Call for comment on proposals listed

This section solicits your comments on proposed draft new American National Standards, including the national adoption of ISO and IEC standards, and on proposals to revise, reaffirm or withdraw approval of existing American National Standards. A draft standard is listed in this section under the ANSI-accredited standards developer (ASD) that sponsors it and from whom a copy may be obtained. Comments in connection with a draft American National Standard must be submitted in writing to the ASD no later than the last day of the comment period specified herein. Such comments should be specific to the section(s) of the standard under review and include sufficient detail so as to enable the reader to understand the commenter’s position, concerns and suggested alternative language, if appropriate.

Ordering Instructions for “Call-for-Comment” Listings
1. Order from the organization indicated for the specific proposal.
2. Use the full identification in your order, including the BSR prefix; for example, Electric Fuses BSR/SAE J554.
3. Include remittance with all orders.
4. BSR proposals will not be available after the deadline of call for comment.

Comments should be addressed to the organization indicated, with a copy to the Board of Standards Review, American National Standards Institute, 25 West 43rd Street, New York, NY 10036. Fax: 212-840-2298; e-mail: psa@ansi.org

* Standard for consumer products
Comment Deadline: October 20, 2003

API (American Petroleum Institute)

New National Adoptions

BSR/API 8B/API 1500-200x, Recommended Practice for Procedures for Inspections, Maintenance, Repair, and Re manufacture of Hoisting Equipment (identical national adoption and revision of ANSI/API 8B/API 1500-2000)

Make modifications as recommended by the committee.
Single copy price: $25.00
Order from: Brad Bellinger, API; bellingerb@api.org
Send comments (with copy to BSR) to: Same

BSR/API 8C/API 1503-200x, Specification for Drilling and Production Hoisting Equipment (PSL1 and PSL2) (identical national adoption and revision of ANSI/API 8C/API 1503-2002)

Make modifications as recommended by the committee.
Single copy price: $25.00
Order from: Brad Bellinger, API; bellingerb@api.org
Send comments (with copy to BSR) to: Same

ASTM (ASTM International)

The URL to search for scopes of ASTM standards is:
http://www.astm.org/dsearc.htm

For reaffirmations and withdrawals, order from: Customer Service, ANSI
For new standards and revisions, order from: Faith Lanzetta, ASTM
For all ASTM standards, send comments (with copy to BSR) to:
Faith Lanzetta, ASTM

Revisions

This guide covers information on how to use documents related to health and safety of metalworking and metal removal fluids. As such, this guide will provide the user with sufficient background information to effectively use the documents listed in Section 2. Documents referenced in this guide are grouped as applicable to producers, to users or to all.
Single copy price: $25.00

This consumer safety specification covers all flame-producing consumer products commonly known as cigarette lighters, pipe lighters, and cigar lighters and such similar devices as defined in 2.1.6. Matches are specifically excluded from this safety specification; flame-producing products intended solely for igniting apparatus other than cigars, pipes, and cigarettes are also specifically excluded from this safety specification. Lighters are specifically not intended for use as a candle, flashlight, or for other uses requiring an extended burn time.
Single copy price: $30.00

This test method covers only a laboratory test for determining the relative carpet dirt removal effectiveness of household/commercial vacuum cleaners when tested under specified conditions.
Single copy price: $35.00

ATIS (ASC T1) (Alliance for Telecommunications Industry Solutions)

Revisions

BSR T1.233-200x, Information Interchange - Structure and Representation of Network Channel (NC) and Network Channel Interface (NCI) Codes for the North American Telecommunications System (revision of ANSI T1.233-1997)

This standard identifies the structure and the coded representation of Network Channel (NC) and Network Channel Interface (NCI) codes that shall be used to describe the channel and interface definitions. These codes are typically used by IntraLATA and InterLATA customers in their requests for service.
Single copy price: $58.00 (Download Price); $68.00 (Paper Copy)
Order from: Jacqueline Brown-Envin, ATIS (ASC T1); jbrown@atis.org
Send comments (with copy to BSR) to: Same

