American National Standards
Call for comment on proposals listed

This section solicits your comments on proposed draft new American National Standards, including the national adoption of ISO and IEC standards, and on proposals to revise, reaffirm or withdraw approval of existing American National Standards. A draft standard is listed in this section under the ANSI-accredited standards developer (ASD) that sponsors it and from whom a copy may be obtained. Comments in connection with a draft American National Standard must be submitted in writing to the ASD no later than the last day of the comment period specified herein. Such comments should be specific to the section(s) of the standard under review and include sufficient detail so as to enable the reader to understand the commenter’s position, concerns and suggested alternative language, if appropriate.

Ordering Instructions for “Call-for-Comment” Listings
1. Order from the organization indicated for the specific proposal.
2. Use the full identification in your order, including the BSR prefix; for example, Electric Fuses BSR/SAE J554.
3. Include remittance with all orders.
4. BSR proposals will not be available after the deadline of call for comment.

Comments should be addressed to the organization indicated, with a copy to the Board of Standards Review, American National Standards Institute, 25 West 43rd Street, New York, NY 10036. Fax: 212-840-2298; e-mail: psa@ansi.org

* Standard for consumer products
Comment Deadline: July 8, 2002

ASME (American Society of Mechanical Engineers)

Revisions

BSR/ASME A112.18.3-200x, Performance Requirements for Backflow Protection Devices and Systems in Plumbing Fixture Fittings (revision of ANSI/ASME A112.18.3M-1996)
Addresses functional performance and requires physical characteristics of devices and systems, which provide backflow protection consistent with the level of risk associated with the plumbing fixture fitting application. The Standard establishes specific performance criteria and provides the test methods to prove compliance. It is applicable to all plumbing fixture fittings with outlets not protected by an air gap.
Single copy price: $10.00
Obtain an electronic copy from: rodriguezs@asme.org
Order from: Silvana Rodriguez-Bhatti, ASME: rodriguezs@asme.org
Send comments (with copy to BSR) to: Faith Lanzetta, ASTM
For all ASTM standards, send comments (with copy to BSR) to: Faith Lanzetta, ASTM

ASTM (ASTM International)

Revisions

For reaffirmations and withdrawals, order from: Customer Service, ANSI
For all ASTM standards, send comments (with copy to BSR) to: Faith Lanzetta, ASTM

ASNA (ISA-The Instrumentation, Systems, and Automation Society)

New Standards

BSR/ISA 67.06.01-200x, Nuclear Safety-Related Instrument Channels in Nuclear Power Plants, Response Time Testing of (new standard)
Provides the nuclear power industry methods for assuring that nuclear safety-related instrument channels satisfy acceptable calibration, response time, and other factors affecting the performance of the instrument channel. This standard applies only to those instrument channels whose primary sensors measure pressure, differential pressure, temperature, or neutron flux. Primary flow elements are addressed by other standards.
Single copy price: $59.00
Obtain an electronic copy from: http://www.isa.org/standards/ansireview
Order from: ISA; Attn: Member and Customer Service
Send comments (with copy to BSR) to: Loanna Overcash, ISA; Lovercash@ISA.org

ITI (INCITS)

Reaffirmations

This standard includes an abstract interface to services used by CASE
Single copy price: $18.00
Obtain an electronic copy from: http://webstore.ansi.org/ansidocstore
Send comments (with copy to BSR) to: Deborah J. Donovan, ITI (INCITS); ddonovan@itic.org

NAA (National Arborist Association)

Supplements

Will provide standards for the installation and maintenance of lightning protection systems for trees. The standard is intended for use by arborists, managers, and governmental agencies in the drafting of written work specifications. The standard includes materials, installation practices, and grounding.
Single copy price: $5.50 Shipping & Handling fee for hard copies. N/C for electronic copy.
Obtain an electronic copy from: www.natlarb.com/standard.htm or email rouse@natlarb.com
Send comments (with copy to BSR) to: Same

TIA (Telecommunications Industry Association)

