

AMERICAN NATIONAL STANDARDS MAINTAINED UNDER CONTINUOUS MAINTENANCE

Updated June 5, 2025 – psa@ansi.org

The “ANSI Essential Requirements” provides three options for the maintenance of American National Standards (ANS): periodic maintenance, continuous maintenance and stabilized maintenance (See clause 4.7 www.ansi.org/essentialrequirements).

Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with the procedures set forth in the ANSI Essential Requirements.

In addition, the ANSI Essential Requirements provides for the following:

A PINS is not required for revisions of an American National Standard that is maintained under continuous maintenance and (1) is registered as such on the ANSI website, (2) has a notice in the standard that the standard is always open for comment and how to submit comments, and (3) has information on the developer’s website that the standard is under continuous maintenance and how to submit comments.

These ANSI-accredited standards developers maintain some or all of their American National Standards using Continuous Maintenance:

- AAMI (Association for the Advancement of Medical Instrumentation)
- AARST (The AARST Consortium on National Radon Standards)
- AGA (American Gas Association)
- AGA (ASC Z380) (American Gas Association)
- AGSC (Auto Glass Safety Council)
- ASC X9 (Accredited Standards Committee X9, Incorporated)
- ASHRAE (American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.)
- ASME (American Society of Mechanical Engineers)
- ASTM (ASTM International)
- GBI (The Green Building Initiative)
- HL7 (Health Level Seven)
- Home Innovation (Home Innovation Research Labs, Inc.)
- ICC (International Code Council)
- IES (The Illuminating Engineering Society)
- MHI (ASC MH10) (Material Handling Industry)
- NBBPVI (National Board of Boiler and Pressure Vessel Inspectors)
- NCPDP (National Council for Prescription Drug Programs)
- NFRC (National Fenestration Rating Council)
- NISO (National Information Standards Organization)
- NSF (NSF International)
- PHTA (Pool and Hot Tub Alliance)
- RESNET (Residential Energy Services Network)
- TCNA (Tile Council of North America)
- TIA (Telecommunications Industry Association)
- The Monitoring Association (TMA)
- UL Standards & Engagement (ULSE)

The Association for the Advancement of Medical Instrumentation (AAMI)

Standards Registered Under Continuous Maintenance:

See UL statement: ANSI/AAMI/UL 2800-1-2019, *Standard for Safety for Medical Device Interoperability*

This standard is maintained under continuous maintenance procedures. AAMI has created a notification registry that will send e-mail announcements when any maintenance activity occurs to the recommended practice.

Comments or proposals for revisions to any part of the standard may be submitted to AAMI any time.

Written comments are to be sent to: Standards Dept., AAMI, 1110 N. Glebe Road, Suite 220, Arlington, VA 22201 -4795. Comments may also be e-mailed to: standards@aami.org.

The following person may be contacted by those interested in submitting changes: Rose Kodzwa, RKodzwa@aami.org

Program for Periodic Publication

November (year)*	Solicit requests for change from committee and public. Allow at least two months to submit. Also solicit new committee members.
By end of March (year +1)	Deadline for requests for change.
First meeting (year +1) (usually April)	Review new requests for change including any deferred from previous review cycles and agree on which to propose (with or without change) for formal ballot and public review, which to reject and which to defer to the next review cycle.
By mid-July (year +1)	Document first meeting results and put proposals for change on 6-week ballot and public review.
By end of August (year +1)	Ballot and public review over.
Second meeting (year +1) (usually November)	Review ballot and public review results and respond to comments. If needed and as time permits, begin working on any deferred requests for following year's revision cycle.

* For the first revision cycle, the request for changes will need to start later than indicated in this schedule (and other dates adjusted as needed)

The AARST Consortium on National Radon Standards (AARST)

The approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted.

2023 Catalogue of ANSI/AARST Standards

Homes

- **MAH 2023** *Protocol for Conducting Measurements in Homes*
- **SGM-SF 2023** *Soil Gas Mitigation for Existing Homes*
- **CCAH 2023** *New Construction of One- & Two-Family Dwellings*
- **RRNC 2022** *Rough-In of Radon Control Components in New Construction*
- **MS-QA 2023** *Quality Assurance for Radon Measurement Systems*
- **MS-PC 2022** *Performance Specifications for Instrumentation Systems Designed to Measure Radon Gas in Air*

Larger Buildings

- **MA-MFLB 2023** (MAMF and MALB Consolidated) *Protocol for Conducting Measurements in Multifamily, School, Commercial, and Mixed-Use Buildings.*
- **SGM-MFLB 2023** (RMS-MF and RMS-LB Consolidated) *Soil Gas Mitigation Standards for existing Multifamily, School, Commercial, and Mixed-Use Buildings.*
- **CC-1000 2023** *Soil Gas Control Systems in New Construction of Multifamily, School, Commercial, and Mixed-Use Buildings*

Water

- **MW-RN 2020** *Protocol for the Collection, Transfer and Measurement of Radon in Water*

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established. A copy is attached.
2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

"This standard is under continuous maintenance by the AARST Consortium on National Radon Standards for which the Executive Stakeholder Committee has established a documented program for regular publication of addenda or revisions, including procedures for timely, documented, consensus action on requests for change to any part of the standard. The change submittal form, instructions, and deadlines may be obtained in electronic form from at www.radonstandards.us."

(Note that contact information and address for the AARST administrative office is also provided next to these statements as relative to any inquiry such as appeals, etc.)

3. Procedures for timely, documented consensus action on each request for change have been established. A

copy is attached here:

4. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):
- Name: Gary Hodgden (c/o AARST Administrative Offices)
Address: 475 South Church Street - Suite 600
City: Hendersonville, NC 28792
Phone: 202-830-1110
Fax: 913-780-2090
E-mail: StandardsAssist@gmail.com
5. No portion of the standard(s) shall be excluded from the revision process.
6. In the event that a BSR-8/108 has not been submitted for an American National Standard under continuous maintenance within five years of its approval, the standards developer may request an extension, but shall then maintain the ANS under periodic maintenance.
7. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI (psa@ansi.org) in a timely fashion.

AGA (ASC Z380) (American Gas Association)

American National Standards Maintained Under Continuous Maintenance

American Gas Association (AGA), hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements* (www.ansi.org/essentialrequirements), we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established. A copy is attached.

Section 5.1 A new edition of the *Guide* shall be published or the existing edition shall be reaffirmed a minimum of every five (5) years. An addendum shall be published as frequently as necessary between editions. Revisions resulting from public proposals shall be published in an addendum or the new edition, whichever is published first. If no changes are made within four years of the ANSI approval date, the committee shall apply for reaffirmation of the *Guide*.

2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

Section 5.2. The *Guide* shall contain a proposal submittal form and the following statement:

"GPTC Z380.1, Guide for Gas Transmission, Distribution, and Gathering Piping Systems", is maintained using the continuous maintenance process. Proposals to revise any part may be submitted to the committee at any time. Written proposals shall be submitted using the proposal submittal form provided at the end of the document. The form may also be obtained on the GPTC website at www.aga.org/gptc. Proposals shall be sent to: GPTC Secretary, American Gas Association, 400 N Capitol St NW, Washington, DC 20001."

3. Procedures for timely, documented consensus action on each request for change have been established. A copy is attached. Please see section 6 of the attached document.
4. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Name: Luis Romeo Escobar

Title: Director, Energy Standards

Organization: American Gas Association

Address: 400 N. Capitol St. NW City: Washington, DC 20001

Phone: 202-824-7058

E-mail: Lescobar@aga.org and GPTC@aga.org

5. No portion of the standard(s) shall be excluded from the revision process.
6. In the event that a BSR-8/108 has not been submitted for an American National Standard under continuous maintenance within five years of its approval, the standards developer may request an extension, but shall then maintain the ANS under periodic maintenance.
7. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI (psa@ansi.org) in a timely fashion.

AGA (ASCB109) Gas Displacement Meters

Continuous Maintenance language applicable to all eligible standards:

NOTICE: This American National Standard may be revised or withdrawn at any time. Whenever any revisions are deemed advisable, recommendations should be forwarded to the **American Gas Association**. A form is included for that purpose at the end of this standard.

Standards Registered Under Continuous Maintenance:

- B109.1 - Diaphragm Type Gas Displacement Meters (Under 500 Cubic Feet Per Hour Capacity)
- B109.2 - Diaphragm Type Gas Displacement Meters (500 Cubic Feet Per Hour Capacity and Over)
- B109.3 - Rotary Type Gas Displacement Meters
- B109.4 - Self-Operated Diaphragm-Type Natural Gas Service Regulators

Schedule (Relevant sections from ASCB109 Procedures Book copied below):

6.0 REVIEW OF STANDARDS

6.1 Revisions of Standards.

6.1.1 Each standard under the jurisdiction of the Committee shall be reviewed in light of requests and recommendations, and revisions to standards initiated as warranted.

6.1.2 Standards may be revised as frequently as necessary in line with indicated safety needs, industry developments or current state-of-the-art.

6.1.3 A proposed new American National Standard or a proposed revision or reaffirmation of an American National Standard to be approved by the BSR shall be submitted to the secretary of the BSR within one (1) year from the close of the comment period listed in Standards Action using the appropriate form provided by ANSI, unless the standards developer notifies the secretary of the BSR in writing of good cause for a different schedule for submittal. Failure to make the submittal within two (2) years from the close of the comment period listed in Standards Action shall require consideration by the BSR, i.e., withdrawal, extension for cause, or another listing in Standards Action.

6.2 Reaffirmation of Standards.

An existing standard which has not been revised for five (5) years shall be reviewed at the beginning of the fifth year. If it is determined that the standard is needed but that no modification is required, the Committee shall recommend to ANSI the reaffirmation of the standard without revision.

6.3 Withdrawal of Standards.

6.3.1 Standards which have not been revised (see 6.1) and not reaffirmed (see 6.2) shall be withdrawn. Consideration of withdrawal may be initiated at any time.

6.3.2 Administrative withdrawal:

An American National Standard shall be withdrawn five years following approval, if the standard has not been revised or reaffirmed, unless an extension has been granted by the ExSC or its designee. An American National Standard that has not been reaffirmed or revised within the five-year period, and that has been recommended for withdrawal by the ExSC or its designee, shall be withdrawn at the close of a 30-day public review notice in Standards Action. American National Standards that have not been revised or reaffirmed within ten years from the date of their approval as American National Standards shall be withdrawn and such action shall be announced in Standards Action.

6.3.3 Withdrawal by ANSI-Accredited Standards Developer:

An American National Standard must be supported by an ANSI-Accredited Standards Developer. If an accredited standards developer wishes to withdraw its approval of one or more of its American National Standards, it may do so without a vote of the relevant consensus body; i.e., AGA may administratively withdraw a B109 Standard. Administrative withdrawal by AGA occurs when the B109 Secretary and AGA General Counsel determine that withdrawal is warranted without B109 Committee approval. If an accredited standards developer does withdraw one or more of its American National Standards, then the standards developer shall notify ANSI immediately and the standard shall be withdrawn as an ANS and announced in Standards Action.

6.3.4 Per Section 3.5.2.2(1) of these procedures, the B109 Committee may vote to withdraw a standard.

6.3.5 Other Withdrawal Options:

Discontinuance of standards project and withdrawal for cause are other possible withdrawal alternatives (see most current version of ANSI Essential Requirements)

AGSC (The Auto Glass Safety Council)
Registration Form: Continuous Maintenance of American National Standards

Revised: October 13, 2022

AGSC (The Auto Glass Safety Council) hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

ANSI/AGSC/AGRSS 005-2022

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

8. A documented program for periodic publication of revisions has been established. A copy is attached.
AGSC welcomes proposals for amendments to any portion of this Standard. All proposals will be referred to the AGSC AGRSS Standards Committee for consideration. The AGSC AGRSS Standards Committee considers revisions to the Standard at its meetings, normally scheduled twice a year.
9. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:
AGSC welcomes proposals for amendments to any portion of this Standard. These proposals should be in writing and sent to the address below and accompanied by a statement of the rationale for the proposal along with the proponent's complete contact information. All proposals will be referred to the AGSC AGRSS Standards Committee for consideration. Submit proposals to: AGSC/AGRSS Standards Committee, PO Box 569, Garrisonville, VA 22463, or by email to info@agsc.org.
10. Procedures for timely, documented consensus action on each request for change have been established. A copy is attached.
11. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Name: Kathy Bimber
Address: PO box 569
City: Garrisonville, VA 22463
Phone: 540 6023263
Fax: 540 7205687
E-mail: kbimber@agsc.org

12. No portion of the standard(s) shall be excluded from the revision process.
13. In the event that a BSR-8/108 has not been submitted for an American National Standard under continuous maintenance within five years of its approval, the standards developer may request an extension, but shall then maintain the ANS under periodic maintenance.
14. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI (psa@ansi.org) in a timely fashion.

ASCX9 Accredited Standards Committee X9, Incorporated

Continuous Maintenance language applicable to all eligible standards:

NOTICE: INSTRUCTIONS FOR SUBMITTING A PROPOSED CHANGE TO THIS ASC X9 STANDARD UNDER CONTINUOUS MAINTENANCE

This standard is maintained under continuous maintenance procedures by the Accredited Standards Committee X9, Inc. which has established a documented program/process for regular publication of addenda or revisions, including procedures for timely, documented, consensus action on requests for change to any part of the standard.

CAUTION NOTICE: This American National Standard may be revised or withdrawn at any time. The procedures of the American National Standards Institute require that action be taken to reaffirm, revise, or withdraw this standard no later than five years from the date of approval.

Standards Registered Under Continuous Maintenance:

X9.129 Legal Orders Exchange Standard

X9.138 Distributed Ledger Technologies Terminology

Consideration will be given to proposed changes within 45 days of submittal. Proposed changes must be submitted to:

continuous_maintenance@x9.org

using the published change form

American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc., ASHRAE

Standards Maintained Under Continuous Maintenance:

1. ANSI/ASHRAE Standard 15-2004, *Safety Standard for Refrigeration Systems*
2. ANSI/ASHRAE Standard 30-2019, *Method of Testing Liquid Chillers*
3. ANSI/ASHRAE Standard 34-2007, *Designation and Safety Classification of Refrigerants*
4. ANSI/ASHRAE Standard 52.2-1999, *Method of Testing General Ventilation Air Cleaning Devices for Removal Efficiency by Particle Size*
5. ANSI/ASHRAE Standard 55-2004, *Thermal Conditions for Human Occupancy*
6. ANSI/ASHRAE Standard 62.1-2007, *Ventilation for Acceptable Indoor Air Quality*
7. ANSI/ASHRAE Standard 62.2-2007, *Ventilation and Acceptable Indoor Air Quality in Low-Rise Residential Buildings*
8. ANSI/ASHRAE Standard 72-2014, *Method of Testing Open and Closed Commercial Refrigerators and Freezers*
9. ANSI/ASHRAE/IES Standard 90.1-2007, *Energy Efficient Design of New Buildings Except Low-Rise Residential Buildings*
10. ANSI/ASHRAE/IES Standard 90.2-2007, *Energy Efficient Design of Low-Rise Residential Buildings*
11. ANSI/ASHRAE 90.4-2016, *Energy Standard for Data Centers*
12. ANSI/ASHRAE Standard 127-2020, *Method of Testing for Rating Air Conditioning Units Serving Data Center (DC) and Other Information Technology Equipment (ITE) Spaces*
13. ANSI/ASHRAE Standard 135-2004, *BACnet – A Data Communication Protocol for Building Automation and Control Networks*
14. ASHRAE Standard 135.1-2003, *Method of Test for Conformance to BACnet.*
15. ANSI/ASHRAE standard 140-2007, *Standard Method of Test for the Evaluation of Building Energy Analysis Computer Programs*
16. ANSI/ASHRAE Standard 145.2-2011, *Laboratory Test Method for Assessing the Performance of Gas-Phase Air Cleaning Systems: Air Cleaning Devices*
17. ANSI/ASHRAE Standard 147-2003, *Reducing the Release of Halogenated Refrigerants from Refrigerating and Air-Conditioning Equipment and Systems*
18. ANSI/ASHRAE Standard 154, *Ventilation for Commercial Cooking Operations*
19. ANSI/ASHRAE Standard 160, *Criteria for Moisture-Control Design Analysis in Buildings*
20. ANSI/ASHRAE Standard 161, *Air Quality Within Commercial Aircraft*
21. ANSI/ASHRAE Standard 169-2006, *Weather Data for Building Design Standards*
22. ANSI/ASHRAE/ASHE Standard 170-2008, *Ventilation of Healthcare Facilities*
23. ANSI/ASHRAE Standard 185.1-2015 *Method of Testing UVC Lights for Use in Air Handling Units or Air Ducts to Inactivate Airborne Microorganisms*
24. ANSI/ASHRAE Standard 185.2-2014 *Method of Testing Ultraviolet Lamps for Use in HVAC&R Units or Air Ducts to Inactivate Microorganisms on Irradiated Surfaces*
25. ANSI/ASHRAE/IES/USGBC Standard 189.1P, *Standard for the Design of High-Performance, Green Buildings Except Low-Rise Residential Buildings*
26. ANSI/ASHRAE/ASHE Standard 189.3, *Design, Construction and Operation of Sustainable High-Performance Health Care Facilities*
27. ANSI/ASHRAE/IES Standard 202-2013, *Commissioning Process for Buildings and Systems*
28. ANSI/ASHRAE Standard 205-2023, *Standard Representation of Performance Simulation Data for HVAC&R and Other Facility Equipment*
29. ANSI/ASHRAE Standard 209-2018, *Energy Simulation Aided Design for Buildings except Low-Rise Residential Buildings*