This standard addresses the code and format structures for identifying various types of facilities, which include, but are not limited to cable, open wire, phantom groups, and analog/digital and fiber optic carriers. The facility format structures accommodate the depiction of facility data through four application-specific combinations of data unit representations (four format structures). The four format structures are: Cable facility format; Cable facility with pair identification format; Carrier facility format; and Carrier facility with channel/time slot identification slot.
Single copy price: $58.00 (Download Price); $68.00 (Paper Copy)
Order from: Jacqueline Brown-Envin, ATIS (ASC T1); jbrown@atis.org
Send comments (with copy to BSR) to: Same

ITI (INCITS)

New National Adoptions

The Directory provides the directory capabilities required by OSI applications, OSI management processes, other OSI layer entities, and telecommunications services.
Single copy price: $33.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

The models defined in this Recommendation/International Standard provide a conceptual and terminological framework for the other ITU-T X.500-series Recommendations/parts of ISO/IEC 9594 which define various aspects of the Directory.
Single copy price: $33.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

This Recommendation/International Standard defines in an abstract way the externally visible service provided by the Directory. This Recommendation/International Standard does not specify individual implementations or products.
Single copy price: $33.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

This Recommendation/International Standard specifies the behavior of DSAs taking part in the distributed Directory application. The allowed behavior has been designed so as to ensure a consistent service given a wide distribution of the DIB across many DSAs. The Directory is not intended to be a general purpose database system, although it may be built on such systems. It is assumed that there is a considerably higher frequency of queries than of updates.

Single copy price: $33.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

Single copy price: $112.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

This Recommendation/International Standard defines a number of attribute types and matching rules which may be found useful across a range of applications of the Directory.

Single copy price: $118.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

This Recommendation/International Standard defines a number of object classes and name forms which may be found useful across a range of applications of the Directory. The definition of an object class involves listing a number of attribute types which are relevant to objects of that class. The definition of a name form involves naming the object class to which it applies and listing the attributes to be used in forming names for objects of that class.

Single copy price: $76.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

This Recommendation/International Standard addresses some of the security requirements in the areas of authentication and other security services through the provision of a set of frameworks upon which full services can be based. Specifically, this Recommendation/International Standard defines frameworks for:
- Public-key certificates;
- Attribute certificates;
- Authentication services.

Single copy price: $156.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

This Recommendation/International Standard specifies a shadow service which DSAs may use to replicate Directory information. The service allows Directory information to be replicated among DSAs to improve service to Directory users. The shadowed information is updated, using the defined protocol, thereby improving the service provided to users of the Directory.

Single copy price: $97.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

This Specification describes the requirements for Directory management, and analyzes these requirements to identify those that may be realized by OSI Systems Management services (and protocols), those that are realized by Directory services (and protocols), and those that are realized by local means. Based on the requirements, this Directory Specification defines a model for Directory management that encompasses all of the requirements.

Single copy price: $139.00
Order from: ANSI, Customer Service: 212-642-4900
Send comments (with copy to BSR) to: Deborah Spittle, ITI (INCITS); dspittle@itic.org

SDI (ASC A250) (Steel Door Institute)

Revisions

BSR A250.8-200x, Recommended Specifications for Standard Steel Doors and Frames (revision of ANSI A250.8-1998)

This specification offers a variety of choices suitable for commercial application. Specific performance levels of doors and frames are defined herein. This specification covers sizes, design, materials, general construction requirements and finishing of standard steel doors and frames.

