Energy Conservation Program: Energy Conservation Standards for Direct Heating Equipment

Published 12/1/2020
Reference ASME, AHAM, NFPA

The Energy Policy and Conservation Act, as amended (EPCA), prescribes energy conservation standards for various consumer products, including direct heating equipment (DHE). EPCA also requires the U.S. Department of Energy (DOE) to periodically determine whether more-stringent, amended standards would be technologically feasible and economically justified, and would result in significant energy savings. After carefully considering the available market and technical information for these products, DOE has tentatively concluded in this document that more-stringent standards for DHE would not save a significant amount of energy. Further, depending on the product class, more-stringent standards for DHE would not be technologically feasible or economically justified. As such, DOE has tentatively determined that amended energy conservation standards are not needed. DOE requests comment on this proposed determination, as well as the associated analyses and results. DOE will hold a webinar on Monday, January 25, 2021, from 12:00 p.m. to 4:00 p.m. See section V, “Public Participation,” for webinar registration information, participant instructions, and information about the capabilities available to webinar participants.

Fuels Regulatory Streamlining

Published 12/4/2020
Reference ASTM, ISO, NIST

This action updates many of EPA's existing gasoline, diesel, and other fuel quality programs to improve overall compliance assurance and maintain environmental performance, while reducing compliance costs for industry and EPA. EPA is streamlining existing fuel quality regulations by removing expired provisions, eliminating redundant compliance provisions (e.g., duplicative registration requirements that are required by every EPA fuels program), removing unnecessary and out-of-date requirements, and replacing them with a single set of provisions and definitions that applies to all gasoline, diesel, and other fuel quality programs. This action does not change the stringency of the existing fuel quality standards. This rule is effective on January 1, 2021, except for amendatory instructions 48, 51, and 52, which are effective on December 4, 2020, and amendatory instructions 16, 18, and 19, which are effective on January 1, 2022. The incorporation by reference of certain publications listed in this regulation is approved by the Director of the Federal Register as of December 4, 2020. The incorporation by reference of ASTM D86-12, D93-13, D445-12, D613-13, D4052-11, and D5186-03 (R2009) in part 1065 was approved by the Director of the Federal Register as of June 27, 2014.

Medicare and State Health Care Programs: Fraud and Abuse; Revisions to Safe Harbors Under the Anti-Kickback Statute, and Civil Monetary Penalty Rules Regarding Beneficiary Inducements

Published 12/2/2020
Reference NIST
This final rule amends the safe harbors to the Federal anti-kickback statute by adding new safe harbors and modifying existing safe harbors that protect certain payment practices and business arrangements from sanctions under the anti-kickback statute. This rule is issued in conjunction with the Department of Health and Human Services' (HHS's) Regulatory Sprint to Coordinated Care and focuses on care coordination and value-based care. This rule also amends the civil monetary penalty (CMP) rules by codifying a revision to the definition of “remuneration” added by the Bipartisan Budget Act of 2018 (Budget Act of 2018). These regulations are effective January 19, 2021.

Medicare Program; Modernizing and Clarifying the Physician Self-Referral Regulations

Published 12/2/2020
Reference NIST
This final rule addresses any undue regulatory impact and burden of the physician self-referral law. This final rule is being issued in conjunction with the Centers for Medicare & Medicaid Services' (CMS) Patients over Paperwork initiative and the Department of Health and Human Services' (the Department or HHS) Regulatory Sprint to Coordinated Care. This final rule establishes exceptions to the physician self-referral law for certain value-based compensation arrangements between or among physicians, providers, and suppliers. It also establishes a new exception for certain arrangements under which a physician receives limited remuneration for items or services actually provided by the physician; establishes a new exception for donations of cybersecurity technology and related services; and amends the existing exception for electronic health records (EHR) items and services. This final rule also provides critically necessary guidance for physicians and health care providers and suppliers whose financial relationships are governed by the physician self-referral statute and regulations. These regulations are effective on January 19, 2021, except for amendment number 3, which further amends section 411.352(i), which is effective January 1, 2022.