Revisions

BSR/TIA/EIA 604-5-B-200x, FOCIS 5 - Fiber Optic Connector Intermateability Standard, Type MPO (revision and redesignation of ANSI/TIA/EIA 604-5-A-2001)
(SP-3-3457-RV2) FOCIS 5 presents the intermateability standard for connectors with the commercial designation of MPO, and is used as an addendum to TIA/EIA-604, Fiber Optic Connector Intermateability Standards.
Single copy price: $47.00
Obtain an electronic copy from: www.global.ihs.com
Order from: Global Engineering Documents; http://global.ihs.com/
Send comments (with copy to BSR) to: Billie Zidek-Conner, TIA; bzidekco@tia.eia.org

UL (Underwriters Laboratories, Inc.)

Revisions

BSR/UL 514A-200x, Metallic Outlet Boxes (Bulletin dated May 24, 2002) (revision of ANSI/UL 514A-2001)
Applies to metallic outlet boxes, flush-device boxes, floor boxes, concrete boxes, extension rings, covers, conduit bodies, bar hangers, bar-hanger assemblies, and all accessories whose principal function is for support of boxes. The products covered by this standard are intended for installation in accordance with the National Electrical Code (NEC), NFPA 70, the Canadian Electrical Code (CEC) Part I, and the Standard for Electrical Installations, NOM-001-SEDE.
Single copy price: Contact comm2000 for pricing and delivery options
Order from: comm2000
Send comments (with copy to BSR) to: Mitchell Gold, UL-IL; Mitchell.Gold@us.ul.com

This bulletin proposes a revision to the drop test requirement.
Single copy price: Contact comm2000 for pricing and delivery options
Order from: comm2000
Send comments (with copy to BSR) to: Mitchell Gold, UL-IL; Mitchell.Gold@us.ul.com

Various editorial clarifications and corrections.
Single copy price: Contact comm2000 for pricing and delivery options
Order from: comm2000
Send comments (with copy to BSR) to: Same

This standard is applicable to mains-powered or battery-powered information technology equipment, including electrical business equipment and associated equipment, with a RATED VOLTAGE not exceeding 600 V, designed to be installed in accordance with the Canadian Electrical Code, Part I, CSA C22.1; CSA C22.2 No. 0; and the National Electrical Code, NFPA 70.
Single copy price: Contact comm2000 for pricing and delivery options
Order from: comm2000
Send comments (with copy to BSR) to: Linda Phinney, UL-CA; Linda.L.Phinney@us.ul.com

New Standards

This amendment deals primarily with requirements for EQUIPMENT and SYSTEMS that comply with CISPR 11 Class A and are not intended for sale to the general public but are intended for use in domestic establishments or connected to the PUBLIC MAINS NETWORK.
Single copy price: $20.00 for AAMI Members; ($25.00 Non-Members)
Order from: Maura Cruche, AAMI; maura_cruche@aami.org
Send comments (with copy to BSR) to: Nick Tongson, AAMI; ntongson@aami.org

Supplements

Updates references, citations and regulatory information reported in the standard. Modifies recommendations on eye-protection and on chemicals used for spill containment.
Single copy price: $25.00 ($20.00 for AAMI members)
800-332 2264
Send comments (with copy to BSR) to: AAMI, Attn: Judy Veale, Fax: 703-276-0793; E-mail: javeale@aol.com

ABA (American Bankers Association)

Withdrawals

Message formats to facilitate the electronic communication of trade instructions between investment managers and custodian banks. The ISITC standard formats are based on SWIFT’s 520 and 570 message series.
Single copy price: $250.00
Order from: Darlene Schubert, ABA (ASC X9); dschuber@aba.com
Send comments (with copy to BSR) to: Cynthia Fuller, ABA (ASC X9); cfuller@aba.com

ASSE (American Society of Safety Engineers)

