ISSN 0038-9633
Section 2.5.1 of the ANSI Essential Requirements (www.ansi.org/essentialrequirements) describes the Project Initiation Notification System (PINS) and includes requirements associated with a PINS Deliberation. Following is a list of PINS notices submitted for publication in this issue of ANSI Standards Action by ANSI-Accredited Standards Developers (ASDs). Please also review the section in Standards Action entitled “American National Standards Maintained Under Continuous Maintenance” for information about American National Standards (ANS) maintained under the continuous maintenance option, as a PINS to initiate a revision of such standards is not required. Use the following Public Document Library url to access PDF & EXCEL reports of approved & proposed ANS: List of Approved and Proposed ANS. Directly and materially interested parties wishing to receive more information or to submit comments are to contact the sponsoring ANSI-Accredited Standards Developer directly within 30 calendar days of the publication of this PINS announcement.

Revision
BSR/ANS 15.8-202x, Quality Assurance Program Requirements for Research Reactors (revision of ANSI/ANS 15.8-1995 (R2023))
Stakeholders: The principal stakeholders include the national labs, private companies, and university research reactors operators. The impact will be to federal and national laboratories, private companies, and university research reactors.
Project Need: The current standard will be revised and updated to reflect changes that may have occurred in QA program requirements.
Interest Categories: Individual, Vendor, National Laboratories/Government Facilities, Government Agency, University, Owner
The standard provides criteria for quality assurance in the design, construction, operation, and decommissioning of research reactors.

AWWA (American Water Works Association)
Paul Olson <polson@awwa.org> | 6666 W. Quincy Avenue | Denver, CO 80235 www.awwa.org

New Standard
BSR/AWWA G415-202x, Diversity, Equity, and Inclusion Practices (new standard)
Stakeholders: Water, wastewater, reclaimed water, and stormwater utility sector
Project Need: Water wastewater, reclaimed water, and stormwater sector utilities need a standard for DEI practices to provide common language to create, measure and evaluate performance, make interoperability of DEI programs possible, and protect people by ensuring the equity, quality, consistency, reliability, and safety of DEI initiatives.
Interest Categories: Utility/User, Service Provider/Consulting Services, Management interest
This standard describes the essential requirements of effective diversity, equity, and inclusion (DEI) practices in the water, wastewater, reclaimed water, and stormwater utility sector. It includes practices for applying DEI concepts to, and improving DEI in, developing a DEI strategy, recruitment, culture, workforce, leadership, accountability, workspace design, operations, system reliability, affordability, and community relations and engagement.
**EOS/ESD (ESD Association, Inc.)**
Jennifer Kirk <jkirk@esda.org> | 218 W. Court Street | Rome, NY 13440  https://www.esda.org

*Revision*

Stakeholders: Electronics Industry including telecom, consumer, medical, and industrial

Project Need: The purpose (objective) of this document is to establish a test method that will replicate CDM failures and provide reliable, repeatable CDM ESD test results from tester to tester, regardless of device type. Repeatable data will allow accurate classifications and comparisons of CDM ESD sensitivity levels.

Interest Categories: User, Manufacturer, Supplier, and General Interest

This document establishes the procedure for testing, evaluating, and classifying devices and microcircuits according to their susceptibility (sensitivity) to damage or degradation by exposure to a defined field-induced charged device model (CDM) electrostatic discharge (ESD). All packaged semiconductor devices, thin-film circuits, surface acoustic wave (SAW) devices, optoelectronic devices, hybrid integrated circuits (HICs), and multi-chip modules (MCMs) containing any of these devices are to be evaluated according to this standard. The devices shall be assembled into a package similar to that expected in the final application to perform the tests. This CDM document does not apply to socketed discharge model testers.

Deborah Spittle <comments@standards.incits.org> | 700 K Street NW, Suite 600 | Washington, DC 20001  www.incits.org

*National Adoption*

Stakeholders: ICT Industry

Project Need: Adoption of this international standard is beneficial to the ICT Industry

Interest Categories: Producer-Hardware, Producer-Software, Producer-General, Distributor, Service Provider, User, Consultants, Government, SDO and Consortia, Academic Institution, General Interest

Specifies the form and establishes the interpretation of programs expressed in the base Fortran language. The purpose of this document is to promote portability, reliability, maintainability, and efficient execution of Fortran programs for use on a variety of computing systems. This document specifies the forms that a program written in the Fortran language can take, the rules for interpreting the meaning of a program and its data, the form of the input data to be processed by such a program, and the form of the output data resulting from the use of such a program.

*Revision*
BSR C119.6-202x, Electric Connectors—Non-Sealed, Multiport Connector Systems Rated 600 Volts or Less for Aluminum and Copper Conductors (revision of ANSI C119.6-2018)

Stakeholders: Electrical Utilities, Connector manufacturers, 3rd party test labs

Project Need: Routine 5-year review of standard.

