WWW URL: www.3-a.org

Accreditation Date: 2/10/2004

Scope: 3-A Sanitary Standards, Inc. seeks to formulate voluntary consensus sanitary standards and accepted practices for equipment and systems used to produce, process, and package food, beverages and pharmaceutical products. Over a history of more than 80 years, the list of 3-A Standards has grown to nearly 70 individual standards for products, components and systems, and nine Accepted Practices.
Developer Name: Accredited Snow Contractors Association  
Acronym: ASCA  

Committee Title:  
Secretariat:  
Contact: Kevin Gilbride  
Title: Executive Director  
Address: 4012 Kinross Lakes Parkway, #201 Valley View, OH 44125  
Phone: (216) 393-0303  
Alternate Phone:  
E-Mail: kgilbride@gie.net  
WWW URL: www.ascaonline.org  
Accreditation Date: 9/20/2013  

Scope: The snow and ice management industry is comprised of more than 30,000 companies that manage snow and manage ice for public, commercial and residential properties. The companies range in size from multi-million dollar corporations with hundreds of employees to individuals working in the industry on a limited basis. The properties services by these companies range from major shopping complexes, hospitals, and airports, to individual residences and small businesses.

Safety and quality results are of utmost importance; and the industry, as a whole, strives to provide professional services following “best practices.” These best practices include educating employees, following snow management procedures that result in safe and professional results and documenting their work and factors that impact the services performed.

Each year, thousands of snow contractors and property owners face lawsuits contending that their actions or inactions resulted in injury or damage. In many cases, these lawsuits could be avoided if snow contractors had industry standards to follow and documented their work.

The ASCA strives to produce and communicate industry standards that will result in safety for property owners as well as for the employees of snow contracting companies.

  Alternate Phone: (202) 383-2500
  E-Mail: tvinson@awea.org
  WWW URL: www.cleanpower.org
Accreditation Date: 1/10/1995

Scope: Jan-1-2021: The American Clean Power Association (ACP) on January 1, 2021 officially merged the American Wind Energy Association (AWEA). ACP intends to continue AWEA’s efforts in national standards development, however, with an expanded scope. The scope of the American Clean Power Association (ACP) Standards Committee(s) shall be development of codes or standards within a specific project scope which is in the interest of clean power. These interests may include requirements for uniform practices in technology, power systems, design criteria, performance, operations, maintenance, environmental, safety, health, construction, installation, production, siting, qualification of personnel, training, and education, and/or related programs for clean power. The standards and codes developed by committees are continually formed at the request of interested and affected parties depending on the needs of the industry, in order to meet the challenges and requirements on the international, national, and local levels.

Dated: October 14, 2022
Developer Name: **American Composites Manufacturers Association**
Acronym: ACMA

Committee Title:
Secretariat:
  Contact: Larry Cox
  Title: UEF ANS Secretariat
  Address: 3033 Wilson Boulevard
  Suite 420
  Arlington, VA 22201

  E-Mail: Lcox1225@gmail.com
  WWW URL: [www.icpa-hq.org](http://www.icpa-hq.org)

Accreditation Date: 12/22/1998

**Scope:** The ACMA (formerly ICPA) is seeking to develop standards to cover the requirements and test methods pertaining to the structure, water resistance, colorfastness, stain resistance, cleanability, and other significant properties, in addition to general requirements of materials and workmanship and finish of solid surface countertop materials. Solid surface materials are manufactured sheet goods which are used as countertops, wall panels, window sills, and other architectural applications. Added 4/2003: The ICPA currently is accredited to develop standards for the performance requirements and test methods pertaining to solid surface materials. Solid surface materials are a subset cast polymers. ICPA is expanding the scope of its current accreditation to include the development of standards for estimating emissions from cast polymer and other similar reinforced plastics and composites materials and manufacturing processes so that manufacturers can comply with environmental regulations. Standards in this new area will benefit manufacturers, suppliers and regulators by establishing agreed upon, standardized procedures for setting and demonstrating compliance with regulatory requirements. Canvass participants will be sought from industry, government and environmental professionals.

