American National Standards

Call for comment on proposals listed

This section solicits public comments on proposed draft new American National Standards, including the national adoption of ISO and IEC standards as American National Standards, and on proposals to revise, reaffirm or withdraw approval of existing American National Standards. A draft standard is listed in this section under the ANSI-accredited standards developer (ASD) that sponsors it and from whom a copy may be obtained. Comments in connection with a draft American National Standard must be submitted in writing to the ASD no later than the last day of the comment period specified herein. Such comments shall be specific to the section(s) of the standard under review and include sufficient detail so as to enable the reader to understand the commenter's position, concerns and suggested alternative language, if appropriate. Please note that the ANSI Executive Standards Council (ExSC) has determined that an ASD has the right to require that interested parties submit public review comments electronically.

Ordering Instructions for “Call-for-Comment” Listings

1. Order from the organization indicated for the specific proposal.
2. Use the full identification in your order, including the BSR prefix; for example, Electric Fuses BSR/SAE J554.
3. Include remittance with all orders.
4. BSR proposals will not be available after the deadline of call for comment.

Comments should be addressed to the organization indicated, with a copy to the Board of Standards Review, American National Standards Institute, 25 West 43rd Street, New York, NY 10036. Fax: 212-840-2298; e-mail: psa@ansi.org

Comment Deadline: June 23, 2008

APCO (Association of Public-Safety Communications Officials-International)

New Standards

BSR/APCO ANS 1.103.1-200x, Wireless 9-1-1 Deployment and Management Effective Practices Guide (new standard)

These Effective Practices (EP) are designed to increase the PSAP Managers' understanding of the technology application and the ability to better manage wireless calls, as well as public and responder expectations. Subject Matter Experts and wireless service providers discussed the testing results, trends, anomalies, and analyzed the actual performance, resulting in the jointly developed EPs. This Guide includes rationale and provides background for each EP, outlines the recommended practice and provides resources to assist the PSAP Manager.

Single copy price: N/A
Obtain an electronic copy from: www.apcostandards.org or apcostandards@apcointl.org
Order from: Amanda Byrd, APCO; byrda@apco911.org
Send comments (with copy to BSR) to: apcostandards@apcointl.org

ASTM (ASTM International)

The URL to search for scopes of ASTM standards is:
http://www.astm.org/dsearch.htm

For reaffirmations and withdrawals, order from: Customer Service, ANSI
For new standards and revisions, order from: Corice Leonard, ASTM ; cleonard@astm.org
For all ASTM standards, send comments (with copy to BSR) to: Corice Leonard, ASTM ; cleonard@astm.org

New Standards

BSR/ASTM E2628-200x, Practice for Dosimetry in Radiation Processing (new standard)

Single copy price: $36.00

Revisions

Single copy price: $36.00

ATIS (ASC O5) (Alliance for Telecommunications Industry Solutions)

New Standards

BSR ATIS 1000029-200x, NGN Security Requirements (new standard)
Provides network-based security of end-user communications across multiple-network administrative domains. Security of customer assets and information in the customer domain, and the use of peer-to-peer application capabilities on customer equipment are not within the scope of this standard.

Single copy price: $96.00
Obtain an electronic copy from: kconn@atis.org
Order from: Kerrianne Conn, ATIS; kconn@atis.org
Send comments (with copy to BSR) to: Same

Revisions

BSR O5.1-200x, Specifications and Dimensions (revision, redesignation and consolidation of ANSI O5.1-2002 and ANSI O5.1c-2004)
Provides minimum specifications for the quality and dimensions of wood poles that are to be used in single-pole utility structures.

Single copy price: $108.00
Obtain an electronic copy from: kconn@atis.org
Order from: Kerrianne Conn, ATIS; kconn@atis.org
Send comments (with copy to BSR) to: Same

BSR O5.3-200x, Solid Sawn-Wood Crossarms and Braces - Specifications and Dimensions (revision of ANSI O5.3-2002)
Consists of specifications covering solid sawn-wood crossarms and braces manufactured from coastal Douglas-fir, loblolly pine, and slash pine. The specifications are intended to cover communication crossarms, power crossarms, heavy-duty crossarms, and heavy-duty braces.

Single copy price: $96.00
Obtain an electronic copy from: kconn@atis.org
Order from: Kerrianne Conn, ATIS; kconn@atis.org
Send comments (with copy to BSR) to: Same

AWS (American Welding Society)

New Standards

BSR/AWS G2.3M/G2.3-200x, Guide for the Joining of Wrought Solid Solution Austenitic Stainless Steels (new standard)
Provides a description of wrought solid solution austenitic stainless steels and the processes and procedures that can be used for the joining of these materials. This standard discusses the welding processes and welding parameters, qualifications, inspection and repair methods, cleaning and safety considerations. Practical information has been included in the form of figures, tables, and graphs which should prove useful in determining capabilities and limitations in the joining of austenitic stainless steels. A safety clause is included.

