American National Standards

Call for comment on proposals listed

This section solicits public comments on proposed draft new American National Standards, including the national adoption of ISO and IEC standards as American National Standards, and on proposals to revise, reaffirm or withdraw approval of existing American National Standards. A draft standard is listed in this section under the ANSI-accredited standards developer (ASD) that sponsors it and from whom a copy may be obtained. Comments in connection with a draft American National Standard must be submitted in writing to the ASD no later than the last day of the comment period specified herein. Such comments shall be specific to the section(s) of the standard under review and include sufficient detail so as to enable the reader to understand the commenter’s position, concerns and suggested alternative language, if appropriate. Please note that the ANSI Executive Standards Council (ExSC) has determined that an ASD has the right to require that interested parties submit public review comments electronically.

Ordering Instructions for “Call-for-Comment” Listings
1. Order from the organization indicated for the specific proposal.
2. Use the full identification in your order, including the BSR prefix; for example, Electric Fuses BSR/SAE J554.
3. Include remittance with all orders.
4. BSR proposals will not be available after the deadline of call for comment.

Comments should be addressed to the organization indicated, with a copy to the Board of Standards Review, American National Standards Institute, 25 West 43rd Street, New York, NY 10036. Fax: 212-840-2298; e-mail: psa@ansi.org

Standard for consumer products
Comment Deadline: March 12, 2006

NSF (NSF International)

Revisions

BSR/NSF 173-200x (i15), Dietary Supplements (revision of ANSI/NSF 173-2003)

Issue 15: To update test methods for pesticides in Section 7.2.2.

Click here to see these changes in full, or look at the end of “Standards Action.”

Send comments (with copy to BSR) to: Jaclyn Bowen, NSF; bowen@nsf.org

UL (Underwriters Laboratories, Inc.)

Revisions

This bulletin proposes a further revision to the Proposed Trinational UL 62 as a result of comments received on the Subject 62 bulletin dated November 11, 2005.

Click here to see these changes in full, or look at the end of “Standards Action.”

Send comments (with copy to BSR) to: Patricia Sena, UL-NY; Patricia.A.Sena@us.ul.com

Adds Units to the Dielectric Strength Requirement of Paragraph 7.1.

Click here to see these changes in full, or look at the end of “Standards Action.”

Send comments (with copy to BSR) to: Camille Alma, UL; Camille.A.Alma@us.ul.com

Comment Deadline: March 27, 2006

API (American Petroleum Institute)

Revisions

Provides general principles and standards for the design, manufacture and testing of new drilling and well services equipment and replacement primary load carrying components manufactured subsequent to the publication of this specification.

Single copy price: $25.00

Obtain an electronic copy from: kurylac@api.org

Order from: Carriann Kuryla, API (Organization); kurylac@api.org

Send comments (with copy to BSR) to: Same

ASABE (American Society of Agricultural and Biological Engineers)

New Standards

BSR/ASABE S593-200x, Terminology and Definitions for Biomass Production, Harvesting and Collection, Storage, Processing, Conversion and Utilization (new standard)

The purpose of this Standard is to provide uniform terminology and definitions in the general area of biomass production and utilization. This includes all the terminologies that are used in biomass feedstock production, harvesting, collecting, handling, storage, processing and conversion, bioenergy, biocycles, biopower and bioproducts.

Single copy price: $40.00

Obtain an electronic copy from: vangilder@asabe.org

Order from: Carla VanGilder, ASABE; vangilder@asabe.org

Send comments (with copy to BSR) to: Same

ASTM (ASTM International)

The URL to search for scopes of ASTM standards is:

http://www.astm.org/dsearch.htm

For reaffirmations and withdrawals, order from: Customer Service, ANSI

For new standards and revisions, order from: Corice Leonard, ASTM; cleonard@astm.org

For all ASTM standards, send comments (with copy to BSR) to:

Corice Leonard, ASTM; cleonard@astm.org

New Standards

BSR/ASTM F2487-200x, Practice for Infiltration and Exfiltration Acceptance Testing of Installed Corrugated High Density Polyethylene Pipelines (new standard)

This practice covers procedures for testing installed corrugated high-density polyethylene pipeline using either water infiltration or exfiltration acceptance limits to demonstrate the integrity of the installed materials and construction procedure.

Single copy price: $28.00

ATIS (Alliance for Telecommunications Industry Solutions)

New Standards

BSR ATIS 1000009-200x, IP Network-to-Network Interface (NNI) Standard for VoIP (new standard)

This standard defines the IP Network-to-Network Interface (NNI) for VoIP between carriers. It addresses the need for a standard interface as telecom networks migrate the NNI from circuit switched to IP. The focus of this standard is to support VoIP.

Single copy price: $130.00

Obtain an electronic copy from: aopicka@atis.org

Order from: Aivelis Opicka, ATIS; aopicka@atis.org

Send comments (with copy to BSR) to: Same

AWS (American Welding Society)

New Standards

BSR/AWS B2.1-1-001-200x, Standard Welding Procedure Specification (WPS) Shielded Metal Arc Welding of Carbon Steel, (M-1/P-1, Group 1 or 2), 3/16 through 3/4 inch, in the As-Welded Condition, with Backing (new standard)

This standard contains the essential welding variables for carbon steel plate and pipe in the thickness range of 3/16 through 3/4 inch, using manual shielded metal arc welding. It cites the base metals and operating conditions necessary to make the weldment, the filler metal specifications, and the allowable joint design for filler and groove welds.

