American National Standards

Call for comment on proposals listed

This section solicits public comments on proposed draft new American National Standards, including the national adoption of ISO and IEC standards as American National Standards, and on proposals to revise, reaffirm or withdraw approval of existing American National Standards. A draft standard is listed in this section under the ANSI-accredited standards developer (ASD) that sponsors it and from whom a copy may be obtained. Comments in connection with a draft American National Standard must be submitted in writing to the ASD no later than the last day of the comment period specified herein. Such comments shall be specific to the section(s) of the standard under review and include sufficient detail so as to enable the reader to understand the commenter’s position, concerns and suggested alternative language, if appropriate. Please note that the ANSI Executive Standards Council (ExSC) has determined that an ASD has the right to require that interested parties submit public review comments electronically, in accordance with the developer’s procedures.

Ordering Instructions for “Call-for-Comment” Listings
1. Order from the organization indicated for the specific proposal.
2. Use the full identification in your order, including the BSR prefix; for example, Electric Fuses BSR/SAE J554.
3. Include remittance with all orders.
4. BSR proposals will not be available after the deadline of call for comment.

Comments should be addressed to the organization indicated, with a copy to the Board of Standards Review, American National Standards Institute, 25 West 43rd Street, New York, NY 10036. Fax: 212-840-2298; e-mail: psa@ansi.org
Comment Deadline: February 28, 2011

API (American Petroleum Institute)

Reaffirmations

Provides a single reference for engineering equations, uncertainty estimations, construction and installation requirements, and standardized implementation recommendations for the calculation of flow rate through concentric, square-edged, flange-tapped orifice meters. Both U.S. customary (U.S.C), inch pound (IP) and international system of units (SI) units are included.

ASC X9 (Accredited Standards Committee X9, Incorporated)

Revisions

BSR X9.100-10-201x, Paper for MICR Documents (revision of ANSI X9.100-10-2006)

Establishes paper specifications for the MICR documents that are used in the US Payments System. While checks and deposit tickets are the primary documents considered in these specifications, users of MICR/OCR E-13B font readers will be well served by applying these specifications to internal documents, when intended for use in reader/sorters.

AWS (American Welding Society)

Revisions

BSR/AWS C3.7M/C3.7-201x, Specification for Aluminum Brazing (revision of ANSI/AWS C3.7M/C3.7-2005)

Presents the minimum fabrication, equipment, material, process procedure and inspection requirements for the brazing of aluminum by all of the processes commonly used - atmosphere furnace, vacuum furnace, and flux processes. This standard provides criteria for classifying aluminum-brazed joints based on loading and the consequences of failure and quality assurance criteria defining the limits of acceptability of each class. The specification defines acceptable brazing equipment, materials and procedures, as well as the required inspection for each class of joint.

Single copy price: $25.00
Obtain an electronic copy from: roneill@aws.org
Order from: Rosalinda O'Neill, (305) 443-9353, roneill@aws.org

ESTA (Entertainment Services and Technology Association)

Reaffirmations

BSR/AWS C3.8M/C3.8-201x, Specification for the Ultrasonic Pulse-Echo Examination of Brazed Joints (revision of ANSI/AWS C3.8M/C3.8-2006)

Provides the minimum requirements for the pulse-echo ultrasonic examination of brazed joints. The purpose of this document is to standardize brazed-joint ultrasonic examination requirements for all applications in which brazed joints of assured quality are required. It provides minimum requirements for equipment, procedures, and the documentation of such tests.

Single copy price: $25.00
Obtain an electronic copy from: roneill@aws.org
Order from: Rosalinda O'Neill, (305) 443-9353, roneill@aws.org
Send comments (with copy to BSR) to: Andrew Davis, (305) 443-9353, Ext. 466, adavis@aws.org; roneill@aws.org

Establishes material and workmanship standards for manufacturers, fabricators, repair organizations, purchasers, and owner/operators of rotating equipment that are fabricated or repaired by welding. Included are sections defining process qualifications, operator qualifications, quality control, inspection requirements, and repair requirements.

Single copy price: $49.00

BSR/AWS E1.3-2001 (R201x), Entertainment Technology - Lighting Control Systems - 0 to 10V Analog Control Specification (reaffirmation of ANSI E1.3-2001 (R2006))

Describes a method of controlling equipment by means of an analog control voltage in the nominal range from zero to 10 volts positive. This standard is primarily intended for theatrical lighting controllers and controlled devices (e.g., dimmers), but any device could use this control method. E1.3 controllers are current-source devices. The committee proposes to reaffirm the existing standard, which was previously reaffirmed in 2006.

