American National Standards

Call for comment on proposals listed

This section solicits public comments on proposed draft new American National Standards, including the national adoption of ISO and IEC standards as American National Standards, and on proposals to revise, reaffirm or withdraw approval of existing American National Standards. A draft standard is listed in this section under the ANSI-accredited standards developer (ASD) that sponsors it and from whom a copy may be obtained. Comments in connection with a draft American National Standard must be submitted in writing to the ASD no later than the last day of the comment period specified herein. Such comments shall be specific to the section(s) of the standard under review and include sufficient detail so as to enable the reader to understand the commenter's position, concerns and suggested alternative language, if appropriate. Please note that the ANSI Executive Standards Council (ExSC) has determined that an ASD has the right to require that interested parties submit public review comments electronically, in accordance with the developer's procedures.

Ordering Instructions for "Call-for-Comment" Listings

1. Order from the organization indicated for the specific proposal.
2. Use the full identification in your order, including the BSR prefix; for example, Electric Fuses BSR/SAE J554.
3. Include remittance with all orders.
4. BSR proposals will not be available after the deadline of call for comment.

Comments should be addressed to the organization indicated, with a copy to the Board of Standards Review, American National Standards Institute, 25 West 43rd Street, New York, NY 10036. Fax: 212-840-2298; e-mail: psa@ansi.org

Comment Deadline: November 29, 2009

NECA (National Electrical Contractors Association)

Reaffirmations

BSR/NECA 90-2004 (R201x), Recommended Practice for Commissioning Building Electrical Systems (reaffirmation of ANSI/NECA 90-2004)

Describes installation procedures for commissioning newly installed or retrofitted building electrical systems. This standard defines the process of commissioning building electrical systems and provides sample guidelines for attaining optimum system performances that conform to design, specification, and industry-accepted codes and standards.

Send comments (with copy to BSR) to: am2@necanet.org

UL (Underwriters Laboratories, Inc.)

Revisions

BSR/UL 687-201x, Standard for Safety for Burglary-Resistant Safes (Proposal dated 10/30/09) (revision of ANSI/UL 687-2005)

Upon review of comments to UL's proposal dated 9/11/09, UL is recirculating a new proposal (dated 10/30/09) regarding the Authorization for Auxiliary Locks.

[Click here to see these changes in full, or look at the end of "Standards Action."](#)

Send comments (with copy to BSR) to: Linda Phinney, (408) 754-6684, Linda.L.Phinney@us.ul.com

Comment Deadline: December 14, 2009

ASABE (American Society of Agricultural and Biological Engineers)

Revisions

BSR/ASAE EP559.1-200x, Design Requirements and Bending Properties for Mechanically-Laminated Wood Assemblies (revision of ANSI/ASAE EP559-FEB97 (R2008))

Establishes guidelines for designing and calculating allowable bending properties of mechanically laminated wood assemblies used as structural members. The scope is limited to mechanically laminated assemblies with three or four wood laminations.

Single copy price: \$48.00

Obtain an electronic copy from: vangilder@asabe.org

Order from: Carla VanGilder, (269) 932-7015, vangilder@asabe.org

Send comments (with copy to BSR) to: Same

ASME (American Society of Mechanical Engineers)

Revisions

BSR/ASME A17.1-201x, Safety Code for Elevators and Escalators (revision of ANSI/ASME A17.1-2007)

Covers safety requirements for elevators, escalators, dumbwaiters, moving walks, and material lifts.

Single copy price: Free

Obtain an electronic copy from: <http://cstools.asme.org/publicreview>

Order from: Mayra Santiago, (212) 591-8521, ansibox@asme.org

Send comments (with copy to BSR) to: Geraldine Burdeshaw, (212) 591-8523, burdeshawg@asme.org

ASTM (ASTM International)

The URL to search for scopes of ASTM standards is:

<http://www.astm.org/dsearch.htm>

For reaffirmations and withdrawals, order from: Customer Service, ANSI

For new standards and revisions, order from: Corice Leonard, ASTM ;

cleonard@astm.org

For all ASTM standards, send comments (with copy to BSR) to:

Corice Leonard, ASTM ; cleonard@astm.org

Revisions

BSR/ASTM D1655-201x, Specification for Aviation Turbine Fuels (revision of ANSI/ASTM D1655-2009)

http://www.astm.org/ANSI_SA.

Single copy price: \$43.00

ATIS (Alliance for Telecommunications Industry Solutions)

Revisions

BSR ATIS 0300210-201x, OAM&P - Principles of Functions, Architectures, and Protocol for Telecommunications Management Network (TMN) Interfaces and enhanced Telecom Operations Map (eTOM) (revision of ANSI ATIS 0300210-2004)

It is the intention of this standard to use and align with the relevant ITU-T Recommendations.

Single copy price: \$25.00

Obtain an electronic copy from: kconn@atis.org

Order from: Kerriane Conn, (202) 434-8841, kconn@atis.org

Send comments (with copy to BSR) to: Same

AWS (American Welding Society)

Revisions

BSR/AWS A5.13/A5.13M-201x, Specification for Surfacing Electrodes for Shielded Metal Arc Welding (revision of ANSI/AWS A5.13-2000)

Prescribes the requirements for classification of surfacing electrodes for shielded metal arc welding. Classification is based upon the chemical composition of the deposited weld metal except for tungsten carbide electrodes where classification is based on the mesh range, quantity, and composition of the tungsten carbide granules. A guide is appended to the specification as a source of information as to the characteristics and applications of the classified electrodes.

Single copy price: \$25.00

Obtain an electronic copy from: roneill@aws.org

Order from: Rosalinda O'Neill, (305) 443-9353, roneill@aws.org

Send comments (with copy to BSR) to: Andrew Davis, (305) 443-9353, Ext. 466, adavis@aws.org; roneill@aws.org

BICSI (Building Industry Consulting Service International)

New Standards

BSR/BICSI 002-201x, Data Center Design and Implementation Best Practices (new standard)

Provides a reference of common terminology and design practice for the design, planning, and development of operations and procedures for data centers. This standard is not intended to be used as a sole reference or as a step-by-step design guide, but rather to aid architects, engineers, and other technical personnel to determine design requirements in conjunction with a data center owner, occupant, or consultant.

Single copy price: Free

CSA (CSA America, Inc.)**Revisions**

BSR Z21.13a-201x, Gas-Fired Low Pressure Steam and Hot Water Boilers (same as CSA 4.9a) (revision of ANSI Z21.13-2004 and ANSI Z21.13a-2005)

Details test and examination criteria for Category I, Category II, Category III, and Category IV low-pressure steam and hot water boilers for use with natural, manufactured and mixed gases, liquefied petroleum gases and LP gas-air mixtures.

Single copy price: \$50.00

Obtain an electronic copy from: cathy.rake@csa-america.org

Order from: Cathy Rake, (216) 524-4990, cathy.rake@csa-america.org

Send comments (with copy to BSR) to: Same

Addenda

BSR Z21.41b-201x, American National Standard/CSA Standard for Quick Disconnect Devices for Use With Gas Fuel Appliances (same as CSA 6.9) (addenda to ANSI Z21.41-2003 (R2008), including Z21.41a-2005 (R2008))

Details test and examination criteria for hand-operated devices that provide means for connecting and disconnecting gas-fired appliances or gas appliance connectors to gas supplies and that are for use under indoor or outdoor applications. These devices are equipped with automatic means to shut off gas flow when disconnected.