Interest Categories: Users, Producers, and General Interest

This standard covers non-sealed, multiport distribution connectors rated 600 volts or less used for making electrical connections between aluminum-to-aluminum, aluminum-to-copper, or copper-to-copper conductors for above grade, electric utility applications. This standard establishes the electrical and mechanical test requirements for connectors used at normal operating temperatures not to exceed 90°C (194°F) and is not intended to recommend any other operating conditions.
NEMA (ASC C37) (National Electrical Manufacturers Association)
Brian Marchionini <brian.marchionini@nema.org>  | 1300 North 17th Street, Suite 1752 | Rosslyn, VA 22209  www.nema.org

Revision
BSR C37.54-202X, Standard for Alternating Current High-Voltage Circuit Breakers Applied in Metal-Enclosed
Switchgear Conformance Test Procedures (revision of ANSI C37.54-2023)
Stakeholders: Utilities, manufacturers, users, contractors
Project Need: Update the existing standard for current industry practices
Interest Categories: producer, government, general interest, laboratory, user

When conformance tests are required, this standard specifies tests to demonstrate that the circuit breaker being
tested conforms with the requirements and ratings defined in accordance with ANSI/IEEE C37.04. The preferred
ratings listed are designated values but are not to be considered restrictive; however, the requirements given are
restrictive. Conformance testing may be performed in conjunction with the basic design testing, if agreeable to those
concerned; however, conformance testing is more likely to be performed to satisfy a special need, sometime after
original development. As a requirement of conformance testing, the circuit breaker shall have completed the design
testing requirements of ANSI/IEEE C37.09. If ANSI/IEEE C37.09 tests have not been previously performed, the tests
required by ANSI/IEEE C37.09 beyond tests described by this standard may be performed concurrently with
conformance testing...

NENA (National Emergency Number Association)
Sandy Dyre <crm@nena.org>  | 1700 Diagonal Road Suite 500, Suite 500 | Alexandria, VA 22314  www.nena.org

New Standard
BSR/NENA STA-052.1-202x, NENA Standard for Incident Related Imagery (IRI) (new standard)
Stakeholders: PSAP/ECC Administrative, Operational, and Technical Personnel; Industry Partners specializing in IRI
Project Need: Develop standard for the use of Incident Related Imagery (IRI) in the PSAP/ECC.
Interest Categories: User, Producer, General Interest

Incident-Related Imagery is defined as any form of visual information associated with an incident scene that is
delivered via any medium to public safety personnel. The Incident Related Imagery (IRI) Workgroup is focused on
developing administrative, technical, and operational standards for PSAPs/ECCs seeking to deploy or otherwise
implement this technology.
Call for Comment on Standards Proposals

American National Standards

This section solicits public comments on proposed draft new American National Standards, including the national adoption of ISO and IEC standards as American National Standards, and on proposals to revise, reaffirm or withdraw approval of existing American National Standards. A draft standard is listed in this section under the ANSI-accredited standards developer (ASD) that sponsors it and from whom a copy may be obtained. Comments in connection with a draft American National Standard must be submitted in writing to the ASD no later than the last day of the comment period specified herein. Such comments shall be specific to the section (s) of the standard under review and include sufficient detail so as to enable the reader to understand the commenter’s position, concerns and suggested alternative language, if appropriate. Please note that the ANSI Executive Standards Council (ExSC) has determined that an ASD has the right to require that interested parties submit public review comments electronically, in accordance with the developer’s procedures.

Ordering Instructions for "Call-for-Comment" Listings
1. Order from the organization indicated for the specific proposal.
2. Use the full identification in your order, including the BSR prefix; for example, Electric Fuses BSR/SAE J554.
3. Include remittance with all orders.
4. BSR proposals will not be available after the deadline of call for comment.

Comments should be addressed to the organization indicated, with a copy to the Board of Standards Review, American National Standards Institute, 25 West 43rd Street, New York, NY 10036. e-mail: psa@ansi.org
* Standard for consumer products

ASABE (American Society of Agricultural and Biological Engineers)
2590 Niles Road, Saint Joseph, MI 49085 | stell@asabe.org, https://www.asabe.org/

Reaffirmation
BSR/ASAE S423.1-MAR2014 (R202x), Thermal Performance Testing of Open-Loop Solar Ambient Air Heaters with Defined Inlet and Outlet Conditions (reaffirmation of ANSI/ASAE S423.1-MAR2014 (R2018))
The purpose of this Standard is to provide a method for testing the thermal efficiency of open-looped solar air heaters which are used exclusively for heating ambient air. The test data should provide a basis for computing technical performance and for comparing efficiency of collectors of different design and/or construction.
Examples of use of solar ambient air heaters are preheating of ventilation air, heating make-up air for all types of environmental control systems, and heating of air to dry agricultural products without recirculation.
Single copy price: $78.00

New Standard

BSR/CGA H-3-202x, Cryogenic Hydrogen Storage (new standard)
This publication contains the suggested minimum design and performance requirements for shop-fabricated, vacuum-insulated cryogenic tanks (vertical and horizontal) intended for above ground storage of liquid hydrogen. This publication applies to liquid hydrogen storage tanks with maximum allowable working pressures (MAWP) up to and including 175 psi (1210 kPa). Tanks less than 1000 gal (3785 L) gross volume or greater than 25 000 gal (94 600 L) gross volume and all transportable containers are excluded. Tanks outside these pressure and volume constraints may also meet the requirements of this standard when agreed upon by the purchaser/manufacturer and the authority having jurisdiction (AHJ). This standard does not include operation and installation requirements or emergency response information.

Call for Members (ANS Consensus Bodies)

Directly and materially interested parties who wish to participate as a member of an ANS consensus body for the standards listed are requested to contact the sponsoring developer directly in a timely manner.

ANSI Accredited Standards Developer

INCITS Executive Board – ANSI Accredited SDO and US TAG to ISO/IEC JTC 1, Information Technology

The InterNational Committee for Information Technology Standards (INCITS), an ANSI accredited SDO, is the forum of choice for information technology developers, producers and users for the creation and maintenance of formal de jure IT standards. INCITS’ mission is to promote the effective use of Information and Communication Technology through standardization in a way that balances the interests of all stakeholders and increases the global competitiveness of the member organizations.