Single copy price: $54.50
Obtain an electronic copy from: roneill@aws.org
Order from: Rosalinda O'Neill, AWS; roneill@aws.org
Send comments (with copy to BSR) to: Andrew Davis, AWS; adavis@aws.org

BSR ATIS 1000028-200x, Wire Device (SIP UA) to Network Interface Standard (new standard)
Bases the specification of the SIP UA in this document on a standard SIP User Agent (UA) connected to a Service Provider Network composed of standard SIP components (SIP proxies, etc.). Depending on the scenario, the SIP US can interact directly with an Application Server, or with another SIP UA via SIP Application Server. The SIP implements standard SIP session control mechanisms for initiating sessions, and for responding to invites from another SIP UA or Application Server. Services are implemented in the SIP UA, in the Application Server or in a combination of the SIP UA and Application Server.

Single copy price: $130.00
Obtain an electronic copy from: kconn@atis.org
Order from: Kerrianne Conn, ATIS; kconn@atis.org
Send comments (with copy to BSR) to: Same
Standards Action - May 9, 2008 - Page 3 of 22 Pages

CSA (3) (CSA America, Inc.)

Revisions
Details test and examination criteria for fuel gas piping systems, using corrugated stainless steel tubing, intended for installation in residential or commercial buildings, and including all components supplied or specified by the manufacturer to convey and control fuel gas to all appliances served.
Single copy price: $75.00
Obtain an electronic copy from: al.callahan@csa-america.org
Order from: Allen Callahan, CSA; al.callahan@csa-america.org
Send comments (with copy to BSR) to: Same

ISA (ISA)

Addenda
BSR/ISA 61010-1-200X, Safety Requirements for Electrical Equipment or Measurement Control, and Laboratory Use - Part 1: General Requirements (addenda to ANSI/ISA 61010-1 (82.02.01), CSA-C22.2, No. 1010-1, UL-61010-1:2004)
The proposal to include new multifunction meter requirements did not receive US support but was approved in Canada. The text is proposed to be published in the ISA and UL versions of the standard in order to maintain the standard’s harmonized status.
Single copy price: $150.00
Obtain an electronic copy from: ebeattie@isa.org
Order from: Eliana Beattie, ISA (Organization); ebeattie@isa.org
Send comments (with copy to BSR) to: Same

ISEA (International Safety Equipment Association)

Revisions
Provides minimum requirements for respiratory protective escape devices that provide limited protection for 15 minutes for adult civilian escape from the byproducts of fire, including particulate matter, carbon monoxide, other toxic gases, and the effects of radiant heat.
Single copy price: $30.00
Obtain an electronic copy from: Cristine Fargo, ISEA; cfargo@safetyequipment.org
Order from: Cristine Fargo, ISEA; cfargo@safetyequipment.org

NEMA (ASC C18) (National Electrical Manufacturers Association)

**Revisions**

Applies to portable lithium primary cells and batteries and includes the following electrochemical systems:
(a) Lithium/carbon monofluoride;
(b) Lithium/manganese dioxide; and
(c) Lithium/ion disulfide.
The purpose of this publication is:
(a) To ensure the electrical and physical interchangeability of products from different manufacturers;
(b) To minimize proliferation of cell and battery types;
(c) To define a standard of performance and provide guidance for its assessment; and
(d) To provide guidance to consumers, manufacturers, and designers.

Single copy price: $75.00

UL (Underwriters Laboratories, Inc.)

**Revisions**

BSR/UL 758-200x, Appliance Wiring Material (revision of ANSI/UL 758-2008)
Covers Appliance Wiring Material (AWM) in the form of single-insulated conductors, multi-conductor cables, optical fibers, individual insulated conductors, and fiber optic members for use as components in multi-conductor cables. The AWM covered by the requirements of this Standard are solely for use as factory-installed wiring either within the overall enclosure of appliances and other equipment (internal wiring) or as external interconnecting cable for appliances (external wiring), or for further processing as components in multi-conductor cables.

Send comments (with copy to BSR) to: Linda Phinney, UL-SC, Linda.L.Phinney@us.ul.com

BSR/UL 1012-200x, Standard for Safety for Power Units Other Than Class 2 (Proposal dated 5-9-08) (revision of ANSI/UL 1012-2005)
Proposal topics include:
(1) power supplies for use by travelers;
(2) output connectors;
(3) modular units;
(4) connection of grounding conductors;
(5) overcurrent protection;
(6) measured input current;
(7) outdoor use;
(8) foreign voltage adapters; and
(9) editorial revisions.

BSR/UL 2239-200x, Hardware for the Support of Conduit, Tubing, and Cable (revision of ANSI/UL 2239-2004)

Covers:
(1) Revision to update Normative References in clause 2;
(2) Addition of new definition for positioning device;
(3) Clarification that all devices are to be subjected to mechanical tests in clause 5.1.3;
(4) Deletion of the option for the carbon-arc test method in the resistance to the ultraviolet light and water test;
(5) Clarification of ISO test method references in clauses 6.4.5.4 and 6.8.2;
(6) Editorial correction to clause 7.2.1(c); and
(7) Revision of marking requirement in clause 10.8 to add option for classification codes.