Single copy price: $25.00

Obtain an electronic copy from: roneill@aws.org

Order from: Rosalinda O'Neill, AWS; roneill@aws.org

Send comments (with copy to BSR) to: Andrew Davis, AWS; adavis@aws.org; roneill@aws.org
IEEE (ASC C63) (Institute of Electrical and Electronics Engineers)

Revisions

- BSR C63.19-200x, Methods of Measurement of Compatibility between Wireless Communications Devices and Hearing Aids (revision of ANSI C63.19-2001)
  This standard sets forth uniform methods of measurement and parametric requirements for the electromagnetic and operational compatibility and accessibility of hearing aids used with wireless communications devices operating in the range of 800 MHz to 3 GHz. However, this version is focused on existing services, which are in common use.
  Single copy price: $90.00 (PDF List Price)
  Send comments (with copy to BSR) to: Bob Pritchard, IEEE (ASC C63); r.pritchard@ieee.org

ISA (ISA)

New Standards

BSR/ISA 88.00.04-200x, Batch Control Part 4: Batch Production Records (new standard)
  This standard will be the fourth in the ISA-88 Series of standards on batch control in industrial manufacturing and processing. This Part 4 focuses on batch production records.
  Single copy price: $92.00
  Obtain an electronic copy from: crobinson@isa.org
  Send comments (with copy to BSR) to: Charles Robinson, ISA; crobinson@isa.org

ITSDF (Industrial Truck Standards Development Foundation, Inc.)

Revisions

BSR/ITSDF B56.8-200x, Safety Standard for Personnel and Byren Carriers (revision of ANSI/ITSDF B56.8-2005)
  This Standard defines safety requirements relating to the elements of design, operation, and maintenance of powered personnel and burden carriers having three or more wheels, a maximum speed not exceeding 40 km/h (25 mph), and a load capacity not exceeding 4536 kg (10,000 lb). This Standard does not include vehicles intended primarily for earth moving or over-the-road hauling, or unmanned automatic guided vehicles.
  Single copy price: Free

ESTA (ASC E1) (Entertainment Services and Technology Association)

Revisions

BSR E1.9-200x, Reporting Photometric Performance Data for Luminaires Used in Entertainment Lighting (revision of ANSI E1.9-2001)

E1.9 is intended to be used for the presentation of photometric data for luminaires used in the entertainment and performance industries. This standard defines the minimum photometric data to be presented on documents purporting to accurately describe the photometric performance of these luminaires. The proposed revision simplifies the requirements.

Send comments (with copy to BSR) to: Same

Reaffirmations

BSR E1.3-2001 (R200x), Entertainment Technology - Lighting Control Systems - 0 to 10V Analog Control Specification (reaffirmation of ANSI E1.3-2001)

This standard describes a method of controlling equipment by means of an analog control voltage. It is primarily intended for lighting control equipment (controllers and dimmers) although any equipment that might be controlled by a lighting controller could use this control method. This standard does not address electro-magnetic compatibility (EMC) issues.

Single copy price: $40.00

Corrections

Incorrect E-mail Address

In the Call-for-Comment section of the January 27, 2006 issue of Standards Action, the listing for Textile Care Allied Trades Association contained an error in the e-mail address provided. The first address listed for obtaining a copy of the standard is correct, but the second listing, “Order from David Cotter, TCATA; tcata@ix.netcom.com”, is not. The correct e-mail address is: david@tcata.org.

Missing Text in Scope

The description for BSR/ASME PCC-2-200x, Repair of Pressure Equipment and Piping Standard, which appeared in the Call-for-Comment section of the January 27, 2006 issue, is missing its final sentence. The missing text is as follows: “This standard is intended to be referenced by other standards and codes, such as the National Board Inspection Code.”

Comments (with a copy to BSR) may be sent to: Umberto D’Urso, ASME; dursou@asme.org until March 13, 2006.
The addresses listed in this section are to be used in conjunction with standards listed in Call for Comment. This section is a list of developers who have submitted standards for public review in this issue of Standards Action – it is not intended to be a list of all ANSI developers. Please send all address corrections to: Standards Action Editor, American National Standards Institute, 25 West 43rd Street, New York, NY 10036 or standact@ansi.org.

Initiation of Canvasses

The following ANSI-accredited standards developers have announced their intent to conduct a canvass on the proposed American National Standard(s) listed herein in order to develop evidence of consensus for submittal to ANSI for approval as an American National Standard. Directly and materially affected interests wishing to participate as a member of a canvass list, i.e., consensus body, should contact the sponsor of the standard within 30 days of the publication date of this issue of Standards Action. Please also review the section entitled “American National Standards Maintained Under Continuous Maintenance” contained in Standards Action for information with regard to canvass standards maintained under the continuous maintenance option.

**Project Initiation Notification System (PINS)**

ANSI Procedures require notification of ANSI by ANSI-accredited standards developers (ASD) of the initiation and scope of activities expected to result in new or revised American National Standards (ANS). Early notification of activity intended to reaffirm or withdraw an ANS and in some instances a PINS related to a national adoption is optional. The mechanism by which such notification is given is referred to as the PINS process. For additional information, see clause 2.4 of the ANSI Essential Requirements: Due Process Requirements for American National Standards.