The INCITS Executive Board serves as the consensus body with oversight of its 40+ Technical Committees. Additionally, the INCITS Executive Board has the international leadership role as the US Technical Advisory Group (TAG) to ISO/IEC JTC 1, Information Technology.

Membership in the INCITS Executive Board is open to all directly and materially interested parties in accordance with INCITS membership rules. To find out more about participating on the INCITS Executive Board, contact Jennifer Garner at jgarner@itic.org or visit http://www.incits.org/participation/membership-info for more information.

Membership in all interest categories is always welcome; however, the INCITS Executive Board seeks to broaden its membership base in the following underrepresented categories:

- Producer-Software
- Producer-Hardware
- Distributor
- Service Provider
- Users
- Consultants
- Government
- SDO and Consortia Groups
- Academia
- General Interest

ANSI Accredited Standards Developer

SCTE (Society of Cable Telecommunications Engineers)

SCTE, an ANSI-accredited SDO, is the primary organization for the creation and maintenance of standards for the cable telecommunications industry. SCTE’s standards mission is to develop standards that meet the needs of cable system operators, content providers, network and customer premises equipment manufacturers, and all others who have an interest in the industry through a fair, balanced and transparent process.

SCTE is currently seeking to broaden the membership base of its ANS consensus bodies and is interested in new members in all membership categories to participate in new work in fiber-optic networks, advanced advertising, 3D television, and other important topics. Of particular interest is membership from the content (program and advertising) provider and user communities.

Membership in the SCTE Standards Program is open to all directly and materially affected parties as defined in SCTE’s membership rules and operating procedures.

More information is available at www.scte.org or by e-mail from standards@scte.org.

American National Standards (ANS) Process

Please visit ANSI’s website (www.ansi.org) for resources that will help you to understand, administer and participate in the American National Standards (ANS) process. Documents posted at these links are updated periodically as new documents and guidance are developed, whenever ANS-related procedures are revised, and routinely with respect to lists of proposed and approved ANS. The main ANS-related links is www.ansi.org/asd and here are some direct links as well as highlights of information that is available:

Where to find Procedures, Guidance, Interpretations and More...

Please visit ANSI’s website (www.ansi.org)

- ANSI Essential Requirements: Due process requirements for American National Standards (always current edition):
  www.ansi.org/essentialrequirements
- ANSI Standards Action (weekly public review announcements of proposed ANS and standards developer accreditation applications, listing of recently approved ANS, and proposed revisions to ANS-related procedures):
  www.ansi.org/standardsaction
- Accreditation information – for potential developers of American National Standards (ANS):
  www.ansi.org/sdoaccreditation
- ANS Procedures, ExSC Interpretations and Guidance (including a slide deck on how to participate in the ANS process and the BSR-9 form):
  www.ansi.org/asd

- Information about standards Incorporated by Reference (IBR):
  https://ibr.ansi.org/
- ANSI - Education and Training:
  www.standardslearn.org
The ANSI Essential Requirements: Due Process Requirements for American National Standards provides two options for the maintenance of American National Standards (ANS): periodic maintenance (see clause 4.7.1) and continuous maintenance (see clause 4.7.2). Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with the procedures contained in the ANSI Essential Requirements. The Executive Standards Council (ExSC) has determined that for standards maintained under the Continuous Maintenance option, separate PINS announcements are not required. The following ANSI Accredited Standards Developers have formally registered standards under the Continuous Maintenance option.

AAMI ( Association for the Advancement of Medical Instrumentation)
AARST ( American Association of Radon Scientists and Technologists)
AGA ( American Gas Association)
AGSC ( Auto Glass Safety Council)
ASC X9 ( Accredited Standards Committee X9, Incorporated)
ASHRAE ( American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.)

ISO & IEC Draft International Standards

This section lists proposed standards that the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) are considering for approval. The proposals have received substantial support within the technical committees or subcommittees that developed them and are now being circulated to ISO and IEC members for comment and vote. Standards Action readers interested in reviewing and commenting on these documents should order copies from ANSI.

COMMENTS
Comments regarding ISO documents should be sent to ANSI’s ISO Team (isot@ansi.org); comments on ISO documents must be submitted electronically in the approved ISO template and as a Word document as other formats will not be accepted.
Those regarding IEC documents should be sent to Tony Zertuche, General Secretary, USNC/IEC, at ANSI’s New York offices (tzer@ansi.org). The final date for offering comments is listed after each draft.

ORDERING INSTRUCTIONS
ISO and IEC Drafts can be made available by contacting ANSI’s Customer Service department. Please e-mail your request for an ISO or IEC Draft to Customer Service at sales@ansi.org. When making your request, please provide the date of the Standards Action issue in which the draft document you are requesting appears.

ISO Standards

Cleaning equipment for air and other gases (TC 142)
ISO/DIS 15858, UV-C Devices - Safety information - Permissible human exposure - 2/18/2024, $53.00

Corrosion of metals and alloys (TC 156)
ISO/DIS 5929, Corrosion of Metals and Alloys - Test and evaluation method for the corrosion of steel bar embedded in concrete structure exposed to total corrosion zones in marine environments - 2/16/2024, $82.00

Dentistry (TC 106)
ISO 7711-1:2021/DAmd 1, - Amendment 1: Dentistry - Diamond rotary instruments - Part 1: General requirements - Amendment 1 - 2/18/2024, $29.00
ISO/DIS 18397, Dentistry - Powered scaler - 2/19/2024, $71.00