Single copy price: \$50.00

Order from: Cathy Rake, (216) 524-4990, cathy.rake@csa-america.org

Send comments (with copy to BSR) to: Same

InfoComm (InfoComm International)**New Standards**

BSR/INFCOMM 2M-201x, Audiovisual Systems Design and Coordination Components (new standard)

Outlines a consistent set of the standard tasks, responsibilities, and deliverables required for professional audiovisual systems design and construction.

Single copy price: Free

Obtain an electronic copy from: www.infocomm.org/standards

Order from: standards@infocomm.org

Send comments (with copy to BSR) to: e-form is on review web page

ITI (INCITS) (InterNational Committee for Information Technology Standards)**New Standards**

BSR INCITS 464.1-201x, Information Management - Extensible Access Method (XAM™) - Part 1: Architecture (new standard)

Provides a normative specification of the general architecture and semantics of the XAM API. This standard applies to programmers who are generating XAM applications in any programming language. It also applies to storage system vendors who are creating vendor interface modules (VIMs). This document uses an object model to describe syntax in examples; these examples are informative only.

Single copy price: \$30.00

Obtain an electronic copy from: <http://www.incits.org> or <http://webstore.ansi.org>

Order from: Global Engineering Documents, (800) 854-7179, www.global.ihs.com

Send comments (with copy to BSR) to: Barbara Bennett, (202) 626-5743, bbennett@itic.org; lbarra@itic.org

BSR INCITS 464.2-201x, Information Management - Extensible Access Method (XAM™) - Part 2: C API (new standard)

Specifies the syntax of the C application programming interface (C API). This standard applies to programmers who are generating XAM applications in the C programming language. It also applies to storage system vendors who are creating vendor interface modules (VIMs) in the C programming language.

Single copy price: \$30.00

Obtain an electronic copy from: <http://www.incits.org> or <http://webstore.ansi.org>

Order from: Global Engineering Documents, (800) 854-7179, www.global.ihs.com

Send comments (with copy to BSR) to: Barbara Bennett, (202) 626-5743, bbennett@itic.org; lbarra@itic.org

BSR INCITS 464.3-201x, Information Management - Extensible Access Method (XAM™) - Part 3: Java API (new standard)

Specifies the syntax of the Java application programming interface (Java API). This document also specifies how a Java-based XAM Library is to map Java VIM API calls to C-based VIM implementations, and vice-versa. It applies to programmers who are generating XAM applications in the Java programming language. It also applies to storage system vendors who are creating vendor interface modules (VIMs) in the Java programming language.

Single copy price: \$30.00

BSR INCITS 465-201x, Information technology - SCSI/ATA Translation - 2 (SAT-2) (new standard)

Defines standard mappings and behaviors among implementations that effect the behavior of SCSI devices as viewed by a host driver where the physical devices are ATA class devices presented to the host by applying a translation layer between the Serial ATA or Parallel ATA device and the SCSI interface. This creates the next generation of translation of SCSI commands and behaviors into the ATA commands and behaviors, leveraging the previous SAT standard for expansion.

Single copy price: \$30.00

Obtain an electronic copy from: <http://www.incits.org> or <http://webstore.ansi.org>

Send comments (with copy to BSR) to: Serena Patrick, (202) 626-5741, spatrick@itic.org; bbennett@itic.org

BSR INCITS PN-1611-201x, Information technology - SCSI Stream Commands - 3 (SSC-3) (new standard)

The SCSI Stream Commands - 3 standard will be based on the SCSI Stream Commands - 2 standard that provides the model and command sets for the sequential-access device type. The model and command sets may be implemented on multiple transport protocols. The following items should be considered for inclusion into SSC-3:

- (1) continuation and enhancement of the sequential-access device type model;
- (2) continuation and enhancement of the explicit address command set;
- (3) continuation and enhancement of the implicit address command set;
- (4) continuation of TapeAlert standardization; and
- (5) other capabilities that may fit within the general application scope of this project.

Single copy price: \$30.00

Send comments (with copy to BSR) to: Serena Patrick, (202) 626-5741, spatrick@itic.org; bbennett@itic.org

New National Adoptions

INCITS/ISO/IEC 24713-3:2009, Information technology - Biometric profiles for interoperability and data interchange - Part 3: Biometrics-based verification and identification of seafarers (identical national adoption of ISO/IEC 24713-3:2009)

In order to support a globally interoperable system of seafarers' identity documents, ISO/IEC 24713-3:2009 establishes a biometric profile to define how to use biometrics for verification and identification of seafarers at the various stages of document issuance and inspection. This standard defines a set of base standards and criteria for applying those standards in applications where identity documents are issued to seafarers and biometrics are used to link each document to the seafarer to whom it was issued.

Single copy price: \$135.00

Obtain an electronic copy from: <http://www.incits.org> or <http://webstore.ansi.org>

Order from: Global Engineering Documents, (800) 854-7179, www.global.ihs.com

Send comments (with copy to BSR) to: Barbara Bennett, (202) 626-5743, bbennett@itic.org; lbarra@itic.org

INCITS/ISO/IEC 29109-1:2009, Information technology - Conformance testing methodology for biometric data interchange formats defined in ISO/IEC 19794 - Part 1: Generalized conformance testing methodology (identical national adoption of ISO/IEC 29109-1:2009)

Defines the concepts of conformance testing for biometric data interchange formats and defines a general conformance testing framework. This standard specifies common (modality-neutral) elements of the testing methodology, such as test methods and procedures, implementation conformance claim, and test results reporting.

Single copy price: \$110.00

Obtain an electronic copy from: <http://www.incits.org> or <http://webstore.ansi.org>

Projects Withdrawn from Consideration

An accredited standards developer may abandon the processing of a proposed new or revised American National Standard or portion thereof if it has followed its accredited procedures. The following projects have been withdrawn accordingly:

IIAR (International Institute of Ammonia Refrigeration)

BSR/IIAR GDL 1-200x, Ammonia Refrigeration Training Guideline (new standard)

BSR/UL 1086-201x, Standard for Safety for Household Trash Compactors (revision of ANSI/UL 1086-2007)

Covers:

- (1) Proposed addition of Paragraphs 5.3.1 and 5.3.2 and Section 13A, Separation of Circuits to Specify Requirements for Low-Voltage Circuits and Separation of Line- and Low-Voltage Circuits;
- (2) Proposed addition of Paragraph 8.11 and Section 56, Installation Instructions to Provide Enclosure and Installation Instruction Requirements for Trash Compactors Constructed of Polymeric Materials Intended to Be Installed Indoors and in Garages;
- (3) Proposed revision to Paragraph 32.1, deletion of Paragraphs 32.2 - 32.4, and addition of Section 47A, Stability Tests to Separate the Tipping and Force Tests and Locate the Tests in the Performance Portion of the Standard;
- (4) Proposed revision to Paragraph 41.2.3 to specify a salt water solution to be used for the water spillage test;
- (5) Proposed revision to Paragraph 51.13 to add an exception to allow a foot-actuated start switch to be identified in the instruction manual instead of by a marking on the switch;
- (6) Proposed revision to Paragraph 54.1 to add an exception to provide alternative grounding instructions for cord-connected, recessed or undercounter appliances that are provided with a grounding attachment plug; and
- (7) Revision to Table 39.1 to delete the year date associated with a reference standard.