Following is a list of proposed actions and new ANS that have been received recently from ASDs. Please also review the section in Standards Action entitled “American National Standards Maintained Under Continuous Maintenance” for additional or comparable information with regard to standards maintained under the continuous maintenance option. To view information about additional standards for which a PINS has been submitted and to search approved ANSI, please visit www.NSSN.org, which is a database of standards information. Note that this database is not exhaustive.

Directly and materially affected interests wishing to receive more information or to submit comments are requested to contact the standards developer directly within 30 days of the publication of this announcement.

---

**BSR/ARI 640-200x, Performance Rating of Commercial and Industrial Humidifiers (new standard)**

Stakeholders: HVAC&R industry, including manufacturers, engineers, installers, contractors, and users.

**Project Need:** Establishes rating criteria and method of test for measuring the performance of Commercial and Industrial Humidifiers.

This standard applies to factory-made Commercial and Industrial Humidifiers.

**BSR/ARI 710-200x, Performance Rating of Liquid-Line Driers (new standard)**

Stakeholders: HVAC&R industry, including manufacturers, engineers, installers, contractors, and users.

**Project Need:** Establishes rating criteria and method of test for measuring the performance of Liquid-Line Driers.

This standard applies to Liquid-Line Driers utilizing solid Desiccants designed for use in the liquid line of all types of refrigeration and air-conditioning systems.

**BSR/ARI 730-200x, Flow Capacity Rating of Suction-Line Filters and Suction-Line Filter-Driers (new standard)**

Stakeholders: HVAC&R industry, including manufacturers, engineers, installers, contractors, and users.

**Project Need:** Establishes rating criteria and method of test for measuring the performance of Suction-Line Filters and Suction-Line Filter Driers.

This standard applies to Suction-Line Filters and Suction-Line Filter-Driers for use in systems employing halocarbon refrigerants R-12, R-22, R-134a, R-404A, R-407C, R-410A, R-502, and R-507A.

**BSR/ARI 750-200x, Performance Rating of Thermostatic Refrigerant Expansion Valves (revision of ANSI/ARI 750-2001)**

Stakeholders: HVAC&R industry, including manufacturers, engineers, installers, contractors, and users.

**Project Need:** Establishes rating criteria and method of test for measuring the performance of Thermostatic Refrigerant Expansion Valves.

This standard applies to Thermostatic Expansion Valves for use with Refrigerants 12, 22, 502, 134a, 404A, 407C, 410A, and 507.

**BSR/ARI 870-200x, Performance Rating of Direct Geoexchange Heat Pumps (revision of ANSI/ARI 870-2001)**

Stakeholders: HVAC&R industry, including manufacturers, engineers, installers, contractors, and users.

**Project Need:** Establishes rating criteria and method of test for measuring the performance of Direct Geoexchange Heat Pumps.

This standard applies to factory made residential, commercial and industrial Direct Geoexchange Heat Pumps.
BSR/ARI 900-200x, Performance Rating of Thermal Storage Equipment Used for Cooling (new standard)
Stakeholders: HVAC&R industry, including manufacturers, engineers, installers, contractors, and users.
Project Need: Establishes rating criteria and method of test for measuring the performance of Thermal Storage Equipment Used For Cooling.

This standard applies to Thermal Storage Equipment used for cooling which may be charged and discharged with any of a variety of heat transfer fluids. The equipment may be fully factory assembled; assembled on site from factory-supplied components; or field erected in accordance with pre-established design criteria.

Stakeholders: HVAC&R industry, including manufacturers, engineers, installers, contractors, and users.

This standard applies to factory-made Air-to-Air Heat Exchangers for use in Air-to-Air Energy Recovery Ventilation Equipment.

ASTM (ASTM International)
Office: 100 Barr Harbor Drive
West Conshohocken, PA 19428-2959
Contact: Corice Leonard
E-mail: cleonard@astm.org

This standard defines the mapping from traffic-type priority level (e.g., high, normal, best effort) to packet marking in the form of Diffserv Code points.

BSR ATIS 1000112-a.-200x, Subsystem Number Assignment Guidelines (supplement to ANSI ATIS 1000112-2005)
Stakeholders: Telecom Industry.

This addendum to ATIS 1000112-2005 specifies a range of ANSI-specific SS7 Subsystem Numbers and administrative procedures for requesting assignment of such code points.

BSR ATIS 1000607-a.-200x, Supplement to Integrated Services Digital Network (ISDN) - Layer 3 Signaling Specification for Circuit Switched Bearer Service for Digital Subscriber Signaling System Number 1 (DSS1) (supplement to ANSI T1.607-2000) (R2004))

Stakeholders: Telecom Industry.

This supplement to T1.607-2000 (R2004) addresses alignment of T1.607-2000 (R2004), with ITU-T Q.931 (05/1998), ISDN user-network interface layer 3 specification for basic call control.

BSR/BHMA A156.1-200x, Butts and Hinges (revision of ANSI/BHMA A156.1-2000)
Stakeholders: Building and construction.

This standard defines the mapping from traffic-type priority level (e.g., high, normal, best effort) to packet marking in the form of Diffserv Code points.

Stakeholders: Building and construction.
Project Need: Due for normal five-year revision cycle
Establishes requirements for lightweight, standard weight, heavy weight and detention hinges. Cycle tests, lateral and vertical wear tests, friction tests, strength tests, finish tests, and material and dimensional requirements are included.