Earth-moving machinery (TC 127)
ISO/DIS 19014-1, Earth-moving machinery - Functional safety - Part 1: Methodology to determine safety-related parts of the control system and performance requirements - 2/19/2024, $71.00
ISO/DIS 19014-2, Earth-moving machinery - Functional safety - Part 2: Design and evaluation of hardware and architecture requirements for safety-related parts of the control system - 2/19/2024, $119.00
ISO/DIS 19014-4, Earth-moving machinery - Functional safety - Part 4: Design and evaluation of software and data transmission for safety-related parts of the control system - 2/19/2024, $112.00

Equipment for fire protection and fire fighting (TC 21)
ISO/DIS 7240-27, Fire detection and alarm systems - Part 27: Point type fire detectors using a smoke sensor in combination with a carbon monoxide sensor and, optionally, one or more heat sensors - 2/16/2024, $134.00

Fine ceramics (TC 206)
ISO/DIS 10678, Fine ceramics (advanced ceramics, advanced technical ceramics) - Determination of photocatalytic activity of surfaces in an aqueous medium by degradation of methylene blue - 2/18/2024, $67.00
ISO/DIS 14544, Fine ceramics (advanced ceramics, advanced technical ceramics) - Mechanical properties of ceramic composites at high temperature - Determination of compressive properties - 2/18/2024, $93.00
ISO/DIS 14574, Fine ceramics (advanced ceramics, advanced technical ceramics) - Mechanical properties of ceramic composites at high temperature - Determination of tensile properties - 2/19/2024, $88.00

Footwear (TC 216)
ISO/DIS 19952, Footwear - Vocabulary - 2/18/2024, $146.00

Gas cylinders (TC 58)
ISO 7866:2012/DAmd 2, - Amendment 2: Gas cylinders - Refillable seamless aluminium alloy gas cylinders - Design, construction and testing - Amendment 2 - 2/22/2024, $29.00

Lifts, escalators, passenger conveyors (TC 178)
ISO/DIS 8103-1, Escalators and moving walks - Part 1: Safety requirements - 2/18/2024, $165.00

Non-destructive testing (TC 135)
ISO/DIS 16810, Non-destructive testing - Ultrasonic testing - General principles - 2/16/2024, $58.00
ISO/DIS 16823, Non-destructive testing - Ultrasonic testing - Through-transmission technique - 2/16/2024, $58.00

Optics and optical instruments (TC 172)
ISO/DIS 10110-11, Optics and photonics - Preparation of drawings for optical elements and systems - Part 11: Non-toleranced data - 2/18/2024, $33.00

Pallets for unit load method of materials handling (TC 51)
ISO/DIS 8611-1, Pallets for materials handling - Flat pallets - Part 1: Test methods - 2/15/2024, $98.00
ISO/DIS 8611-2, Pallets for materials handling - Flat pallets - Part 2: Performance requirements and selection of tests - 2/16/2024, $62.00

Plastics (TC 61)
ISO/DIS 6427, Plastics - Determination of matter extractable by organic solvents (conventional methods) - 2/16/2024, $67.00
ISO/DIS 6721-10, Plastics - Determination of dynamic mechanical properties - Part 10: Complex shear viscosity using a parallel-plate and a cone-and-plate oscillatory rheometer - 2/15/2024, $82.00

Quantities, units, symbols, conversion factors (TC 12)
IEC/DIS 80000-13., $62.00

Refrigeration (TC 86)

Road vehicles (TC 22)
ISO 24089:2023/DAmd 1, - Amendment 1: Road vehicles - Software update engineering - Amendment 1 - 2/16/2024, $29.00
ISO/DIS 10924-1, Road vehicles - Circuit breakers - Part 1: Definitions and general test requirements - 2/15/2024, $71.00
ISO/DIS 10924-2, Road vehicles - Circuit breakers - Part 2: User's guide - 2/15/2024, $82.00
ISO/DIS 10924-3, Road vehicles - Circuit breakers - Part 3: Miniature circuit breakers with tabs (Blade type), Form CB11 - 2/15/2024, $62.00
ISO/DIS 10924-4, Road vehicles - Circuit breakers - Part 4: Medium circuit breakers with tabs (Blade type), Form CB15 - 2/15/2024, $62.00

Rolling bearings (TC 4)
ISO 1206:2023/DAmd 1, - Amendment 1: Rolling bearings - Needle roller bearings with machined rings - Boundary dimensions, geometrical product specifications (GPS) and tolerance values - Amendment 1 - 2/18/2024, $29.00

Ships and marine technology (TC 8)
ISO/DIS 6325, Ships and marine technology - Cable stoppers - 2/18/2024, $46.00
ISO/DIS 18824, Ships and marine technology - Ships mooring and towing fittings - Horizontal roller fairleads - 2/18/2024, $46.00

Small tools (TC 29)
ISO/DIS 21949, Coated abrasives - Plain sheets with holes for dust extraction - 2/18/2024, $40.00
ISO/DIS 21951, Coated abrasives - Plain discs with holes for dust extraction - 2/18/2024, $40.00

Welding and allied processes (TC 44)
ISO/DIS 544, Welding consumables - Technical delivery conditions for filler materials and fluxes - Type of product, dimensions, tolerances and markings - 2/18/2024, $53.00
ISO/DIS 14344, Welding consumables - Procurement of filler materials and fluxes - 2/16/2024, $58.00

ISO/IEC JTC 1, Information Technology
ISO/IEC DIS 14496-10, Information technology - Coding of audio-visual objects - Part 10: Advanced video coding - 2/16/2024, $311.00

IEC Standards
Audio, video and multimedia systems and equipment (TC 100)
100/4085/NP, PNW 100-4085 ED1: User’s Quality of Experience (QoE) on Multimedia Conferencing Services - Part 2: Requirements, 02/23/2024
100/4086/NP, PNW 100-4086 ED1: User’s Quality of Experience (QoE) on Multimedia Conferencing Services - Part 3: Measurement methods, 02/23/2024
Cables, wires, waveguides, r.f. connectors, and accessories for communication and signalling (TC 46)