BSR/UL 778-201x, Standard for Safety for Motor-Operated Water
Pumps (revision of ANSI/UL 778-2006)

BSR/UL 1059-201x, Standard for Safety for Terminal Blocks (revision of
ANSI/UL 1059-2006)

Call for Members (ANS Consensus Bodies) UL Standards Committees STP 231, STP 466, STP 1594, and STP 61496

STP 231 seeks to broaden its membership base and is recruiting new participants in the following interest categories:

Commercial / Industrial User, Consumer, General, Government, Supply Chain

STP 231 covers UL 231, the Standard for Safety for Power Outlets

STP 466 seeks to broaden its membership base and is recruiting new participants in the following interest categories:

AHJ, Commercial / Industrial User, Consumer, General Interest, Government, Supply Chain, Testing & Standards

STP 466 covers UL 466, the Standard for Safety for Electric Scales and Accessories

STP 1594 seeks to broaden its membership base and is recruiting new participants in the following interest categories:

AHJ, Commercial / Industrial Users, Consumer, General Interest, Government, Supply Chain, Testing & Standards

STP 1594 covers UL 1594, the Standard for Safety for Sewing and Cutting Machines

STP 61496 seeks to broaden its membership base and is recruiting new participants in the following interest categories:

AHJ, Commercial / Industrial User, General Interest, Government, Supply Chain, Testing & Standards

STP 61496 covers UL 61496-1, the Standard for Safety for Electro-Sensitive Protective Equipment, Part 1; General Requirements and Tests, and UL 61496-2, Electro-Sensitive Protective Equipment, Part 2 : Particular Requirements for Equipment Using Active Opto-Electronic Protective Devices (AOPDs)

Information concerning the application process may contact:

Linda Phinney

UL (Underwriters Laboratories, Inc.)

455 E Trimble Road

San Jose, CA 95131-1230

E-mail: Linda.L.Phinney@us.ul.com

Phone: (408) 754-6684

Fax: (408) 689-6684

Call for Members (ANS Consensus Bodies) UL Standards Committees STP 2024 and STP 651

STP 2024, Optical Fiber Cable Raceway, seeks to broaden its membership base and is recruiting new participants in the following interest categories:

AHJ, General, Supply Chain, Testing and Standards.

STP 2024 covers the Standard for Safety for Optical Fiber and Communication Cable Raceway, UL 2024.

STP 651, Rigid Nonmetallic Conduit and Fittings, seeks to broaden its membership base and is recruiting new participants in the following interest categories:

AHJ, General, Supply Chain

STP 651 covers the following standards:

UL 651, the Standard for Safety for Schedule 40 and 80 Rigid PVC Conduit and Fittings;

UL 651A, the Standard for Safety for Type EB and A Rigid PVC Conduit and HDPE Conduit;

UL 651B, the Standard for Safety for Continuous Length HDPE Conduit;

UL 1684A, the Standard for Safety for Supplemental Requirements for Extra Heavy Wall Reinforced Thermosetting Resin Conduit (RTRC) and Fittings

UL 1990, the Standard for Safety for Nonmetallic Underground Conduit with Conductors

UL 2420, the Standard for Safety for Belowground Reinforced Thermosetting Resin Conduit (RTRC) and Fittings

UL 2515, the Standard for Safety for Aboveground Reinforced Thermosetting Resin Conduit (RTRC) and Fittings

For information regarding the application process, please contact:

Paul Lloret

Underwriters Laboratories Inc. (UL)

455 E Trimble Road

San Jose, CA 95131

E-mail: paul.e.lloret@us.ul.com

Phone: (408) 754-6618

Final actions on American National Standards

The standards actions listed below have been approved by the ANSI Board of Standards Review (BSR) or by an ANSI-Audited Designator, as applicable.

AAMI (Association for the Advancement of Medical Instrumentation)

New Standards

ANSI/AAMI HE75-2009, Human factors engineering - Design of medical devices (new standard): 10/21/2009

Reaffirmations

ANSI/AAMI PB70-2003 (R2009), Liquid barrier performance and classification of protective apparel and drapes intended for use in health care facilities (reaffirmation of ANSI/AAMI PB70-2003): 10/21/2009

ASA (ASC S2) (Acoustical Society of America)

Reaffirmations

ANSI/ASA S2.31-1979 (R2009), Methods for the Experimental Determination of Mechanical Mobility - Part 1: Basic Definitions and Transducers (reaffirmation and redesignation of ANSI S2.31-1979 (R2004)): 10/21/2009

ANSI/ASA S2.32-1982 (R2009), Methods for the Experimental Determination of Mechanical Mobility - Part 2: Measurements Using Single-Point Translational Excitation (reaffirmation and redesignation of ANSI S2.32-1982 (R2004)): 10/21/2009

ASME (American Society of Mechanical Engineers)

Addenda

ANSI/ASME A112.19.8b-2009, Suction Fittings for Use in Swimming Pools, Wading Pools, Spas, and Hot Tubs (addenda to ANSI/ASME A112.19.8-2007): 10/22/2009

Reaffirmations

ANSI/ASME B29.22-2001 (R2009), Drop Forged Rivetless Chains, Attachments, and Sprocket Teeth (reaffirmation of ANSI/ASME B29.22-2001): 10/22/2009

Revisions

ANSI/ASME B46.1-2009, Surface Texture, Surface Roughness, Waviness and Lay (revision of ANSI/ASME B46.1-2002): 10/22/2009

AWS (American Welding Society)

Revisions

ANSI/AWS B5.15-2009, Specification for the Qualification of Radiographic Interpreters (revision of ANSI/AWS B5.15-2003): 10/21/2009

HPS (ASC N13) (Health Physics Society)

Revisions

ANSI N13.35-2009, Specifications for the Bottle Manikin Absorption Phantom (revision of ANSI N13.35-1999): 10/22/2009

IAPMO (International Association of Plumbing & Mechanical Officials)

New Standards

ANSI/IAPMO USEC 1-2009, Uniform Solar Energy Code (new standard): 10/21/2009

ANSI/IAPMO USPSHTC 1-2009, Uniform Swimming Pool, Spa and Hot Tub Code (new standard): 10/22/2009

ITI (INCITS) (InterNational Committee for Information Technology Standards)

New National Adoptions

INCITS/ISO/IEC TR 29138-1-2009, Information technology - Accessibility considerations for people with disabilities - Part 1: User needs summary (identical national adoption of ISO/IEC TR 29138-1:2009): 10/21/2009

INCITS/ISO/IEC TR 29138-2-2009, Information technology - Accessibility considerations for people with disabilities - Part 2: Standards inventory (identical national adoption of ISO/IEC TR 29138-2:2009): 10/21/2009

INCITS/ISO/IEC TR 29138-3-2009, Information technology - Accessibility considerations for people with disabilities - Part 3: Guidance on user needs mapping (identical national adoption of ISO/IEC TR 29138-3:2009): 10/21/2009

NEMA (ASC C78) (National Electrical Manufacturers Association)

Reaffirmations

ANSI C78.389-1989 (R2009), High-Intensity Discharge Lamps - Methods of Measuring Characteristics (reaffirmation of ANSI C78.389-2004): 10/22/2009

ANSI C78.391-2009, Electric Lamps-Characteristics of Subminiature Lamps of T1 and T1-3/4 Shapes (reaffirmation of ANSI C78.391-2004): 10/21/2009

ANSI C78.1401-2004 (R2009), Electric lamps - Dimensions for Projection Lamps Double-Contact, Medium Ring (Special B), Base-up Type (reaffirmation of ANSI C78.1401-2004): 10/21/2009

ANSI/IEC C78.62035-2004 (R2009), Discharge Lamps (excluding fluorescent lamps) - Safety Specifications (reaffirmation of ANSI/IEC C78.62035-2004): 10/22/2009

NEMA (ASC C82) (National Electrical Manufacturers Association)

Reaffirmations

ANSI C82.6-2005 (R2009), Lamp ballasts - Ballasts for High Intensity Discharge Lamps - Method of Measurement (reaffirmation of ANSI C82.6-2005): 10/22/2009

UL (Underwriters Laboratories, Inc.)