Single copy price: $40.00; $30.00 (ESTA/PLASA members)

BSR E1.27-1-2006 (R201x), Entertainment Technology-Standard for Portable Control Cables for Use with USITT DMX512/1990 and E1.11 (DMX512-A) Products (reaffirmation of ANSI E1.27-1-2006)

E1.27-1 is a standard for portable data cable used in USITT DMX512/1990 and ANSI E1.11-2004 lighting control systems. This document standardizes the wiring of the data cable and requires labeling that allows single data-pair and dual data-pair cables to be distinguished from each other. The committee proposes to reaffirm the existing standard.

SCTE (Society of Cable Telecommunications Engineers)

New Standards

BSR/SCTE 174-201x, Radio Frequency over Glass Fiber-to-the-Home Specification (new standard)
Defines a fiber-to-the-home system optimized for compatibility with hybrid fiber-coax (HFC) plant, using the same end equipment at both the home and at the headend or hub. The RFoG system is defined to begin where the plant becomes passive, extending from that point to the home. This interface is referred to as the Optical Hub. There are many possible variations on the structure of the optical hub, depending on the needs of the system. The RFoG system is defined to terminate at the subscriber-side interface of an RFoG Optical Network Unit (R-ONU) at the home.

30 Day Notice of Withdrawal: ANS 5 to 10 years past approval date

In accordance with clause 4.7.1 Periodic Maintenance of American National Standards of the ANSI Essential Requirements, the following American National Standards have not been reaffirmed or revised within the five-year period following approval as an ANS. Thus, they shall be withdrawn at the close of this 30-day public review notice in Standards Action.

ANSI B15.1-2000 (R2008), Machine Tools - Safety Requirements for Mechanical Power Transmission Apparatus
BSR/UL 8750-201x, Standard for Safety for Light Emitting Diode (LED) Equipment for Use in Lighting Products (revision of ANSI/UL 8750-2009)

The following changes in requirements to the Standard for Light Emitting Diode (LED) Equipment for Use in Lighting Products, UL 8750, are being proposed:

1. Revises the definition for the dead conductive part;
2. Revises the risk of electric shock definition;
3. Allows for LED drivers to comply with UL 935;
4. Removes the restriction requiring epoxy material for potting compound in 6.6.1;
5. Clarifies the requirements for asphalt potting compounds;
6. Adds an exception to 7.1.2 to allow gold or aluminum conductive materials on trace conductors and electrical connections;
7. Revises 7.3.4 to include provisions for solder connections using solder reflow method;
8. Adds additional wire types for power-limited circuit wiring;
9. Adds requirements for transformer or coil insulation systems that operate above Class 105(A) limits;
10. Clarifies requirements for Class 2 output circuits;
11. Revises Table 8.1 to include temperature limits for switches, terminal blocks, connectors and other discrete devices;
12. Revises requirements involving cheesecloth to include fire indicator material;
13. Revises requirements for leakage current measurement test in Section 8.7;
14. Environmental tests and Class 2 applications;
15. Marking provisions;
16. Revises coil insulation requirements to allow triple-insulated wiring in transformers/inductors;
17. Adds test oven specification for temperature test; and
18. Miscellaneous and minor proposed revisions to clarify original requirements.

ANSI/UL 1286-2011, Standard for Safety for Office Furnishings

ANSI/UL 1286-2011a, Standard for Safety for Office Furnishings
Standards Action require notification of ANSI by ANSI-accredited standards developers (ASD) of the initiation and scope of activities expected to result in new or revised American National Standards (ANS). Early notification of activity intended to reaffirm or withdraw an ANS and in some instances a PINS related to a national adoption is optional. The mechanism by which such notification is given is referred to as the PINS process. For additional information, see clause 2.4 of the ANSI Essential Requirements: Due Process Requirements for American National Standards.

Following is a list of proposed actions and new ANS that have been received recently from ASDs. Please also review the section in Standards Action entitled “American National Standards Maintained Under Continuous Maintenance” for additional or comparable information with regard to standards maintained under the continuous maintenance option. To view information about additional standards for which a PINS has been submitted and to search approved ANS, please visit www.NSSN.org, which is a database of standards information. Note that this database is not exhaustive.

Directly and materially affected interests wishing to receive more information or to submit comments are requested to contact the standards developer directly within 30 days of the publication of this announcement.