Revisions

BSR Z117.1, Safety Requirements for Confined Spaces (revision of ANSI Z117.1-1995)
Provides minimum safety requirements to be followed while entering, exiting and working in confined spaces at normal atmospheric pressure.
Single copy price: $10.43
Order from: ASSE Customer Service: (847) 699-2929 (Request Item #3384)
Send comments (with copy to BSR) to: Timothy Fisher, ASSE (ASC A1264); tfisher@asse.org

ASSE (American Society of Sanitary Engineering)

New Standards

• BSR/ASSE 1021-200x, Drain Air Gaps for Domestic Dishwashers (new standard)
Products covered by the standard are devices for installation in the drain line of residential dishwashers. The purpose of this device is to prevent the backflow of contaminated liquid and entrained material into the dishwasher.
Single copy price: $40.00
Order from: Kim Frantz, ASSE; kim@asse-plumbing.org
Send comments (with copy to BSR) to: Shannon Corcoran, ASSE; asse@ix.netcom.com
Projects Withdrawn from Consideration

An accredited standards developer may abandon the processing of a proposed new or revised American National Standard or portion thereof if it has followed its accredited procedures. The following projects have been withdrawn accordingly:

TIA (Telecommunications Industry Association)

30 Day Notice of Withdrawal: ANS 5 to 10 years past approval date

In accordance with clause 4.4 Maintenance of American National Standards of the ANSI Procedures, the following American National Standards have not been reaffirmed or revised within the five-year period following approval as an ANS. Thus, they shall be withdrawn at the close of this 30-day public review notice in Standards Action.

ANSI/ASME B56.7-1987 (R2000), Industrial Crane Trucks
The addresses listed in this section are to be used in conjunction with standards listed in Call for Comment. This section is a list of developers who have submitted standards for public review in this issue of Standards Action—it is not intended to be a list of all ANSI developers. Please send all address corrections to: Standards Action Editor, American National Standards Institute, 25 West 43rd Street, New York, NY 10036 or standact@ansi.org.

Initiation of Canvasses

The following ANSI-accredited standards developers have announced their intent to conduct a canvass on the proposed American National Standard(s) listed herein in order to develop evidence of consensus for submittal to ANSI for approval as an American National Standard. Directly and materially affected interests wishing to participate as a member of a canvass list, i.e., consensus body, should contact the sponsor of the standard within 30 days of the publication date of this issue of Standards Action. Please also review the section entitled "American National Standards Maintained Under Continuous Maintenance" contained in Standards Action for information with regard to canvass standards maintained under the continuous maintenance option.

Project Initiation Notification System (PINS)

ANSI Procedures require notification of ANSI by ANSI-accredited standards developers of the initiation and scope of activities expected to result in new or revised American National Standards. This information is a key element in planning and coordinating American National Standards. For additional information, see clause 1.2.8 of the ANSI Procedures for the Development and Coordination of American National Standards (2001 edition.)

Following is a list of proposed new American National Standards or revisions to existing American National Standards that have been received from ANSI-accredited standards developers that utilize the periodic maintenance option in connection with their standards. Please also review the section entitled “American National Standards Maintained Under Continuous Maintenance” contained in Standards Action for comparable information with regard to standards maintained under the continuous maintenance option. Directly and materially affected interests wishing to receive more information should contact the standards developer directly.

American National Standards Maintained Under Continuous Maintenance

The ANSI Procedures for the Development and Coordination of American National Standards (ANSI Procedures) provide two options for the maintenance of American National Standards (ANS): periodic maintenance (see clause 4.4.1) and continuous maintenance (see clause 4.4.2). Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with 4.4.1 and 4.4.3.

The Executive Standards Council (ExSC) has determined that for standards maintained under the Continuous Maintenance option, separate PINS announcements are not required. The following ANSI Accredited Standards Developers have formally registered standards under the Continuous Maintenance option:

- AAMVA
- AGRSS
- ASC B109 (AGA)
- ASHRAE
- ASME
- ASTM
- NACE
- NBBPVI
- NSF International
- TIA
- Underwriters Laboratories Inc.