Single copy price: $25.00

NECA (National Electrical Contractors Association)

New Standards

BSR/NECA 102-200x, Installing Aluminum Conduits (new standard)
This standard describes installation procedures for aluminum rigid metal conduit (RMC).
Single copy price: $30.00
Order from: Nancy Sipe, NECA; orderdesk@necanet.org
Send comments (with copy to BSR) to: Pearl Parker, NECA;
psp@necanet.org

BSR/NECA 120-200x, Standard for Installing Armored Cable (Type AC) and Metal-Clad Cable (Type MC) (new standard)
Covers the installation of Type AC cable and Type MC cables, which are used for electrical wiring for residential, commercial and industrial occupancies. It also includes information on fittings and other accessories necessary for a quality installation of these cable systems.
Single copy price: $30.00
Order from: Nancy Sipe, NECA; orderdesk@necanet.org
Send comments (with copy to BSR) to: Pearl Parker, NECA;
psp@necanet.org

BSR/NECA FOA 301-200x, Standard for Installing and Testing Fiber Optic Cables (new standard)
This standard describes procedures for installing and testing fiber optic cables and related components to carry signals for telecommunications, control, and similar purposes. These procedures represent a minimum level of quality for fiber optic installations. This standard is intended to define what is meant by installing equipment in a "neat and workmanlike manner" as required by the National Electrical Code, Sections 110-12 and 770-8.
Single copy price: $30.00
Order from: Nancy Sipe, NECA; orderdesk@necanet.org
Send comments (with copy to BSR) to: Pearl Parker, NECA;

Initiation of Canvasses

The following ANSI-accredited standards developers have announced their intent to conduct a canvass on the proposed American National Standard(s) listed herein in order to develop evidence of consensus for submittal to ANSI for approval as an American National Standard. Directly and materially affected interests wishing to participate as a member of a canvass list, i.e., consensus body, should contact the sponsor of the standard within 30 days of the publication date of this issue of Standards Action. Please also review the section entitled "American National Standards Maintained Under Continuous Maintenance" contained in Standards Action for information with regard to canvass standards maintained under the continuous maintenance option.

Correction
Incorrect FA Listing for UL 136

Due to a technical error, UL 136, which is administratively withdrawn, was incorrectly listed as a new standard in the Final Actions section of the August 29, 2003 issue of Standards Action (page 9). It is correctly listed as an Administrative Withdrawal on Page 5 of the August 29th issue of Standards Action. We are sorry of any confusion or inconvenience this may have caused.
Project Initiation Notification System (PINS)

ANSI Procedures require notification of ANSI by ANSI-accredited standards developers of the initiation and scope of activities expected to result in new or revised American National Standards. This information is a key element in planning and coordinating American National Standards. For additional information, see clause 2.4 of the ANSI Essential Requirements: Due Process Requirements for American National Standards (January 2003 edition.)

Following is a list of proposed new American National Standards or revisions to existing American National Standards that have been received from ANSI-accredited standards developers that utilize the periodic maintenance option in connection with their standards. Please also review the section entitled "American National Standards Maintained Under Continuous Maintenance" contained in Standards Action for comparable information with regard to standards maintained under the continuous maintenance option. Directly and materially affected interests wishing to receive more information should contact the standards developer directly.

American National Standards Maintained Under Continuous Maintenance

The ANSI Essential Requirements: Due Process Requirements for American National Standards provide two options for the maintenance of American National Standards (ANS): periodic maintenance (see clause 4.7.1) and continuous maintenance (see clause 4.7.2). Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with the procedures contained in the ANSI Essential Requirements.

The Executive Standards Council (ExSC) has determined that for standards maintained under the Continuous Maintenance option, separate PINS announcements are not required. The following ANSI Accredited Standards Developers have formally registered standards under the Continuous Maintenance option.

- AAMVA
- AGRSS
- ASC B109 (AGA)
- ASHRAE
- ASME
- ASTM
- NBBPVI
- NSF International
- TIA
- Underwriters Laboratories Inc.

To obtain additional information with regard to these standards, such as contact information at the ANSI accredited standards developer, please visit ANSI Online at www.ansi.org, select Internet Resources, click on "Standards Information," and see "American National Standards Maintained Under Continuous Maintenance". This information is also available directly at http://public.ansi.org/ansionline/Documents/Standards%20Activities/American%20National%20Standards/Procedures,%20Guides,%20and%20Forms/

Alternatively, you may contact the Procedures & Standards Administration Department (PSA) at psa@ansi.org or via fax at 212-840-2298. If you request that information be provided via E-mail, please include your E-mail address; if you request that information be provided via fax, please include your fax number. Thank you.
ISO Draft International Standards

This section lists proposed standards that the International Organization for Standardization (ISO) is considering for approval. The proposals have received substantial support within the technical committees or subcommittees that developed them and are now being circulated to ISO members for comment and vote. Standards Action readers interested in reviewing and commenting on these documents should order copies from ANSI.