**AMCA (Air Movement and Control Association)**

**Office:** 30 West University Drive  
Arlington Heights, IL 60004-1893

**Contact:** John Pakan

**E-mail:** jpakan@amca.org

**Stakeholders:** Fan manufacturers, building engineers, HVAC professionals, fan testing laboratories.

**Project Need:** To provide a periodic review of the standard in order to address industry comments.

Establishes uniform test methods for a laboratory test of a fan or other air-moving device to determine its aerodynamic performance in terms of airflow rate, pressure developed, power consumption, air density, speed of rotation, and efficiency for rating or guarantee purposes. This standard applies to a fan or other air-moving device when air is used as the test gas with the following exceptions:

(a) air-circulating fans (ceiling fans, desk fans);
(b) positive-pressure ventilators;
(c) compressors with inter-stage cooling;
(d) positive displacement machines; and
(e) test procedures to be used for design, production, or field testing.

**BPI (Building Performance Institute)**

**Office:** 1030 15th Street, N.W., Suite 460-West  
Washington, DC 20005

**Fax:** (202) 223-9516  
**E-mail:** rjustus@bpi.org

**BSR/BPI 115-201x, Standard for Home Performance Related Work - Steam Heating Systems (new standard)**

**Stakeholders:** Manufacturers of materials and equipment, service providers, contractors and energy efficiency agencies concerned with home performance retrofit of existing buildings.

**Project Need:** To incorporate building-science, whole-house performance procedures into HVAC-related work.

**BSR/BPI 116-201x, Standard for Home Performance Related Work - Air Conditioning and Heat Pump Systems (new standard)**

**Stakeholders:** Manufacturers of materials and equipment, service providers, contractors and energy efficiency agencies concerned with home performance retrofit of existing buildings.

**Project Need:** To incorporate building-science, whole-house performance procedures into HVAC-related work.

**BSR/BPI 117-201x, Standard for Home Performance Related Work - Hydronic Heating Systems (new standard)**

**Stakeholders:** Manufacturers of materials and equipment, service providers, contractors and energy efficiency agencies concerned with home performance retrofit of existing buildings.

**Project Need:** To incorporate building-science, whole-house performance procedures into HVAC-related work.

Determines the criteria of the installation, improvement, or repair of residential steam heating systems as the result of a BPI-101 energy audit, a contractor assessment, or an emergency repair/replacement. This standard practice includes minimum Health and Safety requirements to be conducted as part of the process and is limited to fossil fuel fired and electric steam systems, and includes systems that provide space heating and/or potable water.

**BSR/BPI 118-201x, Standard for Home Performance Related Work - Forced Air Furnace Systems (new standard)**

**Stakeholders:** Manufacturers of materials and equipment, service providers, contractors and energy efficiency agencies concerned with home performance retrofit of existing buildings.

**Project Need:** To incorporate building-science, whole-house performance procedures into HVAC-related work.

Determines the criteria of the installation, improvement, or repair of residential forced air furnace systems as the result of a BPI-101 energy audit, a contractor assessment, or an emergency repair/replacement. This standard practice includes minimum Health and Safety requirements to be conducted as part of the process and is limited to fossil fuel fired and electric furnace systems.

- Stakeholders: Environmental, building design, construction.
- Project Need: Revision needed due to new reports.

Defines the Integrative Process for design and construction of sustainable buildings and communities. This PINS notice is to revise this existing ANSI Integrative Process Standard.

BSR/SCTE DSS 10-04-201x, Framework for Implementing Preferential Telecommunications in IPCablecom and IPCablecom2 Networks (new standard)

- Stakeholders: Cable telecommunications industry.
- Project Need: To create a new standard.

Provides a framework for implementing preferential capabilities in IPCablecom and IPCablecom2 networks. The approach of this standard is to define a framework for capabilities that can be utilized to meet the requirements in ANSI/SCTE 173-1 and forms the basis for detailed IPCablecom and IPCablecom2 standards in support of preferential telecommunications.

BSR/SCTE DSS 10-05-201x, Specification for Authentication in Preferential Telecommunications over IPCablecom2 Networks (new standard)

- Stakeholders: Cable telecommunications industry.
- Project Need: To create a new standard.

Defines the specifications for authentication in preferential telecommunications over IPCablecom2 networks. These specifications satisfy the requirements defined in ANSI/SCTE 173-1. The essential aspects of preferential telecommunications over IPCablecom2 can be grouped into two areas: prioritization and authentication. This standard defines specifications for authentication only. This standard is one of a series of standards to enable support for preferential telecommunication services over IPCablecom networks.

BSR/SCTE DSS 10-06-201x, Specification for Priority in Preferential Telecommunications over IPCablecom2 Networks (new standard)

- Stakeholders: Cable telecommunications industry.
- Project Need: To create a new standard.