To obtain additional information with regard to these standards, such as contact information at the ANSI accredited standards developer, please visit ANSI Online at www.ansi.org, select STANDARDS INFO, and choose "American National Standards Maintained Under Continuous Maintenance". This information is also available directly at http://web.ansi.org/public/ans_main/default.htm.

Alternatively, you may contact the Procedures & Standards Administration Department (PSA) at psa@ansi.org or via fax at 212-840-2298. If you request that information be provided via E-mail, please include your E-mail address; if you request that information be provided via fax, please include your fax number. Thank you.
ISO Draft International Standards

This section lists proposed standards that the International Organization for Standardization (ISO) is considering for approval. The proposals have received substantial support within the technical committees or subcommittees that developed them and are now being circulated to ISO members for comment and vote. Standards Action readers interested in reviewing and commenting on these documents should order copies from ANSI.

Comments
Comments regarding ISO documents should be sent to Henrietta Scully, at ANSI's New York offices. The final date for offering comments is listed after each draft.

IEC 60603-7-7 Ed. 1.0 en:2002, Connectors for electronic equipment - Part 7-7: Detail specification for 8-way, shielded, free and fixed connectors, for data transmission with frequencies up to 600 MHz (category 7, shielded), $78.00

FIBRE OPTICS (TC 86)

IEC/PAS 61290-3-1 Ed. 1.0 en:2002, Optical fibre amplifiers - Basic specification - Part 3-1: Test methods for noise figure parameters - Optical spectrum analyzer, $25.00

FIRE HAZARD TESTING (TC 89)

IEC 60695-10-3 Ed. 1.0 b:2002, Fire hazard testing - Part 10-3: Abnormal heat - Mould stress relief distortion test, $20.00

FUSES (TC 32)

IEC 60269-2-1 Ed. 3.2 b:2002, Low-voltage fuses - Part 2-1: Supplementary requirements for fuses for use by authorized persons (fuses mainly for industrial application) - Sections I to VI: Examples of types of standardized fuses, $150.00

INDUSTRIAL-PROCESS MEASUREMENT AND CONTROL (TC 65)

LAMPS AND RELATED EQUIPMENT (TC 34)

IEC 60598-2-20 Amd.2 Ed. 2.0 b:2002, Amendment 2, $22.00

MARITIME NAVIGATION AND RADIOCOMMUNICATION EQUIPMENT AND SYSTEMS (TC 80)

IEC/PAS 61162-100 Ed. 1.0 en:2002, Maritime navigation and radiocommunication equipment and systems - Digital interfaces - Part 100: Single talker and multiple listeners - Extra requirements to IEC 61162-1 for the UAIS, $45.00

IEC 60936-3 Ed. 1.0 en:2002, Maritime navigation and radiocommunication equipment and systems - Radar - Part 3: Radar with chart facilities - Performance requirements - Methods of testing and required test results, $30.00

MEASURING RELAYS AND PROTECTION EQUIPMENT (TC 95)

IEC 60255-22-4 Ed. 2.0 b:2002, Electrical disturbance tests for measuring relays and protection equipment - Electrical fast transient/burst immunity test, $32.00

IEC 60255-22-5 Ed. 1.0 b:2002, Electrical relays - Part 22-5: Electrical disturbance tests for measuring relays and protection equipment - Surge immunity test, $40.00

NUCLEAR INSTRUMENTATION (TC 45)

IEC 60313 Ed. 3.0 b:2002, Coaxial connectors used in nuclear laboratory instrumentation, $20.00

IEC 61577-3 Ed. 1.0 b:2002, Radiation protection instrumentation - Radon and radon decay product measuring instruments - Part 3: Specific requirements for radon decay product measuring instruments, $62.00

POWER SYSTEM CONTROL AND ASSOCIATED COMMUNICATIONS (TC 57)

IEC 60353 Amd.1 Ed. 2.0 b:2002, Amendment 1, $30.00

IEC 60870-6-503 Ed. 2.0 en:2002, Telecontrol equipment and systems - Part 6-503: Telecontrol protocols compatible with ISO standards and ITU-T recommendations - TASE.2 Services and protocol, $115.00