Comments
Comments regarding ISO documents should be sent to Henrietta Scully, at ANSI’s New York offices. The final date for offering comments is listed after each draft.

PHOTOGRAPHY (TC 42)

ISO/DIS 10505, Photography - Root mean square (rms) granularity of photographic film - Method of measurement - 12/4/2003, $70.00
ISO/DIS 16067-2, Photography - Electronic scanners for photographic images - Spatial resolution measurements - Part 2: Film scanners - 11/26/2003, $55.00
ISO/DIS 21550, Photography - Electronic scanners for photographic images - Dynamic range measurements - 11/26/2003, $46.00

SURFACE CHEMICAL ANALYSIS (TC 201)

ISO/DIS 22048, Surface chemical analysis - Information format for static secondary-ion mass spectrometry - 11/30/2003, $46.00

ISO/IEC JTC 1, Information Technology

ISO/IEC FCD 20113, Information technology - Private Integrated Services Network (PISN) - Specification, functional model and information flows - Make Call Request Supplementary Service (MCRSS) - 11/23/2003, $60.00
ISO/IEC FCD 20114, Information technology - Private Integrated Services Network (PISN) - Inter-exchange signalling protocol - Make Call Request (MCR) Supplementary Service (SS) - 11/23/2003, $75.00
CEN/CENELEC Standards Activity

European drafts sent for CEN enquiry

The following European drafts have been sent to CEN members for enquiry and comment. If the draft is a proposed adoption of an International Standard, it is so noted. The final date for offering comments is listed after each proposal.

pEN 13130-1, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 1: Guide to test methods for the specific migration of substances from plastics into foods and food simulants and the determination of substances in plastics and the selection of conditions of exposure to food simulants - 1/14/2004, $94.00

pEN 13130-2, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 2: Determination of terephthalic acid in food simulants - 1/14/2004, $42.00

pEN 13130-5, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 5: Determination of vinylidene chloride in food simulants - 1/14/2004, $50.00

pEN 13130-6, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 6: Determination of vinylidene chloride in plastics - 1/14/2004, $46.00

pEN 13130-7, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 7: Determination of monochloroethylene and diethylene glycol in food simulants - 1/14/2004, $38.00

pEN 13130-8, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 8: Determination of isocyanates in plastics - 1/14/2004, $50.00

CEN/CENELEC are composed of European member bodies whose countries cooperate within the European Economic Community (Common Market) and the European Free Trade Association (EFTA). Their primary purpose is to develop standards needed to harmonize European interests and prevent technical barriers. Both CEN and CENELEC are committed to adopting standards developed by ISO and IEC wherever possible.

ANSI is publishing this information to give U.S. interests an opportunity to obtain information, and to comment on proposed European Standards and/or Harmonization Documents being circulated for enquiry. Anyone interested in obtaining this information, and/or commenting on proposals should order copies from ANSI.

Comments regarding CEN are to be sent to Henrietta Scully at ANSI’s New York offices. Comments regarding CENELEC are to be sent to Charles T. Zegers, also at ANSI’s New York offices.

Ordering Instructions

ENs are currently available via ANSI’s ESS (Electronic Standards Store), accessed at wwwansi.org.

prENs can be made available via ANSI’s ESS “on-demand” via e-mail request. Send your request for a prEN to be made available via the ESS to Customer Service at sales@ansi.org and the document will be posted to the ESS within 3 working days. Please be ready to provide the date of the Standards Action issue in which the prEN document you are requesting appears.

