

**America Makes & ANSI Additive Manufacturing Standardization Collaborative (AMSC)  
Roadmap v3 Working Group (WG) Architecture (updated 5/31/23)**

**Working Groups**

The AMSC has established working groups (WGs) to update the standardization roadmap. Participation in the AMSC is open to additive manufacturing stakeholders that have operations in the United States. Participants may sign up for one or more WGs. *Italics* indicate new topics for version 3. Italics indicate new or substantially revised for v3.