IEC 60870-6-802 Ed. 2.0 en:2002, Telecontrol equipment and systems - Part 6-802: Telecontrol protocols compatible with ISO standards and ITU-T recommendations - TASE.2 Object models, $86.00

ROTATING MACHINERY (TC 2)

IEC 60034-12 Ed. 2.0 b:2002, Rotating electrical machines - Part 12: Starting performance of single-speed three-phase cage induction motors, $30.00

SEMICONDUCTOR DEVICES (TC 47)

IEC 60749 Ed. 2.2 b:2002, Semiconductor devices - Mechanical and climatic test methods, $130.00

IEC 60749-2 Ed. 1.0 b:2002, Semiconductor devices - Mechanical and climatic test methods - Part 2: Low air pressure, $20.00

IEC 60749-3 Ed. 1.0 b:2002, Semiconductor devices - Mechanical and climatic test methods - Part 3: External visual inspection, $18.00

IEC 60749-4 Ed. 1.0 b:2002, Semiconductor devices - Mechanical and climatic test methods - Part 4: Damp heat, steady state, highly accelerated stress test (HAST), $25.00

IEC 60749-6 Ed. 1.0 b:2002, Semiconductor devices - Mechanical and climatic test methods - Part 6: Storage at high temperature, $18.00

IEC 60749-7 Ed. 1.0 b:2002, Semiconductor devices - Mechanical and climatic test methods - Part 7: Internal moisture content measurement and the analysis of other residual gases, $25.00

IEC 60749-10 Ed. 1.0 b:2002. Semiconductor devices - Mechanical and climatic test methods - Part 10: Mechanical shock, $18.00

IEC 60749-12 Ed. 1.0 b:2002. Semiconductor devices - Mechanical and climatic test methods - Part 12: Vibration, variable frequency, $18.00

IEC 61967-4 Ed. 1.0 b:2002. Integrated circuits - Measurement of electromagnetic emissions, 150 kHz to 1 GHz - Part 4: Measurement of conducted emissions, 1 ohm/150 ohm direct coupling method, $62.00

IEC Technical Reports

FIBRE OPTICS (TC 86)

IEC 61282-5 TR3 Ed. 1.0 b:2002. Fibre optic communication system design guides - Part 5: Accommodation and compensation of dispersion, $50.00

POWER SYSTEM CONTROL AND ASSOCIATED COMMUNICATIONS (TC 57)

IEC 62195 Amd.1 TR3 Ed. 1.0 en:2002. Amendment 1, $15.00
This section provides information on standards activity within CEN - the European Committee for Standardization - and CENELEC - the European Committee for Electrotechnical Standardization. CEN and CENELEC are composed of European member bodies whose countries cooperate within the European Economic Community (Common Market) and the European Free Trade Association (EFTA). Their primary purpose is to develop standards needed to harmonize European interests and prevent technical barriers. Both CEN and CENELEC are committed to adopting standards developed by ISO and IEC wherever possible.

ANSI is publishing this information to give U.S. interests an opportunity to obtain information, and to comment on proposed European Standards and/or Harmonization Documents being circulated for enquiry. Anyone interested in obtaining this information, and/or commenting on proposals should order copies from ANSI.

Comments regarding CEN are to be sent to Henrietta Scully at ANSI's New York offices. Comments regarding CENELEC are to be sent to Charles T. Zegers, also at ANSI's New York offices.

**Ordering Instructions**

ENs are currently available via ANSI's ESS (Electronic Standards Store), accessed at www.ansi.org.

prENs can be made available via ANSI's ESS “on-demand” via e-mail request. Send your request for a prEN to be made available via the ESS to Customer Service at sales@ansi.org and the document will be posted to the ESS within 3 working days. Please be ready to provide the date of the Standards Action issue in which the prEN document you are requesting appears.