30. ANSI/ASHRAE Standard 221-2020, Test Method to Field-Measure and Score the Cooling and Heating Performance of an Installed Unitary HVAC System
31. ANSI/ASHRAE Standard 224-2023, Standard for the Application of Building Information Modeling
32. ANSI/ASHRAE Standard 228-2023, Standard Method of Evaluating Zero Net Energy and Zero Net Carbon Building Performance
33. ANSI/ASHRAE Standard 230-2022, The Commissioning Process Requirements for Existing Buildings and Systems
34. ANSI/ASHRAE/IBPSA Standard 232-2024, Common Content and Specifications for Building Data Schemas

American National Standards Maintained Under Continuous Maintenance ASME

Continuous Maintenance language applicable to all eligible standards:

Revised editions of ASME Codes and Standards result from committee consideration of factors such as technological advances, new data, and changing environmental and industry needs. Proposals for revisions are processed in accordance with ASME's accredited Codes and Standards Development Committee Procedures and supplemental procedures of the pertinent standards development committee.

Requests for revisions may be submitted at any time and on any portion of the code or standard.

Requests will be considered by the responsible committee for the next edition of the code or standard, as applicable.

Contacts: See associated standards below the list of technical staff contacts.

American National Standards Maintained Under Continuous Maintenance

ASTM International, ASTM: Listed below are the meeting months of the ASTM Committees submitting their standards for ANSI approval.

Committee	Committee Name	1st Meeting	2nd Meeting
D02.94	Petroleum Products and Lubricants	June	December
D20.24	Plastic Building Products	April	November
E05	Fire Standards	June	December
E11	Quality and Statistics	April	October
E12.13	Photo luminescent Safety Markings	January	June
E20.11; E20.12; E20.13; E20.14	Temperature Measurement:	May	November
E28	Mechanical Testing: only E8/E8M, E18 and E23	May	November
E30	Forensic Sciences	October	
E34.50	Health and Safety Standards for Metal Working Fluids	April	October
E36	Conformity Assessment	June	December
E44.09	Photovoltaic Electric Power Conversion	May	
E60.01	Sustainability: Only E3182	April	October
F08	Sports Equipment and Facilities	May	November
F13.10	Traction for Footwear	January	June
F15	Consumer Products: only F400 and F963	September	October
F17.10; F17.11; F17.20; F17.25; F17.26; F17.60; F17.61; F17.63	Plastic Piping Systems	April	November
F25	Ships and Marine Technology	June	December
F26.01; F26.02; F26.03; F26.04; F26.05; F26.06; F26.07; F26.91	Food Service Equipment	April	October

The Green Building Initiative (GBI)

Standards Registered Under Continuous Maintenance

- **ANSI/GBI 01-2021, Green Globes Assessment Protocol for Design, New Construction, and Major Renovations**
- **ANSI/GBI 02-2023, Green Globes Assessment Protocol for Existing Buildings**

These Standards are maintained under continuous maintenance procedures. GBI publishes notices for meetings and calls for public comment in ANSI Standards Action as required. GBI has a list of stakeholders that will receive email announcements when any maintenance activity occurs to the recommended practice. GBI's website contains a place for new stakeholders to register.

Comments or proposals for revisions to any part of these Standards may be submitted to GBI at any time.

The following person may be contacted by those interested in submitting changes:

Name: Emily Marx

E-mail: comment@thegbi.org

ANSI/GBI 01-2021

2021	
December	Solicit new Consensus Body, subcommittee, and task group members.
2022	
January	Continue to solicit new Consensus Body, subcommittee, and task group members. Solicit requests for change from the public/stakeholders. Allow at least 45 days to submit.
First meeting April/May	Review requests for change including any deferred from previous review cycles and agree on which to propose (with or without change) for formal ballot and public review and which to reject.
July/August	Document meeting results and notify Consensus Body members and commenters of Consensus Body decisions.
2023	
March/April	Review unresolved objections and solicit requests for change from Consensus Body and public/stakeholders. Allow at least 45 days to submit.
November/December	Review unresolved objections and new proposals. Agree on which to accept (with or without change), and which to reject.

2024	
January/February	Document meeting results and notify Consensus Body members and commenters of Consensus Body decisions. Solicit requests for change from Consensus Body and public/stakeholders. Allow at least 45 days to submit.
March	Review unresolved objections and agree on which proposals for change to accept (with or without change and which to reject. Document third meeting results and notify Consensus Body members and commenters of Consensus Body decisions. Review unresolved objections and agree on which proposals for change to accept (with or without change), which to reject and which to defer to the next review cycle.
April	Conduct Letter Ballot and, if necessary, public review. Review ballot results and respond to comments. If needed conduct Recirculation Ballot. Begin working on any deferred requests for following year's revision cycle. Solicit new committee members. Publish revised standard.

ANSI/GBI 02-2023

2024	
January	Solicit new volunteers. Solicit requests for change from the public/stakeholders. Allow at least 45 days to submit.
First meeting April	Review requests for change. Agree on which to propose (with or without change) and which to reject.
August/September	Document meeting results and notify Consensus Body members and commenters of Consensus Body decisions.
October	Review unresolved objections and solicit requests for change from stakeholders. Allow at least 45 days to submit.
2025	
Second meeting January	Review unresolved objections and new proposals. Agree on which to accept (with or without change), and which to reject.
March	Document meeting results and notify Consensus Body members and commenters of Consensus Body decisions. Solicit requests for change from Consensus Body and public/stakeholders. Allow at least 30 days to submit.
May	Review unresolved objections and agree on which proposals for change to accept (with or without change) and which to reject.
June/July	Document third meeting results and notify Consensus Body members and commenters of Consensus Body decisions. Review unresolved objections and agree on which proposals for change to accept (with or without change), which to reject and which to defer to the next review cycle.
August/September	Conduct Letter Ballot and, if necessary, public review. Review ballot results and respond to comments. If needed conduct Recirculation Ballot.
October/November	Begin working on any deferred requests for following year's revision cycle. Solicit new committee members.

December	Publish revised standard.
----------	---------------------------

Health Level Seven, Inc. (HL7)

Health Level Seven, Inc. (HL7) hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option.

No standards at this time are under Continuous maintenance.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

8. A documented program for periodic publication of revisions has been established. A copy is enclosed. HL7 publishes a Normative Edition once a year, typically in the April timeframe.
9. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows: This American National Standard is maintained using the continuous maintenance process. Comments or proposals for revision to any part of this standard may be submitted to HL7 at any time. Comments or proposals may be submitted online at www.HL7.org or in writing to the Associate Executive Director at Health Level Seven, Inc., 3300 Washtenaw Avenue Suite 227, Ann Arbor, Michigan 48104-4261. Comments or proposals submitted in writing must identify the standard in question and include the submitter's name, affiliation, telephone number, and e-mail address.
10. Procedures for timely, documented consensus action on each request for change have been established. A copy is enclosed. Refer to section 15.04.03.01 of the HL7 Governance and Operations Manual (attached).
11. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Karen Van Hentenryck
Associate Executive Director
Health Level Seven
3300 Washtenaw Ave., Suite 227
Ann Arbor, MI
12. No portion of the standard(s) shall be excluded from the revision process.
13. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard(s) shall be taken in accordance with clause 4.7 of the *ANSI Essential Requirements*.
14. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI in a timely fashion.

Returned by:

Name: Karen Van Hentenryck
Title: Associate Executive Director
Organization: Health Level Seven, Inc.

Home Innovation (Home Innovation Research Labs, Inc.)

Home Innovation Research Labs hereby informs ANSI that the following approved American National Standard National Green Building Standard ICC 700 shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements, we agree to the following requirements:

Standards Maintained Under Continuous Maintenance:
ICC 700, National Green Building Standard

The following website details the maintenance schedule and contact information for the National Green Building Standard ICC 700.

<https://www.HomeInnovation.com/NGBS> This website was established for the initial printing of ICC 700 and has been maintained continuously.

1. A documented program for periodic publication of revisions has been established.

(see website)

2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

The development process for the National Green Building Standard™ is managed by Home Innovation Research Labs, an ANSI-Accredited Standards Developer. The NGBS is revised on a continuous maintenance basis in accordance with ANSI requirements. Proposals for revising the 2020 edition of the National Green Building Standard™ are welcome. Please visit the Home Innovation Research Labs website (www.homeinnovation.com/NGBS) for a proposal form and instructions.

3. Procedures for timely, documented consensus action on each request for change have been established.

(see website)

4. The following person(s) may be contacted by those interested in submitting:

Kevin Kauffman

KKauffman@HomeInnovation.com or Standards@HomeInnovation.com or online www.HomeInnovation.com

301-430-6314 ph, 301-430-6180 fx

Home Innovation Research Labs, 400 Prince Georges Blvd. Upper Marlboro, MD 20774

5. No portion of the standard(s) shall be excluded from the revision process. Every section is represented by the online proposal form located at <https://www.HomeInnovation.com/NGBS>

6. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard(s) shall be taken in accordance with clause 4.7 of the ANSI Essential Requirements.

(see section #5 above)

7. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI in a timely fashion.

E-mail Address: KKauffman@HomeInnovation.com

International Code Council (ICC)

The International Code Council (ICC) hereby informs ANSI that the following approved American National Standard ICC 500 shall be maintained using the Continuous Maintenance option.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements, we agree to the following requirements:

Standards Maintained Under Continuous Maintenance:

ICC 500, ICC/NSSA Standard for the Design of and Construction of Storm Shelters

The following website details the maintenance schedule and contact information for ICC 500.

This website was established for the development of ICC 500 and has been maintained continuously. <https://www.iccsafe.org/products-and-services/standards-development/is-stm/>

1. A documented program for periodic publication of revisions has been established.
(also see website)

Program for Periodic Publication

January (ANS Approval year)*	Solicit requests for change from committee and public. Allow at least two months to submit. Also solicit for new committee members.
By end of March (year +1)	Deadline for requests for change.
First meeting (year +1) (usually April)	Review new requests for change including any deferred from previous review cycles and agree on which to propose (with or without change) for formal ballot and public review, which to reject and which to defer to the next review cycle.
By mid-Aug (year +1)	Document first meeting results and put proposals for change on 6-week ballot and public review.
By end of Sept (year +1)	Ballot and public review over.
Second meeting (year +1) (usually November)	Review ballot and public review results and respond to comments. If needed and as time permits, begin working on any deferred requests for following year's revision cycle.

2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

This Standard is maintained under a continuous maintenance schedule to consider recommended changes to any part of it by action of the consensus body. The Code Council accepts public comments and proposals for this Standard on a continual basis and during regular calls for comment. Comments and proposals submitted on ICC Public Comment and Proposal Forms may be submitted to the committee secretariat at kpaarlberg@iccsafe.org.

3. Procedures for timely, documented consensus action on each request for change have been established.
(see website)

4. The following person(s) may be contacted by those interested in submitting:

Kimberly Paarlberg, RA

Sr. Staff Architect

kpaarlberg@iccsafe.org

ph. 888-422-7233, Ext. 4306

5. No portion of the standard(s) shall be excluded from the revision process. Every section is represented by the online proposal form located on website.

6. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard(s) shall be taken in accordance with clause 4.7 of the ANSI Essential Requirements.

7. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI in a timely fashion.

102. ANSI/IES TM-35 Technical Memorandum: Projecting Long-Term Chromaticity Coordinate Shift of LED Packages, Arrays, and Modules

103. ANSI/IES TM-38 Technical Memorandum: Photometric and
Electrical Measurements of Tunable-White Solid-State Lighting Products Submit to:
psa@ansi.org

Schedule:

All submittals received by IES are acknowledged and forwarded to the Committee for consideration. The Committee will inform submitters of the disposition of their substantive proposals. Committee consideration will be given to proposed changes according to the following schedule:

Deadline: December 31

Proposal Considered: By June 30

Committee consideration will be given to proposed changes by June 30 if proposed changes are received by the Director of Standards no later than December 31. Proposals received after December 31 shall be considered by the Committee no later than June 30 of the following year.

**NOTICE INSTRUCTIONS FOR SUBMITTING A PROPOSED CHANGE TO
THESE STANDARDS UNDER CONTINUOUS MAINTENANCE**

This standard is maintained under continuous maintenance procedures for which IES has an established and documented program for regular publication of addenda or revisions, including procedures for timely, documented, consensus action on requests for change to any part of the standard. Committee consideration will be given to proposed changes by June 30 if proposed changes are received by the IES Director of Standards no later than December 31. Proposals received after December 31 shall be considered by the Committee no later than June 30 of the following year.

Submittal Format

Proposed changes must be submitted to the IES Director of Standards in the announced published format. However, changes may be accepted in an earlier published format, if the differences are immaterial to the proposed change submittal. If the Director of Standards concludes that a current form must be utilized, the proposer may be given up to 20 additional days to resubmit the proposed changes in the current format.

Specific changes in the text or values are required and must be substantiated. Any change proposals that do not meet these requirements will be returned to the proposer. Supplemental background documents to support changes submitted may be included.

Submission to the Committee Chair

The Director of Standards shall forward proposed changes received on appropriate forms to the Committee chair for assigning to designated Committee members (responders) to develop responses to submitters of proposed changes.

Review and Clarification

Responders shall review proposals and should contact the proposer if necessary for clarification.

Response Recommendation

Designated responders shall draft a recommended Committee response, including any recommended changes to the standard. The responder's recommended responses shall be submitted to the Committee chair in electronic form usable by Society Staff, including any recommended change to the standard in response to proposals received. (If a subcommittee is preparing a response see procedure under Exceptions above.)

Options for Committee response are limited to:

- a) Proposed change accepted for public review without modification
- b) Proposed change accepted for public review with modification
- c) Proposed change accepted for further study
- d) Proposed change rejected

The responder shall provide reasons for any recommendation other than option a) "accepted for public review without modification."

The designated responder shall not recommend option c) "proposed change accepted for further study" unless the further study can be completed by October 1 of that year and the Committee can then vote for option a), b), or d) no later than November 15 of that year.

Editing

The Committee chair or his/her designee shall edit the draft responses and circulate the edited drafts to the Committee for review.

To Access Form for Proposing Change to an IES Standard Under Continuous Maintenance:

Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI (psa@ansi.org) in a timely fashion.