46C/1280/CD, IEC 61156-14: Multicore and symmetrical pair/quad cables for digital communications - Part 14: Symmetrical single pair cables with transmission characteristics up to 20 MHz - Work area wiring - Sectional specification, 02/23/2024

46A/1660/CD, IEC 61196-1-108 ED3: Coaxial communication cables - Part 1-108: Electrical test methods - Test for phase, phase constant, phase and group delay, propagation velocity, electrical length, and mean characteristic impedance, 02/23/2024

Dependability (TC 56)

56/2017/CDV, IEC 62198 ED3: Managing risk in projects - Application guidelines, 02/23/2024

Electric traction equipment (TC 9)

9/3019/CDV, IEC 61373 ED3: Railway applications - Rolling stock equipment - Shock and vibration tests, 02/23/2024

Electric welding (TC 26)

26/756/CD, IEC 60974-1-1/AMD1 ED6: Amendment 1 - Arc welding equipment - Part 1: Welding power sources, 01/26/2024

26/755/CD, IEC 60974-10-1/AMD1 ED4: Amendment 1 - Arc welding equipment - Part 10: Electromagnetic compatibility (EMC) requirements, 01/26/2024

Electrical accessories (TC 23)

23B/1486/FDIS, IEC 60669-2-2 ED4: Switches for household and similar fixed electrical installations - Part 2-2: Particular requirements - Electromagnetic remote-control switches (RCS), 01/12/2024

23B/1487/FDIS, IEC 60669-2-3 ED4: Switches for household and similar fixed electrical installations - Part 2-3: Particular requirements - Time-delay switches (TDS), 01/12/2024

Electrical apparatus for explosive atmospheres (TC 31)

31J/355/CD, IEC 60079-10-2 ED3: Explosive atmospheres - Part 10-2: Classification of areas - Explosive dust atmospheres, 02/23/2024

Electrical equipment in medical practice (TC 62)

62D/2107/FDIS, ISO 81060-2-AMD2 ED3: Amendment 2 - Non-invasive sphygmomanometers - Part 2: Clinical investigation of intermittent automated measurement type, 01/12/2024

Electromagnetic compatibility (TC 77)

77B/882/CD, IEC 61000-4-4 ED4: Electromagnetic compatibility (EMC) - Part 4-4: Testing and measurement techniques - Electrical fast transient/burst immunity test, 01/26/2024

Electromechanical components and mechanical structures for electronic equipments (TC 48)

48B/3081/CD, IEC 61076-2-118 ED1: Circular connectors - Detail specification for shielded and unshielded, free and fixed connectors with bayonet-locking size B12, B17, B23 and B40, for power, signal and data transmission, 02/23/2024

Electrostatics (TC 101)

101/700/CDV, IEC 61340-6-1/AMD1 ED1: Amendment 1 - Electrostatics - Part 6-1: Electrostatic control for healthcare - General requirements for facilities, 02/23/2024

Environmental conditions, classification and methods of test (TC 104)

104/1035/FDIS, IEC 60068-2-86 ED1: Environmental testing - Part 2-86: Tests -Test Fx: Vibration - Multi-exciter and multi-axis method, 01/12/2024

Fibre optics (TC 86)

86A/2395(F)/FDIS, IEC 60794-1-312 ED1: Optical fibre cables - Part 1-312: Generic specification - Basic optical cable test procedures - Cable element test methods - Elongation test for buffer tubes at low temperature, Method G11B, 12/15/2023

Flat Panel Display Devices (TC 110)

110/1593/FDIS, IEC 62629-52-1 ED1: 3D displays - Part 52-1: Fundamental measurement methods of aerial display - Optical, 01/12/2024

110/1594/NP, PNW 110-1594 ED1: DURABILITY TEST METHODS FOR ELECTRONIC DISPLAYS - Part 3-3 - Mechanical tests - Dynamic stress, 02/23/2024

Fuel Cell Technologies (TC 105)

105/1017(F)/FDIS, IEC 62282-6-106 ED1: Fuel cell technologies - Part 6-106: Micro fuel cell power systems - Safety - Indirect Class 8 (corrosive) compounds, 12/22/2023

105/1018(F)/FDIS, IEC 62282-6-107 ED1: Fuel cell technologies - Part 6-107: Micro fuel cell power systems - Safety - Indirect water-reactive (Division 4.3) compounds, 12/22/2023

Industrial-process measurement and control (TC 65)

65C/1276/CDV, IEC 61784-3-19 ED1: Industrial communication networks - Profiles - Part 3-19: Functional safety fieldbuses - Additional specifications for CPF 19, 02/23/2024

65C/1281(F)/FDIS, IEC 61784-5-19 ED2: Industrial networks - Profiles - Part 5-19: Installation of fieldbuses - Installation profiles for CPF 19, 12/22/2023

65C/1280(F)/FDIS, IEC 61784-5-8 ED3: Industrial networks - Profiles - Part 5-8: Installation of fieldbuses - Installation profiles for CPF 8, 12/22/2023
Lamps and related equipment (TC 34)

34A/2377/CDV, IEC 63356-2 ED2: LED light source characteristics - Part 2: Design parameters and values, 02/23/2024

34/1142(F)/FDIS, IEC 63403-1 ED1: Horticultural lighting - LED packages for horticultural lighting - Part 1: Specification sheet, 12/29/2023