This section provides information on standards activity within CEN - the European Committee for Standardization - and CENELEC - the European Committee for Electrotechnical Standardization. CEN and CENELEC are composed of European member bodies whose countries cooperate within the European Economic Community (Common Market) and the European Free Trade Association (EFTA). Their primary purpose is to develop standards needed to harmonize European interests and prevent technical barriers. Both CEN and CENELEC are committed to adopting standards developed by ISO and IEC wherever possible.

prEN 14043-21, Fireworks - Part 21: Jumping ground spinners - Specification and test method - 1/14/2004, $56.00

prEN 14043-25, Fireworks - Part 25: Party-Poppers - Specification and test method - 1/14/2004, $60.00

prEN 14043-26, Fireworks - Part 26: Percussion caps - Specification and test method - 1/14/2004, $76.00

prEN 14035-1, Fireworks - Part 31: Shell-in-mortars - Specification and test method - 1/14/2004, $60.00

prEN 14035-33, Fireworks - Part 33: Spinners - Specification and test method - 1/14/2004, $50.00

prEN 14035-37, Fireworks - Part 37: Whistlers - Specification and test method - 1/14/2003, $50.00

prEN 14067-4, Railway applications - Aerodynamics - Part 4: Requirements and test procedures for aerodynamics on open track - 1/14/2004, $46.00

prEN 14732-2, Timber structures - Prefabricated wall, roof and roof elements - Part 2: Performance requirements and minimum production requirements - 1/14/2004, $56.00

prEN 14752, Railway applications - Door systems for rolling stock - 1/14/2004, $80.00

prEN 14753, Safety of machinery - Safety requirements for machinery and equipment for the continuous casting of steel - 1/14/2004, $64.00

prEN 14754-1, Curing compounds - Test methods - Part 1: Determination of water retention efficiency of common curing compounds - 1/14/2004, $24.00

prEN 14755, Extruded particleboards - Specifications - 1/14/2004, $26.00

prEN 14756, Determination of the limiting oxygen concentration (LOC) for gases and vapours - 1/14/2004, $38.00

prEN 14757, Water quality - Sampling of fish with gillnets - 1/14/2004, $56.00
European drafts sent for formal vote (for information)

The following European drafts have been sent to CEN members for formal vote. If the draft is a proposed adoption of an International Standard, it is so noted.

- prEN 14758-1, Plastics piping systems for non-pressure underground drainage and sewerage - Polypropylene with mineral modifiers (PP-M) - Part 1: Specifications for pipes, fittings and the system - 1/14/2004, $64.00
- prENV13130-3, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 3: Determination of acrylonitrile in food and food simulants - 1/14/2004, $50.00
- prENV13130-4, Materials and articles in contact with foodstuffs - Plastics substances subject to limitation - Part 4: Determination of 1,3-butaediene in plastics - 1/14/2004, $42.00

standards action - september 5, 2003 - page 15 of 17 pages

- prEN 13589, Bitumen and bituminous binders - Determination of the tensile properties of modified bitumen by the force ductility method
- prEN 13630-9, Explosives for civil uses - Detonating cords and safety fuses - Part 9: Determination of transmission of detonation from detonating cord to detonating cord
- prEN 13632, Bitumen and bituminous binders - Visualisation of polymer dispersion in polymer modified bitumen
- prEN 13702-1, Bitumen and bituminous binders - Determination of dynamic viscosity of modified bitumen - Part 1: Cone and plate method
- prEN 13702-2, Bitumen and bituminous binders - Determination of dynamic viscosity of modified bitumen - Part 2: Coaxial cylinders method
- prEN 13703, Bitumen and bituminous binders - Determination of deformation energy
- prEN 14468-1, Table tennis - Part 1: Table tennis tables, functional and safety requirements, test methods
- prEN ISO 7932 REVIEW, Microbiology of food and animal feeding stuffs - Horizontal method for the enumeration of Bacillus cereus - Colony-count technique at 30°C (ISO/FDIS 7932: 2003)
- prEN ISO 11205, Acoustics - Noise emitted by machinery and equipment - Engineering method for the determination of emission sound pressure levels in situ at the work station and at other specified positions using sound intensity (ISO/FDIS 11205: 2003)
Registration of Organization Names in the United States

The Procedures for Registration of Organization Names in the United States of America (document ISSB 989) require that alphanumeric organization names be subject to a 90-day Public Review period prior to registration. For further information, please contact the Registration Coordinator at (212) 642-4975.