IES Director of Standards
85 Broad Street, 17th Floor
New York, NY 10004
Phone: 212-248-5000

Material Handling Industry, MHI (ASCMH10)

Standards Maintained Under Continuous Maintenance:

MH10.8.2; Data Identifier and Application Identifier Standard

Schedule

Proposed changes to the standard that were accepted by the MH10.8.2 Data Identifier Maintenance Committee will be integrated into the previously published version at the recommendation of the committee. Upon approval of the new version by MH10 Subcommittee 8 and the full MH10 committee, the standard will be published as a new version.

The committee plans to incorporate accepted revisions into the standard as frequently as necessary, but in no case will a published revised standard be issued more frequently than yearly, in line with indicated needs and industry developments. Each accepted revision since the last published version shall be identified in a "Document Maintenance Summary" appearing immediately before the Table of Contents of the standard.

National Board of Boiler and Pressure Vessel Inspectors (NBBPVI)

Continuous Maintenance language applicable to all eligible standards:

The NBIC Committee meets regularly to consider revisions of the rules, new rules, and requests for interpretations. Requests for interpretation must be addressed to the Secretary in writing and must give full particulars in order to receive consideration and a written interpretation (see Mandatory Appendix "1" covering preparation of technical inquiries.) Proposed revisions to the code resulting from inquiries will be presented to the NBIC Committee for appropriate action.

Standards Maintained Under Continuous Maintenance:

ANSI/NB 23, The National Board Inspection Code

Schedule:

Colored-sheet Addenda, which include revisions and additions to the Code, are published annually. Addenda are permissive on the date issued and become effective six months after the date of issue. The addenda will be sent automatically to purchasers of the Code up to the publication of the next issue.

National Council for Prescription Drug Programs, NCPDP

How to Submit a Proposed Change to an NCPDP Standard Under Continuous Maintenance

The Data Element Request Form (DERF) is the documentation used to request an addition or modification to an NCPDP standard. Anyone may submit a DERF to NCPDP along with accompanying information, including the proposed standard, implementation guide, data element dictionary, and modification log if needed.

A DERF must be completed and submitted with the proper documentation according to an established schedule in order for it to be reviewed during a quarterly workgroup meeting. The DERF is distributed to NCPDP members via the NCPDP website prior to the work group meeting.

National Fenestration Rating Council (NFRC)

National Fenestration Rating Council (NFRC), hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements (www.ansi.org/essentialrequirements), we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established for these standards:

- ANSI/NFRC 203
- ANSI/NFRC 202
- ANSI/NFRC 500
- ANSI/NFRC 400
- ANSI/NFRC 100
- ANSI/NFRC 200

2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

Comments or proposals for revisions on any part of this standard may be submitted to National Fenestration Rating Council at any time. Written comments or proposals must be in writing and be submitted to the NFRC Accredited Standards Developer at standards@nfr.org.

3. Procedures for timely, documented consensus action on each request for change have been established.

Any written comments or proposals submitted to NFRC as provided above shall be submitted by NFRC to its consensus body for consideration within a reasonable timeframe not to exceed one year. The submitter will be notified by NFRC of the expected time frame for consideration of the proposal or comments. NFRC shall apply for reaffirmation of this standard regardless any comment or proposals every three years.

4. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Name: Jen Padgett, National Fenestration Rating Council (NFRC)

Address: 6305 Ivy Lane, Suite 410, Greenbelt, MD 20770

Phone: 301-589-1776, Fax: (301) 589-3884, E-mail: jpadgett@nfr.org

National Information Standards Organization (NISO)

The following standard(s) are maintained under continuous maintenance procedures.

- **ANSI/NISO Z39.96: JATS: Journal Article Tag Suite**
- **ANSI/NISO Z39.102: STS: Standards Tag Suite**

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements, we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established. A copy is attached.
2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests.
3. Procedures for timely, documented consensus action on each request for change have been established and no portion of the standard shall be excluded from the revision process. A copy is attached.
4. In the event that a BSR-8/108 has not been submitted for an American National Standard under continuous maintenance within five years of its approval, the standards developer may request an extension, but shall then maintain the ANS under periodic maintenance.
5. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI (psa@ansi.org) in a timely fashion.

Continuous Maintenance Procedures Z39.96-2019: JATS: Journal Article Tag Suite

ANSI Continuous Maintenance

In accordance with the ANSI Essential Requirements, the ANSI/NISO Z39.96-2019: *JATS: Journal Article Tag Suite* standard is maintained under continuous maintenance procedures.

Proposed Changes

Under continuous maintenance procedures anyone may propose changes at any time. Each change will be considered by the Z39.96 JATS Standing Committee according to a definite schedule, shown in Section 2. The Standing Committee and NISO leadership committees may also propose changes.

The Standing Committee shall follow the procedures in this section in lieu of periodic maintenance and stabilized maintenance procedures. All changes to the Z39.96 standard shall be submitted in compliance with this section.

Section 1. Instructions for Submittal of Proposed Change to ANSI/NISO Standard Z39.96 Under Continuous Maintenance

Comments or proposals for revisions to any part of the standard may be submitted in writing (including electronically) to NISO at any time. Submissions must be accompanied by the submitter's name, affiliation, and e-mail address.

Written comments are to be submitted via the NISO web site, to a form linked from the JATS page at <https://www.niso.org/standards-committees/jats>

If it is not possible for the submitter to access the web form, alternatively, comments may be sent to:

National Information Standards Organization (NISO) - ANSI/NISO Z39.96
Attn: Standards Program Manager
3600 Clipper Mill Road, Suite 302
Baltimore, MD 21211
Tel.: 301-654-2512 (main)
Fax: 410-685-5278
E-mail: nisohq@niso.org

In addition, the following person(s) may be contacted by those interested in submitting changes:

Jeff Beck
Co-chair, ANSI/NISO Z39.96 Standing Committee
National Library of Medicine
E-mail: beck@ncbi.nlm.nih.gov

B. Tommie Usdin
Co-chair, ANSI/NISO Z39.96 Standing Committee
Mulberry Technologies
E-mail: btusdin@mulberrytech.com

Section 2. Maintenance Review Schedule

All submittals received by NISO or the Standing Committee chairs are acknowledged and forwarded to the JATS Standing Committee for consideration.

The Standing Committee will schedule meetings via teleconference or in person when a substantive number of comments for review have been received, but in any case no less frequently than twice a year if there are unaddressed comments, with meetings to be held more often at the discretion of the co-chairs.

The Standing Committee will inform submitters of the disposition of their proposals within one month following each meeting.

Section 3. Resolution of Proposed Changes

The JATS Standing Committee may respond to submissions in the following ways:

- a. Proposed change accepted without modification
- b. Proposed change accepted with modification
- c. Proposed change accepted for further study
- d. Proposed change rejected

Responses are voted upon by the Standing Committee and approved by committee majority.

Accepted changes (response a or b) shall be recorded in a change log which will be posted to the JATS page at <https://www.niso.org/standards-committees/jats> and circulated to JATS-List (<http://www.mulberrytech.com/JATS/JATS-List/>).

The Standing Committee shall provide reasons for its responses and an estimated schedule for any action. Proposed changes accepted for further study will be again brought to the Standing Committee for resolution no later than the next quarterly review period.

All submitted changes and Standing Committee responses will be recorded and made available at www.niso.org. In addition, NISO staff will send notifications to JATS-list (<http://www.mulberrytech.com/JATS/JATS-List/>) when any maintenance activity occurs to the standard.

Interested parties can subscribe to JATS-List by filling out the form at <http://www.mulberrytech.com/JATS/JATS-List/subscribe-unsubscribe.html>

When a sufficient number of accepted changes have been accumulated, but no later than four years after the previous approval date, the JATS Standing Committee will prepare a revision of the standard and the revision will be processed according to the NISO Operating Procedures provisions for balloting and approving a revised standard.

Section 4. Publication of a New Edition or Reaffirmation

A new edition of a standard under continuous maintenance shall occur within five years of the prior publication date. An existing standard that has not been revised for four (4) years of the original publication date shall be reviewed at the beginning of the fourth year. If it is determined that the standard is needed but that no modification is required, action to reaffirm the standard shall be initiated.

Procedures for Proposing Changes to ANSI/NISO Z39.102-2017: STS: Standards Tag Suite

ANSI/NISO Z39.102-2017: STS: Standards Tag Suite standard is maintained under continuous maintenance procedures, in accordance with [NISO Operating Procedures](#) Section 7.6 and [ANSI Essential Requirements](#) Section 4.7.2. This document was approved by the STS Standing Committee on November 9, 2018 and the NISO Information Creation & Curation Topic Committee on February 8, 2019.

Under continuous maintenance procedures anyone may propose changes at any time. Each change will be considered by the Z39.102 STS Standing Committee according to a definite schedule, shown in Section 2 below. The Standing Committee and NISO leadership committees may also propose changes.

The Standing Committee shall follow the procedures below in lieu of periodic maintenance and stabilized maintenance procedures. All changes to the Z39.102 standard shall be submitted in compliance as described below.

Section 1. Instructions for Submittal of Proposed Change to ANSI/NISO Standard Z39.102 Under Continuous Maintenance

Comments or proposals for revisions to any part of the standard may be submitted in writing (including electronically) to NISO at any time. Submissions must be accompanied by the submitter's name, affiliation, and e-mail address.

Written comments are to be submitted via the NISO web site, to a form linked from the STS Committee page at <https://www.niso.org/standards-committees/sts>

If it is not possible for the submitter to access the web form, alternatively, comments may be sent to:

National Information Standards Organization (NISO) - ANSI/NISO Z39.102
Attn: Standards Program Manager
3600 Clipper Mill Road, Suite 302
Baltimore, MD 21211
Tel.: 301-654-2512 (main)
Fax: 410-685-5278
E-mail: nisohq@niso.org

In addition, the following person(s) may be contacted by those interested in submitting changes:

Bruce Rosenblum
Co-chair, ANSI/NISO Z39.102 Standing Committee
Inera, Inc.
E-mail: bruce@inera.com

Robert Wheeler
Co-chair, ANSI/NISO Z39.102 Standing Committee
American Society of Mechanical Engineers (ASME)
E-mail: wheelerr@asme.org

Section 2. Maintenance Review Schedule

All submittals received by NISO or the Standing Committee chairs are acknowledged and forwarded to the STS Standing Committee for consideration.

The Standing Committee will schedule meetings via teleconference or in person when a sufficient number of substantive comments for review have been received, but in any case no less frequently than once a year if there are unaddressed comments, with meetings to be held more often at the discretion of the co-chairs.

The Standing Committee will inform submitters of the disposition of their proposals within one month following each meeting.

Section 3. Resolution of Proposed Changes

The STS Standing Committee may respond to submissions in the following ways:

- a. Proposed change accepted without modification
- b. Proposed change accepted with modification
- c. Proposed change accepted for further study
- d. Proposed change rejected

Proposed changes are resolved through consensus reached by Standing Committee discussion. (According to ANSI Essential Requirements, "Consensus means substantial agreement has been reached by directly and materially affected interests. This signifies the concurrence of more than a simple majority, but not necessarily unanimity. Consensus requires that all views and objections be considered, and that an effort be made toward their resolution.")

Responses to submissions shall be recorded in a change log which will be posted to the STS Committee page at <https://www.niso.org/standards-committees/sts> and circulated to the sts-announce mailing list (<https://groups.niso.org/lists/sts-announce/>).

The Standing Committee shall provide reasons for its responses and an estimated schedule for any action. Proposed changes accepted for further study will be again brought to the Standing Committee for final resolution no later than the next annual review period.

All submitted changes and Standing Committee responses will be recorded and made available linked from <https://www.niso.org/standards-committees/sts>. In addition, NISO staff will send notifications to the sts-announce mailing list (<https://groups.niso.org/lists/sts-announce/>) when any maintenance activity occurs to the standard.

Interested parties can subscribe to the sts-announce mailing list by sending email to sts-announce-subscribe@list.niso.org

When a sufficient number of accepted changes have been accumulated, but no later than four years after the previous approval date, the STS Standing Committee will prepare a revision of the standard and the revision will be processed according to the NISO Operating Procedures provisions for balloting and approving a revised standard (Section 7.5).

Section 4. Publication of a New Edition or Reaffirmation

A new edition of a standard under continuous maintenance shall occur within five years of the prior publication date. An existing standard that has not been revised for four (4) years of the original publication date shall be reviewed at the beginning of the fourth year. If it is determined that the standard is needed but that no modification is required, action to reaffirm the standard shall be initiated.

Any comments about these Continuous Maintenance procedures in general may be sent via email to nisohq@niso.org.

NSF International

NSF International hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

Response

The following Standards shall be maintained using the Continuous Maintenance Option. Please send comments to the attention of the appropriate Joint Committee Secretariat at:

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

15. A documented program for periodic publication of revisions has been established.
See NSF International Standards Development and Maintenance Policies, Section 5.2 (AESOP #2419[1]). A copy is attached.

16. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:
Excerpt from the foreword of NSF/ANSI 140 – Sustainable carpet assessment:
Comments on this Standard should be sent to NSF International, Standards Department, PO Box 130140, Ann Arbor, Michigan 48113-0140, USA or to standards@nsf.org.
17. Procedures for timely, documented consensus action on each request for change have been established. See NSF International Standards Development and Maintenance Policies, Section 8 (AESOP #2419[1]). A copy is attached.
18. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):
Jessica Evans, Director
Standards Department, NSF International
PO Box 130140
Ann Arbor, MI 48113-0140
734-913-5774
734-769-8010
jevans@nsf.org
19. No portion of the standard(s) shall be excluded from the revision process.
20. In the event that a BSR-8/108 has not been submitted for an American National Standard under continuous maintenance within five years of its approval, the standards developer may request an extension, but shall then maintain the ANS under periodic maintenance.
21. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI (psa@ansi.org) in a timely fashion.

Pool and Hot Tub Alliance (PHTA)

The following standard(s) are maintained under continuous maintenance procedures.

- ANSI/ANSI/APSP/ICC-11 2019 *American National Standard for Water Quality in Public Pools and Spas*

Program for Periodic Publication of Revisions to PHTA Standards

Revisions to a standard, or reports that no revisions have been made to a standard, under continuous maintenance will be published at least every two years and made publicly available.

Procedures for Consensus Action on Request for Change

The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. The PHTA website shall also include this statement and information. No portion of the standard shall be excluded from the revision process.

Each request for change will be considered by the PHTA Standard Consensus Committee (SCC) within one year of the date received using consensus ballots. PHTA will confirm receipt of a proposal by a commenter in writing and notify the commenter of the schedule.

The SCC shall respond to each request for change in writing, with one of the following:

- Accept proposed change for public review as submitted;
- Accept proposed change for public review as modified;
- Designate proposed change for further study;
- Reject proposed change as non-persuasive; or
- Reject proposed change as non-germane to standard.

If the proposed change is designated for further study, the SCC shall reconsider it within one year.

The submitter of the change request shall be notified in writing of the SCC action, and reasons thereof, within 90 days of the action.

Requests for change accepted for public review will be subject to PHTA Public Review followed by (a) review and resolution of comments and objections, (b) recirculation ballot(s) for unresolved negatives and substantive changes, and finally (c) submittal to ANSI.

The following person(s) may be contacted by those interested in submitting changes

Name: Justin Wiley, Vice President, Government Relations, Standards, and Codes

Address: Pool and Hot Tub Alliance, 1650 King Street, Suite 602

City: Alexandria State: VA Zip: 22314

Phone: 703-838-0083

Fax: 703-549-0493

E-mail: standards@phta.org

Residential Energy Services Network (RESNET)

Approved American National Standard(s) maintained using the Continuous Maintenance option.

(Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.)