New National Adoptions

ANSI/UL 60079-0-2009, Standard for Safety for Explosive Atmospheres - Part 0: Equipment General Requirements (national adoption with modifications and revision of ANSI/UL 60079-0-2005):
10/21/2009

Revisions

ANSI/UL 213-2009a, Standard for Safety for Rubber Gasketed Fittings for Fire-Protection Service (revision of ANSI/UL 213-2004 (R2009)):
10/23/2009

Project Initiation Notification System (PINS)

ANSI Procedures require notification of ANSI by ANSI-accredited standards developers (ASD) of the initiation and scope of activities expected to result in new or revised American National Standards (ANS). Early notification of activity intended to reaffirm or withdraw an ANS and in some instances a PINS related to a national adoption is optional. The mechanism by which such notification is given is referred to as the PINS process. For additional information, see clause 2.4 of the ANSI Essential Requirements: Due Process Requirements for American National Standards.

Following is a list of proposed actions and new ANS that have been received recently from ASDs. Please also review the section in Standards Action entitled "American National Standards Maintained Under Continuous Maintenance" for additional or comparable information with regard to standards maintained under the continuous maintenance option. To view information about additional standards for which a PINS has been submitted and to search approved ANS, please visit www.NSSN.org, which is a database of standards information. Note that this database is not exhaustive.

Directly and materially affected interests wishing to receive more information or to submit comments are requested to contact the standards developer directly within 30 days of the publication of this announcement.

AAMI (Association for the Advancement of Medical Instrumentation)

Office: 1110 N Glebe Road
Suite 220
Arlington, VA 22201

Contact: Hae Choe

Fax: (703) 276-0793

E-mail: hchoe@aami.org

BSR/AAMI/IEC 80601-2-30-2009/A1-201x, Medical electrical equipment - Part 2-30: Particular requirements for basic safety and essential performance of automated type non-invasive sphygmomanometers (supplement to ANSI/AAMI/IEC 80601-2-30-2009)

Stakeholders: Manufacturers and users of sphygmomanometers.

Project Need: To propose the adoption of a technical corrigendum as an Amendment to an American National Standard.

This amendment is identical to the technical corrigendum (IEC 62D/782/DC) and updates subclauses 201.105.1, 201.105.3.2, and figure 201.101 for the standard, which apply to the basic safety and essential performance of automated sphygmomanometers that are used for the non-invasive blood pressure measurement.

BSR/AAMI/ISO 11607-3-201x, Packaging for terminally sterilized medical devices - Part 3: Guidance on the application of ISO 11607-1 and ISO 11607-2 (identical national adoption of ISO 11607-3)

Stakeholders: Manufacturers and users of packaging materials for sterilization.

Project Need: To propose the parallel adoption of an ISO standard as an American National Standard.

Provides guidance on the application of ANSI/AAMI/ISO 11607-1:2006, Packaging for terminally sterilized medical devices - Part 1:

Requirements for materials, sterile barrier systems and packaging systems and ANSI/AAMI/ISO 11607-2:2006, Packaging for terminally sterilized medical device - Part 2: Validation requirements for forming, sealing, and assembly processes. Possible options for compliance with the requirements of Parts 1 and 2 will be addressed as special concerns than may require attention due to regional or local conditions, practices or regulations. Additional guidance on important packaging issues will also be included.

ADA (American Dental Association)

Office: 211 E. Chicago Ave
Chicago, IL 60611

Contact: Kathy Medic

Fax: (312) 440-2529

E-mail: medick@ada.org

BSR/ADA Specification No. 19-201x, Dental Elastomeric Impression Materials (identical national adoption and revision of ANSI/ADA 19-2004)

Stakeholders: Dental manufacturers, dental laboratories, and dental professionals.

Project Need: To update the standard by adopting a revised ISO standard.

Specifies requirements and tests for evaluating elastomeric dental impression materials.

ASABE (American Society of Agricultural and Biological Engineers)

Office: 2950 Niles Road
St Joseph, MI 49085

Contact: Carla VanGilder

Fax: (269) 429-3852

E-mail: vangilder@asabe.org

BSR/ASABE AD3918:2007(MONYEAR), Milking machine installations - Vocabulary (national adoption with modifications and revision of ANSI/ASAE S300.4 FEB2008)

Stakeholders: Manufacturers of milking equipment.

Project Need: To update the designation number to the current ASABE numbering process for ISO adoptions.

Defines terms to use in research work, official regulations, design, manufacture, installation and use of milking machines for cows, water buffaloes, sheep, goats or other mammals used for milk production.

ASTM (ASTM International)

Office: 100 Barr Harbor Drive
West Conshohocken, PA 19428-2959

Contact: Helene Skloff

Fax: (610) 834-7013

E-mail: hskloff@astm.org; cleonard@astm.org

BSR/ASTM WK26001-201x, New Test Method for Surface Burning Characteristics of Landscape Mulch (new standard)

Stakeholders: Fire standards industry.

Project Need:

<http://www.astm.org/DATABASE.CART/WORKITEMS/WK26001.htm>.

<http://www.astm.org/DATABASE.CART/WORKITEMS/WK26001.htm>

BSR/ASTM WK26017-201x, New Guide for Extension of Data from Fire Tests Conducted in Accordance with ASTM E814 (new standard)

Stakeholders: Fire standards industry.

Project Need:

<http://www.astm.org/DATABASE.CART/WORKITEMS/WK26017.htm>.

<http://www.astm.org/DATABASE.CART/WORKITEMS/WK26017.htm>

BSR/ASTM WK26032-201x, New Specification for Underfired Broilers (new standard)

Stakeholders: Cooking and warming equipment industry.

Project Need:

<http://www.astm.org/DATABASE.CART/WORKITEMS/WK26032.htm>.

<http://www.astm.org/DATABASE.CART/WORKITEMS/WK26032.htm>

BIFMA (Business and Institutional Furniture Manufacturers Association)

Office: 678 Front Ave NW Suite 150
Grand Rapids, MI 49504-5368

Contact: Richard Driscoll

Fax: (616) 285-3765

E-mail: rdriscoll@bifma.org

BSR/BIFMA X5.9-201x, Standard for Office Furniture Storage Units - Tests (revision of ANSI/BIFMA X5.9-2004)

Stakeholders: Office furniture manufacturers, suppliers to the office furniture industry, testing laboratories.