ASTM (ASTM International)
Office: 100 Barr Harbor Drive
West Conshohocken, PA 19428-2959
Contact: Corice Leonard
E-mail: cleonard@astm.org

BSR/ASTM F659-200x, Standard Specification for Skier Goggles and Faceshields (new standard)
Project Need: Establishes requirements for lightweight, standard weight, heavy weight and detention hinges. Cycle tests, lateral and vertical wear tests, friction tests, strength tests, finish tests, and material and dimensional requirements are included.

ASTM (ASTM International)
Office: 100 Barr Harbor Drive
West Conshohocken, PA 19428-2959
Contact: Helene Skloff
E-mail: hskloff@astm.org; cleonard@astm.org

BSR/ASTM F2379Z-200x, Standard Specification for Warnings on Refillable CO2 Cylinders In the Sport of Paintball (new standard)
Project Need: To specify the minimum warnings and instructions that are to be provided on the CO2 cylinder itself.

BSR/BHMA A156.26-200x, Continuous Hinges (revision of ANSI/BHMA A156.26-2000)

Stakeholders: Building and construction.

Project Need: Due for normal five-year revision cycle

Establishes requirements for architectural continuous hinges used in building construction. Cycle, finish, abuse, overload, vertical wear, and strength tests are included.

EIA (Electronic Industries Alliance)

Office: 2500 Wilson Blvd., Suite 300
Arlington, VA 22201-3834

Contact: Cecelia Yates
Fax: (703) 907-7549
E-mail: cyates@ecaus.org

Stakeholders: Electrical, electronics and telecommunications

Project Need: To add a table of test conditions for test cycles, and make any other changes deemed necessary.

Determines the resistance of a given electrical connector or socket to exposure at extremes of high and low temperatures and to the shock of alternate exposures to these extremities simulating the worst probable conditions of storage, transportation and application.

ESTA (ASC E1) (Entertainment Services and Technology Association)

Office: 875 Sixth Avenue, Suite 1005
New York, NY 10001

Contact: Karl Ruling
Fax: (212) 244-1502
E-mail: kruling@esta.org

BSR E1.32-200x, Recommended Practice for the Inspection of Entertainment Industry Luminaires (new standard)

Stakeholders: Stage and studio electricians, theatre schools, lighting rental shops, producing theatres, theme parks.

Project Need: The project is needed to promote proper maintenance and safe use of stage and studio luminaires.

This document provides guidance in the inspection of stage and studio luminaires used in the entertainment industry. The information contained in this document is intended to supplement, not replace the information contained in manufacturers’ maintenance instructions.

IPC (IPC - Association Connecting Electronics Industries)

Office: 3000 Lakeside Drive Suite 309-S
Bannockburn, IL 60015

Contact: Jeanne Cooney
Fax: (847) 509-9798
E-mail: JeanneCooney@ipc.org

BSR/IPC 7351A-200x, Generic Requirements for Surface Mount Design and Land Pattern Standard (new standard)

Stakeholders: Electronics Manufacturing Services.

Project Need: To update land pattern naming conventions; to update lead-free acceptable land patterns; to update new component families.

Revision of the document to address new SMT component families such as Land Grid Array (LGA) packages and "pullback" QFN and SON packages. The revision will also address updates to the IPC-7351 land pattern naming convention and will incorporate modification to the Root-Mean-Square (RMS) calculations for determining "S" component dimensions.

SCTE (Society of Cable Telecommunications Engineers)

Office: 140 Phillips Road
Exton, PA 19341

Contact: Robin Fenton
E-mail: rfenton@scte.org

Stakeholders: Cable Telecommunications Industry.

Project Need: To update and revise current material.

This document defines the historical list of alarms detected by the transponder, as well as the SNMP trap generated for these alarms.

BSR/SCTE DVS 706-200x, Carriage of VBI Data in North American DTV Bitstreams (new standard)

Stakeholders: Cable Telecommunications Industry.

Project Need: A design of the carriage of existing analog Standard Definition (SD) video Vertical Blanking Interval signals to be carried in the digital cable MPEG-2 Transport Streams. The design shall permit the carriage of SD VBI data along with non-SD video formats during distribution.

BSR/SCTE DVS 723-200x, Advanced Video and Audio Codexs: Requirements for Advertisement Encoding and Insertion Splice Points (new standard)

Stakeholders: Cable Telecommunications Industry.

Project Need: Specify requirements within proposed advanced video and audio codec standards

Specifies requirements for digital advertising encoding and advertising insertion splice points within proposed advanced video and audio codec standards.

BSR/SCTE HMS 155-200x, VoIP Quality Measurements for HMS Transponders (new standard)

Stakeholders: Cable Telecommunications Industry.

Project Need: Creation of a standard for VoIP quality measurements

The standard will be an extension of the existing HMS standards created for transponders and is intended to provide operators with visibility into the health of voice traffic from the perspective of these widely deployed transponders. Possible data to be monitored includes Latency, Jitter, Packet Loss, and Dropped/Incomplete Tests.
BSR/TIA 102.BABB-1999 (R200x), Project 25 - Vocoder Mean Opinion Score Conformance Test (reaffirmation of ANSI/TIA 102.BABB-1999)

Stakeholders: Telecommunications Industry.