Project Initiation Notification System (PINS)

ANSI Procedures require notification of ANSI by ANSI-accredited standards developers (ASD) of the initiation and scope of activities expected to result in new or revised American National Standards (ANS). Early notification of activity intended to reaffirm or withdraw an ANS and in some instances a PINS related to a national adoption is optional. The mechanism by which such notification is given is referred to as the PINS process. For additional information, see clause 2.4 of the ANSI Essential Requirements: Due Process Requirements for American National Standards.

Following is a list of proposed actions and new ANS that have been received recently from ASDs. Please also review the section in Standards Action entitled "American National Standards Maintained Under Continuous Maintenance" for additional or comparable information with regard to standards maintained under the continuous maintenance option. To view information about additional standards for which a PINS has been submitted and to search approved ANS, please visit www.NSSN.org, which is a database of standards information. Note that this database is not exhaustive.

Directly and materially affected interests wishing to receive more information or to submit comments are requested to contact the standards developer directly within 30 days of the publication of this announcement.

Stakeholders: School administrators, purchasing agents, school architects and designers, teachers and parents.

Project Need: To inform school administrators, purchasing agents, school architects and designers, teachers and parents about the problem of noise caused by portable classroom equipment (including IT equipment), and the solutions to the problem.

Develops a new part to ANSI S12.60 to cover IT equipment with
(1) recommended sound power criteria for IT equipment in classrooms;
(2) recommendations for purchase specification format; and
(3) recommendations for installation conditions of IT equipment.

ASA (ASC S2) (Acoustical Society of America)
Office: 35 Pinelawn Road Suite 114E
Melville, NY 11747
Contact: Susan Blaeser
Fax: (631) 390-0217
E-mail: sblaeser@aip.org; asastds@aip.org

BSR/ASA S2.74-200x, Guide for the Measurement and Health and Comfort Evaluation of Human Exposure to Whole-Body Vibration (new standard)
Stakeholders: Medical community, engineers, employers whose employees are subjected to mechanical vibration in the workplace.

Project Need: To provide information about the risks associated with exposure to whole-body vibration or to provide guidance on assessing the potential for such exposure to result in pathology.

Specifies the recommended method for the measurement, data analysis and evaluation, health risk and comfort assessments, and reporting of whole-body vibration (WBV) exposure. The methods specified in this standard are to be used to characterize and evaluate vibration impinging on the human body through contact with a supporting surface. Guidance is provided for assessing health risk and comfort related to WBV exposure.

ASABE (American Society of Agricultural and Biological Engineers)
Office: 2950 Niles Road
St Joseph, MI 49085
Contact: Carla VanGilder
E-mail: vangilder@asabe.org

Stakeholders: Engineers, educators, and manufacturers involved in controlled environment agriculture.

Project Need: To update the standard in order to address materials, technologies, and design strategies associated with heating, ventilating and cooling of greenhouses.

Presents design information for heating, ventilating and cooling greenhouses. Generally accepted methods of heating, ventilating and cooling are presented and the important design features of typical systems are indicated.

ASC X9 (Accredited Standards Committee X9, Incorporated)
Office: 1212 West Street, Suite 200
Annapolis, MD 21401
Contact: Janet Busch
Fax: (410) 267-0961
E-mail: janet.busch@x9.org

BSR X9.116-1, ISO 20022-1-200x, Financial services - UNIversal Financial Industry message scheme - Part 1: Overall methodology and format specifications for inputs and outputs from ISO 20022 repository (identical national adoption of ISO 20022-1) Stakeholders: Financial services industry, including payment processing, securities and trade services.

Project Need: To facilitate the widespread implementation of ISO 20022 for use in payments, securities, and trade business domains.

Consists of:
- the overall description of the modelling approach;
- the overall description of the ISO 20022 Repository contents;
- a high-level description of the input to be accepted by the Registration Authority to feed/modify the Repository's Data Dictionary and Business Process Catalogue; and
- a high-level description of the Repository output that is to be made publicly available by the Registration Authority.

ISO-20022-compliant Business Transactions and Message Sets can be used for electronic data interchange amongst any industry participants (financial and others), independently of any specific communication network.
BSR X9.116-2, ISO 20022-2:200x, Financial services - UniVerse
Financial Industry message scheme - Part 2: Roles and
responsibilities of the registraton bodies (identical national adoption
of ISO 20022-2)

Stakeholders: Financial services industry, including payment
processing, securities and trade services.
Project Need: To facilitate the widespread implementation of ISO
20022 for use in payments, securities, and trade business domains.

Covers three grades of Pyrolsis Liquid Biofuel suitable for use in gas
turbines and various types of direct-fired heat applications.

BSR/ASTM Z3913Z/WK15564-200x, Specification for Pyrolysis Liquid
Biofuel (new standard)

Stakeholders: Petroleum products and lubricants industry.
Project Need: To provide product awareness and quality control. It
will be used for product selection and analysis by producers and
consumers.

Provides means to characterize ceramic capacitors electrically and mechanically by use of type designators

BSR/ASQ Z1.11-200x, Quality assurance standards - Guidelines for the
application of ANSI/ISO/ASQ Q9001-2000 to education and training
institutions (new standard)

Stakeholders: Government, academia.
Project Need: To revise ANSI/ASQ Z1.11.