Defines the specifications for priority for preferential telecommunication services over IPCablecom2 networks. These specifications satisfy the requirements defined in ANSI/SCTE 173-1. The essential aspects of preferential telecommunications over IPCablecom2 can be grouped into two areas: prioritization and authentication. This Standard provides specifications for prioritization only. This standard is one of a series of Standards to enable support for preferential telecommunication services over IPCablecom2 networks.
American National Standards Maintained Under Continuous Maintenance

The ANSI Essential Requirements: Due Process Requirements for American National Standards provide two options for the maintenance of American National Standards (ANS): periodic maintenance (see clause 4.7.1) and continuous maintenance (see clause 4.7.2). Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with the procedures contained in the ANSI Essential Requirements.

The Executive Standards Council (ExSC) has determined that for standards maintained under the Continuous Maintenance option, separate PINS announcements are not required. The following ANSI Accredited Standards Developers have formally registered standards under the Continuous Maintenance option.

- AAMI (Association for the Advancement of Medical Instrumentation)
- AAMVA (American Association of Motor Vehicle Administrators)
- AGA (American Gas Association)
- AGRSS, Inc. (Automotive Glass Replacement Safety Standards Committee, Inc.)
- ASC X9 (Accredited Standards Committee X9, Incorporated)
- ASHRAE (American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.)
- ASME (American Society of Mechanical Engineers)
- ASTM (ASTM International)
- GRIA (Greenguard Environmental Institute)
- HL7 (Health Level Seven)
- MHI (ASC MH10) (Material Handling Industry)
- NAHBRC (NAHB Research Center, Inc.)
- NBBPVI (National Board of Boiler and Pressure Vessel Inspectors)
- NCPDP (National Council for Prescription Drug Programs)
- NISO (National Information Standards Organization)

- TIA (Telecommunications Industry Association)
- UL (Underwriters Laboratories, Inc.)

To obtain additional information with regard to these standards, such as contact information at the ANSI accredited standards developer, please visit ANSI Online at www.ansi.org, select Internet Resources, click on "Standards Information," and see "American National Standards Maintained Under Continuous Maintenance". This information is also available directly at www.ansi.org/publicreview.

Alternatively, you may contact the Procedures & Standards Administration Department (PSA) at psa@ansi.org or via fax at 212-840-2298. If you request that information be provided via E-mail, please include your E-mail address; if you request that information be provided via fax, please include your fax number. Thank you.
This section lists proposed standards that the International Organization for Standardization (ISO) is considering for approval. The proposals have received substantial support within the technical committees or subcommittees that developed them and are now being circulated to ISO members for comment and vote. Standards Action readers interested in reviewing and commenting on these documents should order copies from ANSI.

Comments

Comments regarding ISO documents should be sent to Rachel Howenstine, at ANSI's New York offices (isot@ansi.org). The final date for offering comments is listed after each draft.

CLINICAL LABORATORY TESTING AND IN VITRO DIAGNOSTIC TEST SYSTEMS (TC 212)
ISO/DIS 15189, Medical laboratories - Requirements for quality and competence - 4/7/2011, $125.00

PACKAGING (TC 122)
ISO/DIS 13274, Packaging - Transport packaging for dangerous goods - Plastics compatibility testing for packaging and IBCs - 4/7/2011, $134.00

PLASTICS (TC 61)
ISO/DIS 4892-2, Plastics - Methods of exposure to laboratory light sources - Part 2: Xenon-arc lamps - 4/7/2011, $62.00

WELDING AND ALLIED PROCESSES (TC 44)
ISO/DIS 17653, Resistance welding - Destructive tests on welds in metallic materials - Torsion test of resistance spot welds - 4/7/2011, $40.00
Listed here are new and revised standards recently approved and promulgated by ISO - the International Organization for Standardization. Most are available at the ANSI Electronic Standards Store (ESS) at www.ansi.org. All paper copies are available from Standards resellers (http://webstore.ansi.org/faq.aspx#resellers).