Project Need: The project satisfies the need to assure that a speech codec in any given piece of Project 25 Equipment is compliant with TIA/EIA-102.BABA.

This document details definitions and methods of measurement for test conformance of speech codecs used in APCO Project 25 Digital Land Mobile Radio Equipment to the reference speech codec defined for Project 25.
ISO and IEC Draft International Standards

This section lists proposed standards that the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) are considering for approval. The proposals have received substantial support within the technical committees or subcommittees that developed them and are now being circulated to ISO and IEC members for comment and vote. Standards Action readers interested in reviewing and commenting on these documents should order copies from ANSI.

Comments

Comments regarding ISO documents should be sent to Henrietta Scully at ANSI’s New York offices, those regarding IEC documents to Charles T. Zegers, also at ANSI New York offices. The final date for offering comments is listed after each draft.

Ordering Instructions

ISO and IEC Drafts can be made available via ANSI’s ESS “on-demand” service. Please e-mail your request for an ISO or IEC Draft to Customer Service at sales@ansi.org. The document will be posted to the ESS within 3 working days of the request. When making your request, please provide the date of the Standards Action issue in which the draft document you are requesting appears.

ISO Standards

ANAESTHETIC AND RESPIRATORY EQUIPMENT (TC 121)
ISO/DIS 5359, Low-pressure hose assemblies for use with medical gases - 5/10/2006, $93.00

BIOLOGICAL EVALUATION OF MEDICAL AND DENTAL MATERIALS AND DEVICES (TC 194)
ISO/DIS 10993-7, Biological evaluation of medical devices - Part 7: Ethylene oxide sterilization residuals - 5/10/2006, $155.00
ISO/DIS 10993-12, Biological evaluation of medical devices - Part 12: Sample preparation and reference materials - 5/10/2006, $71.00

DENTISTRY (TC 106)

WATER QUALITY (TC 147)

IEC Standards

15/299/FDIS, IEC 60464-3-2 A1 Ed. 2.0: Varnishes used for electrical insulation - Part 3: Specifications for individual materials - Sheet 2: Hot curing impregnating varnishes, 04/07/2006
15/300/FDIS, IEC 61033 A1 Ed. 1.0: Test methods for the determination of bond strength of impregnating agents to an enameled wire substrate, 04/07/2006
61/2996/FDIS, IEC 60335-1-A2 Ed 4.0: Household and similar electrical appliances - Safety - Part 1: General requirements, 04/07/2006
90/184/FDIS, IEC 61788-3 Ed.2: Superconductivity - Part 3: Critical current measurement - DC critical current of Ag- and/or Ag alloy-sheathed Bi-2212 and Bi-2223 oxide superconductors, 04/07/2006
23B/814/FDIS, IEC 60670-23 Ed. 1: Boxes and enclosures for electrical accessories for household and similar fixed electrical installations - Part 23: Particular requirements for floor boxes and enclosures, 03/31/2006
23E/599/FDIS, Amendment 2 to IEC 61008-1: Residual current operated circuit-breakers without integral overcurrent protection for household and similar uses (RCCBs) - Part 1: General rules, 03/31/2006
23E/600/FDIS, Amendment 2 to IEC 61009-1: Residual current operated circuit-breakers with integral overcurrent protection for household and similar uses (RCCBs) - Part 1: General rules, 03/31/2006
34B/1225/FDIS, IEC 60601: Lamp caps and holders together with gauges for the control of interchangeability and safety - Part 1: Lamp caps - Amendment 37, 03/31/2006
34B/1226/FDIS, IEC 60601: Lamp caps and holders together with gauges for the control of interchangeability and safety - Part 2: Lampholders - Amendment 34, 03/31/2006
34B/1227/FDIS, IEC 60601: Lamp caps and holders together with gauges for the control of interchangeability and safety - Part 3: Gauges - Amendment 36, 03/31/2006
34B/1228/FDIS, IEC 60601: Lamp caps and holders together with gauges for the control of interchangeability and safety - Part 4: Guidelines and general information - Amendment 4, 03/31/2006
46A/797/FDIS, IEC 62153-4-7: Metallic communication cable test methods - Part 4-7: Electromagnetic compatibility (EMC) - Test method for measuring the transfer, 03/31/2006
51/848/FDIS, IEC 60205 Ed.3: Calculation of the effective parameters of magnetic piece parts, 03/31/2006
51/850/FDIS, IEC 60556 Ed.2: Gyromagnetic materials intended for application at microwave frequencies - Measuring methods for properties, 03/31/2006

ISO Standards

ISO/DIS 5359, Low-pressure hose assemblies for use with medical gases - 5/10/2006, $93.00

23B/814/FDIS, IEC 60670-23 Ed. 1: Boxes and enclosures for electrical accessories for household and similar fixed electrical installations - Part 23: Particular requirements for floor boxes and enclosures, 03/31/2006

Ordering Instructions

61/2995/FDIS, IEC 60335-2-14 Ed 5.0: Household and similar
electrical appliances - Safety - Part 2-14: Particular requirements for
kitchen machines, 03/31/2006

61F/633/FDIS, IEC 60745-2-14-A1 Ed 2.0: Hand-held motor-operated
electric tools - Safety - Part 2-14: Particular requirements for planers,
03/31/2006

100/1061/FDIS, IEC 61966-7-1: Multimedia systems and equipment -
Colour measurement and management - Part 7-1: Colour printers -
Reflective prints - RGB inputs, 03/31/2006
Newly Published ISO Standards

Listed here are new and revised standards recently approved and promulgated by ISO - the International Organization for Standardization. Most are available at the ANSI Electronic Standards Store (ESS) at www.ansi.org. All paper copies are available from Global Engineering Documents.