Provides means to characterize ceramic capacitors in education and training institutions.

ASTM (ASTM International)

Office: 100 Barr Harbor Drive
West Conshohocken, PA 19428-2959

Contact: Jeff Richardson
Fax: 610-834-7067
E-mail: jrichard@astm.org

BSR/ASTM Z39132WK15564-200x, Specification for Pyrolysis Liquid
Biofuel (new standard)

Stakeholders: Petroleum products and lubricants industry.
Project Need: To provide product awareness and quality control. It
will be used for product selection and analysis by producers and
consumers.

Provides means to characterize ceramic capacitors electrically and mechanically by use of type designators
ITI (INCITS) (InterNational Committee for Information Technology Standards)

         sarah@scaffold.org
BSR/SIA A92.2-200x, Vehicle-Mounted Elevating and Rotating Aerial
Devices (revision of ANSI/SIA A92.2-2001)
      Stakeholders: Manufacturers, dealers, installers, maintenance
      personnel, operators.
      Project Need: To revise a previously approved A92.2 ANS.
Applies to the establishment of criteria for design, manufacture, testing,
inspection, installation, maintenance, use, training, and operation of
vehicle-mounted aerial devices, primarily used to position personnel,
installed on a chassis to achieve the following objectives:
(1) Prevention of personal injuries and accidents;
(2) Uniformity in ratings; and
(3) Understanding by manufacturers, dealers, installers, maintenance
personnel, operators, owners and users of their respective
responsibilities.

TCIA (ASC A300) (Tree Care Industry Association)
Office: 3 Perimeter Road - Unit 1
         Manchester, NH  03103
Contact: Robert Rouse
         Fax: (603) 314-5386
         Rouse@tcia.org
BSR A300 (Part 2)-200x, Tree Care Operations - Tree, Shrub, and
Other Woody Plant Maintenance - Standard Practices - Part 2:
Fertilization (revision of ANSI A300 (Part 1)-2008)
      Stakeholders: Tree care industry, green industry, arborists, land care
      industry, urban planners, landscape architects.
      Project Need: To review and incorporate changes in industry
      standard practices, as appropriate, since the last revision of this
      standard.
Provides a guide in the drafting of fertilization specifications for
consumers as well as federal, state, municipal, and private authorities
including property owners, property managers, and utilities. A300 (Part
2) Fertilization standards are performance standards for the fertilization
of trees, shrubs, and other woody plants.

BSR A300 (Part 9)-200x, Tree Care Operations - Tree Care Operations
- Tree, Shrub, and Other Woody Plant Management - Standard
Practices - Part 9: Risk Assessment (new standard)
      Stakeholders: Tree care industry, green industry, arborists, land care
      industry, urban planners, landscape architects.
      Project Need: To provide a standard for green industry professionals
conducting assessments of a tree's potential to cause harm. TCIA's
intent is to develop standard practices to use as a guide when
assessing tree risk.
Provides a guide in the drafting of maintenance specifications for
federal, state, municipal, and private authorities including property
owners, property managers, and utilities. A300 standards are
performance standards for the care and maintenance of trees, shrubs,
and other woody plants. A300 (Part 9)-200x, Risk Assessment, will
provide standard practices for evaluation of trees, specifically, the
various defects and conditions that affect a tree's potential to cause
damage and/or injury.
American National Standards Maintained Under Continuous Maintenance

The ANSI Essential Requirements: Due Process Requirements for American National Standards provide two options for the maintenance of American National Standards (ANS): periodic maintenance (see clause 4.7.1) and continuous maintenance (see clause 4.7.2). Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with the procedures contained in the ANSI Essential Requirements.

The Executive Standards Council (ExSC) has determined that for standards maintained under the Continuous Maintenance option, separate PINS announcements are not required. The following ANSI Accredited Standards Developers have formally registered standards under the Continuous Maintenance option.

- AAMI
- AAMVA
- AGA
- AGRSS, Inc.
- ASHRAE
- ASME
- ASTM
- MHI (ASC MH10)
- NBBPV1
- NCPDP
- NSF International
- TIA
- Underwriters Laboratories, Inc. (UL)

To obtain additional information with regard to these standards, such as contact information at the ANSI accredited standards developer, please visit ANSI Online at www.ansi.org, select Internet Resources, click on "Standards Information," and see "American National Standards Maintained Under Continuous Maintenance". This information is also available directly at www.ansi.org/publicreview.

Alternatively, you may contact the Procedures & Standards Administration Department (PSA) at psa@ansi.org or via fax at 212-840-2298. If you request that information be provided via E-mail, please include your E-mail address; if you request that information be provided via fax, please include your fax number. Thank you.
ISO Draft International Standards

This section lists proposed standards that the International Organization for Standardization (ISO) is considering for approval. The proposals have received substantial support within the technical committees or subcommittees that developed them and are now being circulated to ISO members for comment and vote. Standards Action readers interested in reviewing and commenting on these documents should order copies from ANSI.