ACOUSTICS (TC 43)

NUCLEAR ENERGY (TC 85)
ISO 27048:2011, Radiation protection - Dose assessment for the monitoring of workers for internal radiation exposure, $188.00

PAINTS AND VARNISHES (TC 35)
ISO 1519:2011, Paints and varnishes - Bend test (cylindrical mandrel), $69.00

PETROLEUM PRODUCTS AND LUBRICANTS (TC 28)
ISO 20783-1:2011, Petroleum and related products - Determination of emulsion stability of fire-resistant fluids - Part 1: Fluids in category HFAE, $60.00
ISO 20843:2011, Petroleum and related products - Determination of pH of fire-resistant fluids within categories HFAE, HFAS and HFC, $45.00

SAFETY OF MACHINERY (TC 199)
ISO 29042-8:2011, Safety of machinery - Evaluation of the emission of airborne hazardous substances - Part 8: Room method for the measurement of the pollutant concentration parameter, $45.00
ISO 29042-9:2011, Safety of machinery - Evaluation of the emission of airborne hazardous substances - Part 9: Decontamination index, $60.00

STEEL (TC 17)
ISO 3575:2011, Continuous hot-dip zinc-coated carbon steel sheet of commercial and drawing qualities, $90.00
ISO 4998:2011, Continuous hot-dip zinc-coated carbon steel sheet of structural quality, $94.00
ISO 5000:2011, Continuous hot-dip aluminium-silicon-coated cold-reduced carbon steel sheet of commercial and drawing qualities, $90.00
ISO 14788:2011, Continuous hot-dip zinc-5 % aluminium alloy coated steel sheet, $96.00

THERMAL INSULATION (TC 163)
ISO 12623:2011, Thermal insulating products for building equipment and industrial installations - Determination of short-term water absorption by partial immersion of preformed pipe insulation, $77.00
ISO 12624:2011, Thermal insulating products for building equipment and industrial installations - Determination of trace quantities of water soluble chloride, fluoride, silicate, sodium ions and pH, $90.00
ISO 12628:2011, Thermal insulating products for building equipment and industrial installations - Determination of dimensions, squareness and linearity of preformed pipe insulation, $69.00
ISO 12629:2011, Thermal insulating products for building equipment and industrial installations - Determination of water vapour transmission properties of preformed pipe insulation, $77.00

TRANSPORT INFORMATION AND CONTROL SYSTEMS (TC 204)
ISO 21216:2011, Intelligent transport systems - Wireless communications - CALM using millimetre communications - Air interface, $77.00
ISO 24099:2011, Navigation data delivery structures and protocols, $165.00

WELDING AND ALLIED PROCESSES (TC 44)
ISO 3581/Amd1:2011, Covered electrodes for manual arc welding of stainless and other similar high alloy steels - Code of symbols for identification - Amendment 1, $17.00

ISO Technical Reports

CAST IRON AND PIG IRON (TC 25)
ISO/TR 945-2:2011, Microstructure of cast irons - Part 2: Graphite classification by image analysis, $84.00

ISO/IEC JTC 1, Information Technology

ISO/IEC ISP 29110-2:2011, Software engineering - Lifecycle profiles for Very Small Entities (VSEs) - Part 2: Framework and taxonomy, $103.00
ISO/IEC ISP 29110-4-1:2011, Software engineering - Lifecycle profiles for Very Small Entities (VSEs) - Part 4-1: Profile specifications: Generic profile group, $165.00
Registration of Organization Names in the United States

The Procedures for Registration of Organization Names in the United States of America (document ISSB 989) require that alphanumeric organization names be subject to a 90-day Public Review period prior to registration. For further information, please contact the Registration Coordinator at (212) 642-4946.

The following is a list of alphanumeric organization names that have been submitted to ANSI for registration. Alphanumeric names appearing for the first time are printed in bold type. Names with confidential contact information, as requested by the organization, list only public review dates.

PUBLIC REVIEW

E-CUBE
Public Review: October 29, 2010 to January 27, 2011

NOTE: Challenged alphanumeric names are underlined. The Procedures for Registration provide for a challenge process, which follows in brief. For complete details, see Section 6.4 of the Procedures.

A challenge is initiated when a letter from an interested entity is received by the Registration Coordinator. The letter shall identify the alphanumeric organization name being challenged and state the rationale supporting the challenge. A challenge fee shall accompany the letter. After receipt of the challenge, the alphanumeric organization name shall be marked as challenged in the Public Review list. The Registration Coordinator shall take no further action to register the challenged name until the challenge is resolved among the disputing parties.

Proposed Foreign Government Regulations

Call for Comment

U.S. manufacturers, exporters, regulatory agencies and standards developing organizations may be interested in proposed foreign technical regulations issued by Member countries of the World Trade Organization (WTO). In accordance with the WTO Agreement on Technical Barriers to Trade (TBT Agreement), Members are required to report proposed technical regulations that may significantly affect trade to the WTO Secretariat in Geneva, Switzerland. In turn, the Secretariat disseminates the information to all WTO Members. The purpose of this requirement is to provide global trading partners with an opportunity to review and comment on the regulations before they become final.