EN 528: 1996/prA1, Rail dependent storage and retrieval equipment - Safety - 7/25/2002, $20.00
EN 13229: 2001/prA1, Inset appliances including open fires fired by solid fuels - Requirements and test methods - 9/25/2002, $50.00
prEN 1338, Concrete paving blocks - Requirements and test methods - 7/25/2002, $94.00
prEN 1339, Concrete paving flags - Requirements and test methods - 7/25/2002, $102.00
prEN 1340, Concrete kerb units - Requirements and test methods - 7/25/2002, $102.00
prEN 1856, Chimneys - Components - Concrete flue liners - 9/25/2002, $80.00
prEN 1857, Chimneys - Components - Concrete flue blocks - 9/25/2002, $84.00
prEN 12899-5, Fixed, vertical road traffic signs - Part 5: Initial type testing - 9/25/2002, $50.00
prEN 13480-6, Metallic industrial piping - Part 6: Additional requirements for buried piping - 9/25/2002, $35.00
prEN 14117, Products and systems for the protection and repair of concrete structures - Test methods - Determination of viscosity of cementitious injection products - 9/25/2002, $26.00
prEN 14411, Ceramic tiles - Definitions, classification, characteristics and making (ISO 13006: 1998, modified) - 7/25/2002, $94.00
prEN 14413-1, Recreational diving services - Safety related minimum requirements for the training of scuba instructors - Part 1: Level 1 - 8/28/2002, $30.00
prEN 14451, Devices to prevent pollution by backflow of potable water - In-line anti-vacuum valves DN 8 to DN 80 inclusive - Family D, type A - 9/25/2002, $50.00
prEN 14452, Devices to prevent pollution by backflow of potable water - Pipe interrupter with atmospheric vent and moving element DN 10 to DN 20 inclusive - Family D, type B - 9/25/2002, $46.00
prEN 14453, Devices to prevent pollution by backflow of potable water - Pipe interrupter with permanent atmospheric vent DN 10 to DN 20 inclusive - Family D, type C - 9/25/2002, $38.00
prEN 14454, Devices to prevent pollution by backflow of potable water - Hose union backflow preventer DN 15 to DN 32 inclusive - Family H, type A - 9/25/2002, $56.00
prEN 14455, Devices to prevent pollution by backflow of potable water - Pressurised air inlet valves DN 15 to DN 50 inclusive - Family L, type A and type B - 9/25/2002, $50.00
prEN 14456, Products used for treatment water intended for human consumption - Bone charcoal - 9/25/2002, $38.00
prEN 14457, General requirements for components specifically designed for use in trenchless construction of drains and sewers - 9/25/2002, $42.00
prEN 14458, Personal eye-equipment - Faceshields and visors for use with firefighters, ambulance and emergency service helmets - 9/25/2002, $56.00
prEN 14460, Explosion resistant equipment - 9/25/2002, $42.00
prEN 14461, Industrial fans - Safety requirements - 9/25/2002, $60.00
prEN 14462, Surface treatment equipment - Noise test code for surface treatment equipment including its ancillary handling equipment - Accuracy grades 2 and 3 - 9/25/2002, $56.00
European drafts sent for formal vote (for information)

The following European drafts have been sent to CEN members for formal vote. If the draft is a proposed adoption of an International Standard, it is so noted.

The following European drafts have been sent to CEN members for formal vote. If the draft is a proposed adoption of an International Standard, it is so noted.

- prEN 248, Sanitary tapware - General specification for electrodeposited coatings of Ni-Cr
- prEN 381-10, Protective clothing for users of hand-held chainsaws - Part 10: Test method for upper body protector
- prEN 1279-3, Glass in building - Insulating glass units - Part 3: Long term test method and requirements for gas leakage rate and for gas concentration tolerances
- prEN 1943 REVIEW, Self adhesive tapes - Measurement of static shear adhesion
- prEN 1991-1-2, Eurocode 1: Actions on structures - Part 1-2: General actions - Actions on structures exposed to fire
- prEN 12110, Tunnelling machines - Air locks - Safety requirements
- prEN 12400, Windows and pedestrian doors - Mechanical durability - Requirements and classification
- prEN 12516-3, Valves - Shell design strength - Part 3: Experimental method
- prEN 12603, Glass in building - Procedures for goodness of fit and confidence intervals for Weibull distributed glass strength data
- prEN 12697-9, Bituminous mixtures - Test methods for hot mix asphalt - Part 9: Determination of the reference density
- prEN 12729, Devices to prevent pollution by backflow of potable water - Controllable backflow preventer with reduced pressure zone - Family B - Type A