The following is a list of alphanumeric organization names that have been submitted to ANSI for registration. Alphanumeric names appearing for the first time are printed in bold type. Names with confidential contact information, as requested by the organization, list only public review dates.

**PUBLIC REVIEW**

**Biosense Webster**

Organization: Biosense Webster (Israel), Ltd., a Johnson & Johnson company
7 Etgar Street, Einstein Bldg.
P.O.B. 2009, Tirat HaCarmel, 39120 Israel
Contact: Mooly Auerbach
PHONE: +972 4 8 131111
FAX: +972 4 8 131112
E-mail: mauerbac@bwill.jnj.com

**Regional Information System**

Public Review: June 27, 2003 to September 25, 2003

**Unisys Corporation**

Organization: Unisys Corporation
Unisys Way, MS E2-129M
Blue Bell, PA 19424
Contact: William Penglase
E-mail: William.penglase@unisys.com

Public Review: July 4, 2003 to October 2, 2003

NOTE: Challenged alphanumeric names are underlined. The Procedures for Registration provide for a challenge process, which follows in brief. For complete details, see Section 6.4 of the Procedures.

A challenge is initiated when a letter from an interested entity is received by the Registration Coordinator. The letter shall identify the alphanumeric organization name being challenged and state the rationale supporting the challenge. A challenge fee shall accompany the letter. After receipt of the challenge, the alphanumeric organization name shall be marked as challenged in the Public Review list. The Registration Coordinator shall take no further action to register the challenged name until the challenge is resolved among the disputing parties.

Proposed Foreign Government Regulations

**Call for Comment**

U.S. manufacturers, exporters, regulatory agencies and standards developing organizations may be interested in proposed foreign technical regulations issued by members of the World Trade Organization (WTO). In accordance with the WTO Agreement on Technical Barriers to Trade (TBT Agreement), members are required to report proposed technical regulations that may significantly affect trade to the WTO Secretariat in Geneva, Switzerland, who in turn disseminates the information to all WTO members. The purpose of this requirement is to provide trading partners with an opportunity to review and comment on the regulation before it becomes final.

To distribute information on these proposed foreign technical regulations, the National Center for Standards and Certification Information (NCSCI), National Institute of Standards and Technology (NIST), provides an on-line service - Export Alert! - that allows interested parties to register and obtain notifications, via e-mail, for countries and industry sectors of interest to them. To register, go to http://ts.nist.gov/ncsci and click on "Export Alert!".

NCSCI serves as the U.S. WTO TBT inquiry point and receives copies of all notifications, in English, to disseminate to U.S. industry. To obtain copies of the full text of the regulations or for further information, contact NCSCI, NIST, 100 Bureau Drive, Stop 2160, Gaithersburg, MD 20899-2160; telephone (301) 975-4040; fax (301) 926-1559, e-mail - ncsci@nist.gov.

NCSCI will also request an extension of the comment period and transmit comments to the issuing foreign agency for consideration.
Information Concerning

ANSI Accreditation Program for Third Party Personnel Certification Agencies utilizing Conference for Food Protection Standards

Approvals of Accreditation

Educational Foundation of the National Restaurant Association

Educational Foundation of the National Restaurant Association, located in Chicago, IL, has been granted ANSI accreditation of its third party personnel certification program for ServSafe® Food Protection Managers utilizing Conference for Food Protection Standards

Experior™ Assessments, LLC

Experior™ Assessments, LLC, located in St. Paul, MN, has been granted ANSI accreditation of its third party personnel certification program for Food Protection Managers utilizing Conference for Food Protection Standards

Environmental Health Testing, LLC-National Registry of Food Safety Professionals

Environmental Health Testing, LLC-National Registry of Food Safety Professionals, located in Orlando, FL, has been granted ANSI accreditation of its third party personnel certification program for Food Protection Managers utilizing Conference for Food Protection Standards

International Organization for Standardization (ISO)

Call for New Secretary

Relinquishment of ISO Subcommittee Secretariat

ISO/TC 44/SC 9 - Welding and allied processes - Health and Safety

Comment Deadline: October 6, 2003

ANSI has been advised by the American Welding Society (AWS) they no longer wish to serve as Secretary for this International (ISO) Subcommittee.