34/1141(F)/FDIS, IEC 63403-2 ED1: Horticultural lighting - LED packages for horticultural lighting - Part 2: Binning, 12/29/2023

Magnetic alloys and steels (TC 68)

68/757/CD, IEC 60404-18 ED1: Magnetic materials - Part 18: Permanent magnet (magnetically hard) materials - Methods of measurement of the magnetic properties in an open magnetic circuit using a superconducting magnet, 02/23/2024

Maritime navigation and radiocommunication equipment and systems (TC 80)

80/1102/CD, IEC 61097-4 ED4: Global maritime distress and safety system (GMDSS) - Part 4: Inmarsat-C ship earth station and Inmarsat enhanced group call (EGC) equipment - Operational and performance requirements, methods of testing and required test results, 01/12/2024

Power electronics (TC 22)

22/372/CD, IEC TS 63490 ED1: Terms and Definition for standards incorporating power electronic conversion, 02/23/2024

Power system control and associated communications (TC 57)

57/2631/CD, IEC 62488-1 ED2: Power line communication systems for power utility applications - Part 1: Planning of analogue and digital power line carrier systems operating over HV electricity grids, 02/23/2024

Power transformers (TC 14)

14/1123/CD, IEC 60076-6 ED2: Power transformers - Part 6: Reactors, 02/23/2024

Printed Electronics (TC 119)

Quantities and units, and their letter symbols (TC 25)

25/776/CD, IEC 80000-16 ED1: Quantities and units - Part 16: Printing and writing rules, 01/26/2024

Rotating machinery (TC 2)

2/2169/NP, PNW TS 2-2169 ED1: Technical Specifications for adjustable speed pumped storage system and its generator-motor, 02/23/2024

Safety of hand-held motor-operated electric tools (TC 116)

116/703/NP, PNW 116-703 ED1: Electric motor-operated handheld tools, transportable tools and lawn and garden machinery - Safety - Part 4-11: Particular requirements for edgers, 02/23/2024

116/704/NP, PNW 116-704 ED1: Electric motor-operated handheld tools, transportable tools and lawn and garden machinery - Safety - Part 4-12: Particular requirements for robotic lawnmowers, 02/23/2024

116/705/NP, PNW 116-705 ED1: Electric motor-operated tools - Dust measurement procedure - Part 2.14: Particular requirements for hand-held planers, 02/23/2024

116/706/NP, PNW 116-706 ED1: Electric motor-operated tools - Dust measurement procedure - Part 2.17: Particular requirements for hand-held routers and trimmers, 02/23/2024

116/707/NP, PNW 116-707 ED1: Electric motor-operated tools - Dust measurement procedure - Part 2.22: Particular requirements for hand-held cut-off machines and wall chasers, 02/23/2024

Semiconductor devices (TC 47)

47/2824/NP, PNW 47-2824 ED1: Semiconductor devices - Performance evaluation of semiconductor components and equipment - Part 1: Transmittance evaluation method of EUV pellicle, 02/23/2024

Solar photovoltaic energy systems (TC 82)

82/2189(F)/FDIS, IEC 63257 ED1: Power line communication for DC shutdown equipment - Communication signal, physical layer, 12/15/2023

82/2200/CD, IEC TS 62257-9-5 ED5: Renewable energy and hybrid systems for rural electrification - Part 9-5: Integrated systems - Laboratory evaluation of stand-alone renewable energy products for rural electrification, 01/26/2024

82/2204/CD, IEC TS 62257-9-8 ED2: Renewable energy and hybrid systems for rural electrification - Part 9-8: Integrated systems - Requirements for stand-alone renewable energy products with power ratings less than or equal to 350 W, 01/26/2024

Surface mounting technology (TC 91)

91/1918/NP, PNW 91-1918 ED1: High-Level Test Description Table for Development of Production Test Programs, 02/23/2024

Switchgear and Controlgear and Their Assemblies for Low Voltage (TC 121)
121B/193/FDIS, IEC 61439-3 ED2: Low-voltage switchgear and controlgear assemblies - Part 3: Distribution boards intended to be operated by ordinary persons (DBO), 01/12/2024

121/152/CD, IEC 62683-2-2 ED1: Low-voltage switchgear and controlgear - Product data and properties for information exchange - Engineering data - Part 2-2: Switchgear and controlgear assembly objects for building information modelling, 01/26/2024

121/151/FDIS, IEC 63404 ED1: Switchgear and controlgear and their assemblies for low voltage - Integration method of radiocommunication device into an equipment, 01/12/2024

ISO/IEC JTC 1, Information Technology

(JTC1)

JTC1-SC25/3205/FDIS, ISO/IEC 15067-3-31 ED1: Information technology - Home Electronic System (HES) application model - Part 3-31: Protocol of energy management agents for demand-response energy management and interactions among these agents, 01/26/2024

JTC1-SC43/78/CD, ISO/IEC 8663 ED1: Information technology - Brain-computer Interfaces - Vocabulary, 01/26/2024

JTC1-SC25/3207/CD, ISO TR 11801-9906 ED2: Information technology - Generic cabling for customer premises - Part 9906: Balanced 1-pair cabling channels up to 600 MHz for single pair Ethernet (SPE), 01/26/2024

JTC1-SC41/390/DTS, ISO/IEC TS 30149 ED1: Internet of Things (IoT) - Trustworthiness Principles, 01/26/2024

JTC1-SC41/388/DTS, ISO/IEC TS 30168 ED1: Internet of Things (IoT) - Generic Trust Anchor Application Programming Interface for Industrial IoT Devices, 01/26/2024
Newly Published ISO & IEC Standards

Listed here are new and revised standards recently approved and promulgated by ISO – the International Organization for Standardization – and IEC – the International Electrotechnical Commission. Most are available at the ANSI Electronic Standards Store (ESS) at www.ansi.org. All paper copies are available from Standards resellers (http://webstore.ansi.org/faq.aspx#resellers).