AGRICULTURAL FOOD PRODUCTS (TC 34)

ISO 8132:2006, Hydraulic fluid power - Single rod cylinders, 16 MPa (160 bar) medium and 25 MPa (250 bar) series - Mounting dimensions for accessories, $58.00
ISO 8133:2006, Hydraulic fluid power - Single rod cylinders, 16 MPa (160 bar) compact series - Mounting dimensions for accessories, $52.00

FREIGHT CONTAINERS (TC 104)

GRAPHIC TECHNOLOGY (TC 130)

ISO 12637-1:2006, Graphic technology - Vocabulary - Part 1: Fundamental terms, $53.00

INFORMATION AND DOCUMENTATION (TC 46)

ISO 3785:2006, Mechanical testing of metals - Determination of the resistance to internal pressure - Part 2: Preparation of pipe test pieces, $33.00

ISO 10524-1:2006, Pressure regulators for use with medical gases - Emission test chamber method, $46.00

ISO 16134:2006, Earthquake- and subsidence-resistant design of ductile iron pipelines, $98.00

FLUID POWER SYSTEMS (TC 131)

ISO 6022:2006, Hydraulic fluid power - Mounting dimensions for single rod cylinders, 25 MPa (250 bar) series, $62.00

ISO 10129:2006, Plain bearings - Testing of bearing metals - Resistance to corrosion by lubricants under static conditions, $40.00

ISO 10524-1:2006, Pressure regulators for use with medical gases - Emission test chamber method, $146.00

ISO 17499:2006, Carbonaceous materials used in the production of aluminium - Determination of baking level expressed by equivalent temperature, $40.00

ISO 10129:2006, Plain bearings - Testing of bearing metals - Resistance to corrosion by lubricants under static conditions, $40.00

ISO 12078:2006, Anhydrous milk fat - Determination of sterol composition by gas liquid chromatography (Routine method), $62.00

ISO 16000-9:2006, Indoor air - Part 9: Determination of the emission of volatile organic compounds from building products and furnishing - General requirements and definitions, $67.00

ISO 16432:2006, Resistance welding - Procedure for projection welding of uncoated and coated low carbon steels using embossed projection(s), $67.00

ISO 22870:2006, Point-of-care testing (POCT) - Requirements for quality and competence, $58.00

ISO 24276:2006, Foodstuffs - Methods of analysis for the detection of genetically modified organisms and derived products - General quality and competence, $58.00

ISO 12637-1:2006, Graphic technology - Vocabulary - Part 1: Fundamental terms, $53.00

ISO 1785:2006, Metallic materials - Designation of test specimen axes in relation to product texture, $46.00

ISO 14880-2:2006, Optics and photonics - Microlens arrays - Part 2: Test methods for wavefront aberrations, $88.00

ISO 10129:2006, Plain bearings - Testing of bearing metals - Resistance to corrosion by lubricants under static conditions, $40.00

ISO 20652:2006, Space data and information transfer systems - Aircraft and space vehicles (TC 20)

ISO 10524-1:2006, Pressure regulators for use with medical gases - Emission test chamber method, $146.00

ISO 13637-1:2006, Graphic technology - Vocabulary - Part 1: Fundamental terms, $53.00

ISO 12637-1:2006, Graphic technology - Vocabulary - Part 1: Fundamental terms, $53.00

ISO 12637-1:2006, Graphic technology - Vocabulary - Part 1: Fundamental terms, $53.00

ISO 18252:2006, Anhydrous milk fat - Determination of sterol composition by gas liquid chromatography (Reference method), $67.00

ISO 18252:2006, Anhydrous milk fat - Determination of sterol composition by gas liquid chromatography (Routine method), $62.00

ISO 1167-1:2006, Thermoplastics pipes, fittings and assemblies for the transport of fluids (TC 138)

ISO 1167-2:2006, Thermoplastics pipes, fittings and assemblies for the conveyance of fluids - Determination of the resistance to internal pressure - Part 1: General method, $46.00

ISO 1167-2:2006, Thermoplastics pipes, fittings and assemblies for the conveyance of fluids - Determination of the resistance to internal pressure - Part 2: Preparation of pipe test pieces, $33.00

ISO 10129:2006, Plain bearings - Testing of bearing metals - Resistance to corrosion by lubricants under static conditions, $40.00

ISO 16000-10:2006, Indoor air - Part 10: Determination of the emission of volatile organic compounds from building products and furnishing - Emission test cell method, $71.00

ISO 16000-11:2006, Indoor air - Part 11: Determination of the emission of volatile organic compounds from building products and furnishing - Sampling, storage of samples and preparation of test specimens, $58.00

ISO 10129:2006, Plain bearings - Testing of bearing metals - Testing of the external restraint (longitudinal) dynamic, $13.00
PLASTICS (TC 61)

ISO 4892-2:2006, Plastics - Methods of exposure to laboratory light sources - Part 2: Xenon-arc lamps, $53.00