The work of this subcommittee is covered by the scope of ISO/TC 44 as follows:

Standardization of welding, by all processes, as well as allied processes; these standards include terminology, definitions and the symbolic representation of welds on drawings, apparatus and equipment for welding, raw materials (gas, parent and filler metals) welding processes and rules, methods of test and control, calculations and design of welded assemblies, welders' qualifications, as well as safety and health.

Excluded: electrical safety matters related to welding which are the responsibility of IEC/TC 26.

Any organization wishing to assume the role of US delegated Secretariat, please contact Henrietta Scully via email: hscully@ansi.org; mail: c/o ANSI, 25 West 43rd Street, New York, NY 10036; or fax to (212) 730-1346 before October 6, 2003.

Meeting Notices

ASC OP "Optics and Electro-Optical Instruments"

The next ASC OP "Optics and Electro-Optical Instruments" draft review session for BSR/OEOSC OP.1.002 "Optical Elements and Cemented Optical Subassemblies - Surface Imperfections" will be held during the OSA Annual Meeting at the Hilton Tucson El Conquistador Golf & Tennis Resort, 10000 North Oracle Road, Tucson, AZ 85737, Monday, October 6, 2003, 10:00 a.m. - 4:00 p.m. The ASC OP business meeting will be held following the draft review.

Contact Gene Kohlenberg to register for this meeting at P.O. Box 25705, Rochester, NY 14625-0705, PHONE/FAX: (585) 377-2540 or by e-mail at gene.kohlenberg@toast.net.

ASC Z87 Committee

The ANSI Z87 Committee will on October 9 - 10, 2003 in Baltimore, MD, at the Baltimore Inner Harbor Marriott. For further information, contact Kris Dinkle at kdinkle@ola-labs.org.

US/TAG/TC 8 Organizational Meeting Set

The IEC Technical Committee 8 (TC 8) System Aspects of Electrical Energy Supply is establishing its expanded scope and is initiating preliminary work. An organizational meeting for US/TAG/TC 8 is set for September 15, 2003 at 11AM to 2PM EDT, in Washington DC. There is limited seating space available, and, there will be a teleconference hook up. If interested, RSVP by September 10 identifying your prospective participation to Thomas_basso@nrel.gov to receive logistics. There will be future opportunities for you to join and contribute to the USNC/TC 8/TAG.

We look forward to promoting your U.S. interests in the IEC TC 8.

(Contact - Tom Basso Thomas_basso@nrel.gov, (303) 275-3753; ANSI/USNC TC8 Technical Advisory Group Administrator: National Renewable Energy Laboratory.)

A preliminary topical agenda for the September 15 meeting follows.

1) US/TAG/TC 8 Membership, Roster, and Organization; e.g., solicit and identify TAG members, resource contacts and expertise (e.g., see Web for ANSI/IEC/TAG Operating Procedures; $250 ANSI membership fee)

2) IEC TC 8 Program of Work; e.g., from 2003 June IEC TC 8 meeting included establishment of TC 8 ad hoc working groups (AHG), including a Chairman Advisory Group; AHGs on: terminology; connection practices; framework document defining future work and methods of work of TC 8; and, characteristics of the voltage in order to provide information about different practices and needs all around the world.

3) Future Actions

* US/TAG TC 8 invited by Canada’s TC 8 for teleconference prior to October 2003.

* October 2003 IEC General Meeting (including IEC TC 8 Officers meet, subsequently, TC 8 Chair reports to IEC Standards Management Board (SMB); SMB considers TC 8 title/scope approval.