The National Center for Standards and Certification Information (NCSCI) at the National Institute of Standards and Technology (NIST), distributes these proposed foreign technical regulations to U.S. stakeholders via an online service, Notify U.S. Notify U.S. is an e-mail and Web service that allows interested U.S. parties to register, obtain notifications, and read full texts of regulations from countries and for industry sectors of interest to them. To register for Notify U.S., please go to Internet URL: http://www.nist.gov/notifyus/ and click on “Subscribe”. NCSCI is the WTO TBT Inquiry Point for the U.S. and receives all notifications and full texts of regulations to disseminate to U.S. Industry. For further information, please contact: NCSCI, NIST, 100 Bureau Drive, Gaithersburg, MD 20899-2160; Telephone: (301) 975-4040; Fax: (301) 926-1559; E-mail: ncsci@nist.gov or notifyus@nist.gov.
American National Standards

INCITS Executive Board

ANSI Accredited SDO and US TAG to ISO/IEC JTC 1, Information Technology

The InterNational Committee for Information Technology Standards (INCITS), an ANSI accredited SDO, is the forum for information technology developers, producers and users to create and maintain formal de jure IT standards. INCITS’ mission is to promote the effective use of Information and Communication Technology through standardization in a way that balances the interests of all stakeholders and increases the global competitiveness of the member organizations.

The INCITS Executive Board serves as the consensus body with its oversight of programs of its 30+ Technical Committees. Additionally, the INCITS Executive Board exercises international leadership in its role as the US Technical Advisory Group (TAG) to ISO/IEC JTC 1, Information Technology.

The INCITS Executive Board seeks to broaden its membership base and is recruiting new participants in all membership categories:

- special interest (user, academic, consortia)
- non-business (government and major/minor SDOs)
- business (large/small businesses and consultants)

Membership in the INCITS Executive Board is open to all directly and materially affected parties in accordance with INCITS membership rules. To find out more about participating on the INCITS Executive Board, please contact Jennifer Garner at 202-626-5737 or jgarner@itic.org.

Call for Members

Society of Cable Telecommunications

ANSI Accredited Standards Developer

SCTE, an ANSI-accredited SDO, is the primary organization for the creation and maintenance of standards for the cable telecommunications industry. SCTE’s standards mission is to develop standards that meet the needs of cable system operators, content providers, network and customer premises equipment manufacturers, and all others who have an interest in the industry through a fair, balanced and transparent process.

SCTE is currently seeking to broaden the membership base of its ANS consensus bodies and is interested in new members in all membership categories to participate in new work in fiber-optic networks, advanced advertising, 3D television, and other important topics. Of particular interest is membership from the content (program and advertising) provider and user communities.

Membership in the SCTE Standards Program is open to all directly and materially affected parties as defined in SCTE’s membership rules and operating procedures. More information is available at www.scte.org or by email from standards@scte.org.

Withdrawal of Approval

ANSI B15.1-2000 (R2008)

As per 4.2.1.3.2 of the Essential Requirements, B11 Standards, Inc. hereby withdraws its approval of ANSI B15.1-2000 (R2008), Safety Standard for Mechanical Power Transmission Apparatus. The requirements that are contained in that standard have been incorporated into ANSI B11.0-2010 (Safety of Machinery – General Requirements and Risk Assessment) and ANSI B11.19-2010 (Performance Requirements for Safeguarding). For inquiries, contact David Felinski, (703) 827-5211, dfelinski@b11standards.org.

Tentative Interim Amendments

ANSI/IAPMO UPC 1-2006 and UPC 1-2009, Uniform Plumbing Code

Comment Deadline: January 20, 2011

The following Tentative Interim Amendments to the Uniform Plumbing Code, UPC 1-2006 and 2009, are available for public review: TIA UPC 034-06 revise text in Section 205.0, 220.0, 316.1.9, & 606.1.4 and UPC 10-09 revise text in Section 205.0, 220.0, 316.1.9, 316.1.10, 606.1.2, 606.1.4, 606.1.5, & 606.2.1. Copies may be obtained from Matt Sigler, Plumbing Code Development Administrator, IAPMO, 5001 E. Philadelphia Street, Ontario, CA 91761; (909) 230-5535 or matt.sigler@iapmo.org.