RUBBER AND RUBBER PRODUCTS (TC 45)

ISO 35/Amd1:2006, Rubber latex, natural - Determination of mechanical stability - Amendment 1: Precision data, $13.00
ISO 124/Amd1:2006, Rubber latices - Determination of total solids content - Amendment 1: Precision data, $13.00
ISO 127/Amd1:2006, Natural rubber latex - Determination of KOH number - Amendment 1: Precision data, $13.00
ISO 976/Amd1:2006, Rubber latices - Determination of pH - Amendment 1: Precision data, $13.00
ISO 2005/Amd1:2006, Natural rubber latex - Determination of sludge content - Amendment 1: Precision data, $13.00
ISO 11345:2006, Rubber - Assessment of carbon black and carbon black/silica dispersion - Rapid comparative methods, $88.00

SOIL QUALITY (TC 190)

ISO 23611-1:2006, Soil quality - Sampling of soil invertebrates - Part 1: Hand-sorting and formalin extraction of earthworms, $58.00
ISO 23611-2:2006, Soil quality - Sampling of soil invertebrates - Part 2: Sampling and extraction of micro-arthropods (Collembola and Acarina), $58.00

TEXTILES (TC 38)

ISO 15496/Cor1:2006, Textiles - Measurement of water vapour permeability of textiles for the purpose of quality control - Corrigendum, FREE

WATER QUALITY (TC 147)

ISO 23631:2006, Water quality - Determination of dalapon, trichloroacetic acid and selected haloacetic acids - Method using gas chromatography (GC-ECD and/or GC-MS detection) after liquid-liquid extraction and derivatization, $88.00

ISO Technical Specifications

AGRICULTURAL FOOD PRODUCTS (TC 34)

ISO/TS 19036:2006, Microbiology of food and animal feeding stuffs - Guidelines for the estimation of measurement uncertainty for quantitative determinations, $71.00
ISO/TS 22964:2006, Milk and milk products - Detection of Enterobacter sakazakii, $62.00

ISO/IEC JTC 1, Information Technology

ISO/IEC 10116:2006, Information technology - Security techniques - Modes of operation for an n-bit block cipher, $112.00
Proposed Foreign Government Regulations

Call for Comment

U.S. manufacturers, exporters, regulatory agencies and standards developing organizations may be interested in proposed foreign technical regulations issued by Member countries of the World Trade Organization (WTO). In accordance with the WTO Agreement on Technical Barriers to Trade (TBT Agreement), Members are required to report proposed technical regulations that may significantly affect trade to the WTO Secretariat in Geneva, Switzerland. In turn, the Secretariat disseminates the information to all WTO Members. The purpose of this requirement is to provide global trading partners with an opportunity to review and comment on the regulations before they become final.

The National Center for Standards and Certification Information (NCSCI) at the National Institute of Standards and Technology (NIST), distributes these proposed foreign technical regulations to U.S. stakeholders via an online service, Notify U.S. Notify U.S. is an e-mail and Web service that allows interested U.S. parties to register, obtain notifications, and read full texts of regulations from countries and for industry sectors of interest to them. To register for Notify U.S., please go to Internet URL: http://www.nist.gov/notifyus/ and click on “Subscribe”.

NCSCI is the WTO TBT Inquiry Point for the U.S. and receives all notifications and full texts of regulations to disseminate to U.S. Industry. For further information, please contact: NCSCI, NIST, 100 Bureau Drive, Gaithersburg, MD 20899-2160; Telephone: (301) 975-4040; Fax: (301) 926-1559; E-mail: ncsci@nist.gov or notifyus@nist.gov.
Information Concerning

ANSI Accredited Standards Developers

Approval of Reaccreditation

American Nuclear Society (ANS)

ANSI’s Executive Standards Council has approved the reaccreditation of the American Nuclear Society (ANS) using revised operating procedures for documenting consensus on proposed American National Standards, effective February 8, 2006. For additional information, please contact: Ms. Patricia Schroeder, Standards Administrator, American Nuclear Society, 555 North Kensington Avenue, La Grange Park, IL 60526-5592; PHONE: (703) 352-6611; E-mail: PSchroeder@ans.org.

National Council for Prescription Drug Programs (NCPDP)

ANSI’s Executive Standards Council (ExSC) has approved the reaccreditation of the National Council for Prescription Drug Programs (NCPDP) using revised operating for documenting consensus on proposed American National Standards, effective February 2, 2006. For additional information, please contact: Ms. Kittye Krempin, Standards Advisor, National Council for Prescription Drug Programs, 9240 East Raintree Drive, Scottsdale, AZ 85260; PHONE: (512) 291-1356; E-mail: kkrempin@ncpdp.org.

International Organization for Standardization (ISO)

Assignment of International Subcommittee Secretariat

ISO/TC 119/SC 5 – Powder metallurgy - Specifications for powder metallurgical materials (excluding hardmetals)

Comment Deadline: March 13, 2006

ANSI has been advised that the British Standards Institution (BSI) no longer wishes to serve as Secretariat for ISO/TC 119/SC 5. ASTM has requested to serve as the delegated US Secretariat for this Subcommittee.

The scope of ISO/TC 119 is as follows:

Standardization of powder metallurgical materials concerning terms and definitions, sampling, testing methods and materials specifications.