RESNET/ICC 301-2022, Standard for the Calculation and Labeling of the Energy Performance of Dwelling and Sleeping Units using an Energy Rating Index

RESNET/ACCA/ICC 310-2020, Standard for Grading the Installation of HVAC Systems

RESNET/ICC 380-2022, Standard for Testing Airtightness of Building, Dwelling Unit, and Sleeping Unit Enclosures; Airtightness of Heating and Cooling Air Distribution Systems; and Airflow of Mechanical Ventilation Systems

RESNET/ICC 850-2020, Standard for the Calculation and Labeling of the Water Use Performance of One- and Two-Family Dwellings Using the Water Rating Index

RESNET 1201-2016 (R2021), Standard Method of Test for the Evaluation of Building Energy Analysis Model Calibration Methods

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements, we agree to the following requirements:

- A documented program for periodic publication of revisions has been established. Updates to standards and amendments to standards are published to the RESNET website upon completion of the approved standards development process. See Attachment 1 for standards maintenance publication criteria.
- The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:
- “This Standard is under continuous maintenance. In accordance with Section 10.9 of the *RESNET Standard Development Policy and Procedures Manual*, continuous maintenance proposals should be submitted to the Manager of Standards.”
- Procedures for timely, documented consensus action on each request for change have been established. Continuous maintenance proposals are evaluated upon receipt by RESNET. See Attachment 1 for procedures.
- The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Richard Dixon
Standards Manager
Residential Energy Services Network, Inc. (RESNET)

ATTACHMENT 1

10.9 Maintenance of RESNET Standards

All RESNET standards shall be maintained on a continuous basis. At a minimum, each standard shall be revised, reaffirmed or withdrawn by the 5th year after its initial approval as an American National Standard.

For the purposes of continuous maintenance, all proposed changes to a published standard shall be reviewed when received. The SMB shall determine whether the change is critical or not.

When a critical change is received, the SMB shall decide whether the proposed change will be handled as an addendum to the published standard or whether it will be handled by updating the published standard. The proposed change shall be forwarded to the SDC as a Proposed NWI and the standards development process would be followed.

When a non-critical proposed change is received, the proposal shall be kept on file to be provided to the SDC when the standard is next updated.

During the 5th year after a RESNET standard is first approved as an American National Standard, the standard shall be reviewed and either revised, reaffirmed or withdrawn. The SMB shall provide the SDC with a Proposed NWI along with any non-critical proposed changes and any policy direction that is deemed necessary.

The SDC shall review the standard and address any of the non-critical proposed changes. The standards development process shall be followed as outlined in this manual beginning with the Proposed NWI stage. If there are no proposed changes and the SDC does not propose any changes, the published standard would be circulated for public comment as published.

The SDC shall;

reaffirm the standard

revise the standard

withdraw the standard

Tile Council of North America (TCNA)

Standards Registered Under Continuous Maintenance:

- A108.01 General Requirements: Subsurfaces and Preparations by Other Trades
- A108.02 General Requirements: Materials, Environmental, and Workmanship
- A108.1A Installation of Ceramic Tile in the Wet-Set Method, with Portland Cement Mortar
- A137.1 Standard Specifications for Ceramic Tile
- A137.2 National Specifications for Glass Tile
- A137.3 Standard Specifications for Gauged Porcelain Tiles and Gauged Porcelain Tile Panels/Slabs
- A326.3 American National Standard Test Method for Measuring Dynamic Coefficient of Friction of Hard Surface Flooring Materials

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements, we agree to the following requirements:

- A documented program for periodic publication of revisions has been established. A copy is attached. **(See ASC A108 Committee Procedures)**
- The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

“This standard is under continuous maintenance and always open for comment and proposed revisions. Please submit comments and proposed revisions to the Committee Secretary, Katelyn Simpson, ksimpson@tcnatile.com”

- Procedures for timely, documented consensus action on each request for change have been established. **(See ASC A108 Committee Procedures)**
- The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Name: **Katelyn Simpson**

Address: **100 Clemson Research Blvd**

City: **Anderson**

State: **SC**

Zip: **29625**

Phone: **864-646-8453**

Fax: **864-646-2821**

E-mail: **ksimpson@tileusa.com**

Telecommunications Industry Association, TIA

Standards Registered Under Continuous Maintenance:

There are no Continuous Maintenance standards at this time

For additional information, please visit the TIA homepage at www.tiaonline.org

TIA's address: 1320 North Courthouse Road, Suite 200, Arlington, VA 22201.

All comments are to be sent to TIA Standards Secretariat at standards@tiaonline.org.

The Monitoring Association (TMA)

ANS to be Maintained Under Continuous Maintenance

The Monitoring Association (TMA) hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

- ANSI/TMA CS-V-01-2022: Alarm Confirmation, Verification and Notification Procedures Standard
- ANSI/TMA AVS-01 2023 Alarm Validation Scoring (AVS) Standard

Document program for periodic publication of revisions

TMA will submit the proposal or comment to its consensus body for consideration within a reasonable time frame, not to exceed two years. The submitter will be notified within 60 days of TMA receiving the proposal, of the expected time frame for consideration of the proposal. If no changes are made within four years of the ANSI approval date, TMA shall apply for reaffirmation of the standard(s).

ANS Labeling

The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of TMA's statement is as follows:

TMA reserves the right to revise this document at any time. Because TMA policy requires that every standard be reviewed periodically and be revised, reaffirmed, or withdrawn, users of this document are cautioned to obtain and use the most recent edition of this standard. Current information regarding the revision level or status of this or any other TMA standard may be obtained by contacting TMA.

Requests to modify this document are welcome at any time from any party, regardless of membership affiliation with TMA. Such requests, which must be in writing and sent to the address set forth below, must clearly identify the document and text subject to the proposed modification and should include a draft of proposed changes with supporting comments. Such requests will be considered in accordance with TMA's standards development policies and procedures.

UL Standards & Engagement (ULSE)

Continuous Maintenance language applicable to all eligible Standards:

The most recent approval of UL as an American National Standard (ANS) occurred on ____ and covers the ____ Edition, including revisions through _____. Approval of UL ____ as an American National Standard is maintained using the continuous maintenance process. Comments or proposals for revision on any part of the Standard may be submitted to UL at any time. Written comments are to be sent to the UL staff person listed below.

Procedure to request voting membership on the standing canvass group also known as the Standards Technical Panel:

Contact the UL staff person listed below.

Schedule:

For standards maintained under the continuous maintenance option, UL shall address any comments or proposals for revision submitted for consideration on any part of a standard. UL will submit the proposal or comment to its consensus body for consideration within a reasonable time frame, not to exceed two years. The submitter will be notified of the expected time frame for consideration of the proposal. If no changes are made within four years of the ANSI approval date, UL shall apply for reaffirmation of the standard(s).

 - UL 248-16, Low-Voltage Fuses-Part 16: Test Limiters
 - UL 248-19, Standard for Low-Voltage Fuses - Part 19: Photovoltaic
 - UL 252, Compressed Gas Regulators
 - UL 252A, Compressed Gas Regulator Accessories
 - UL 258, Standard for Shutoff Valves for Trim and Drain Purposes for Fire Protection
 - UL 260, Standard for Safety for Dry Pipe and Deluge Valves for Fire-Protection Services
 - UL 263, Fire Tests of Building Construction and Materials
 - UL 268, Standard for Safety for Smoke Detectors for Fire Alarm Systems
 - UL 268A, Standard for Smoke Detectors for Duct Application
 - UL 275, Automotive Glass Tube Fuses
 - UL 283, Standard for Safety for Air Fresheners and Deodorizers
 - UL 291, Automated Teller Systems
 - UL 294, Access Control System Units
 - UL 294B, Power Over Ethernet (PoE) Power Sources for Access Control Systems and Equipment
 - UL 295, Standard for Safety for Commercial-Industrial Gas Burners
 - UL 296, Oil Burners
 - UL 296A, Standard for Safety for Waste Oil-Burning Air-Heating Appliances
 - UL 297, Acetylene Generators, Portable, Medium-Pressure
 - UL 299, Standard for Dry-Chemical Fire Extinguishers
-
- UL 300, Fire Testing of Fire Extinguishing Systems for Protection of Commercial Cooking Equipment
 - UL 305, Panic Hardware

- UL 307A, Liquid Fuel-Burning Heating Appliances for Manufactured Homes and Recreational Vehicles
 - UL 310, Electrical Quick-Connect Terminals
 - UL 312, the Standard for Safety for Check Valves for Fire-Protection Service
 - UL 325, Standard for Safety for Door, Drapery, Gate, Louver, and Window Operators and Systems
 - UL 330, Hose and Hose Assemblies for Dispensing Flammable and Combustible Liquids
 - UL 330A, Hose and Hose Assemblies for Use with Dispensing Devices Dispensing Gasoline and Gasoline/Ethanol Blends with Nominal Ethanol Concentrations Up To 85 Percent (E0 – E85)
 - UL 330B, Standard for Safety for Hose and Hose Assemblies for Use With Dispensing Devices Dispensing Diesel Fuel, Biodiesel Fuel, Diesel/Biodiesel Blends With Nominal Biodiesel Concentrations Up To 20 Percent (B20), Kerosene, and Fuel Oil
 - UL 331, Standard for Safety for Strainers for Flammable Fluids and Anhydrous Ammonia
 - UL 331A, Strainers for Gasoline and Gasoline/Ethanol Blends with Nominal Ethanol Concentrations Up to 85 Percent (E0 - E85)
 - UL 331B, Strainers for Diesel Fuel, Biodiesel Fuel, Diesel/Biodiesel Blends with Nominal Biodiesel Concentrations Up to 20 Percent (B20), Kerosene, and Fuel Oil
 - UL 340, Standard for Safety for Tests for Comparative Flammability of Liquids
 - UL 343, Pumps for Oil-Burning Appliances
 - UL 346, Waterflow Indicators for Fire Protective Signaling Systems
 - UL 347, High Voltage Industrial Control Equipment
 - UL 347A, Standard for Safety for Medium Voltage Power Conversion Equipment
 - UL 353, Limit Controls
 - UL 355, Cord Reels
 - UL 360, Liquid-Tight Flexible Steel Conduit
 - UL 363, Knife Switches
 - UL 365, Police Station Connected Burglar Alarm Units and Systems
 - UL 372, Primary Safety Controls and Gas and Oil Fired Appliances
 - UL 379, Power Units for Fountain, Swimming Pool, and Spa Luminares
 - UL 385, Play Pipes for Water Testing in Fire Prevention Service
 - UL 391, Standard for Safety for Solid-Fuel and Combination-Fuel Central and Supplementary Furnaces
 - UL 399, Drinking-Water Coolers
-
- UL 401, Standard for Safety for Portable Spray Hose Nozzles for Fire-Protection Service
 - UL 404, Pressure-Indicating Gauges for Compressed Gas Service
 - UL 405, Standard for Safety for Fire Department Connections
 - UL 407, Manifolds for Compressed Gases
 - UL 412, Refrigeration Unit Coolers

- UL 414, Meter Sockets
- UL 416, Refrigerated Medical Equipment
- UL 427, Refrigerating Units
- UL 428A, Electrically Operated Valves for Gasoline and Gasoline/Ethanol Blends with Nominal Ethanol Concentrations Up to 85 Percent (E0 - E85)
- UL 428B, Electrically Operated Valves for Diesel Fuel, Biodiesel Fuel, Diesel/Biodiesel Blends with Nominal Biodiesel Concentrations Up to 20 Percent (B20), Kerosene, and Fuel Oil
- UL 430, Waste Disposers
- UL 437, Key Locks
- UL 441, Standard for Safety for Gas Vents
- UL 443, Standard for Safety for Steel Auxiliary Tanks for Oil-Burner Fuel
- UL 444 Standard for Safety for Communication Cables
- UL 448, Standard for Safety for Pumps for Fire-Protection Services
- UL 448A, Flexible Couplings and Connecting Shafts for Stationary Fire Pumps
- UL 448B, Residential Fire Pumps Intended for One- and Two-Family Dwellings and Manufactured Home
- UL 448C, Stationary, Rotary-Type, Positive-Displacement Pumps for Fire Protection
- UL 452, Antenna-Discharge Units
- UL 458, Power Converters/Inverters and Power Converter/Inverter Systems for Land Vehicles and Marine Crafts
- UL 464, Standard for Safety for Audible Signaling Devices for Fire Alarm and Signaling Systems, Including Accessories
- UL 464A, Standard for Safety for Audible Signal Appliances for General Signaling Use
- UL 466, Electric Scales and Accessories
- UL 467, Grounding and Bonding Equipment
- UL 471, Commercial Refrigerators and Freezers
- UL 474, Dehumidifiers
- UL 482, Standard for Safety for Portable Sun/Heat Lamps
- UL 484, Room Air Conditioners
- UL 486A-486B, Standard for Safety for Wire Connectors
- UL 486C, Splicing Wire Connectors
- UL 486D, Insulated Wire Connectors for Use with Underground Conductors
- UL 486E, Equipment Wiring Conductors
- UL 486F, Standard for Bare and Covered Ferrules
- UL 486G, Sealed Twist-On Connecting Devices
- UL 486L, Standard for Safety for Large Ferrules
- UL 489, Molded-Case Circuit Breakers and Circuit-Breaker Enclosures
- UL 489A, Circuit Breakers For Use in Communications Equipment

- UL 489B, the Standard for Safety for Molded-Case Circuit Breakers, Molded-Case Switches, and Circuit-Breaker Enclosures For Use With Photovoltaic (PV) Systems
- UL 493, Thermoplastic-Insulated Underground Feeder and Branch-Circuit Cables
- UL 496, Edison-Base Lampholders
- UL 497, Protectors for Paired-Conductor Communications Circuits
- UL 497A, Secondary Protectors for Communications Circuits
- UL 497B, Protectors for Data Communications and Fire Alarm Circuits
- UL 497C, Protectors for Coaxial Communications Circuits
- UL 498, Attachment Plugs and Receptacles
- UL 498A, Standard for Safety for Current Taps and Adapters
- UL 498B-2022, Standard for Safety for Receptacles with Integral Switching Means
- UL 498C, Standard for Safety for Flatiron and Appliance Plugs
- UL 498D, Attachment Plugs, Cord Connectors and Receptacles with Arcuate (Locking Type) Contacts
- UL 498E, Attachment Plugs, Cord Connectors and Receptacles - Enclosure Types for Environmental Protection
- UL 498F, Plugs, Socket-Outlets and Couplers with Arcuate (Locking Type) Contacts
- UL 498M, Marine Shore Power Inlets
- UL 499, Standard for Safety for Electric Heating Appliances

-
- UL 506, Specialty Transformers
 - UL 507, Electric Fans
 - UL 508, Industrial Control Equipment
 - UL 508C, Standards for Safety for Power Conversion Equipment
 - UL 510, Standard for Safety for Polyvinyl Chloride, Polyethylene, and Rubber Insulating Tape
 - UL 510A, Standard for Safety for Component Tapes
 - UL 514A, Standard for Safety for Metallic Outlet Boxes
 - UL 514B, Conduit, Tubing, and Cable Fittings
 - UL 514C, Nonmetallic Outlet Boxes, Flush-Device Boxes and Covers
 - UL 514D, Cover Plates for Flush-Mounted Wiring Devices
 - UL 521, Heat Detectors for Fire Protective Signaling Systems
 - UL 525, Standard for Safety for Flame Arresters
 - UL 536, Standard for Safety for Flexible Metallic Hose
 - UL 539, Standard for Safety for Single and Multiple Station Heat Alarms
 - UL 541, Refrigerated Vending Machines
 - UL 542, Standard for Fluorescent Lamp Starters
 - UL 551, Transformer-Type Arc-Welding Machines
 - UL 555, Fire Dampers

- UL 555C, Ceiling Dampers
- UL 555S, Smoke Dampers
- UL 558, Standard for Safety for Industrial Trucks, Internal Combustion Engine-Powered
- UL 561, Standard for Floor-Finishing Machines
- UL 563, Ice Makers
- UL 565, Liquid-Level Gauges and Indicators for Anhydrous Ammonia and LP-Gas
- UL 567, Emergency Breakaway Fittings, Swivel Connectors and Pipe-Connection Fittings for Petroleum Products and LP-Gas
- UL 567A, Standard for Safety for Emergency Breakaway Fittings, Swivel Connectors and Pipe-Connection Fittings for Gasoline and Gasoline/Ethanol Blends with Nominal Ethanol Concentrations up to 85 Percent (E0 – E85)
- UL 567B, Standard for Safety for Emergency Breakaway Fittings, Swivel Connectors and Pipe-Connection Fittings for Diesel Fuel, Biodiesel Fuel, Diesel/Biodiesel Blends with Nominal Biodiesel Concentrations up to 20 Percent (B20), Kerosene, and Fuel Oil
- UL 568, Standard for Safety for Nonmetallic Cable Tray Systems
- UL 569, Pigtailed and Flexible Hose Connectors for LP-Gas
- UL 574, Standard for Safety for Electric Oil Heaters
- UL 580, Standard for Tests for Uplift Resistance of Roof Assemblies
- UL 583, Electric-Battery-Powered Industrial Trucks
- UL 586, High-Efficiency, Particulate, Air Filter Units
- UL 588, Seasonal and Holiday Decorative Products