ANSI Accredited Standards Developers

Administrative Reaccreditations

American Nuclear Society (ANS)

The American Nuclear Society (ANS), a full ANSI organizational member, has been administratively reaccredited at the direction of ANSI’s Executive Standards Council, under operating procedures revised to bring the document into compliance with the current version of the ANSI Essential Requirements, effective January 12, 2011. For additional information, please contact: Ms. Patricia Schroeder, Standards Administrator, American Nuclear Society, 555 North Kensington Avenue, La Grange Park, IL 60526; PHONE: (708) 579-8269; FAX: (708) 352-6464; E-mail: pschroeder@ans.org.

InfoComm International

InfoComm International, a full ANSI organizational member, has been administratively reaccredited at the direction of ANSI’s Executive Standards Council, under operating procedures revised to bring the document into compliance with the current version of the ANSI Essential Requirements, effective January 12, 2011. For additional information, please contact: Dr. Joseph Bocchiaro III, Vice-President of Standards and Best Practices, InfoComm International, 72 Idlewood Avenue, Hamburg, NY 14075; PHONE: (716) 279-6370; FAX: (716) 648-2195; E-mail: JBocchiaro@infocomm.org.
Reaccreditation

NAHB Research Center (NAHBRC)

Comment Deadline: February 14, 2011

The NAHB Research Center (NAHBRC) has submitted revisions to the operating procedures under which it was last reaccredited in 2001. As these revisions appear to be substantive in nature, the reaccreditation process is initiated.

To obtain a copy of NAHBRC’s revised procedures or to offer comments, please contact: Mr. Thomas Kenney, P.E., Vice-President, Engineering and Research, NAHB Research Center, 400 Prince George’s Boulevard, Upper Marlboro, MD 20774; PHONE: (301) 430-6246; E-mail: tkenney@nahbrc.com. You may view/download a copy of the revisions during the public review period at the following URL:

http://publicaa.ansi.org/sites/apdl/Documents/Forms/AllItems.aspx?RootFolder=%2fsites%2fapdl%2fDocuments%2fStandards%20Activities%2fPublic%20Documents%2f2011%20Reaccreditation%20Procedures%20Revisions&ContentId=f2a09b%2f23cd7%2fd48e6ec5d7c60%7d.

Please submit any public comments to NAHBRC by February 14, 2011, with a copy to the ExSC Recording Secretary in ANSI’s New York Office (E-mail: Jthompson@ansi.org).

ISO 14001 Environmental Management Systems

Application for Accreditation

Certification Body

RINA Services SPA

Comment Deadline: February 13, 2011

RINA Services SPA, Genoa, Italy, has applied for accreditation under the ANSI-ASQ National Accreditation Board for Certification Bodies of Environmental Management Systems.

Comments on the applications of the above certification body are solicited from interested parties. Please send your comments by February 13, 2011, to Lane Hallenbeck, Vice-President, Accreditation Services, American National Standards Institute, 1899 L Street, NW, 11th Floor, Washington, DC 20036; FAX: (202) 293-9287, or E-mail hallenb@ansi.org.

ISO/IEC 27001 Information Security Management Systems

Application for Accreditation

Certification Body

RINA Services SPA

Comment Deadline: February 13, 2011

RINA Services SPA, Genoa, Italy, has applied for accreditation under the ANSI-ASQ National Accreditation Board for Certification Bodies of Information Security Management Systems.

Comments on the applications of the above certification body are solicited from interested parties. Please send your comments by February 13, 2011, to Lane Hallenbeck, Vice-President, Accreditation Services, American National Standards Institute, 1899 L Street, NW, 11th Floor, Washington, DC 20036; FAX: (202) 293-9287, or E-mail hallenb@ansi.org.

ISO 22000 Food Safety Management Systems

Application for Accreditation

Certification Body

RINA Services SPA

Comment Deadline: February 13, 2011

RINA Services SPA, Genoa, Italy, has applied for accreditation under the ANSI-ASQ National Accreditation Board for Certification Bodies of Food Safety Management Systems.

Comments on the applications of the above certification body are solicited from interested parties. Please send your comments by February 13, 2011, to Lane Hallenbeck, Vice-President, Accreditation Services, American National Standards Institute, 1899 L Street, NW, 11th Floor, Washington, DC 20036; FAX: (202) 293-9287, or E-mail hallenb@ansi.org.
Occupational Health and Safety Management Systems
Application for Accreditation
Certification Body
RINA Services SPA

Comment Deadline: February 13, 2011
RINA Services SPA, Genoa, Italy, has applied for accreditation under the ANSI-ASQ National Accreditation Board for Certification Bodies of Occupational Health and Safety Management Systems.
Comments on the applications of the above certification body are solicited from interested parties. Please send your comments by February 13, 2011, to Lane Hallenbeck, Vice-President, Accreditation Services, American National Standards Institute, 1899 L Street, NW, 11th Floor, Washington, DC 20036; FAX: (202) 293-9287, or E-mail lhallenb@ansi.org.