Comments
Comments regarding ISO documents should be sent to Henrietta Scully, at ANSI’s New York offices. The final date for offering comments is listed after each draft.

Ordering Instructions
ISO Drafts can be made available by contacting ANSI’s Customer Service department. Please e-mail your request for an ISO Draft to Customer Service at sales@ansi.org. When making your request, please provide the date of the Standards Action issue in which the draft document you are requesting appears.

DIMENSIONAL AND GEOMETRICAL PRODUCT SPECIFICATIONS AND VERIFICATION (TC 213)
ISO/DIS 9493, Geometrical product specifications (GPS) - Dimensional measuring equipment: Dial test indicators (lever type) - Design and metrological requirements - 8/2/2008, $67.00

FLUID POWER SYSTEMS (TC 131)

INFORMATION AND DOCUMENTATION (TC 46)
ISO/DIS 28500, Information and documentation - WARC file format - 8/3/2008, $88.00

MECHANICAL VIBRATION AND SHOCK (TC 108)

PLASTICS PIPES, FITTINGS AND VALVES FOR THE TRANSPORT OF FLUIDS (TC 138)
ISO/DIS 13479, Polyolefin pipes for the conveyance of fluids - Determination of resistance to crack propagation - Test method for slow crack growth on notched pipes - 8/2/2008, $53.00

QUANTITIES, UNITS, SYMBOLS, CONVERSION FACTORS (TC 12)
ISO/DIS 80000-2, Quantities and units - Part 2: Mathematical signs and symbols to be used in the natural sciences and technology - 8/3/2008, $107.00
ISO/DIS 80000-10, Quantities and units - Part 10: Atomic and nuclear physics - 8/3/2008, $134.00

TERMINOLOGY (PRINCIPLES AND COORDINATION) (TC 37)

THERMAL INSULATION (TC 163)

TRANSPORT INFORMATION AND CONTROL SYSTEMS (TC 204)
ISO/DIS 24103, Intelligent transport systems - Communications access for land mobiles (CALM) - Media adapted interface layer (MAIL) - 8/3/2008, $88.00
Newly Published ISO and IEC Standards

Listed here are new and revised standards recently approved and promulgated by ISO - the International Organization for Standardization – and IEC – the International Electrotechnical Commission. Most are available at the ANSI Electronic Standards Store (ESS) at www.ansi.org. All paper copies are available from Standards Resellers (http://webstore.ansi.org/faq.aspx#resellers).

ISO Standards

OTHER
ISO/WAI 6:2008, Guidelines for the management of drinking water utilities under crisis conditions, $122.00

ROAD VEHICLES (TC 22)
ISO 26021-1:2008, Road vehicles - End-of-life activation of on-board pyrotechnic devices - Part 1: General information and use case definitions, $57.00

STERILIZATION OF HEALTH CARE PRODUCTS (TC 198)
ISO 15883-4:2008, Washer-disinfectors - Part 4: Requirements and tests for washer-disinfectors employing chemical disinfection for thermolabile endoscopes, $149.00

ISO/IEC JTC 1, Information Technology

IEC Standards

BARE ALUMINIUM CONDUCTORS (TC 7)
IEC 62420 Ed. 1.0 en:2008, Concentric lay stranded overhead electrical conductors containing one or more gap(s), $128.00

CABLES, WIRES, WAVEGUIDES, R.F. CONNECTORS, AND ACCESSORIES FOR COMMUNICATION AND SIGNALLING (TC 46)
IEC 61169-4 Ed. 1.0 en:2008, Radio-frequency connectors - Part 4: RF coaxial connectors with inner diameter of outer conductor 16 mm (0.63 in) with screw lock - Characteristic impedance 50 ohms (type 7-16), $117.00

ELECTRICAL EQUIPMENT IN MEDICAL PRACTICE (TC 62)
IEC 60601-2-16 Ed. 3.0 en:2008, Medical electrical equipment - Part 2-16: Particular requirements for basic safety and essential performance of haemodialysis, haemodiafiltration and haemofiltration equipment, $205.00

ENVIROMENTAL CONDITIONS, CLASSIFICATION AND METHODS OF TEST (TC 104)
IEC 60068-2-64 Ed. 2.0 b:2008, Environmental testing - Part 2-64: Tests - Test Fh: Vibration, broadband random and guidance, $158.00

FIBRE OPTICS (TC 86)
IEC 60794-2-50 Ed. 1.0 en:2008, Optical fibre cables - Part 2-50: Indoor cables - Family specification for simplex and duplex cables for use in terminated cable assemblies, $143.00
IEC 60794-3-30 Ed. 2.0 en:2008, Optical fibre cables - Part 3-30: Outdoor cables - Family specification for optical telecommunication cables for lakes, river crossings and coastal applications, $107.00
IEC 61290-11-1 Ed. 2.0 b:2008, Optical amplifiers - Test methods - Part 11-1: Polarization mode dispersion parameter - Jones matrix eigenanalysis (JME), $61.00
IEC 61758-1 Ed. 1.0 en:2008, Fibre optic interconnecting devices and passive components - Interface standard for closures - Part 1: General and guidance, $97.00

