilities available to webinar participants. If no participants register for the webinar, then it will be cancelled. DOE will hold a public meeting on this proposed test procedure if one is requested by June 25, 2020.**

### [Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Mukilteo Multimodal Construction Project in Washington State](#)

**Published** 6/12/2020

**Reference** ANSI

NMFS has received a request from the Washington State Department of Transportation (WSDOT) for authorization to take marine mammals incidental to Mukilteo Multimodal Construction Project in Washington State. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an incidental harassment authorization (IHA) to incidentally take marine mammals during the specified activities. NMFS is also requesting comments on a possible one-year renewal that could be issued under certain circumstances and if all requirements are met, as described in Request for Public Comments at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the requested MMPA authorizations and agency responses will be summarized in the final notice of our decision. **Comments and information must be received no later than July 13, 2020.**

### [Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Treasure Island Ferry Dock Project, San Francisco, California](#)

**Published** 6/9/2020

**Reference** ANSI

NMFS has received a request from the City and County of San Francisco, CA (San Francisco) for authorization to take marine mammals incidental to the Treasure Island Ferry Dock Project in San Francisco, California. Pursuant to the Marine Mammal Protection Act (MMPA), NMFS is requesting comments on its proposal to issue an incidental harassment authorization (IHA) to incidentally take marine mammals during the specified activities. NMFS is also requesting comments on a possible one-year renewal that could be issued under certain circumstances and if all requirements are met, as described in Request for Public Comments at the end of this notice. NMFS will consider public comments prior to making any final decision on the issuance of the requested MMPA authorizations and agency responses will be summarized in the final notice of our decision. **Comments and information must be received no later than July 9, 2020.**

#### [Pipeline Safety: Gas Pipeline Regulatory Reform](#)

**Published** 6/9/2020

**Reference** ASME, ASTM

PHMSA is seeking comments on proposed amendments to the Federal Pipeline Safety Regulations that are intended to ease regulatory burdens on the construction, maintenance and operation of gas transmission, distribution, and gathering pipeline systems. The amendments in this proposal are based on PHMSA's considered review of public comments, petitions for rulemaking, and an agency initiative to identify appropriate areas where regulations might be repealed, replaced, or modified. **Submit comments by August 10, 2020.**

---

#### [Notice of Scope Rulings](#)

**Published** 6/9/2020

**Reference** ASTM

The Department of Commerce (Commerce) hereby publishes a list of scope rulings and anti-circumvention determinations made during the period January 1, 2020 through March 31, 2020. We intend to publish future lists after the close of the next calendar quarter. **Applicable June 9, 2020.**

---

#### [Steel Concrete Reinforcing Bar From Mexico: Final Affirmative Determination of Circumvention of the Antidumping Duty Order](#)

**Published** 6/8/2020

**Reference** ASTM

We determine that steel concrete reinforcing bar (rebar) from Mexico that is bent on one or both ends and otherwise meeting the description of in-scope merchandise—if produced and/or exported by Deacero S.A.P.I. de C.V. (Deacero) to the United States—is circumventing the antidumping duty order on rebar from Mexico. **Applicable June 8, 2020.**

#### [Mercedes-Benz USA, LLC, Receipt of Petition for Decision of Inconsequential Noncompliance](#)

**Published** 6/12/2020

**Reference** SAE

Mercedes-Benz AG (“MBAG”) and Mercedes-Benz USA, LLC (“MBUSA”) (collectively, “Mercedes-Benz”) have determined that certain model year (MY) 2019 Mercedes-Benz A-Class motor vehicles do not fully comply with Federal Motor Vehicle Safety Standard (FMVSS) No. 104, Windshield Wiping and Washing Systems. Mercedes-Benz filed a noncompliance report dated February 24, 2020, and subsequently petitioned NHTSA on March 12, 2020, for a decision that the subject noncompliance is inconsequential as it relates to motor vehicle safety. This notice announces receipt of Mercedes-Benz's petition. **Send comments on or before July 13, 2020.**