ISO Standards

Additive manufacturing (TC 261)
ISO/ASTM 52939:2023, Additive manufacturing for construction - Qualification principles - Structural and infrastructure elements, $210.00

Aircraft and space vehicles (TC 20)
ISO 5309:2023, Civil small and light unmanned aircraft systems (UAS) - Vibration test methods, $116.00

Applications of statistical methods (TC 69)
ISO 3951-6:2023, Sampling procedures for inspection by variables - Part 6: Specification for single sampling plans for isolated lot inspection indexed by limiting quality (LQ), $237.00

Environmental management (TC 207)
ISO 14068-1:2023, Climate change management - Transition to net zero - Part 1: Carbon neutrality, $210.00

Graphic technology (TC 130)
ISO 12643-1:2023, Graphic technology - Safety requirements for graphic technology equipment and systems - Part 1: General requirements, $263.00
ISO 12643-2:2023, Graphic technology - Safety requirements for graphic technology equipment and systems - Part 2: Prepress and press equipment and systems, $237.00
ISO 12643-3:2023, Graphic technology - Safety requirements for graphic technology equipment and systems - Part 3: Binding and finishing equipment and systems, $237.00
ISO 12643-4:2023, Graphic technology - Safety requirements for graphic technology equipment and systems - Part 4: Converting equipment and systems, $237.00
ISO 12643-5:2023, Graphic technology - Safety requirements for graphic technology equipment and systems - Part 5: Manually-fed stand-alone platen presses, $157.00

Health Informatics (TC 215)
ISO 16527:2023, Health informatics - HL7 Personal Health Record System Functional Model, Release 2 (PHR-S FM), $263.00

Natural gas (TC 193)
ISO 2613-2:2023, Analysis of natural gas - Silicon content of biomethane - Part 2: Determination of siloxane content by gas chromatography with ion mobility spectrometry, $77.00

Nuclear energy (TC 85)
ISO 24426:2023, Radiological protection - Content of input data for the statistical analysis of dose records of individuals monitored for occupational exposure to ionizing radiation, $157.00

Petroleum products and lubricants (TC 28)

Plastics (TC 61)
ISO 8256:2023, Plastics - Determination of tensile-impact strength, $116.00
ISO 20753:2023, Plastics - Test specimens, $116.00

Refrigeration (TC 86)
ISO 21978:2023, Air to water heat pumps - Testing and rating at part load conditions and calculation of seasonal coefficient of performance for space heating, $210.00

Road vehicles (TC 22)
ISO 4107:2023, Commercial vehicles - Wheel-hub attachment dimensions, $51.00
ISO 27145-2:2012/Amd 1:2023, - Amendment 1: Road vehicles - Implementation of World-Wide Harmonized On-Board Diagnostics (WWH-OBD) communication requirements - Part 2: Common data dictionary - Amendment 1, $22.00

Robots and robotic devices (TC 299)
IEC 80601-2-77:2019/Amd 1:2023, $22.00
ISO/PAS 5672:2023, Robotics - Collaborative applications - Test methods for measuring forces and pressures in human-robot contacts, $210.00

Ships and marine technology (TC 8)
ISO 24438:2023, Ships and marine technology - Maritime education and training - Maritime career guidance, $116.00
Newly Published ISO & IEC Standards

Steel (TC 17)

Textiles (TC 38)
ISO 22195-3:2023, Textiles - Determination of index ingredient from coloured textile - Part 3: Myrobalan, $77.00

Thermal insulation (TC 163)
ISO 16478:2023, Thermal insulation products - Vacuum insulation panels (VIPs) - Specification, $237.00
ISO 18393-1:2023, Thermal insulation products - Determination of settlement - Part 1: Loose-fill insulation for ventilated attics simulating humidity and temperature cycling, $51.00

Transfusion, infusion and injection equipment for medical use (TC 76)

Vacuum technology (TC 112)
ISO 21360-5:2023, Vacuum technology - Standard methods for measuring vacuum-pump performance - Part 5: Non-evaporable getter (NEG) vacuum pumps, $183.00

ISO Technical Reports

Applications of statistical methods (TC 69)

Clean cookstoves and clean cooking solutions (TC 285)
ISO/TR 19915:2023, Clean cookstoves and clean cooking solutions - Guidelines for social impact assessment, $210.00

ISO Technical Specifications

Hydrogen energy technologies (TC 197)
ISO/TS 19870:2023, Hydrogen technologies - Methodology for determining the greenhouse gas emissions associated with the production, conditioning and transport of hydrogen to consumption gate, $237.00

Soil quality (TC 190)
ISO/TS 22171:2023, Soil quality - Determination of potential cation exchange capacity (CEC) and exchangeable cations buffered at pH 7, using a molar ammonium acetate solution, $77.00

Vacuum technology (TC 112)
ISO/TS 6737:2023, Vacuum technology - Vacuum gauges - Characteristics for a stable ionisation vacuum gauge, $116.00

ISO/IEC JTC 1, Information Technology

IEC Standards

Audio, video and multimedia systems and equipment (TC 100)
IEC 60268-24 Ed. 1.0 b:2023, Sound system equipment - Part 24: Headphones and earphones - Active acoustic noise cancelling characteristics, $190.00

Electrical apparatus for explosive atmospheres (TC 31)
IEC 60079-17 Ed. 6.0 b:2023, Explosive atmospheres - Part 17: Electrical installations inspection and maintenance, $329.00
S+ IEC 60079-17 Ed. 6.0 en:2023 (Redline version), Explosive atmospheres - Part 17: Electrical installations inspection and maintenance, $428.00

Newly Published ISO & IEC Standards
ISO Proposal for a New Field of ISO Technical Activity

Cultural Heritage Conservation

Comment Deadline: December 15, 2023

SAC, the ISO member body for China, has submitted to ISO a proposal for a new field of ISO technical activity on Cultural Heritage Conservation, with the following scope statement:

Standardization in the field of terminology, technologies, materials and equipment for monitoring, evaluation, preservation and restoration of cultural heritage.