FUSS (TC 32)
IEC 60282-2 Ed. 3.0 b:2008, High-voltage fuses - Part 2: Expansion fuses, $205.00

LAMPS AND RELATED EQUIPMENT (TC 34)
IEC 60432-3 Amd.2 Ed. 1.0 b:2008, Amendment 2 - Incandescent lamps - Safety specifications - Part 3: Tungsten-halogen lamps (non-vehicle), $36.00
IEC 60598-1 Ed. 7.0 b:2008, Luminaires - Part 1: General requirements and tests, $286.00

MAGNETIC ALLOYS AND STEELS (TC 68)
IEC 60404-2 Amd.1 Ed. 3.0 b:2008, Amendment 1 - Magnetic materials - Part 2: Methods of measurement of magnetic properties of electrical steel sheet and strip by means of an Epstein frame, $36.00

NUCLEAR INSTRUMENTATION (TC 45)
IEC 61227 Ed. 2.0 b:2008, Nuclear power plants - Control rooms - Operator controls, $107.00
IEC 62363 Ed. 1.0 b:2008, Radiation protection instrumentation - Portable photon contamination meters and monitors, $143.00

SAFETY OF HOUSEHOLD AND SIMILAR ELECTRICAL APPLIANCES (TC 61)
IEC 60335-2-17 Amd.2 Ed. 5.0 b:2008, Amendment 2 - Household and similar electrical appliances - Safety - Part 2-17: Particular requirements for blankets, pads and similar flexible heating appliances, $46.00
IEC 60335-2-49 Amd.1 Ed. 4.0 b:2008, Amendment 1 - Household and similar electrical appliances - Safety - Part 2-49: Particular requirements for commercial electric appliances for keeping food and crockery warm, $56.00

SURFACE MOUNTING TECHNOLOGY (TC 91)
IEC 60068-2-69 Ed. 2.0 b:2007, Environmental testing - Part 2-69: Tests - Test Te: Solderability testing of electronic components for surface mounting devices (SMD) by the wetting balance method, $117.00
SURGE ARRESTERS (TC 37)
IEC 61643-21 Amd.1 Ed. 1.0 b:2008, Amendment 1 - Low voltage surge protective devices - Part 21: Surge protective devices connected to telecommunications and signalling networks - Performance requirements and testing methods, $107.00

SWITCHES FOR APPLIANCES (TC 23J)
IEC 61058-1 Ed. 3.2 b:2008, Switches for appliances - Part 1: General requirements, $347.00

SWITCHGEAR AND CONTROLGEAR (TC 17)
IEC 62271-100 Ed. 2.0 b:2008, High-voltage switchgear and controlgear - Part 100: Alternating current circuit-breakers, $314.00

WINDING WIRES (TC 55)
IEC 60317-0-3 Ed. 3.0 b:2008, Specifications for particular types of winding wires - Part 0-3: General requirements - Enamelled round aluminium wire, $107.00

IEC Technical Specifications

FIRE HAZARD TESTING (TC 89)

INDUSTRIAL-PROCESS MEASUREMENT AND CONTROL (TC 65)
Proposed Foreign Government Regulations

Call for Comment

U.S. manufacturers, exporters, regulatory agencies and standards developing organizations may be interested in proposed foreign technical regulations issued by Member countries of the World Trade Organization (WTO). In accordance with the WTO Agreement on Technical Barriers to Trade (TBT Agreement), Members are required to report proposed technical regulations that may significantly affect trade to the WTO Secretariat in Geneva, Switzerland. In turn, the Secretariat disseminates the information to all WTO Members. The purpose of this requirement is to provide global trading partners with an opportunity to review and comment on the regulations before they become final.

The National Center for Standards and Certification Information (NCSCI) at the National Institute of Standards and Technology (NIST), distributes these proposed foreign technical regulations to U.S. stakeholders via an online service, Notify U.S. Notify U.S. is an e-mail and Web service that allows interested U.S. parties to register, obtain notifications, and read full texts of regulations from countries and for industry sectors of interest to them. To register for Notify U.S., please go to Internet URL: http://www.nist.gov/notifyus/ and click on “Subscribe”.

NCSCI is the WTO TBT Inquiry Point for the U.S. and receives all notifications and full texts of regulations to disseminate to U.S. Industry. For further information, please contact: NCSCI, NIST, 100 Bureau Drive, Gaithersburg, MD 20899-2160; Telephone: (301) 975-4040; Fax: (301) 926-1559; E-mail: ncsci@nist.gov or notifyus@nist.gov.
American National Standards

INCITS Executive Board

ANSI Accredited SDO and US TAG to ISO/IEC JTC 1, Information Technology

The InterNational Committee for Information Technology Standards (INCITS), an ANSI accredited SDO, is the forum for information technology developers, producers and users to create and maintain formal de jure IT standards. INCITS' mission is to promote the effective use of Information and Communication Technology through standardization in a way that balances the interests of all stakeholders and increases the global competitiveness of the member organizations.