Anyone wishing to comment on the above appointment, please contact Henrietta Scully via email: hscully@ansi.org; mail: c/o ANSI, 25 West 43rd Street, New York, NY 10036; or fax to (212) 730-1346 by March 13, 2006.

International Electrotechnical Commission (IEC)

The U S National Committee Registers Five IEC TCs/SCs as Non-Members

At its meeting on January 4, 2006, the USNC/IEC Technical Management Committee voted to disband five Technical Advisory Groups because two of them did not have assigned TAG Administrators, a requirement of the USNC’s Statutes and Rules of Procedures, and three did not meet the minimum requirement for viability of three voting members. As a result, the USNC has changed its registration on the following Committees from Participating Member to Non-Member. The IEC TCs/SCs are as follows:

IEC/SC 22E - Power electronic systems and equipment/Stabilized power supplies

Scope: To prepare international standards for all aspects of low voltage stabilized d.c. power supplies, up to 30 kW. This includes amongst others: EMC, safety, system aspects, specifications and performance and specific vocabulary.

IEC/SC 36A - Insulators/Insulated bushings

Scope: Standardization of insulated bushings, and of couplings of these insulators.

IEC/TC 39 - Electronic tubes

Scope: To prepare standards relating to electronic tubes including integrated components and/or circuits, but excluding X-ray tubes. This includes accessories in regard to their compatibility aspects.

IEC/SC 61B - Safety of household and similar electrical appliances/Safety of microwave ovens

Scope: To prepare international safety standards for microwave ovens.

IEC/TC 97 - Electrical installations for lighting and beaconing of aerodromes

Scope: To prepare international standards for design, installation, operation and maintenance of aeronautical ground lighting of aerodromes. The activity covers requirements that apply to the whole system from the incoming power to the aerodrome up to and including the luminaires used in aeronautical ground lighting.

Anyone interested in any of these areas is invited to contact the following for additional information: Charles T Zegers, General Secretary, USNC/IEC, PHONE: (212) 642 4965; FAX: (212) 730 1346; E-Mail: czegers@ansi.org.
U.S. Technical Advisory Groups

Transfer of U.S. TAG Administrator

U.S. TAG to ISO/TC 222 – Personal Financial Planning

Effective January 1, 2006, the U.S. TAG to ISO/TC 222, Personal Financial Planning, has approved the transfer of its TAG Administrator responsibilities from the Certified Financial Planning Board to Diesslin & Associates, Inc. For additional information, please contact: Ms. Deena Jo Heide-Diesslin, Diesslin & Associates, Inc., 303 Mail Street, 2nd Floor, Fort Worth, TX 76102; PHONE: (817) 332-6122; FAX: (817) 335-4839; E-mail: deena@diesslin.com.

Meeting Notices

ASC Z80 – Ophthalmic Standards

Accredited Standards Committee Z80 on Ophthalmic Standards will hold its Spring meeting on February 27 and 28 at the Sheraton Suites Plantation, 311 North University Drive, Plantation, FL 33324. For reservations and further information, contact Kris Dinkle of OLA, PHONE: (800) 477-5652; E-mail: kdinkle@ola-labs.org.

I3A Technical Forum at PMA 2006

Going Raw: Is a Standard Raw Format Image Possible? Find out during I3A’s Technical Forum at PMA in Orlando later this month, sponsored by Fuji Photo Film, U.S.A., Inc. The forum will take place on Monday, February 27th from 8:30 am – 12 noon at the Orange County Convention Center, Level 2 – Room 204 AB. Industry experts from Hewlett-Packard Company, Adobe Systems Incorporated, Microsoft Corporation, DxO Labs and American Society of Media Photographers will explore the future development of RAW file data, and debate the possibility of an open RAW format. Please send your RSVP to Shannon Taylor at staylor@i3a.org.
7.2.2 Test methods for pesticides in *Panax ginseng* and *Panax quinquefolius*

Products containing *Panax ginseng* or *Panax quinquefolius* shall be evaluated based on the FDA Pesticide Monitoring Procedure using GC with Mass Selective Detection and Selective Ion Monitoring method or the trade association validated method, for the presence of the following pesticides:

<table>

Substantive Change for UL 62

**Thermoplastic elastomer (TPE)** – a thermoplastic that complies with the deformation test in Clause 5.1.3 for compound classes 14, 15, 16, 1.9, 1.10, 1.11 and the heat-shock resistance tests described in Clauses 5.1.3 and 5.1.8 for TPE materials.
BSR/UL 2255

PROPOSAL

7.1 A receptacle closure shall employ an insulating material with the following minimum ratings:

a) Hardness of 70 or greater on the Shore Durometer D scale (when measured for 5 seconds at an ambient temperature of 23 ±2°C [73.4 ±3.6°F]);

b) Flame class of HB;

c) Relative thermal index (RTI) ratings of 60°C for the electrical, mechanical with impact and mechanical without impact parameters;

d) Minimum dielectric strength of 5000 V/kv/mm at the use thickness; and

e) Hot-wire ignition (HWI) ratings based upon the flame class of the material as shown in Table 7.1.

Exception: An insulating material is not required to comply with the HWI requirements when it complies with the Glow-Wire End-Product Test at 750°C as described in the Standard for Polymeric Materials-Use in Electrical Equipment Evaluations, UL 746C. The glow-wire probe shall not be applied to the closure directly behind either of the closure blades during the test.