-
- UL 603, Power Supplies for Use with Burglar Alarm Systems
 - UL 606, Linings and Screens for Use with Burglar-Alarm Systems
 - UL 608, Burglary Resistant Vault Doors and Modular Panels
 - UL 609, Local Burglar Alarm Units and Systems,
 - UL 618, Concrete Masonry Units
 - UL 621, Standard for Safety for Ice Cream Makers
 - UL 626, Standard for Water Fire Extinguishers
 - UL 634, Connectors and Switches for Use with Burglar-Alarm Systems
 - UL 635, Standard for Safety for Insulating Bushings
 - UL 639, Intrusion-Detection Units
 - UL 641, Standard for Safety for Type L Low-Temperature Venting Systems
 - UL 644, Container Assemblies for LP-Gas
 - UL 651, Standard for Safety for Schedule 40, 80, Type EB and A Rigid PVC Conduit and Fittings
 - UL 651A, Standard for Safety for Schedule 40 and 80 High Density Polyethylene (HDPE) Conduit
 - UL 668, Standard for Safety for Hose Valves for Fire-Protection Service

- UL 674, Electric Motors and Generators for Use in Division 1 Hazardous (Classified) Locations
- UL 676, Underwater Luminaires and Submersible Junction Boxes
- UL 680, Emergency Vault Ventilators and Vault-Ventilating Ports
- UL 681, Installation and Classification of Burglar and Holdup Alarm Systems
- UL 687, Burglary-Resistant Safes
- UL 696, Standard for Electric Toys
- UL 697, Toy Transformers
- UL 698, Industrial Control Equipment for Use in Hazardous (Classified) Locations
- UL 698A, Standard for Safety for Industrial Control Panels Relating to Hazardous Locations

-
- UL 705, Power Ventilators
 - UL 710, Exhaust Hoods for Commercial Cooking Equipment
 - UL 710B, Standard for Safety for Recirculating Systems
 - UL 711, Standard for Rating and Fire Testing of Fire Extinguishers
 - UL 719, Nonmetallic-Sheathed Cables
 - UL 723, Test for Surface Burning Characteristics of Building Materials
 - UL 729, Oil-Fired Floor Furnaces
 - UL 730, Oil-Fired Wall Furnaces
 - UL 731, Oil-Fired Unit Heaters
 - UL 732, Standard for Safety for Oil-Fired Storage Tank Water Heaters
 - UL 737, Standard for Safety for Fireplace Stoves
 - UL 746A, Standard for Safety for Polymeric Materials - Short Term Property Evaluations
 - UL 746B, Polymeric Materials-Long Term Property Evaluations
 - UL 746C, Polymeric Materials-Use in Electrical Equipment Evaluations
 - UL 746D, Standard for Safety for Polymeric Materials - Fabricated Parts
 - UL 746E, Polymeric Materials-Industrials Laminates, Filament Wound Tubing, Vulcanized Fiber, and Material Used in Printed Wiring Boards
 - UL 746F, Standard for Polymeric Materials - Flexible Dielectric Film Materials for Use in Printed Wiring Boards and Flexible Materials Interconnect Constructions
 - UL 746S, Standard for Safety for the Evaluation of Sustainable Polymeric Materials for Use in Electrical Equipment
 - UL 749, Household Dishwashers
 - UL 751, Vending Machines
 - UL 752, Bullet-Resisting Equipment
 - UL 753, Alarm Accessories for Automatic Water-Supply Control Valves for Fire Protection Service
 - UL 758, Standard for Appliance Wiring Material

- UL 763, Motor-Operated Commercial Food Preparing Machines
- UL 768, Combination Locks
- UL 771, Night Depositories
- UL 773A, Nonindustrial Photoelectric Switches for Lighting Control
- UL 778, Motor-Operated Water Pumps
- UL 779, Electrically Conductive Flooring
- UL 783, Electric Flashlights and Lanterns for Hazardous (Classified) Locations
- UL 786, Key-Locked Safes (Class KL)
- UL 789, Indicator Posts for Fire-Protective Services
- UL 790, Tests for Fire Resistances of Roof Covering Materials
- UL 793, Standard for Automatically Operated Roof Vents for Smoke and Heat
- UL 796, Printed-Wiring Boards
- UL 796F, Flexible Materials Interconnect Constructions
- UL 797, Electrical Metallic Tubing
- UL 797A, Electrical Metallic Tubing - Aluminum

-
- UL 810, Capacitors
 - UL 810A, Electrochemical Capacitors
 - UL 810B, DC Power Capacitors
 - UL 814, Gas-Tube Sign and Ignition Cable
 - UL 817, Cord Sets and Power Supply Cords
 - UL 823, Electric Heaters for Use in Hazardous (Classified) Locations
 - UL 827, Central-Station Alarm Services
 - UL 834, Heating, Water Supply, and Power Boilers-Electric
 - UL 840, Insulation Coordination Including Clearances and Creepage Distances in Electrical Equipment
 - UL 842, Standard for Valves for Flammable and Combustible Liquids
 - UL 842A, Standard for Safety for Valves for Gasoline and Gasoline/Ethanol Blends with Nominal Ethanol Concentrations up to 85 Percent (E0 – E85)
 - UL 842B, Standard for Safety for Valves for Diesel Fuel, Biodiesel Fuel, Diesel/Biodiesel Blends with Nominal Biodiesel Concentrations up to 20 Percent (B20), Kerosene, and Fuel Oil
 - UL 844, Luminaires for Use in Hazardous (Classified) Locations
 - UL 845, Motor Control Centers
 - UL 852, Standard for Metallic Sprinkler Pipe for Fire Protection Service
 - UL 854, Service-Entrance Cables
 - UL 857, Standard for Safety for Busways
 - UL 858, Standard for Safety for Household Electric Ranges
 - UL 858A, Standard for Safety-Related Solid-State Controls for Household Electric

- UL 859, Household Electric Personal Grooming Appliances
 - UL 864, Control Units and Accessories for Fire Alarm Systems
 - UL 867, Electrostatic Air Cleaners
 - UL 870, Wireways, Auxiliary Gutters, and Associated Fittings
 - UL 873, Temperature-Indicating and Regulating Equipment
 - UL 875, Electric Dry-Bath Heaters
 - UL 879, Electric Sign Components
 - UL 879A, LED Sign and Sign Retrofit Kits
 - UL 884, Underfloor Raceways and Fittings
 - UL 886, Outlet Boxes and Fittings for Use in Hazardous (Classified) Locations
 - UL 887, Delayed-Action Timelocks
 - UL 891, Dead-Front Switchboards
 - UL 896, Standard for Safety for Oil-Burning Stoves
-
- UL 900, Air Filter Units
 - UL 907, Fireplace Accessories
 - UL 910, Flame-Propagation and Smoke-Density Values for Electrical and Optical-Fiber Cables Used in Spaces Transporting Environmental Air
 - UL 913, Intrinsically Safe Apparatus and Associated Apparatus for Use in Class I, II, and III, Division 1, Hazardous (Classified) Locations
 - UL 921, Commercial Electric Dishwashers
 - UL 923, Microwave Cooking Appliances
 - UL 924, Emergency Lighting and Power Equipment
 - UL 935, Fluorescent Lamp Ballasts
 - UL 943, Ground Fault Circuit Interrupters UL 943B, Standard for Safety For Appliance Leakage-Current Interrupters
 - UL 959, Medium Heat Appliance Factory-Built Chimneys
 - UL 961, Standard for Safety for Electric Hobby and Sports Equipment
 - UL 962, Standard for Safety for Household and Commercial Furnishings
 - UL 962A, Standard for Safety for Furniture Power Distribution Units
 - UL 969, Marking and Labeling Systems
 - UL 970, Standard for Safety for Retail Fixtures and Merchandising Displays
 - UL 972, Burglary Resisting Glazing Material
 - UL 977, The Standard for Fused Power-Circuit Devices
 - UL 979, Standard for Safety for Water Treatment Appliances
 - UL 982, Motor-Operated Household Food Preparing Machines
 - UL 985, Household Fire Warning System Units
 - UL 987, Stationary and Fixed Electric Tools
 - UL 998, Humidifiers

-
- UL 1002, Electrically Operated Valves for Use in Hazardous (Classified) Locations
 - UL 1004-1, Rotating Electrical Machines - General Requirements
 - UL 1004-2, Impedance Protected Motors
 - UL 1004-3, Thermally Protected Motors
 - UL 1004-4, Electric Generators
 - UL 1004-5, Fire Pump Motors
 - UL 1004-6, Servo and Stepper Motors
 - UL 1004-7, Electronically Protected Motors
 - UL 1004-8, Inverter Duty Motors
 - UL 1004-9, Standard for Safety for Form Wound and Medium Voltage Rotating Electrical Machines
 - UL 1004-10, Standard for Safety for Pool Pump Motors
 - UL 1008, Transfer Switch Equipment
 - UL 1008A, Medium-Voltage Transfer Switches
 - UL 1008M, Standard for Transfer Switch Equipment, Meter-Mounted
 - UL 1008S, Standard for Safety for Solid-State Transfer Switches
 - UL 1010, Receptacle-Plug Combinations for Use in Hazardous (Classified) Locations
 - UL 1012, Power Units Other Than Class 2
 - UL 1017, Vacuum Cleaners, Blower Cleaners and Household Floor Finishing Machines
 - UL 1020, Thermal Cutoffs for Use in Electrical Appliances and Components
 - UL 1022, Standard for Safety for Line Isolation Monitors
 - UL 1023, Household Burglar-Alarm System Units
 - UL 1026, Electric Household Cooking and Food Appliances
 - UL 1029, High-Intensity Discharge Lamp Ballasts
 - UL 1030, Sheathed Heating Elements
 - UL 1034, Burglary-Resistant Electric Locking Mechanisms
 - UL 1037, Antitheft Alarms and Devices
 - UL 1040, Fire Test of Insulated Wall Construction
 - UL 1042, Electric Baseboard Heating Equipment
 - UL 1046, Grease Filters for Exhaust Ducts
 - UL 1047, Standard for Safety for Isolated Power Systems Equipment
 - UL 1053, Standard for Safety for Ground-Fault Sensing and Relaying Equipment
 - UL 1054, Special Use Switches
 - UL 1059, Standard for Safety for Terminal Blocks
 - UL 1062, Standard for Safety for Unit Substations
 - UL 1063, Machine-Tool Wire and Cables
 - UL 1066, Low Voltage AC and DC Power Circuit Breakers Used in Enclosures

- UL 1067, Electrically Conductive Equipment and Materials for Use in Flammable Anesthetizing Locations
 - UL 1069, Hospital Signaling and Nurse Call Equipment
 - UL 1072, Medium Voltage Power Cables
 - UL 1076, Proprietary Burglar Alarm Units and Systems
 - UL 1077, Supplementary Protectors for Use in Electrical Equipment
 - UL 1081, Swimming Pool Pumps, Filters and Chlorinators
 - UL 1082, Household Electric Coffee Makers and Brewing-Type Appliances
 - UL 1083, Household Electric Skillets and Frying-Type Appliances
 - UL 1086, Household Trash Compactors
 - UL 1088, Standard for Safety for Temporary Lighting Strings
 - UL 1090, Electric Snow Movers
 - UL 1091 Standard for Butterfly Valves for Fire-Protection Service
-
- UL 1123, Standard for Marine Buoyant Devices
 - UL 1175, Buoyant Cushions
 - UL 1180, Standard for Fully Inflatable Recreational Personal Floatation Devices
 - UL 1191, Standard for Components for Personal Flotation Devices
-
- UL 1201, Standard For Safety for Sensor Operated Backwater Prevention Systems
 - UL 1203, Standard for Safety for Explosion-Proof and Dust-Ignition-Proof Electrical Equipment for Use in Hazardous (Classified) Locations
 - UL 1206, Electric Commercial Clothes-Washing Equipment
 - UL 1207, Sewage Pumps for Use in Hazardous (Classified) Locations
 - UL 1236, the Standard for Safety for Battery Chargers for Charging Engine-Starter Batteries
 - UL 1238, Control Equipment for Use with Flammable Liquid Dispensing Devices
 - UL 1240 Standard for Safety for Electric Commercial Clothes-Drying Equipment
 - UL 1241, Junction Boxes for Swimming Pool Luminaires
 - UL 1242, Electrical Intermediate Metal Conduit – Steel
 - UL 1247, Standard for Safety for Diesel Engines for Driving Centrifugal Fire Pumps
 - UL 1254, Standard for Safety for Pre-Engineered and Engineered Dry and Pre-Engineered Wet Chemical Extinguishing System Units
 - UL 1256, Fire Test of Roof Deck Constructions
 - UL 1261, Electric Water Heaters for Pools and Tubs
 - UL 1275, Flammable Liquid Storage Cabinets
 - UL 1277, Electrical Power and Control Tray Cables with Optional Optical-Fiber Members
 - UL 1278, Movable and Wall-or-Ceiling-Hung Electric Room Heaters
 - UL 1283, Electromagnetic Interference Filters

- UL 1285, Standard for Pipe and Couplings, Polyvinyl Chloride (PVC), and Oriented Polyvinyl Chloride (PVCO) for Underground Fire Service
 - UL 1286, Standard for Safety for Office Furnishings Systems
 - UL 1296, Standard for Safety for Shear Resistance Tests for Ceiling Boards for Manufactured Homes
-
- UL 1309, Standard for Marine Shipboard Cable
 - UL 1310, Class 2 Power Units
 - UL 1313, Nonmetallic Safety Cans for Petroleum Products
 - UL 1315, Metal Waste Paper Containers
 - UL 1316, Standard for Safety for Fibre Reinforced Underground Tanks for Flammable and Combustible Liquids
 - UL 1322, Standard for Safety for Fabricated Scaffold Planks and Stages
 - UL 1323, Standard for Safety for Scaffold Hoists
 - UL 1332, Organic Coatings for Steel Enclosures for Outdoor Use Electrical Equipment
 - UL 1337, Standard for Safety for LP-Gas, Natural Gas, and Manufactured Gas Devices for Engine Fuel Systems
 - UL 1340, Standard for Hoists
 - UL 1349, Standard for Safety for LP-Gas Vaporizers
 - UL 1363, Standard for Safety for Relocatable Power Taps
 - UL 1369, Standard for Safety for Aboveground Piping for Flammable and Combustible Liquids
 - UL 1370, Unvented Alcohol Fuel Burning Decorative Appliances
 - UL 1384, Standard for Water-Based Automatic Extinguisher Units
 - UL 1389, Standard for Safety for Plant Oil Extraction Equipment for Installation and Use in Ordinary (Unclassified) Locations and Hazardous (Classified) Locations
 - UL 1395, Standard for Transients Test Method
-
- UL 1412, Fusing Resistors and Temperature-Limited Resistors for Radio- and Television-Type Appliances
 - UL 1413, High-Voltage Components for Television-Type Appliances
 - UL 1416, Overcurrent and Overtemperature Protectors for Radio- and Television-Type Appliances
 - UL 1417, Special Fuses for Radio- and Television-Type Appliances
 - UL 1419, Professional Video and Audio Equipment
 - UL 1424, Cables for Power-Limited Fire-Alarm Circuits
 - UL 1425, Cables for Non-Power-Limited Fire-Alarm Circuits
 - UL 1426, Standard for Safety for Electrical Cables for Boats
 - UL 1429, Pullout Switches
 - UL 1439, UL's Standard for Safety for Tests for Sharpness of Edges on Equipment