ISO 13485 Medical Devices Quality Systems
Application for Accreditation
Certification Body
RINA Services SPA

Comment Deadline: February 13, 2011
RINA Services SPA, Genoa, Italy, has applied for accreditation under the ANSI-ASQ National Accreditation Board for Certification Bodies of Medical Devices Quality Systems.
Comments on the applications of the above certification body are solicited from interested parties. Please send your comments by February 13, 2011, to Lane Hallenbeck, Vice-President, Accreditation Services, American National Standards Institute, 1899 L Street, NW, 11th Floor, Washington, DC 20036; FAX: (202) 293-9287, or E-mail lhallenb@ansi.org.

ANSI Accreditation Program for Greenhouse Gas Verification/Validation Bodies
Scope Extensions
Advanced Waste Management Systems, Inc.

Comment Deadline: February 14, 2011
Advanced Waste Management Systems, Inc.
Robert Ellis
6430 Hixson Pike
Hixson, TN 37343
PHONE: (423) 843-2206
E-mail: robellis@awm.net

On January 12, 2011, the ANSI Greenhouse Gas Validation/Verification Accreditation Committee voted to approve an extension of scope of accreditation for Advanced Waste Management Systems, Inc. for the following:

Standards:
ISO 14065, Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition

Scopes:
Verification of assertions related to GHG emissions and removals at the organizational level
Group 5 – Mining and Mineral Production
Group 6 – Metals Production
Group 7 – Chemical Production
Group 8 – Oil and gas extraction, production and refining including petrochemicals
Group 9 – Waste

Please send your comments by February 14, 2011 to Ann Bowles, Senior Program Manager, GHG Program, American National Standards Institute, 1899 L Street, NW, 11th Floor, Washington, DC 20036, FAX: (202) 293-9287, or E-mail: accreditation@ansi.org.

Det Norske Veritas (U.S.A.), Inc.

Comment Deadline: February 14, 2011
Det Norske Veritas (U.S.A.), Inc.
Barbara Toole O’Neil
One Bush Street, 12th Floor
San Francisco, CA 94104
PHONE: (201) 512-8900
E-mail: Barbara.TooleONeil@dnv.com

On January 12, 2011, the ANSI Greenhouse Gas Validation/Verification Accreditation Committee voted to approve an extension of scope of accreditation for Det Norske Veritas (U.S.A.), Inc. for the following:

Standards:
ISO 14065, Greenhouse gases – Requirements for greenhouse gas validation and verification bodies for use in accreditation or other forms of recognition

Scopes:
Verification of assertions related to GHG emission reductions & removals at the project level
Group 1 – GHG emission reductions from fuel combustion
Group 2 – GHG emission reductions from industrial processes (non-combustion, chemical reaction, fugitive and other)

Please send your comments by February 14, 2011 to Ann Bowles, Senior Program Manager, GHG Program, American National Standards Institute, 1899 L Street, NW, 11th Floor, Washington, DC 20036, FAX: (202) 293-9287, or E-mail: accreditation@ansi.org.

International Organization for Standardization (ISO)
Calls for US/TAG and US/TAG Administrator
ISO/TC 109 – Oil and Gas Burners

ANSI has been informed that ASTM, the ANSI accredited US/TAG administrator for ISO/TC 109 wishes to relinquish the role on the US/TAG and as US/TAG administrator. ISO/TC 109 has the following scope:
Standardization concerning definitions, safeguards and security, construction, function and testing of oil and gas burners. Excluded: storage tanks and pipe work, if they do not form part of the burner assembly.

Organizations interested in serving on the US/TAG or as the US/TAG administrator should contact ANSI at isot@ansi.org.
ISO/TC 206 – Fine Ceramics

ANSI has been informed that ASTM, the ANSI accredited US/TAG administrator for ISO/TC 206 wishes to relinquish the role on the US/TAG and as US/TAG administrator.

ISO/TC 206 has the following scope:

Standardization in the field of fine ceramics materials and products in all forms: powders, monoliths, coatings and composites, intended for specific functional applications including mechanical, thermal, chemical, electrical, magnetic, optical and combinations thereof. The term "fine ceramics" is defined as "a highly engineered, high-performance, predominantly non-metallic, inorganic material having specific functional attributes."

Organizations interested in serving on the US/TAG or as the US/TAG administrator should contact ANSI at isof@ansi.org.