Project Need: To revise this standard every five years.

Provides a common basis for evaluating the safety, durability, and structural performance of office storage units. This standard describes test methods and performance requirements for freestanding, mobile, and wall-mounted storage units. The standard specifies acceptance levels to help ensure reasonable safety and performance independent of construction materials, manufacturing processes, mechanical designs, or aesthetic designs.

IAPMO (International Association of Plumbing & Mechanical Officials)

Office: 5001 E. Philadelphia Street
Ontario, CA 91761

Contact: Gabriella Davis

Fax: (909) 472-4152

E-mail: gabriella.davis@iapmo.org

BSR/IAPMO UMC 1-201x, Uniform Mechanical Code (revision of ANSI/IAPMO UMC 1-2009)

Stakeholders: Manufacturers, users of the code, installers and maintainers, labor.

Project Need: To revise the standard in order to keep the code current. Designation of the Uniform Mechanical Code as an American National Standard has provided the built industry with uniform mechanical standards resulting in a reduction in training costs, product development costs, and in price reduction for consumers.

Provides minimum standards to safeguard life or limb, health, property and public welfare by regulating and controlling the design, construction, installation, quality of materials, location, operation and maintenance or use of heating, ventilating, cooling, refrigeration systems, incinerators and other miscellaneous heat producing appliances. The provisions of this code apply to the erection, installation, alteration, repair, relocation, replacement, addition to, use, or maintenance of mechanical systems.

BSR/IAPMO UPC 1-201x, Uniform Plumbing Code (revision of ANSI/IAPMO UPC 1-2009)

Stakeholders: Manufacturers, users of the code, installers and maintainers, labor.

Project Need: To revise the standard in order to keep the code current. Designation of the Uniform Plumbing Code as an American National Standard has provided the built industry with uniform plumbing standards resulting in a reduction in training costs, product development costs, and in a price reduction for consumers.

Provides minimum standards and requirements to safeguard life or limb, health, property and public welfare by regulating and controlling the design, construction, installation, quality of materials, location, operation and maintenance or use of plumbing systems. The provisions of this code apply to the erection, installation, alteration, repair, relocation, replacement, addition to, use, or maintenance of plumbing systems.

IEEE (Institute of Electrical and Electronics Engineers)

Office: 445 Hoes Lane
Piscataway, NJ 08854

Contact: Lisa Yacone

Fax: 732-875-0524

E-mail: l.yacone@ieee.org

BSR/IEEE 45-201x, Recommended Practice for Electrical Installations on Ships (revision of ANSI/IEEE 45-2002)

Stakeholders: National and international port authorities, ship owners, ship builders, ship repair facilities.

Project Need: IEEE 45 has grown due to new technology and methods. As a result, the document is being divided into a base document (IEEE 45) and eight supplemental documents - IEEE 45.1 through IEEE 45.8. This project coordinates P45 with the new eight documents in the IEEE 45.1 through IEEE 45.8 series.

Establishes the minimally acceptable guidelines for the design, selection, and installation of systems and equipment aboard marine vessels applying electrical apparatus for power, propulsion, steering, navigation, lighting, and communications.

BSR/IEEE 145-201x, Standard Definitions of Terms for Antennas (revision of ANSI/IEEE 145-2004)

Stakeholders: Designers, users, and those who measure antenna properties (e.g., universities, manufacturers).

Project Need: To update the definitions standard, which has not been updated in more than 15 years. Since then, new antennas have been developed, and the definitions have not been updated to accommodate them.

Establishes definitions for antennas and for systems which incorporate an antenna as a component of the system.

BSR/IEEE 1149.6-201x, Standard for Boundary-Scan Testing of Advanced Digital Networks (revision of ANSI/IEEE 1149.6-2003)

Stakeholders: System design, manufacturing and test; Boundary-scan-based test equipment providers.

Project Need: To improve the clarity of the standard and address issues that have been discovered since the standard was released.

Defines extensions to IEEE Std 1149.1 to standardize the Boundary-Scan structures and methods required to ensure simple, robust, and minimally intrusive Boundary-Scan testing of advanced digital networks. Such networks are not adequately addressed by existing standards, especially for those networks that are AC-coupled, differential, or both.

BSR/IEEE 1619-201x, Standard for Cryptographic Protection of Data on Block-Oriented Storage Devices (revision of ANSI/IEEE 1619-2007)

Stakeholders: Vendors of data storage devices such as disk drives, disk storage systems, and encryption appliances.

Project Need: The XTS-AES cryptographic mode of operation was submitted to NIST for consideration as an approved mode of operation under FIPS 140. A number of technical issues were raised as a result of the NIST review.

Specifies the XTS cryptographic mode of operation for the AES block cipher and an XML-based key archive format for block-oriented storage devices.

BSR/IEEE 1801-201x, Standard for Design and Verification of Low Power Integrated Circuits (revision of ANSI/IEEE 1801-2009)

Stakeholders: Electronics systems designers of systems-on-chips, processor providers, silicon vendors and manufacturers.

Project Need: To reflect the new design techniques that the industry uses to reduce static and dynamic energy consumption.

Establishes a format used to define the low power design intent for electronic systems and electronic intellectual property. The format provides the ability to specify the supply network, switches, isolation, retention and other aspects relevant to power management of an electronic system. The standard defines the relationship between the low power design specification and the logic design specification captured via other formats (e.g., standard hardware description languages).

BSR/IEEE C37.121-201x, Guide for Switchgear - Unit Substation - Requirements (revision of ANSI/IEEE C37.121-1989 (R2006))

Stakeholders: Users and Manufacturers of Unit Substations.

Project Need: To change the status of this document from a Standard to a Guide, based on the findings of a review by the Switchgear Assemblies Subcommittee Task Force.

Covers three-phase unit substations for step-down operation in the range of 112.5 kVA or greater at primary voltages of 601 volts through 38 kilovolts.

BSR/IEEE C62.92.2-201x, Guide for the Application of Neutral Grounding In Electrical Utility Systems - Part II: Synchronous Generator Systems (revision of ANSI/IEEE C62.92.2-1989 (R2005))

Stakeholders: Electric utility power engineers and designers.

Project Need: To revise and update this document, which was last revised in 1989. Comments from recent reaffirmations and new industry information will be added to this new revision.

Provides the basic factors and general considerations in selecting the class and means of neutral grounding for synchronous generator systems connected to electrical utility systems. This standard also provides the suggested methods and apparatus to be used to achieve the desired grounding. These guidelines apply to both large and small generators found in electrical utility systems.

IICRC (Institute of Inspection, Cleaning and Restoration Certification)

Office: 2715 E. Mill Plain Boulevard
Vancouver, WA 98661

Contact: *Larry Cooper*

Fax: (303) 469-6749

E-mail: textilecon@aol.com

BSR/IICRC S200-201x, Standard and Reference Guide for Cleaning and Maintenance of Hard Surface Floors (new standard)

Stakeholders: Manufacturers of the of flooring materials, grout, installers of hard surface floors, hard surface flooring inspectors.

Project Need: To create the first American National Standard for cleaning and maintenance of hard surface floors.