- UL 1441, Standard for Safety for Coated Electrical Sleeving
- UL 1446, Standard for Safety for Systems of Insulating Materials - General
- UL 1447, Electric Lawn Mowers
- UL 1449, Standard for Safety for Surge Protective Devices
- UL 1450, Motor-Operated Air Compressors, Vacuum Pumps and Painting Equipment
- UL 1453, Electric Boosters and Commercial Storage Tank Water Heaters
- UL 1468, Direct Acting Pressure Reducing and Pressure Restricting Valves
- UL 1472, Standard for Safety for Solid-State Dimming Controls
- UL 1478, Fire Pump Relief Valves
- UL 1478A, Pressure Relief Valves for Sprinkler Systems
- UL 1479, Fire Tests of Through-Penetration Firestops
- UL 1480, Standard for Safety for Speakers for Fire Alarm and Signaling Systems, Including Accessories
- UL 1480A, Standard for Safety for Speakers for Commercial and Professional Use
- UL 1482, Standard for Solid-Fuel Type Room Heaters
- UL 1484, Residential Gas Detectors
- UL 1486, Quick Opening Devices for Dry Pipe Valves for Fire-Protection Service
- UL 1487, Standard for Batter Containment Enclosures
- UL 1489, Standard for Safety for Fire Tests of Fire Resistant Pipe Protection Systems Carrying Combustible Liquids

-
- UL 1517, Hybrid Personal Flotation Devices
 - UL 1557, Electrically Isolated Semiconductor Devices
 - UL 1558, Standard for Safety for Metal-Enclosed Low-Voltage Power Circuit Breaker Switchgear
 - UL 1559, Standard for Safety for Insect-Control Equipment - Electrocuting Type
 - UL 1561, Standard for Dry-Type General Purpose and Power Transformers
 - UL 1563, Electric Spas, Equipment Assemblies, and Associated Equipment
 - UL 1564, the Standard for Safety for Industrial Battery Chargers
 - UL 1565, Wire Positioning Devices
 - UL 1567, Standard for Safety for Receptacles and Switches Intended for Use with Aluminum Wire
 - UL 1569, Metal-Clad Cables
 - UL 1574, Track Lighting Systems
 - UL 1576, Standard for Safety for Flashlights and Lanterns
 - UL 1577, Optical Isolators
 - UL 1581, Reference Standard for Electrical Wires, Cables, and Flexible Cords
 - UL 1585, Standard for Class 2 and Class 3 Transformers
 - UL 1598, Standard for Safety for Luminaires

- UL 1598A, Standard for Safety for Supplemental Requirements for Luminaires
 - UL 1598B, Standard for Safety for Supplemental Requirements for Luminaire Reflector Kits for Installation on Previously Installed Fluorescent Luminaires
 - UL 1598C, Standard for Safety for Light-Emitting Diode (LED) Retrofit Luminaire Conversion Kits
-
- UL 1602, Gasoline-Engine-Powered, Rigid-Cutting-Member Edgers and Edger-Trimmmers
 - UL 1610, Central-Station Burglar Alarm Units
 - UL 1618, Wall Protectors, Floor Protectors, and Hearth Extensions
 - UL 1635, Digital Alarm Communicator System Units UL 1637, Standard for Safety for Home Health Care Signaling Equipment
 - UL 1638, Standard for Safety for Visible Signaling Devices for Fire Alarm and Signaling Systems, Including Accessories
 - UL 1638A, Standard for Safety for Visual Signal Appliances for General Signaling Use
 - UL 1640, Standard for Safety for Portable Power-Distribution Equipment
 - UL 1641, Installation and Classification of Residential Burglar Alarm Systems
 - UL 1647, Motor-Operated Massage and Exercise Machines
 - UL 1650, Portable Power Cable
 - UL 1651, Optical Fiber Cables
 - UL 1653, Electrical Nonmetallic Tubing
 - UL 1655, Community-Antenna Television Cables
 - UL 1659, Standard for Safety for Attachment Plug Blades for Use in Cord Sets and Power-Supply Cords
 - UL 1660, Liquid-Tight Flexible Nonmetallic Conduit
 - UL 1664, Immersion-Detection Circuit-Interrupters
 - UL 1666, Test for Flame Propagation Height of Electrical and Optical-Fiber Cables Installed Vertically in Shafts
 - UL 1676, Conductive-Path and Discharge-Path Resistors for Use in Radio-, Video-, or Television-Type Appliances
 - UL 1678, Household Commercial, and Professional-Use Carts and Stands
 - UL 1681, Standard for Safety for Wiring Device Configurations
 - UL 1682, Plugs, Receptacles and Cable Connectors, of the Pin and Sleeve Type
 - UL 1685, the Standard for Vertical-Tray Fire-Propagation and Smoke-Release Test for Electrical and Optical-Fiber Cables
 - UL 1686, Pin and Sleeve Configurations
 - UL 1690, Data-Processing Cable
 - UL 1691, Single Pole Locking-Type Separable Connectors
 - UL 1692, Polymeric Materials - Coil Forms
 - UL 1694, Tests for Flammability of Small Polymeric Component Materials
 - UL 1696, Standard for Safety for Mechanical Protection Tubing (MPT) and Fittings

- UL 1699 Standard for Safety for Arc-Fault Circuit-Interrupters
 - UL 1699B, Standard for Photovoltaic (PV) DC Arc-Fault Circuit Protection
-
- UL 1703, Standard for Safety for Flat-Plate Photovoltaic Modules and Panels
 - UL 1709, Standard for Safety for Rapid Rise Fire Tests of Protection Materials for Structural Steel
 - UL 1715, Fire Test of Interior Finish Material
 - UL 1727, Commercial Electric Personal Grooming Appliances
 - UL 1730, Smoke Detector Monitors and Accessories for Individual Living Units of Multifamily Residences and Hotel/Motel Rooms
 - UL 1738, Standard for Safety for Venting Systems for Gas-Burning Appliances, Categories II, III, IV
 - UL 1739, Standard for Safety for Pilot Operated Pressure Control Valves
 - UL 1740, *Standard for Safety for Robots and Robotic Equipment*
 - UL 1746, Standard for Safety for External Corrosion Protection Systems for Steel Underground Storage Tanks
 - UL 1769, Standard for Cylinder Valves
 - UL 1773, Standard for Safety for Termination Boxes
 - UL 1776, The Standard for High-Pressure Cleaning Machines
 - UL 1777, Standard for Safety for Chimney Liners
 - UL 1778, Standard for Safety for Uninterruptible Power System
 - UL 1784, Standard for Air Leakage Tests of Door Assemblies
 - UL 1786, Standard for Safety for Direct Plug-In Nightlights
 - UL 1795, Standard for Safety for Hydromassage Bathtubs
-
- UL 1803, Standard for Safety for Factory Follow-Up on Third Party Certified Portable Fire Extinguishers
 - UL 1820, Fire Test of Pneumatic Tubing for Flame and Smoke Characteristics
 - UL 1821, The Standard for Safety for Thermoplastic Sprinkler Pipe and Fittings for Fire Protection Service
 - UL 1838, Standard for Safety for Low Voltage Landscape Lighting
 - UL 1839, Standard for Safety for Automotive Battery Booster Cables
 - UL 1853, Nonreusable Plastic Containers for Flammable and Combustible Liquids
 - UL 1863, Communications-Circuit Accessories
 - UL 1876, Standard for Safety for Isolating Signal and Feedback Transformers for Use in Electronic Equipment.
 - UL 1887, Fire Test of Plastic Sprinkler Pipe for Visible Flame and Smoke Characteristics
 - UL 1889, Standard for Safety for Commercial Filters for Cooking Oil,
 - UL 1897, Uplift Tests for Roof Covering Systems

-
- UL 1917, Standard for Safety for Solid State Fan Speed Controls
 - UL 1951, Electrical Plumbing Accessories
 - UL 1963, Refrigerant Recovery/Recycling Equipment
 - UL 1971, Signaling Devices for the Hearing Impaired
 - UL 1973, Standard for Safety for Batteries for Use in Stationary and Motive Auxiliary Power Applications
 - UL 1974, Standard for Safety for Evaluation for Repurposing or Remanufacturing Batteries
 - UL 1976, Standard for Crimp Tools for Use with Connecting Devices
 - UL 1978, The Standard for Safety for Grease Ducts
 - UL 1981-2014, Standard for Safety for Central-Station Automation Systems
 - UL 1989, Standard for Safety for Valve Regulated or Vented Batteries with Aqueous Electrolytes
 - UL 1990, Nonmetallic Underground Conduit with Conductors
 - UL 1993, Standard for Self-Ballasted Lamps and Lamp Adapters
 - UL 1994, Luminous Egress Path Marking Systems
 - UL 1995, Heating and Cooling Equipment
 - UL 1996, Electric Duct Heaters
 - UL 1998, Standard for Safety for Software in Programmable Components

-
- UL 2006, Standard for Safety for Halon 1211 Recovery/Recharge Equipment
 - UL 2007A, Shatter Containment Of Lamps For Use In Regulated Food Establishments
 - UL 2017, General-Purpose Signaling Devices and Systems
 - UL 2021, Standard for Fixed and Location-Dedicated Electric Room Heaters
 - UL 2024, Optical Fiber Cable Raceway
 - UL 2034, Single and Multiple Station Carbon Monoxide Alarms
 - UL 2039, Standard for Flexible Connector Piping for Fuels
 - UL 2043, Fire Test for Heat and Visible Smoke Release for Discrete Products and Their Accessories Installed in Air-Handling Spaces
 - UL 2044, Commercial Closed Circuit Television Equipment
 - UL 2056, Standard for Safety for Power Banks
 - UL 2061, Standard for Safety for Adapters and Cylinder Connection Devices for Portable LP-Gas Cylinder Assemblies
 - UL 2075, Gas and Vapor Detectors and Sensors
 - UL 2079, Tests for Fire Resistance of Building Joint Systems
 - UL 2085, Protected Aboveground Tanks for Flammable and Combustible Liquids
 - UL 2089, Standard for Safety for Vehicle Battery Adapters
-

- UL 2108, Standard for Safety for Low Voltage Lighting Systems
- UL 2111, Standard for Safety for Overheating Protection for Motors
- UL 2115, Processed Solid-Fuel Firelogs
- UL 2127, Inert Gas Clean Agent Extinguishing System Units
- UL 2129, Standard for Safety for Halocarbon Clean Agent Fire Extinguishers
- UL 2152, Standard for Special Purpose Nonmetallic Containers and Tanks for Specific Combustible or Noncombustible Liquids
- UL 2157, Electric Clothes Washing Machines and Extractors
- UL 2158, Electric Clothes Dryers
- UL 2158A, Standard for Clothes Dryer Transition Duct
- UL 2162-2014 Standard for Safety for Commercial Wood-Fired Baking Ovens - Refractory Type
- UL 2166, Halocarbon Clean Agent Extinguishing System Units
- UL 2167, Standard for Safety for Water Mist Nozzles for Fire Protection
- UL 2170, Field Conversion/Retrofit of Products to Change to an Alternative Refrigerant - Construction and Operation
- UL 2171, Field Conversion/Retrofit of Products to Change to an Alternative Refrigerant - Insulating Material and Refrigerant Compatibility
- UL 2172, Field Conversion/Retrofit of Products to Change to an Alternative Refrigerant - Procedures and Methods
- UL 2182, Refrigerants
- UL 2196, Standard for Tests for Fire Resistive Cables

-
- UL 2200, Standard for Safety for Stationary Engine Generator Assemblies
 - UL 2201, Standard for Safety for Carbon Monoxide (CO) Emission Rate of Portable Generators
 - UL 2202, Electric Vehicle (EV) Charging System Equipment
 - UL 2208, Standard for Safety for Solvent Distillation Units
 - UL 2205, Field Conversion/Retrofit of Alternative Refrigerants in Household Refrigerators and Freezers
 - UL 2218, Standard for Safety for Impact Resistance of Prepared Roof Covering Materials
 - UL 2218A Standard for Impact Resistance of Roofing Systems
 - UL 2225, Standard for Safety for Cables and Cable-Fittings for Use in Hazardous (Classified) Locations
 - UL 2227, Standard for Overfilling Prevention Devices
 - UL 2237, Standard for Safety for Multi-Point Interconnection Power Cable Assemblies for Industrial Machinery
 - UL 2238, Cable Assemblies and Fittings for Industrial Control and Signal Distribution
 - UL 2239, Hardware for the Support of Conduit, Tubing, and Cable
 - UL 2250, Standard for Safety for Instrumentation Tray Cable

- UL 2251, Standard for Safety for Plugs, Receptacles, and Couplers for Electric Vehicles
- UL 2252, Standard for Safety for Adapters for use with Electric Vehicle Couplers
- UL 2255, Receptacle Closures
- UL 2258, Standard for Aboveground Nonmetallic Tanks for Fuel Oil and Other Combustible Liquids
- UL 2263, Standard for Safety for Electric Vehicle Cable
- UL 2267, Fuel Cell Power Systems for Installation in Industrial Electric Trucks
- UL 2271, Standard for Safety for Batteries for Use in Light Electric Vehicle (LEV) Applications
- UL 2272, Standard for Safety for Electrical Systems for Personal E-Mobility Devices
- UL 2278, Megawatt Charging Configured Electric Vehicle Couplers
- UL 2279, Electrical Equipment for Use in Class 1, Zone 0,1, and 2 Hazardous (Classified) Locations
- UL 2231-1, Standard for Safety for Personnel Protection Systems for Electric Vehicle (EV) Supply Circuits; Part 1: General Requirements
- UL 2231-2, Standard for Safety for Personnel Protection Systems for Electric Vehicle (EV) Supply Circuits; Part 2: Particular Requirements for Protection Devices for Use in Charging Systems
- UL 2333, Standard for Safety for Infrared Thermometers
- UL 2335, Fire Tests of Storage Pallets
- UL 2237, Standard for Safety for Multi-Point Interconnection Power Cable Assemblies For Industrial Machinery
- UL 2344, Standard for Safety for Material Lifts
- UL 2351, Standard for Safety for Spray Nozzles for Fire-Protection Service
- UL 2353, Standard for Safety for Single- and Multi-Layer Insulated Winding Wire
- UL 2360, the Standard for Test Methods for Determining the Combustibility Characteristics of Plastics Used in Semi-Conductor Tool Construction
- UL 2367, Solid-State Overcurrent Protectors
- UL 2368, Standard for Safety for Fire Exposure Testing of Intermediate Bulk Containers for Flammable and Combustible Liquids
- UL 2388, Standard for Safety for Flexible Lighting Products
- UL 2390, Test Method for Wind Resistant Asphalt Shingles with Sealed Tabs
- UL 2416, Standard for Safety for Audio/Video, Information and Communication Technology Equipment Cabinet, Enclosure and Rack Systems
- UL 2420, Standard for Safety for Belowground Reinforced Thermosetting Resin Conduit (RTRC) and Fittings
- UL 2431, Durability of Spray-Applied Fire Resistive Materials
- UL 2438, The Standard for Safety for Outdoor Seasonal-Use Cord-Connected Wiring Devices
- UL 2442, Standard for Safety for Wall- and Ceiling-Mounts and Accessories