Note: Limited to tangible cultural heritage. If an overlap or the potential for overlap with other TC/SC is identified, coordination with related TC/SC should be sought by contacting or working with working groups.

Anyone wishing to review the proposal can request a copy by contacting ANSI’s ISO Team (isot@ansi.org), with a submission of comments to Steve Cornish (scornish@ansi.org) by close of business on Friday, December 15, 2023.
Registration of Organization Names in the United States

The Procedures for Registration of Organization Names in the United States of America (document ISSB 989) require that alphanumeric organization names be subject to a 90-day Public Review period prior to registration. For further information, please contact the Registration Coordinator at (212) 642-4975.

When organization names are submitted to ANSI for registration, they will be listed here alphanumerically. Alphanumeric names appearing for the first time are printed in bold type. Names with confidential contact information, as requested by the organization, list only public review dates.

Public Review

NOTE: Challenged alphanumeric names are underlined. The Procedures for Registration provide for a challenge process, which follows in brief. For complete details, see Section 6.4 of the Procedures.

A challenge is initiated when a letter from an interested entity is received by the Registration Coordinator. The letter shall identify the alphanumeric organization name being challenged and state the rationale supporting the challenge. A challenge fee shall accompany the letter. After receipt of the challenge, the alphanumeric organization name shall be marked as challenged in the Public Review list. The Registration Coordinator shall take no further action to register the challenged name until the challenge is resolved among the disputing parties.
Proposed Foreign Government Regulations

Call for Comment

U.S. manufacturers, exporters, trade associations, U.S domiciled standards development organizations and conformity assessment bodies, consumers, or U.S. government agencies may be interested in proposed foreign technical regulations notified by Member countries of the World Trade Organization (WTO). In accordance with the WTO Agreement on Technical Barriers to Trade (TBT Agreement), Members are required to notify to the WTO Secretariat in Geneva, Switzerland proposed technical regulations that may significantly affect trade. In turn, the Secretariat circulates the notifications along with the full texts. The purpose of the notification requirement is to provide global trading partners with an opportunity to review and comment on the regulations before they become final. The USA Enquiry Point for the WTO TBT Agreement is located at the National Institute of Standards and Technology (NIST) in the Standards Coordination Office (SCO). The Enquiry Point relies on the WTO’s ePing SPS&TBT platform to distribute the notified proposed foreign technical regulations (notifications) and their full texts available to U.S. stakeholders. Interested U.S. parties can register with ePing to receive e-mail alerts when notifications are added from countries and industry sectors of interest to them. The USA WTO TBT Enquiry Point is the official channel for distributing U.S. comments to the network of WTO TBT Enquiry Points around the world. U.S. business contacts interested in commenting on the notifications are asked to review the comment guidance prior to submitting comments. For non-notified foreign technical barriers to trade for non-agricultural products, stakeholders are encouraged to reach out as early as possible to the Office of Trade Agreements Negotiations and Compliance (TANC) in the International Trade Administration (ITA) at the Department of Commerce (DOC), which specializes in working with U.S. stakeholders to remove unfair foreign government-imposed trade barriers. The U.S. Department of Agriculture’s Foreign Agricultural Service actively represents the interests of U.S. agriculture in the WTO committees on Agriculture, Sanitary and Phytosanitary (SPS) measures and Technical Barriers to Trade (TBT). FAS alerts exporters to expected changes in foreign regulations concerning food and beverage and nutrition labeling requirements, food packaging requirements, and various other agriculture and food related trade matters. Working with other Federal agencies and the private sector, FAS coordinates the development and finalization of comments on measures proposed by foreign governments to influence their development and minimize the impact on U.S. agriculture exports. FAS also contributes to the negotiation and enforcement of free trade agreements and provides information about tracking regulatory changes by WTO Members. The Office of the United States Trade Representative (USTR) WTO & Multilateral Affairs (WAMA) office has responsibility for trade discussions and negotiations, as well as policy coordination, on issues related technical barriers to trade and standards-related activities.

## 2024 Standards Action Publishing | Volume No. 55

*The “Submit End” deadline applies to forms received by Monday, 5:00 PM ET

Based on the dates below, an ASD can anticipate that a request made between the SUBMIT START date and the *SUBMIT END 5 PM date will appear in ANSI Standards Action on the SA PUBLISHED date.

The last three columns display the 30, 45 & 60-DAY PR (Public Review) END dates

<table>

DIRECT INQUIRIES TO THE AMERICAN NATIONAL STANDARDS INSTITUTE | PSA DEPARTMENT | PSA@ANSI.ORG
2024 Standards Action Publishing | Volume No. 55

*The “Submit End” deadline applies to forms received by Monday, 5:00 PM ET

Based on the dates below, an ASD can anticipate that a request made between the SUBMIT START date and the *SUBMIT END 5 PM date will appear in ANSI Standards Action on the SA PUBLISHED date.

The last three columns display the 30, 45 & 60-DAY PR (Public Review) END dates

<table>