Covers cleaning and maintenance of all hard surface flooring types including wood, engineered and plank manufacturing techniques; vinyl composition flooring; pure vinyl flooring; ceramic and clay based tiles; grout; natural stone; concrete including industrial floors and processed concrete like stained, stamped and polished. In addition the initial maintenance techniques on newly installed flooring; periodic or interim procedures for existing flooring along with restorative procedures including tools, equipment, materials and training levels needed.

BSR/IICRC S300-201x, Standard and Reference Guide for Professional Upholstery Cleaning (new standard)

Stakeholders: Producers, users, general interest.

Project Need: To establish a procedural standard and reference guide for professionally cleaning upholstery.

Establishes a procedural standard for the professional cleaning of upholstery.

SCTE (Society of Cable Telecommunications Engineers)

Office: 140 Philips Road
Exton, PA 19341-1318

Contact: *Rebecca Quartapella*

Fax: (610) 363-5898

E-mail: rquartapella@scte.org

BSR/SCTE 133-201x, Downstream RF Interface for Cable Modem Termination Systems (revision of ANSI/SCTE 133-2007)

Stakeholders: Cable telecommunications industry.

Project Need: To update this standard to meet the requirements of current technology.

Defines the requirements for the two fundamental components that comprise a high-speed data-over-cable system: the cable modem (CM) and the cable modem termination system (CMTS). This proposed standard provides physical layer requirements for CMTS transmitters in the DOCSIS architecture.

BSR/SCTE 159-1-201x, IPCablecom Multimedia (revision of ANSI/SCTE 159-1-2008)

Stakeholders: Cable telecommunications industry.

Project Need: To update this standard to meet the requirements of current technology.

Supports the deployment of general Multimedia services by providing a technical definition of several IP-based signaling interfaces that leverage core QoS and policy management capabilities native to DOCSIS Versions 1.1 and greater.

VC (ASC Z80) (The Vision Council)

Office: 1700 Diagonal Road, Suite 500
Alexandria, VA 22314

Contact: Amber Robinson

Fax: (703) 548-4580

E-mail: arobinson@thevisioncouncil.org

BSR Z80.3-201x, Nonprescription Sunglass and Fashion Eyewear Requirements (revision of ANSI Z80.3-2009)

Stakeholders: Sunglasses suppliers and testing laboratories.

Project Need: To include the test method for resistance to radiation that has been approved by committee members. There are also several other updates that have been recommended and approved by the committee.

Provides requirements for non-corrective lenses that are intended for attenuation of light and for fashion eyewear, e.g., physical attributes and light attenuation.

American National Standards Maintained Under Continuous Maintenance

The ANSI Essential Requirements: Due Process Requirements for American National Standards provide two options for the maintenance of American National Standards (ANS): periodic maintenance (see clause 4.7.1) and continuous maintenance (see clause 4.7.2). Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with the procedures contained in the ANSI Essential Requirements.

The Executive Standards Council (ExSC) has determined that for standards maintained under the Continuous Maintenance option, separate PINS announcements are not required. The following ANSI Accredited Standards Developers have formally registered standards under the Continuous Maintenance option.

- AAMI
- AAMVA
- AGA
- AGRSS, Inc.
- ASC X9
- ASHRAE
- ASME
- ASTM
- GEIA
- HL7
- MHI (ASC MH10)
- NBBPVI
- NCPDP
- NISO
- NSF
- TIA
- Underwriters Laboratories, Inc. (UL)

To obtain additional information with regard to these standards, such as contact information at the ANSI accredited standards developer, please visit ANSI Online at www.ansi.org, select Internet Resources, click on "Standards Information," and see "American National Standards Maintained Under Continuous Maintenance". This information is also available directly at www.ansi.org/publicreview.

Alternatively, you may contact the Procedures & Standards Administration Department (PSA) at psa@ansi.org or via fax at 212-840-2298. If you request that information be provided via E-mail, please include your E-mail address; if you request that information be provided via fax, please include your fax number. Thank you.

ISO Draft International Standards

This section lists proposed standards that the International Organization for Standardization (ISO) is considering for approval. The proposals have received substantial support within the technical committees or subcommittees that developed them and are now being circulated to ISO members for comment and vote. Standards Action readers interested in reviewing and commenting on these documents should order copies from ANSI.

Comments

Comments regarding ISO documents should be sent to Henrietta Scully, at ANSI's New York offices. The final date for offering comments is listed after each draft.

Ordering Instructions

ISO Drafts can be made available by contacting ANSI's Customer Service department. Please e-mail your request for an ISO Draft to Customer Service at sales@ansi.org. When making your request, please provide the date of the Standards Action issue in which the draft document you are requesting appears.

ERGONOMICS (TC 159)

ISO/DIS 9241-420, Ergonomics of human-system interaction - Part 420: Selection procedures for physical input devices - 1/21/2010, \$165.00

FLUID POWER SYSTEMS (TC 131)

ISO/DIS 1219-2, Fluid power systems and components - Graphic symbols and circuit diagrams - Part 2: Circuit diagrams - 1/22/2010, \$93.00

GEOGRAPHIC INFORMATION/GEOMATICS (TC 211)

ISO/DIS 19118, Geographic information - Encoding - 1/21/2010, \$134.00

MECHANICAL VIBRATION AND SHOCK (TC 108)

ISO/DIS 13379-1, Condition monitoring and diagnostics of machines - Data interpretation and diagnostics techniques - Part 1: General guidelines - 1/21/2010, \$102.00

MEDICAL DEVICES FOR INJECTIONS (TC 84)

ISO/DIS 23908-1, Sharps injury protection - Requirements and test methods - Part 1: Sharps protection features for single-used hypodermic needles, catheters, introducers for catheters and needles used for blood sampling - 1/21/2010, \$62.00

NUCLEAR ENERGY (TC 85)

ISO/DIS 11320, Nuclear criticality safety - Emergency preparedness and response - 1/21/2010, \$53.00

Newly Published ISO Standards

Listed here are new and revised standards recently approved and promulgated by ISO - the International Organization for Standardization. Most are available at the ANSI Electronic Standards Store (ESS) at www.ansi.org. All paper copies are available from Standards resellers (<http://webstore.ansi.org/faq.aspx#resellers>).

ACOUSTICS (TC 43)

[ISO 3822-3/Amd1:2009](#), Acoustics - Laboratory tests on noise emission from appliances and equipment used in water supply installations - Part 3: Mounting and operating conditions for in-line valves and appliances - Amendment 1, \$16.00

ANAESTHETIC AND RESPIRATORY EQUIPMENT (TC 121)

[IEC 80601-2-35:2009](#), Medical electrical equipment - Part 2-35: Particular requirements for the basic safety and essential performance of heating devices using blankets, pads or mattresses and intended for heating in medical use, \$220.00

ANALYSIS OF GASES (TC 158)

[ISO 6145-5:2009](#), Gas analysis - Preparation of calibration gas mixtures using dynamic volumetric methods - Part 5: Capillary calibration devices, \$80.00

EQUIPMENT FOR FIRE PROTECTION AND FIRE FIGHTING (TC 21)

[ISO 7240-18:2009](#), Fire detection and alarm systems - Part 18: Input/output devices, \$86.00

GEOGRAPHIC INFORMATION/GEOMATICS (TC 211)

[ISO 19126:2009](#), Geographic information - Feature concept dictionaries and registers, \$135.00