- UL 2443, Standard for Safety for Flexible Sprinkler Hose with Fittings for Fire Protection Service
- UL 2447, Standard for Containment Sumps, Fittings and Accessories for Flammable and Combustible Liquids
- UL 2459, Standard for Safety for Insulated Multi-Pole Splicing Wire Connectors
- UL 2460, Nonshielded Cable
- UL 2515, Standard for Safety for Aboveground Reinforced Thermosetting Resin Conduit (RTRC) and Fittings
- UL 2515A, Standard for Safety for Supplemental Requirements for Extra Heavy Wall Reinforced Thermosetting Resin Conduit (RTRC) and Fittings
- UL 2518, Standard for Safety for Air Dispersion Systems
- UL 2523, Solid Fuel-Fired Hydronic Heating Appliances, Water Heaters, And Boilers
- UL 2525, Standard for Two-Way Emergency Communications Systems for Rescue Assistance
- UL 2556, Standard for Safety for Wire and Cable Test Methods
- UL 2565, Standard for Safety for Manual and Semiautomatic Metal Sawing Machines
- UL 2560, Emergency Call Systems for Assisted Living and Independent Living Facilities
- UL 2561, 1400 Degree Fahrenheit Factory-Built Chimneys
- UL 2572, Mass Notification Systems
- UL 2577, Standard for Suspended Ceiling Grid Low Voltage Systems and Equipment
- UL 2580, Standard for Safety for Batteries for Use in Electric Vehicles
- UL 2583, Standard for Fuel Tank Accessories for Flammable and Combustible Liquids
- UL 2586, Standard for Hose Nozzle Valves for Flammable and Combustible Liquids
- UL 2586A, Standard for Safety for Hose Nozzle Valves for Gasoline and Gasoline/Ethanol Blends with Nominal Ethanol Concentrations up to 85 Percent (E0 – E85)
- UL 2586B, Standard for Safety for Hose Nozzle Valves for Diesel Fuel, Biodiesel Fuel, Diesel/Biodiesel Blends with Nominal Biodiesel Concentrations up to 20 Percent (B20), Kerosene, and Fuel Oil
- UL 2592, Standard for Safety for Low Voltage LED Wire
- UL 2594, Standard for Safety for Electric Vehicle Supply Equipment
- UL 2595, General Requirements for Battery-Powered Appliances
- UL 2610, Standard for Safety for Commercial Premises Security Alarm Units and Systems
- UL 2703, Standard for Mounting Systems, Mounting Devices, Clamping/Retention Devices, and Ground Lugs for Use with Flat-Plate Photovoltaic Modules and Panels
- UL 2737, Standard for Safety for Crane Insulators
- UL 2738, Standard for Safety for Induction Power Transmitters and Receivers for use with Low Energy Products
- UL 2743, Standard for Portable Power Packs
- UL 2748-, Standard for Safety for Arcing Fault Quenching Equipment
- UL 2748A, Standard for Safety for Arcing Fault Interrupting Devices

- UL 2775, Standard for Fixed Condensed Aerosol Extinguishing System Units
- UL 2788, the Standard for Safety for Industrial and Commercial Vibrators
- UL 2790, Standard for Safety for Commercial Incinerators
- AAMI/UL 2800-1, Standard for Safety for Medical Device Interoperability
- UL 2846, Standard for Safety for Fire Test of Plastic Water Distribution Plumbing Pipe for Visible Flame and Smoke Characteristics
- UL 2849, Standard for Safety for Electrical Systems for eBikes
- UL 2900-1, Software Cybersecurity for Network-Connectable Products: General Requirements
- UL 2900-2-1, Software Cybersecurity for Components of Healthcare Systems
- UL 2900-2-3, Software Cybersecurity for Security and Life Safety Signaling Systems
- UL 2901, Standard for Antifreeze Solutions for Use in Fire Sprinkler Systems
- UL 2901A, Standard for Corrosion Control Additives for Use in Fire Sprinkler Systems
- UL 2901B, Standard for Vapor Corrosion Inhibitors for Use in Fire Sprinkler Systems
- UL 2904, Standard Method for Testing and Assessing Particle and Chemical Emissions from 3D Printers
- UL 2930, Standard for Cord-and-Plug-Connected Health Care Facility Outlet Assemblies
- UL 2999, Standard for Safety for Individual Commercial Office Furnishings

-
- UL 3001, Standard for Safety for Distributed Energy Resource Systems
 - UL 3030, Unmanned Aircraft Systems
 - UL 3100, Standard for Safety for Automated Mobile Platforms (AMPs)
 - UL 3300, Standard for Safety for Service, Communication, Information, Education and Entertainment Robots - SCIEE Robots
 - UL 3600, Standard for Measuring and Reporting Circular Economy Aspects of Products, Sites and Organizations
 - UL 3703, Standard for Solar Trackers
 - UL 3730, Standard for Photovoltaic Junction Boxes
 - UL 3741, Standard for Safety for Photovoltaic Hazard Control

-
- UL 4143, Standard for Safety for Wind Turbine Generator - Life Time Extension (LTE)
 - UL 4200A, Products Incorporating Button or Coin Cell Batteries of Lithium Technologies
 - UL 4248-1, Fuseholders - Part 1: General Requirements
 - UL 4248-4, Fuseholders - Part 4: Class CC
 - UL 4248-5, Fuseholders - Part 5: Class G
 - UL 4248-6, Fuseholders - Part 6: Class H
 - UL 4248-8, Fuseholders - Part 8: Class J
 - UL 4248-9, Fuseholders - Part 9: Class K
 - UL 4248-11, Fuseholders - Part 11: Type C (Edison Base) and Type S Plug Fuse

- UL 4248-12, Fuseholders - Part 12: Class R
- UL 4248-15, Fuseholders - Part 15: Class T
- UL 4248-19, Fuseholders - Part 19: Photovoltaic Fuseholders
- UL 4402, Standard for Indoor Air Quality in Buildings and Facilities Utilized for the Cultivation, Production and Processing of Cannabis
- UL 4600, Standard for Safety for the Evaluation of Autonomous Products
- UL 4703, Photovoltaic Wire
- UL 4730, Standard for Nameplate, Datasheet, and Sampling Requirements of Photovoltaic Modules
- UL 4740, Standard for Safety for Lidar and Lidar Systems Used in Vehicles
- UL 4900, Micromobility Charging Equipment

-
- UL 5085-1, Standard for Low Voltage Transformers - Part 1: General Requirements
 - UL 5085-2, Standard for Low Voltage Transformers - Part 2: General Purpose Transformers
 - UL 5085-3, Standard for Low Voltage Transformers - Part 3: Class 2 and Class 3 Transformers
 - UL 5500, Standard for Safety for Remote Software Updates
 - UL 5800, Standard for Safety for Battery Fire Containment Products
 - UL 5840, Standard for Safety for Electrical Systems of Battery Powered Aviation Ground Support Equipment

-
- UL 6141, Standard for Safety for Wind Turbines Permitting Entry of Personnel
 - UL 6142, Small Wind Turbine Systems
 - UL 6200, Standard for Safety for Controllers for Use in Power Production
 - UL 6288, Standard for Safety for Decorative Lighting Cords
 - UL 6703, Standard for Connectors for Use in Photovoltaic Systems

-
- UL 8139, Electrical Systems of Electronic Cigarettes and Vaping Devices
 - UL 8400, Standard for Safety for Virtual Reality, Augmented Reality and Mixed Reality Technology Equipment
 - UL 8750, Standard for Light Emitting Diode (LED) Equipment for Use in Lighting Products
 - UL 8752, First Edition of the Standard for Organic Light Emitting Diode (OLED) Panels
 - UL 8753, The Standard for Field-Replaceable Light Emitting Diode (LED) Light Engines
 - UL 8754, The Standard for Holders, Bases, and Connectors for Solid-State (LED) Light Engines and Arrays
 - UL 8800, Standard for Safety for Horticultural Lighting Equipment and Systems

-
- UL 9540, Standard for Safety for Energy Storage Systems and Equipment

- UL 9540A, Standard for Safety for Test Method for Evaluating Thermal Runaway Fire Propagation in Battery Energy Storage Systems
- UL 9595, Standard for Factory Follow-Up Services for Personal Flotation Devices
- UL 9741, Standard for Safety for Electric Vehicle Power Export Equipment (EVPE)
- UL 9990, Standard for Safety for Information and Communication Technology (ICT) Power Cables

-
- UL 12402-4, Standard for Personal Flotation Devices - Part 4: Lifejackets, Performance Level 100 - Safety Requirements
 - UL 12402-5, Standard for Personal Flotation Devices - Part 5: Buoyancy Aids (Level 50) - Safety Requirements
 - UL 12402-6, Standard for Personal Flotation Devices - Part 6: Special Purpose Lifejackets and Buoyancy Aids - Safety Requirements and Additional Test Methods
 - UL 12402-9, Standard for Personal Flotation Devices - Part 9: Test Methods
 - UL 15027-2, Standard for Immersion suits - Part 2: Abandonment suits, requirements including safety
 - UL 15027-3, Standard for Immersion suits - Part 3: Test methods

-
- UL 60034-1, Rotating Electrical Machines - Part 1: Rating and Performance
 - UL 60034-2-1, Standard for Rotating electrical machines - Part 2-1: Standard methods for determining losses and efficiency from tests (excluding machines for traction vehicles)
 - UL 60034-5, Rotating Electrical Machines - Part 5: Degrees of Protection Provided by the Integral Design of Rotating Electrical Machines (IP Code) – Classification
 - UL 60065, Standard for Safety for Audio, Video and Similar Electronic Apparatus - Safety Requirements
 - UL 60079-0, Standard for Safety for Electrical Apparatus for Explosive Gas Atmospheres - Part 0: General Requirements
 - UL 60079-1, Standard for Safety for Explosive Atmospheres – Part 1: Equipment Protection by Flameproof Enclosures “d”
 - UL 60079-2, Explosive Atmospheres – Part 2: Equipment Protection by Pressurized Enclosure “p”
 - UL 60079-5, Standard for Safety for Explosive Atmospheres - Part 5: Equipment Protection by Powder Filling “q”
 - UL 60079-6, Standard for Safety for Explosive Atmospheres - Part 6: Equipment Protection by Oil-Immersion “o”
 - UL 60079-7, Standard for Safety for Explosive Atmospheres - Part 7: Equipment Protection by Increased safety “e”
 - UL 60079-10-1, Standard for Safety for Explosive Atmospheres - Part 10-1: Classification of Areas - Explosive Gas Atmospheres
 - UL 60079-10-2, Standard for Safety for Explosive Atmospheres - Part 10-2: Classification of Areas - Explosive Dust Atmospheres

- UL 60079-11, Standard for Safety for Explosive Atmospheres - Part 11: Equipment Protection by Intrinsic Safety “i”
- UL 60079-15, Standard for Safety for Electrical Apparatus for Explosive Gas Atmospheres - Part 15: Construction, Test and Marking of Type of Protection “n” Electrical Apparatus
- UL 60079-17, Standard for Safety for Explosive Atmospheres – Part 17: Electrical Installations Inspection and Maintenance.
- UL 60079-18, Standard for Safety for Explosive Atmospheres - Part 18: Equipment Protection by Encapsulation “m” UL 60320-1, Standard for Safety for Appliance Couplers for Household and Similar General Purposes - Part 1: General Requirements
- UL 60079-25, Standard for Safety for Explosive Atmospheres – Part 25: Intrinsically Safe Electrical Systems
- UL 60079-26, Standard for Safety for Explosive Atmospheres - Part 26: Equipment with Equipment Protection Level (EPL) Ga
- UL 60079-28, Standard for Safety for Explosive Atmospheres - Part 28: Protection of Equipment and Transmission Systems Using Optical Radiation
- UL 60079-29-1, Standard for Safety for Explosive Atmospheres - Part 29-1: Gas Detectors - Performance Requirements of Detectors for Flammable Gases
- UL 60079-29-2, Standard for Safety for Explosive Atmospheres - Part 29-2: Gas Detectors - Selection, Installation, Use and Maintenance of Detectors for Flammable Gases and Oxygen
- UL 60079-29-4, Standard for Safety for Explosive Atmospheres - Part 29-4: Gas Detectors - Performance Requirements of Open Path Detectors for Flammable Gases
- UL 60079-30-1, Standard for Safety for Explosive Atmospheres – Part 30-1: Electrical Resistance Trace Heating – General and Testing Requirements.
- UL 60079-31, Standard for Safety for Explosive Atmospheres – Part 31: Equipment Dust Ignition Protection by Enclosure “t”
- UL 60079-33, Standard for Safety for Explosive Atmospheres – Part 33: Equipment Protection by Special Protection “s”.
- UL 60079-46, Recommended Practice for Explosive Atmospheres - Part 46: Equipment Assemblies
- UL 60079-47, Standard for Safety for Explosive Atmospheres – Part 47: Equipment Protection by 2-Wire Intrinsically Safe Ethernet Concept (2-WISE)
- UL 60320-1, Standard for Safety for Appliance Couplers for Household and Similar General Purposes - Part 1: General Requirements
- UL 60320-3, Standard for Safety for Appliance Couplers for Household and Similar General Purposes - Part 3: Standard Sheets and Gauges
- UL 60335-1, Standard for Safety for Safety of Household and Similar Electrical Appliances, Part 1: General Requirements
- UL 60335-2-3; Standard for Safety for Household and Similar Electrical Appliances, Part 2: Particular Requirements for Electric Irons.
- UL 60335-2-8, Standard for Safety for Household and Similar Electrical Appliances, Part 2: Particular Requirements for Shavers, Hair Clippers, and Similar Appliances

- UL 60335-2-24, Standard for Safety for Household and Similar Appliances, Particular Requirements for Refrigerating Appliances, Ice Cream Appliances and Ice Makers
- UL 60335-2-29, Household and Similar Electrical Appliances - Safety - Part 2-29: Particular Requirements for Battery Chargers
- UL 60335-2-34, Household and Similar Electrical Appliances, Part 2: Particular Requirements for Motor-Compressors
- UL 60335-2-40, Household and Similar Electrical Appliances, Part 2: Particular Requirements for Electrical Heat Pumps, Air-Conditioners and Dehumidifiers
- UL 60335-2-52, Standard for Safety for Household and Similar Electrical Appliances – Safety – Part 2-52: Particular Requirements for Oral Hygiene Appliances
- UL 60335-2-67, Standard for Safety for Household and Similar Electrical Appliances - Safety - Part 2 -67: Particular Requirements for Floor Treatment Machines, for Commercial Use
- UL 60335-2-68, Household and Similar Electrical Appliances - Safety - Part 2-68: Particular Requirements for Spray Extraction Machines, for Commercial Use
- UL 60335-2-72, Standard for Safety for Household and Similar Electrical Appliances - Safety - Part 2-72: Particular Requirements for Floor Treatment Machines With or Without Traction Drive, for Commercial Use
- ANSI/UL 60335-2-113-2023, Standard for Safety for Household and Similar Electrical Appliances - Safety - Part 2-113: Particular Requirements for Beauty Care Appliances Incorporating Lasers and Intense Light Sources
- UL 60384-14, Standard for Safety for Fixed Capacitors for Use in Electronic Equipment - Part 14: Sectional Specification: Fixed Capacitors for Electromagnetic Interference Suppression and Connection to the Supply Mains
- UL 60691, Thermal-Links - Requirements and Application Guide
- UL 60730-1, Automatic Electrical Controls - Part 1, General Requirements
- UL 60730-2-3, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Thermal Protectors for Ballasts for Tubular Fluorescent Lamps
- UL 60730-2-5, Standard for Safety for Automatic Electrical Controls for Household and Similar Use, Part 2: Particular Requirements for Automatic Electrical Burner Control Systems
- UL 60730-2-6, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Automatic Electrical Pressure Sensing Controls Including Mechanical Requirements
- UL 60730-2-7, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Timers and Time Switches
- UL 60730-2-8, Automatic Electrical Controls for Household and Similar Use; Part 2: Particular Requirements for Electrically Operated Water Valves, Including Mechanical Requirements
- UL 60730-2-9, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Temperature Sensing Controls