The following European drafts have been sent to CEN members for formal vote. If the draft is a proposed adoption of an International Standard, it is so noted.

- prEN 13630-6, Explosives for civil use - Detonating cords and safety fuses - Part 6: Measurement of the resistance to tension of detonating cords
- prEN 13631-6, Explosives for civil uses - High explosives - Part 6: Determination of resistance to hydrostatic pressure
- prEN 13724, Postal serves - Apertures of private letter boxes and letterplates - Requirements and test methods
- prEN 13751, Foodstuffs - Detection of irradiated food using photostimulated luminescence
- prEN 13756, Wood flooring - Terminology
- prEN 13763-2, Explosives for civil uses - Detonators and relays - Part 2: Determination of thermal stability
- prEN 13763-3, Explosives for civil uses - Detonators and relays - Part 3: Determination of sensitivity to impact
- prEN 13763-23, Explosives for civil uses - Detonators and relays - Part 23: Determination of the shock-wave velocity of shock tube
- prEN 13763-24, Explosives for civil uses - Detonators and relays - Part 24: Determination of the electrical non-conductivity of shock tube
- prEN 13809, Tourism services - Travel agencies and tour operators - Terminology
- prEN 13919, Natural stone test methods - Determination of resistance to ageing by SO2 action in the presence of humidity

The following European drafts have been sent to CEN members for formal vote. If the draft is a proposed adoption of an International Standard, it is so noted.

- prENV 14459, Method of risk analysis and recommendations for the use of electronics in systems for the control of gas burners and gas burning appliances
Registration of Organization Names in the United States

The Procedures for Registration of Organization Names in the United States of America (document ISSB 989) require that alphanumeric organization names be subject to a 90-day Public Review period prior to registration. For further information, please contact the Registration Coordinator at (212) 642-4975.

The following is a list of alphanumeric organization names that have been submitted to ANSI for registration. Alphanumeric names appearing for the first time are printed in bold type. Names with confidential contact information, as requested by the organization, list only public review dates.

**PUBLIC REVIEW**

**cmsenergy**
- Organization: CMS Energy
- 212 W. Michigan Avenue
- Jackson, MI 49201
- Contact: Thomas S. McKown
- PHONE: 517-788-8964; FAX: 517-788-0426
- Email: tsmckown@cmsenergy.com
- Public review: February 27, 2002 to May 28, 2002

**sempra**
- Public review: March 13, 2002 to June 11, 2002

**State of Wyoming**
- Organization: State of Wyoming
- Information Security Office
- 2001 Capitol Avenue
- Cheyenne, WY 82002
- Contact: Joel C. Maslak
- Public review: May 8, 2002 to August 6, 2002

**Proposed Foreign Government Regulations**

**Call for Comment**

U.S. manufacturers, exporters, regulatory agencies and standards developing organizations may be interested in proposed foreign technical regulations issued by members of the World Trade Organization (WTO). In accordance with the WTO Agreement on Technical Barriers to Trade (TBT Agreement), members are required to report proposed technical regulations that may significantly affect trade to the WTO Secretariat in Geneva, Switzerland, who in turn disseminates the information to all WTO members. The purpose of this requirement is to provide trading partners with an opportunity to review and comment on the regulation before it becomes final.

To distribute information on these proposed foreign technical regulations, the National Center for Standards and Certification Information (NCSCI), National Institute of Standards and Technology (NIST), provides an on-line service - Export Alert! - that allows interested parties to register and obtain notifications, via e-mail, for countries and industry sectors of interest to them. To register, go to http://ts.nist.gov/ncsci and click on "Export Alert".