GLASS CONTAINERS (TC 63)

[ISO 9100-3/Cor1:2009](#), Glass containers - Vacuum lug finishes - Part 3: 38 regular - Corrigendum, FREE

[ISO 9100-4/Cor1:2009](#), Glass containers - Vacuum lug finishes - Part 4: 38 medium - Corrigendum, FREE

INFORMATION AND DOCUMENTATION (TC 46)

[ISO 15511:2009](#), Information and documentation - International standard identifier for libraries and related organizations (ISIL), \$57.00

MACHINE TOOLS (TC 39)

[ISO 702-2/Cor1:2009](#), Machine tools - Spindle noses and face plates - Sizes for interchangeability - Part 2: Camlock type - Corrigendum, FREE

MATERIALS, EQUIPMENT AND OFFSHORE STRUCTURES FOR PETROLEUM AND NATURAL GAS INDUSTRIES (TC 67)

[ISO 13503-2/Amd1:2009](#), Petroleum and natural gas industries - Completion fluids and materials - Part 2: Measurement of properties of proppants used in hydraulic fracturing and gravel-packing operations - Amendment 1: Addition of Annex B: Proppand specification, \$16.00

PLASTICS PIPES, FITTINGS AND VALVES FOR THE TRANSPORT OF FLUIDS (TC 138)

[ISO 11296-1:2009](#), Plastics piping systems for renovation of underground non-pressure drainage and sewerage networks - Part 1: General, \$80.00

[ISO 11296-3:2009](#), Plastics piping systems for renovation of underground non-pressure drainage and sewerage networks - Part 3: Lining with close-fit pipes, \$98.00

[ISO 11296-4:2009](#), Plastics piping systems for renovation of underground non-pressure drainage and sewerage networks - Part 4: Lining with cured-in-place pipes, \$122.00

ROAD VEHICLES (TC 22)

[ISO 28981:2009](#), Mopeds - Methods for setting the running resistance on a chassis dynamometer, \$104.00

RUBBER AND RUBBER PRODUCTS (TC 45)

[ISO 4023:2009](#), Rubber hoses and hose assemblies for steam - Test methods, \$73.00

TEXTILES (TC 38)

[ISO 22958/Cor1:2009](#), Textiles - Water resistance - Rain tests: exposure to a horizontal water spray - Corrigendum, FREE

TYRES, RIMS AND VALVES (TC 31)

[ISO 29802:2009](#), All terrain (AT) tyres and rims - Symbol marked pneumatic tyres on 5 degrees tapered rims - Designation, dimension, marking and load ratings, \$73.00

ISO Technical Reports

MATERIALS FOR THE PRODUCTION OF PRIMARY ALUMINIUM (TC 226)

[ISO/TR 4277:2009](#), Cryolite, natural and artificial - Conventional test for evaluation of free fluorides content, \$49.00

ISO/IEC JTC 1, Information Technology

[ISO/IEC 13818-1/Amd3:2009](#), Information technology - Generic coding of moving pictures and associated audio information: Systems - Amendment 3: Transport of Scalable Video, \$16.00

[ISO/IEC 19776-1:2009](#), Information technology - Computer graphics, image processing and environmental data representation - Extensible 3D (X3D) encodings - Part 1: Extensible Markup Language (XML) encoding, \$129.00

Proposed Foreign Government Regulations

Call for Comment

U.S. manufacturers, exporters, regulatory agencies and standards developing organizations may be interested in proposed foreign technical regulations issued by Member countries of the World Trade Organization (WTO). In accordance with the WTO Agreement on Technical Barriers to Trade (TBT Agreement), Members are required to report proposed technical regulations that may significantly affect trade to the WTO Secretariat in Geneva, Switzerland. In turn, the Secretariat disseminates the information to all WTO Members. The purpose of this requirement is to provide global trading partners with an opportunity to review and comment on the regulations before they become final.

The National Center for Standards and Certification Information (NCSCI) at the National Institute of Standards and Technology

(NIST), distributes these proposed foreign technical regulations to U.S. stakeholders via an online service, Notify U.S. Notify U.S. is an e-mail and Web service that allows interested U.S. parties to register, obtain notifications, and read full texts of regulations from countries and for industry sectors of interest to them. To register for Notify U.S., please go to Internet URL: <http://www.nist.gov/notifyus/> and click on "Subscribe".

NCSCI is the WTO TBT Inquiry Point for the U.S. and receives all notifications and full texts of regulations to disseminate to U.S. Industry. For further information, please contact: NCSCI, NIST, 100 Bureau Drive, Gaithersburg, MD 20899-2160; Telephone: (301) 975-4040; Fax: (301) 926-1559; E-mail: ncsci@nist.gov or notifyus@nist.gov.

Information Concerning

American National Standards

INCITS Executive Board

ANSI Accredited SDO and US TAG to ISO/IEC JTC 1, Information Technology

The InterNational Committee for Information Technology Standards (INCITS), an ANSI accredited SDO, is the forum for information technology developers, producers and users to create and maintain formal de jure IT standards. INCITS' mission is to promote the effective use of Information and Communication Technology through standardization in a way that balances the interests of all stakeholders and increases the global competitiveness of the member organizations.

The INCITS Executive Board serves as the consensus body with its oversight of programs of its 30+ Technical Committees. Additionally, the INCITS Executive Board exercises international leadership in its role as the US Technical Advisory Group (TAG) to ISO/IEC JTC 1, Information Technology.

The INCITS Executive Board seeks to broaden its membership base and is recruiting new participants in all membership categories:

- special interest (user, academic, consortia)
- non-business (government and major/minor SDOs)
- business (large/small businesses and consultants)

Membership in the INCITS Executive Board is open to all directly and materially affected parties in accordance with INCITS membership rules. To find out more about participating on the INCITS Executive Board, please contact Jennifer Garner at 202-626-5737 or jgarner@itic.org.

ANSI Accredited Standards Developers

Approvals of Reccreditation

ASC Z9 – Health and Safety Standards for Ventilation Systems and ASC Z88 – Respiratory Protection

ANSI's Executive Standards Council has approved the reaccreditations of Accredited Standards Committees Z9, Health and Safety Standards for Ventilation Systems and Z88, Respiratory Protection under operating procedures revised to bring the documents into compliance with the 2009 version of the ANSI Essential Requirements, effective October 27, 2009. For additional information, please contact the Secretariat of ASCs Z9 and Z88: Ms. Mili Washington, Program Manager, Standards, AIHA, 2700 Prosperity Avenue, Suite 250, Fairfax, VA 22031; PHONE: (703) 846-0794; FAX: (703) 207-8558; E-mail: mmavelly@aiha.org.

Reccreditation

Entertainment Services and Technology Association (ESTA)

Comment Deadline: November 30, 2009

The Entertainment Services and Technology Association (ESTA), a full ANSI Organizational Member, has submitted revisions to the operating procedures under which it was last reaccredited in July 2007. As these revisions appear to be substantive in nature, the reaccreditation process is initiated.