- UL 60730-2-10, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Motor Starting Relays
- UL 60730-2-11, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Energy Regulators
- UL 60730-2-12, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Electrically Operated Door Locks
- UL 60730-2-13, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Humidity Sensing Controls
- UL 60730-2-14, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Electric Actuators
- UL 60730-2-15, Automatic Electrical Controls for Household and Similar Use - Part 2, Particular Requirements for Automatic Electrical Air Flow, Water Flow and Water Level Sensing Controls
- UL 60745-1, Standard for Hand-Held Motor-Operated Electric Tools - Safety - Part 1: General Requirements
- UL 60745-2-1-2006, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-1: Particular Requirements for Drills and Impact Drills
- UL 60745-2-2-2006, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-2: Particular Requirements for Screwdrivers and Impact Wrenches
- UL 60745-2-4-2006, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-4: Particular Requirements for Sanders and Polishers Other Than Disk Type
- UL 60745-2-5-2004, Standard for handheld Motor-Operated Electric Tools - Safety - Part 2: Particular Requirements for Circular Saws
- UL 60745-2-6-2006, Safety for Hand-Held Motor-Operated Electric Tools - Safety - Part 2-6: Particular Requirements for Hammers
- UL 60745-2-8-2006, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-8: Particular Requirements for Shears and Nibblers
- UL 60745-2-9-2006, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-9: Particular Requirements for Tappers
- UL 60745-2-11-2004, Standard for Safety for Hand-Held Motor-Operated Electric Tools - Safety - Part 2-11: Particular Requirements for Reciprocating Saws
- UL 60745-2-12-2005, Standard for Safety for Hand-held Motor-operated Electric Tools - Safety - Part 2-12: Particular Requirements for Concrete Vibrators
- UL 60745-2-14-2006, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-14: Particular Requirements for Planers
- UL 60745-2-15, Standard for Safety for Hand-Held Motor-Operated Electric Tools - Safety - Part 2-15: Particular Requirements for Hedge Trimmers
- UL 60745-2-16, Standard for Safety for Hand-Held Motor-Operated Electric Tools – Safety – Part 2-16: Particular Requirements for Tackers
- UL 60745-2-17-2006, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-17: Particular Requirements for Routers and Trimmers

- UL 60745-2-18, Standard for Hand-Held Motor-Operated Electric Tools - Safety - Part 2-18: Particular Requirements for Strapping Tools
- UL 60745-2-19, Hand-Held Motor-Operated Electric Tools - Safety - Part 2-19: Particular Requirements for Jointers
- UL 60745-2-20, Standard for Hand-Held Motor-Operated Electric Tools - Safety - Part 2-20: Particular Requirements for Band Saws
- UL 60745-2-21, Standard for Hand-Held Motor-Operated Electric Tools - Safety - Part 2-21: Particular Requirements for Drain Cleaners
- UL 60939-3, Passive Filter Units for Electromagnetic Interference Suppression - Part 3: Passive Filter Units for Which Safety Tests are Appropriate
- UL 60947-1, Standard for Safety for Low-Voltage Switchgear and Controlgear - Part 1: General Rules
- UL 60947-4-1, Standard for Safety for Low-Voltage Switchgear and Controlgear; Part 4-1: Contactors and motor-starters; Electromechanical contactors and motor-starters
- UL 60947-4-2, Low-Voltage Switchgear and Controlgear - Part 4-2: Contactors and Motor-Starters - AC Semiconductor Motor Controllers and Starters
- UL 60947-5-1, Low-Voltage Switchgear and Controlgear - Part 5-1: Control Circuit Devices and Switching Elements - Electromechanical Control Circuit Devices
- UL 60947-5-2, Low-Voltage Switchgear and Controlgear - Part 5-2: Control Circuit Devices and Switching Elements - Proximity Switches
- UL 60947-7-1, Low-Voltage Switchgear And Controlgear - Part 7-1: Ancillary Equipment - Terminal Blocks for Copper Conductors
- UL 60947-7-2, Low-Voltage Switchgear and Controlgear - Part 7-2: Ancillary Equipment - Protective Conductor Terminal Blocks for Copper Conductors
- UL 60947-7-3, Standard for Fuse Terminal Blocks
- UL 60947-7-4, Standard for Safety for Low-Voltage Switchgear and Controlgear - Part 7-4: Ancillary Equipment-PCB Terminal Blocks for Copper Conductors
- UL 60950-1, Information Technology Equipment - Safety - Part 1: General Requirements
- UL 60950-21, Information Technology Equipment -- Safety -- Part 21: Remote Power Feeding
- UL 60950-22, Information Technology Equipment - Safety - Part 22: Equipment to be Installed Outdoors
- UL 60950-23-2007, Information Technology Equipment - Safety - Part 23: Large Data Storage Equipment
- UL 61010-1, Electrical Equipment for Measurement, Control, and Laboratory Use; Part 1: General Requirements
- UL 61010-031, Standard for Safety for Safety Requirements for Measurement, Control, and Laboratory Use - Part 031: Safety Requirements for Hand-Held Probe Assemblies for Electrical Measurement and Test

- UL 61010-031, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 031: Safety Requirements for Hand-Held Probe Assemblies for Electrical Measurement and Test
- UL 61010-2-010, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 010: Particular Requirements for Laboratory Equipment for the Heating of Materials.
- UL 61010-2-011, Standard for Safety Requirements for Electrical Equipment for Measurement, Control, and Laboratory Use – Part 011: Particular Requirements for Refrigerating Equipment
- UL 61010-2-020, Standard for Safety for Safety Requirements for Measurement, Control, and Laboratory Use - Part 2-020: Particular Requirements for Laboratory Centrifuges
- UL 61010-2-030, Standard for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use - Part 2-030: Particular Requirements for Equipment Having Testing or Measuring Circuits
- UL 61010-2-032, Electrical Equipment for Measurement, *Control, and Laboratory Use*, Part 2-032: Particular Requirements for Hand-Held and Hand-Manipulated Current Sensors for Electrical Test and Measurement
- UL 61010-2-033, Electrical Equipment for Measurement, *Control, and Laboratory Use*, Part 2-033: Particular Requirements for Hand-Held Multimeters and Other Meters, for Domestic and Professional Use, Capable of Measuring Mains Voltage
- UL 61010-2-034, Electrical Equipment for Measurement, Control, and Laboratory Use – Part 2-034: Particular Requirements for Measurement Equipment for Insulation Resistance and Test Equipment for Electric Strength
- UL 61010-2-051, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-051: Particular Requirements for Laboratory Equipment for Mixing and Stirring.
- UL 61010-2-061, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-061: Particular Requirements for Laboratory Atomic Spectrometers with Thermal Atomization and Ionization.
- UL 61010-2-081, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-081: Particular Requirements for Automatic and Semi-Automatic Laboratory Equipment for Analysis and Other Purposes.
- UL 61010-2-091, Electrical Equipment for Measurement, *Control, and Laboratory Use*, Part 2-091: Particular Requirements for Cabinet X-Ray Systems
- UL 61010-2-101, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-101: Particular Requirements for In Vitro Diagnostic (IVD) Medical Equipment.
- UL 61010-2-201, Safety Requirements for Electrical Equipment for Measurement, Control, and Laboratory Use - Part 2-201: Particular Requirements for Control Equipment
- UL 61058-1, Switches for Appliances - Part 1: General Requirements

- UL 61058-1-1, Standard for Safety for Switches for Appliances - Part 1-1: Requirements for Mechanical Switches
- UL 61058-1-2, Standard for Safety for Switches for Appliances - Part 1-2: Requirements for Electronic Switches
- UL 61215-1, Standard for Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1: Test requirements
- UL 61215-1-1, Standard for Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-1: Special requirements for testing of crystalline silicon photovoltaic (PV) modules
- UL 61215-1-2, Standard for Terrestrial photovoltaic (PV) modules – Design qualification and type approval – Part 1-2: Special requirements for testing of thin-film Cadmium Telluride (CdTe) based photovoltaic (PV) modules
- UL 61215-1-3, Standard for Terrestrial photovoltaic (PV) modules – Design qualification and type approval – Part 1-3: Special requirements for testing of thin-film amorphous silicon based photovoltaic (PV) modules
- UL 61215-1-4, Standard for Terrestrial photovoltaic (PV) modules – Design qualification and type approval – Part 1-4: Special requirements for testing of thin-film Cu(In,Ga)(S,Se)₂ based photovoltaic (PV) modules
- UL 61215-2, Standard for Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 2: Test procedures
- UL 61496-1, Standard for Safety for Electro-Sensitive Protective Equipment, Part 1: General Requirements and Tests
- UL 61496-2, Standard for Safety for Electro-Sensitive Protective Equipment, Part 2: Particular Requirements for Equipment Using Active Opto-Electronic Devices
- UL 61646, Standard for Thin-Film Terrestrial Photovoltaic (PV) Modules - Design Qualification and Type Approval
- UL 61724-1, Standard for Photovoltaic System Performance - Part 1: Monitoring
- UL 61724-2, Standard for Specification for Photovoltaic system performance - Part 2: Capacity evaluation method
- UL 61724-3, Standard for Photovoltaic system performance - Part 3: Energy evaluation method
- UL 61730-1, Photovoltaic (PV) Module Safety Qualification - Part 1: Requirements for Construction
- UL 61730-2, Photovoltaic (PV) Module Safety Qualification - Part 2: Requirements for Testing
- UL 61810-1, Standard for Safety for Electromechanical Elementary Relays - Part 1: General Requirements
- UL 61800-5-1, Adjustable Speed Electrical Power Drive Systems - Part 5-1: Safety Requirements - Electrical, Thermal and Energy
- UL 61800-5-2, Adjustable Speed Electrical Power Drive Systems - Part 5-2: Safety Requirements – Functional
- UL 61965 Standard for Mechanical Safety for Cathode Ray Tubes

- UL 62093, Standard for Balance-of-System Components for Photovoltaic Systems - Design Qualification Natural Environments
-

- UL 62108, Standard for Concentrator Photovoltaic (CPV) Modules and Assemblies - Design Qualification and Type Approval
- UL 62109-1, Standard for Safety of power converters for use in photovoltaic power systems - Part 1: General requirements
- UL 62133, Standard for Safety for Secondary Cells and Batteries Containing Alkaline or Other Non-Acid Electrolytes - Safety Requirements for Portable Sealed Secondary Cells, and for Batteries Made From Them, for Use in Portable Applications
- UL 62133-1, Standard for Safety for Secondary Cells and Batteries Containing Alkaline or Other Non-Acid Electrolytes - Safety Requirements for Portable Sealed Secondary Cells, and for Batteries Made from Them, for Use in Portable Applications - Part 1: Nickel Systems
- UL 62133-2, Standard for Safety for Secondary Cells and Batteries Containing Alkaline or Other Non-Acid Electrolytes - Safety Requirements for Portable Sealed Secondary Cells, and for Batteries Made from Them, for Use in Portable Applications - Part 2: Lithium Systems
- UL 62275, Cable Management Systems - Cable Ties for Electrical Installations
- UL 62368-1, Audio/video, information and communication technology equipment - Part 1: Safety requirements
- UL 62446-1, Photovoltaic (PV) Systems - Requirements for Testing, Documentation and Maintenance - Part 1: Grid Connected Systems - Documentation, Commissioning Tests and Inspection
- UL 62446-2, Photovoltaic (PV) Systems - Requirements for Testing, Documentation and Maintenance - Part 2: Grid Connected Systems - Maintenance of PV Systems
- UL 62790, Standard for Junction Boxes for Photovoltaic Modules - Safety Requirements and Tests
- UL 62817, Photovoltaic systems – Design qualification of solar trackers
- UL 62841-1, Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 1: General Requirements
- UL 62841-2-1, Standard for Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 2-1: Particular Requirements For Hand-Held Drills and Impact Drills
- UL 62841-2-2: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-2: Particular Requirements for Screwdrivers and Impact Wrenches
- UL 62841-2-4: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-4: Particular Requirements for Sanders and Polishers Other Than Disc Type

- UL 62841-2-5: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-5: Particular Requirements for Hand-Held Circular Saws
- UL 62841-2-8, Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 2-8: Particular Requirements For Hand-Held Shears and Nibblers
- UL 62841-2-9: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-9: Particular Requirements for Tappers and Threaders
- UL 62841-2-11, Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 2-11 Particular Requirements for Hand-Held Reciprocating Saws
- UL 62841-2-14: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-14: Particular Requirements for Planers
- UL 62841-2-17, Electric Motor-Operated Hand-Held Tools, Transportable Tools and Lawn and Garden Machinery - Safety - Part 2-17: Particular Requirements for Hand-Held Routers
- UL 62841-3-1: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 3-1: Particular Requirements for Screwdrivers and Transportable Table Saws
- UL 62841-3-4 Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 3-4: Particular Requirements for Transportable Bench Grinders
- UL 62841-3-6: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 3-6: Particular Requirements for Transportable Diamond Drills With Liquid System
- UL 62841-3-9, Standard for Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery – Safety – Part 3-9: Particular Requirements for Transportable Mitre Saws
- UL 62841-3-10: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 3-10: Particular Requirements for Transportable Cut-Off Machines
- UL 62841-3-13, UL Standard for Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools and Lawn and Garden Machinery - Safety - Part 3-13: Particular Requirements for Transportable Drills
- UL 62841-3-1000, Standard for Electric Motor-Operated Hand-Held Tools, Transportable Tools and Lawn and Garden Machinery – Safety – Part 3-1000: Particular Requirements for Transportable Laser Engravers
- UL 62841-4-1: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery – Safety – Part 4-1: Particular Requirements For Chain Saws
- UL 62841-4-2: Standard for Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 4-2 Particular Requirements for Hedge Trimmers

- UL 62841-4-4, Standard for Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools and Lawn and Garden Machinery – Safety – Part 4-4: Particular Requirements for Lawn Trimmers, Lawn Edge Trimmers, Grass Trimmers, Brush Cutters and Brush Saws
- UL 62841-4-1000: Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - 62841-4-1000: Particular Requirements For Utility Machines
- UL 62852, Connectors for DC-Application in Photovoltaic Systems-Safety Requirements and Tests
- UL 62915, Standard for Photovoltaic (PV) Modules – Type Approval, Design and Safety Qualification – Retesting
- UL 62986, Standard for Safety for Plugs, Socket-Outlets and Couplers with Arcuate Contacts
- UL 62990-1, Standard for Safety for Workplace Atmospheres - Part 1: Gas Detectors – Performance Requirements of Detectors for Toxic Gases
- UL 62990-2, Standard for Safety for Workplace Atmospheres – Part 2: Gas Detectors – Selection, Installation, Use and Maintenance of Detectors for Toxic Gases and Vapours
- UL 80079-20-1, Standard for Safety for Explosive Atmospheres – Part 20-1: Material Characteristics for Gas and Vapour Classification – Test Methods and Data
- UL 80079-20-2, Standard for Safety for Explosive Atmospheres – Part 20-2: Material Characteristics – Combustible Dusts - Test Methods
- UL 80079-36, Standard for Safety for Atmospheres – Part 36: Non-Electrical Equipment for Explosive Atmospheres – Basic Method and Requirements.
- UL 80079-37, Standard for Safety for Atmospheres – Part 37: Non-Electrical Equipment for Explosive Atmospheres – Non-Electrical Type of Protection Constructional Safety “c”, Control of Ignition Source “b”, Liquid Immersion “k”.

-
- UL 120002, Certificate Standard for AEx Equipment for Hazardous (Classified) Locations
 - UL 120101, Standard for Safety for Definitions and Information Pertaining to Electrical Equipment in Hazardous Locations
 - UL 120202, Standard for Safety for Recommendations for the Preparation, Content, and Organization of Intrinsic Safety Control Drawings
 - UL 120404, Standard for Safety for Pressurized Enclosures
 - UL 122001, General Requirements for Electrical Ignition Systems for Internal Combustion Engines in Class 1, Division 2 or Zone 2, Hazardous (Classified) Locations
 - UL 121201, Standard for Safety for Nonincendive Electrical Equipment for Use in Class I and II, Division 2 and Class III, Divisions 1 and 2 Hazardous (Classified) Locations
 - UL 121203, Recommended Practice for Portable/Personal Electronic Products Suitable for Use in Class I, Division 2, Class I, Zone 2, Class II, Division 2, Class III, Division 1, Class III, Division 2, Zone 21 and Zone 22 Hazardous (Classified) Locations.

- UL 122701, Standard for Safety for Requirements for Process Sealing Between Electrical Systems and Flammable or Combustible Process Fluids
- UL 920001, Standard for Performance Requirements for Toxic Gas Detectors
- UL 920002, Standard for Safety for Installation, Operation, and Maintenance of Toxic Gas-Detection Instruments.
- UL 920004, Standard for Safety for Performance Requirements for Open Path Toxic Gas Detectors
- UL 920401, Part 1, Standard for Safety for Performance Requirements for Instruments Used to Detect Oxygen-Deficient/Oxygen-Enriched Atmospheres