The INCITS Executive Board serves as the consensus body with its oversight of programs of its 30+ Technical Committees. Additionally, the INCITS Executive Board exercises international leadership in its role as the US Technical Advisory Group (TAG) to ISO/IEC JTC 1, Information Technology.

The INCITS Executive Board seeks to broaden its membership base and is recruiting new participants in all membership categories:

- special interest (user, academic, consortia)
- non-business (government and major/minor SDOs)
- business (large/small businesses and consultants)

Membership in the INCITS Executive Board is open to all directly and materially affected parties in accordance with INCITS membership rules. To find out more about participating on the INCITS Executive Board, please contact Jennifer Garner at 202-626-5737 or jgarner@itic.org.

ANSI Accreditation Program

for Third Party Personnel Certification Agencies

Application for Accreditation

International Society of Arboriculture (ISA)

International Society of Arboriculture (ISA)
P.O. Box 3129
Champaign, IL 61826-3129

International Society of Arboriculture (ISA) has submitted formal application for accreditation by ANSI of the following scope of this certification body:

ISA Certified Arborist

Please send your comments by June 9, 2008 to Roy Swift, Ph.D., Program Director, Personnel Certifier Accreditation, American National Standards Institute, 1819 L Street, NW, 6th Floor, Washington, DC 20036, FAX: (202) 293-9287 or e-mail: rswift@ansi.org.

ANSI Accreditation Program

for Third Party Product Certification Agencies

Application for Accreditation

North American Testing, Inc.

North American Testing, Inc.
201 A Plank Road
Norwalk, GA 44857

North American Testing, Inc. has submitted formal application for accreditation by ANSI of the following scopes of this certification body:

SCOPE(S):
Water and Wastewater Treatment Systems and Components

Please send your comments by June 9, 2008 to Reinaldo Balbino Figueiredo, Program Director, Product Certifier Accreditation, American National Standards Institute, 1819 L Street, NW, 6th Floor, Washington, DC 20036, FAX: (202) 293-9287 or E-mail: rfigueir@ansi.org.

ANSI Accredited Standards Developers

Reaccreditation

Comment Deadline: June 9, 2008

ASC Z9, Health and Safety Standard for Ventilation Systems and ASC Z88, Respiratory Protection have submitted revisions to the operating procedures under which they were originally accredited. As these revisions appear to be substantive in nature, the reaccreditation process is initiated.

To obtain a copy of the revised procedures, or to offer comments, please contact the Secretariat of ASC Z9 and Z88: Ms. Milli Mavely, Standards Coordinator, American Industrial Hygiene Association, 2700 Prosperity Avenue, Suite 250, Fairfax, VA 22031; PHONE: (703) 846-0794; FAX: (703) 207-8558; E-mail: mmavely@aiha.org. You may view/download a copy of the revisions during the public review period at the following URL:

http://publicaanansi.org/sites/apdl/Documents/Forms/AllItems.aspx?RootFolder=%2fsites%2fpad%2fDocuments%2fStandards%2f20Activities%2fPublic%2fReview%20and%20Comment%2fANS%20Accreditation%20Actions&View=%7b21C60355%2dAB17%2d4CD7%2dA090%2dABECEC5D7C60%7d.

As these revisions are available electronically, the public review period is 30 days. Please submit your comments to AIHA by June 9, 2008, with a copy to the Recording Secretary, ExSC in ANSI's New York Office (FAX: (212) 840-7288; E-mail: Jthompso@ANSI.org).
Standards Action - May 9, 2008 - Page 21 of 22 Pages

Public Comments Requested

Draft ANAB Accreditation Rule J, Complaints about Certification Bodies and Certified Organizations

Comment Deadline: June 15, 2008

Public comments are sought on draft ANAB Accreditation Rule J, Complaints about Certification Bodies and Certified Organizations. Interested parties are invited to login to EQM at http://anab.remoteauditor.com/ to download the document and comment. (NOTE: A username and password are required. If you do not have a username and password for EQM, go to http://www.anab.org/UserRegistration/WebBallotUsers_Registration.aspx.) Please submit your comments by June 15, 2008.

Draft ANAB Accreditation Rule K, Recycling Industry Operating Standard (RIOS) Program

Comment Deadline: June 15, 2008

Public comments are sought on draft ANAB Accreditation Rule K, Recycling Industry Operating Standard (RIOS) Program. Interested parties are invited to login to EQM at http://anab.remoteauditor.com/ to download the document and comment. (NOTE: A username and password are required. If you do not have a username and password for EQM, go to http://www.anab.org/UserRegistration/WebBallotUsers_Registration.aspx.) Please submit your comments by June 15, 2008.

Meeting Notices

AMT – The Association for Manufacturing Technology

B11.TR6 Subcommittee – Safety Control Systems

The B11.TR6 Subcommittee, sponsored by the Secretariat (AMT), will hold its next meeting on Thursday & Friday, June 5 & 6, 2008 at The Stratosphere Hotel in Las Vegas, Nevada. The B11 Committee is an ANSI-Accredited Standards Committee on machine tool safety, and the B11.TR6 Subcommittee deals with the overall engineering and safety aspects of control reliability. The purpose of this meeting is continue work on developing a new Technical Report to complement, and as an integral part in the B11 series of American National Standards on machine tool safety. This meeting is open to anyone with an interest in machine tool safety, particularly as it relates to safety control systems, and who wishes to participate in standards development.