NCSCI serves as the U.S. WTO TBT inquiry point and receives copies of all notifications, in English, to disseminate to U.S. industry. To obtain copies of the full text of the regulations or for further information, contact NCSCI, NIST, 100 Bureau Drive, Stop 2160, Gaithersburg, MD 20899-2160; telephone (301) 975-4040; fax (301) 926-1559, e-mail - ncsci@nist.gov.

NCSCI will also request an extension of the comment period and transmit comments to the issuing foreign agency for consideration.
Information Concerning

American National Standards

Editorial Changes to ANSI/UL 508C-2002

Underwriters Laboratories announces an editorial new edition for ANSI/UL 508C-2002, Standard for Safety for Power Conversion Equipment, dated May 3, 2002. The second edition of ANSI/UL 508C was designated on March 7, 2002. We are applying this approval to the third edition. For additional information, contact: Carol Chudy, UL, PHONE: (919) 549-1666, E-mail: carol.a.chudy@us.ul.com.

Accredited Organizations

Applications for Accreditation

North American Electric Reliability Council (NERC)

Comment Deadline: June 24, 2002

The North American Electric Reliability Council (NERC) has submitted an Application for Accreditation as a Developer of American National Standards under the Organization Method of developing consensus. NERC’s proposed scope of standards activities is as follows:

The North American Electric Reliability Council (NERC) is a not-for-profit organization formed as a result of the Northeast blackout in 1965 to promote the reliability of the bulk electric systems that serve North America. It works with all segments of the electric industry, as well as customers, to “keep the lights on” by developing and encouraging compliance with standards for the reliable operation and adequacy of supply of these systems. NERC comprises the Regional Reliability Councils (RRC) that account for virtually all of the electricity supplied in the United States, Canada, and a portion of Baja California Norte, Mexico. The participants of NERC are not only the ten RRC owner-members, but also many other organizations from all segments of the electric industry: investor-owned utilities; independent power producers; power marketers; federal, provincial and state regulators; and end-use customers.

NERC works with all segments of the electric industry to develop Organization Standards for the reliable planning and operation of bulk electric systems. The NERC Organization Standards define certain obligations or requirements of entities that plan, operate, and use the bulk electric systems of North America. These obligations or requirements must be material to reliability and must be measurable. Each Organization Standard must enable or support one or more of the NERC Reliability Principles and be consistent with all Reliability and Market Interface Principles. The purpose of a standard is to support the reliability of the North American bulk electric systems without causing undue restrictions or adverse impacts on competitive electricity markets.

To request further information or to offer comments, please contact: Mr. Ronald J. Niebo, Assistant to the President, North American Electric Reliability Council, 116-390 Village Boulevard, Princeton, NJ 08540; PHONE: (609) 452-8060; FAX: (609) 452-9550; E-mail: niebo@nerc.com. As these procedures were provided electronically, the public review period is 30 days. You may download a copy of NERC’s proposed operating procedures from ANSI Online during the public review period at the following URL: http://web.ansi.org/public/library/sd_revise/default.htm.

Comments should be submitted to NERC by June 24, 2002, with a copy to the Recording Secretary, Executive Standards Council, at ANSI’s New York Office (FAX: (212) 840-2298; E-mail: Jthompso@ANSI.org).

Approval of Accreditation

Association for the Advancement of Medical Instrumentation (AAMI)

The Executive Standards Council has approved the reaccreditation of the Association for the Advancement of Medical Instrumentation (AAMI), using revised operating procedures under the Organization Method of developing consensus, effective May 15, 2002.

For additional information, please contact: Ms. Theresa Zuraski, Vice-President, Standards, AAMI, 1110 North Glebe Road, Suite 220, Arlington, VA 22201-4795; PHONE: (703) 525-4890 ext. 209; FAX: (703) 276-0793; E-mail: tzuraski@aami.org.