To obtain a copy of ESTA's revised regulations, or to offer comments, please contact: Mr. Karl Ruling, Technical Standards Manager, ESTA, 875 Sixth Avenue, Suite 1005, New York, NY 10001; PHONE: (646) 839-0426; FAX: (212) 244-1502; E-mail: kruling@esta.org. You may view/download a copy of the revisions during the public review period at the following URL:

<http://publicaa.ansi.org/sites/apdl/Documents/Forms/AllItems.aspx?RootFolder=%2fsites%2fapdl%2fDocuments%2fStandards%20Activities%2fPublic%20Review%20and%20Commit%2fANSI%20Accreditation%20Actions&View=%7b21C60355%2dAB17%2d4CD7%2dA090%2dBABEEC5D7C60%7d>. Please submit public comments to ESTA by November 30, 2009, with a copy to the ExSC Recording Secretary in ANSI's New York Office (E-mail: Jthompso@ANSI.org).

ANSI Accreditation Program for Third Party Product Certification Agencies

Application for Product Certification Accreditation Program

DPI Laboratory

Comment Deadline: November 30, 2009

Mr. Simon Chan
Executive Director
DPI Laboratory
Dongguan Zensee Printing Limited
Unit F, 3/F, Dongguan Industrial District
Aubuiwei, Zhangmutou 523619 China
PHONE: 86 769 8771 2112
FAX: 86 769 8771 2480
E-mail: simonchan@qpp.com

DPI Laboratory has submitted a formal application for accreditation by ANSI of the following scope(s):

Scope(s):

Toy Safety Certification Program®

Please send your comments by November 30, 2009 to Reinaldo Balbino Figueiredo, Sr. Program Director, Product Certifier Accreditation, American National Standards Institute, 1819 L Street, NW, 6th Floor, Washington, DC 20036, FAX: (202) 293-9287 or e-mail: rfigueir@ansi.org, or Nikki Jackson, Program Manager, Product Certifier Accreditation, American National Standards Institute, 1819 L Street, NW, 6th Floor, Washington, DC 20036, FAX: (202) 293-9287 or e-mail: njackson@ansi.org.

Initial Accreditation

AIB International, Inc.

Comment Deadline: November 30, 2009

AIB International, Inc.
1213 Bakers Way
Manhattan, KS 66505

On October 21, 2009, the ANSI Accreditation Committee (ACC) voted to approve initial accreditation for AIB International, Inc. for the following scope:

SQF 2000 CODE: 6th Ed. Aug 2008

Please send your comments by November 30, 2009 to Reinaldo Balbino Figueiredo, Sr. Program Director, Product Certifier Accreditation, American National Standards Institute, 1819 L Street, NW, 6th Floor, Washington, DC 20036, FAX: (202) 293-9287 or e-mail: rfigueir@ansi.org.

ANSI Accreditation Program for Greenhouse Gas Verification/Validation Bodies

Initial Accreditation

SCS Engineers, Inc.

Comment Deadline: November 30, 2009

SCS Engineers, Inc.
Mr. Patrick Sullivan
3900 Kilroy Airport Way, Suite 100,
Long Beach, CA 90806
PHONE: 916-361-1297
E-mail: PSullivan@SCSEngineers.com

On October 26, 2009 the ANSI Greenhouse Gas Validation/Verification Accreditation Committee voted to approve initial accreditation for SCS Engineers, Inc. for the following standards:

ISO 14065 - Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition

ISO 14064-3 – Greenhouse gases - Specification with guidance for the validation and verification of greenhouse gas assertions

Protocols:

The Climate Registry, General Verification Protocol, Version 1.0

Climate Action Reserve, Landfill Project Verification Protocol, Version 2.0

Scopes:

Entity Verification

Project Verification

Please send your comments by November 30, 2009 to Ann Bowles, Program Manager GHG Program, American National Standards Institute, 1819 L Street, NW, 6th Floor, Washington, DC 20036, FAX: (202) 293-9287 or e-mail: abowles@ansi.org.

U.S. Technical Advisory Groups

Application for Accreditation

US TAG to ISO/TC 243 – Consumer Product Safety

Comment Deadline: November 30, 2009

Underwriters Laboratories (UL) has submitted an Application for Accreditation for a proposed U.S. Technical Advisory Group (TAG) to ISO/TC 243, Consumer Product Safety, and a request for approval as TAG Administrator (Intertek submitted an application for its own TAG and approval as Administrator, which was announced in the October 16, 2009 issue of Standards Action). UL's proposed TAG intends to operate using the Model Operating Procedures for U.S. Technical Advisory Groups to ANSI for ISO Activities as contained in Annex A of the ANSI International Procedures.

For additional information, or to offer comments on UL's application, please contact: Mr. Donald Snyder, Director of US Standards, UL, 12 Laboratory Drive, Research Triangle Park, NC 27709; PHONE: (919) 549-1850; FAX: (919) 547-6173; E-mail: Donald.E.Snyder@us.ul.com (please copy PSA@ANSI.org).

Meeting Notice

ASC A10 ASC - January 2010 Meeting

The American Society of Safety Engineers (ASSE) serves as the secretariat of the ANSI Accredited A10 Committee (A10 ASC) for Construction and Demolition Operations. The next meeting of the A10 ASC will be held on January 12, 2010 in Washington DC at the International Brotherhood of Electrical Workers (IBEW). Those who have interest in the committee are encouraged to attend. In addition, subgroup meetings of ASC A10 will be held the day before, on January 11th. ASC A10 has a series of subgroups addressing a wide variety of construction and demolition issues ranging from trenching and shoring to ergonomic injury prevention and health hazards. The subgroup meeting schedule will be provided upon request. If you are interested in attending a meeting or subgroup meeting, please contact Timothy R. Fisher: (847) 768-3411, TFisher@ASSE.Org.

BSR/NECA 90-200x Technical Changes

1.1 Applications Included

This standard is not intended to cover commissioning processes for every type of electrical system and references other specific NEIS documents where such information is provided.

1.2 Applications Excluded

This standard does not cover procedures for commissioning systems such as fire alarm systems, telecommunications networks, closed circuit television systems, access control systems, and other limited energy systems. This standard provides some references to other NEIS documents that include commissioning and testing requirements for these systems. Installers should follow all applicable manufacturer requirements related to acceptance and performance testing of such systems.

4.3.3 Electrical Feeders and Branch Circuits (600V or below)

f) Where there is evidence of overheating or failures of existing feeders and branch circuits, perform appropriate thermal evaluation and other tests to determine the extent of damage and if replacement is necessary.

4.3.5 Dry-Type Transformers

d) Perform an overpotential test on all high and low voltage windings-to-ground (specifically after an abnormal conditions such as a short circuit or ground fault event).

4.3.8 Metal-Enclosed Busway

c) Perform an appropriate dielectric test overpotential on each busway phase-to-ground, with the phases not under test grounded, in accordance with manufacturer's published data.

4.3.18 Receptacles and Devices

d) Where there is evidence of existing device overheating or failures, perform appropriate thermal evaluation and other tests to determine the extent of damage and if repairs or replacement is necessary.

4.3.21 Variable Frequency Drives

b) ~~Inspect~~ Check for proper jumper, screw or switch settings for given drive supply voltage parameters, if so equipped.

Proposals for BSR/UL 687

Recirculation Proposal

1. Authorization for Auxiliary Locks

(NEW)

26.5 When a secondary lock is used, the safe shall be provided with a marking indicating that the use of a secondary lock with a lower security rating will reduce the security level of the safe when the secondary lock is solely being used.