B11.2 Subcommittee – Hydraulic Power Presses

The B11.2 Subcommittee, sponsored by the Secretariat (AMT), will hold its next meeting on Tuesday & Wednesday, August 5 & 6, 2008 at Precision Metalforming Association (PMA) in Independence, Ohio. The B11 Committee is an ANSI-Accredited Standards Committee on machine tool safety, and the B11.2 Subcommittee deals with hydraulic power presses. The purpose of this meeting is to begin revision work on the 1995 (R05) American National Standard on machine tool safety. This meeting is open to anyone with an interest in machine tool safety, particularly as it relates to hydraulic power presses, and who wishes to participate in standards development.

B11.9 Subcommittee – Grinding Machines

The B11.9 Subcommittee, sponsored by the Secretariat (AMT), will hold its next meeting on Thursday & Friday, August 7 & 8, 2008 at Precision Metalforming Association (PMA) in Independence, Ohio. The B11 Committee is an ANSI-Accredited Standards Committee on machine tool safety, and the B11.9 Subcommittee deals with the safety requirements of machine tools used to grind materials. The purpose of this meeting is to continue revision work on this 30+ year old American National Standards on machine tool safety. This meeting is open to anyone with an interest in machine tool safety, particularly as it relates to grinding machines, and who wishes to participate in standards development.

B11.19 Subcommittee – Safeguarding Performance Criteria

The B11.19 Subcommittee, sponsored by the Secretariat (AMT), will hold its next meeting on Monday & Tuesday, August 21 & 22, 2008 at Boeing’s Auburn Facility in Seattle, Washington. The B11 Committee is an ANSI-Accredited Standards Committee on machine tool safety, and the B11.19 Subcommittee deals with the safeguarding performance criteria of machine tools. The purpose of this meeting is to continue revision work on the 2003 American National Standard on machine tool safety. This meeting will focus mainly on vision panels (polycarbonates). This meeting is open to anyone with an interest in machine tool safety, particularly as it relates to safeguarding performance criteria, and who wishes to participate in standards development.

B11.19 Subcommittee – Risk Assessment & Risk Reduction

The B11.TR3 Subcommittee, sponsored by the Secretariat (AMT), will hold its next meeting on August 11, 12 & 13, 2008 at the Rochester Institute of Technology (RIT) in Rochester, New York. The B11 Committee is an ANSI-Accredited Standards Committee on machine tool safety, and the B11.TR3 Subcommittee deals with risk assessment and risk reduction for machine tool safety. The purpose of this meeting is to continue revision work on a standing Technical Report as an integral part in the B11 series of American National Standards on machine tool safety. This meeting is open to anyone with an interest in machine tool safety, particularly as it relates to risk assessment and risk reduction for machine tools, and who wishes to participate in standards development.
B11.TR3 Subcommittee – Risk Assessment & Risk Reduction

The B11.TR3 Subcommittee, sponsored by the Secretariat (AMT), will hold its next meeting on November 5 (1 pm start time), 6 & 7, 2008 at Precision Metalforming Association (PMA) in Independence, Ohio. The B11 Committee is an ANSI-Accredited Standards Committee on machine tool safety, and the B11.TR3 Subcommittee deals with risk assessment and risk reduction for machine tool safety.

The purpose of this meeting is to continue revision work on a standing Technical Report as an integral part in the B11 series of American National Standards on machine tool safety. This meeting is open to anyone with an interest in machine tool safety, particularly as it relates to risk assessment and risk reduction for machine tools, and who wishes to participate in standards development.

For further information on any of the AMT meetings or if you would like to attend any of the AMT meetings, please contact Cindy Haas, Safety Coordinator, AMT – The Association for Manufacturing Technology, (703) 827-5266, E-mail: clhaas@AMTonline.org, Web: www.AMTonline.org or www.IMTS.com.

TAG Meeting for ISO 31000 Risk Management Standard

The American Society of Safety Engineers (ASSE) serves as the Technical Advisory Group (TAG) Administrator for the ISO 31000 Risk Management Standard. The ISO 31000 TAG will be meeting at the headquarters of ASSE in Des Plaines, Illinois (Chicago) on August 5, 2008. The meeting is scheduled to run from 8:00 a.m. to 4:00 p.m. The purpose of the meeting is to review comments addressing the ISO 31000 Standard for Risk Management and achieve consensus for comments and a voting recommendation to ANSI on the draft standard. Attendance will be limited to no more than 45 members and observers due to space limitations and safety concerns. If interested in attending please contact Timothy R. Fisher, CSP, ARM, CPEA, Director, Practices and Standards, American Society of Safety Engineers (ASSE), 1800 East Oakton Street, Des Plaines, IL 60018, PHONE: (847) 768-3411, FAX: (847) 296-9221, E-mail: TFisher@ASSE.org.