WWW URL: www.aga.org
Accreditation Date: 11/10/1992

Scope: This project establishes Acceptable Performance Criteria for new gas displacement meters, related devices and new gas service regulators. 1. Meter Standards apply to diaphragm and rotary type gas displacement meters designed for revenue measurement of fuel gas. Three separate standards are published as follows: (1) B109.1 - Gas Displacement meters (500 cubic feet per hour capacity and under) (2) B109.2 - Diaphragm Type Gas Displacement Meters (over 500 cubic feet per hour capacity) (3) B109.3 - Rotary type Gas Displacement Meters 2. B109.4 - Gas Regulators - Non-Pilot Loaded - Nominal Pipe Size (NPS) 1-1/4 inch and smaller. 3. The standards include definitions, construction, performance of both new types and newly constructed meters and service regulators, in-service performance, installation requirements and practices, and test methods and equipment

Accreditation Date: 7/18/1984

Scope: Development of a safety code for gas piping systems on consumers' premises and the installation of gas utilization equipment and accessories for use with fuel gases such as natural gas, manufactured gas, liquefied petroleum gas-air mixtures, or mixtures of these gases, including: a) The design, fabrication, installation, testing, operation and maintenance of gas piping systems from the point of delivery to the connections with each gas utilization device. Piping systems covered by this code are limited to a maximum operating pressure of 60 psig. For purposes of this code, the point of delivery is defined as the outlet of the meter set assembly, or the outlet of this service regulator or service shutoff valve where no meter is provided. b) The installation of gas utilization equipment, related accessories, and their ventilation and venting systems.

Accreditation Date: 5/24/1999

**Scope:** The American Iron & Steel Institute develops and maintains consensus standards for structural members cold-formed to shape from carbon or low alloy steels.
Developer Name: American Ladder Institute
Acronym: ALI (ASC A14)

Committee Title: Safety in the Design, Construction, Testing, Selection, Care & use of Ladders
Secretariat: American Ladder Institute
Contact: Susan Orenga
   Title: Chief Operating Officer/Principal
   Address: 1300 Sumner Avenue
   Phone: (216) 343-1298
   Alternate Phone:
       E-Mail: sorenga@thomasamc.com
   WWW URL: www.americanladderinstitute.org
Accreditation Date: 10/2/1984

Scope: To develop rules governing the safe design, construction, testing, selection, care and use of ladders of various common types including but not limited to: fixed, job built, portable (extension, step, trestle, extension trestle, sectional, combination, single, platform, and ladder type step stools). It also includes labelling/marking requirements; which need not apply where training, supervision, or established safety procedures are in conflict with, or serve in lieu of, labeling/marking. It does not include ladders for mines, the fire services, mobile equipment, work platforms, antenna communication towers, transmission towers, utility poles, and chimneys; and similar specialized applications.
Developer Name: American Nuclear Society

Acronym: ANS

Committee Title:

Secretariat:

Contact: Patricia Schroeder
Title: Standards Manager
Address: 555 North Kensington Avenue

La Grange Park, IL 60526-5592

Phone: (708) 579-8269
Alternate Phone:

E-Mail: pschroeder@ans.org
WWW URL: www.ans.org

Accreditation Date: 3/14/1987

Scope: The American Nuclear Society Standards Committee is responsible for the development and maintenance of standards that address the design, analysis and operation of components, systems and facilities involved in or utilizing nuclear technology. The scope of the Standards Committee includes, but is not limited to, the following specific subjects: a. Nuclear criticality safety b. Definitions of technical terminology used in the nuclear field c. Facilities for using radioactive isotopes and remote handling of radioactive materials d. Research reactors and critical facilities e. Reactor physics and radiation shielding f. Utilization of computer programs in the nuclear field g. Sitting requirements for nuclear facilities h. Nuclear power plant design, including safety requirements and plant and system criteria i. Reactor operation and operator training and selection k. Radioactive waste management l. Fission product behavior The Standards Committee does not address standards for the application of radiation for medical purposes. The Standards Committee reviews standards being developed or published by other organizations on related topics to help ensure consistency and needed completeness and to avoid duplication with other standards. The standards developed by the Standards Committee usually are intended to meet the acceptance requirements as American National Standards
Developer Name: American Petroleum Institute
Acronym: API

Committee Title:

Secretariat:
Contact: David Miller
Title: Director, Standards Development
Address: 200 Massachusetts Avenue NW
        Suite 1100
        Washington, DC 20001-5571
Phone: (202) 682-8159

Alternate Phone:
E-Mail: miller@api.org
WWW URL: www.api.org
Accreditation Date: 3/19/1996

Scope: The American Petroleum Institute standardization activities identify and support proven, sound, engineering and operating practices, and safe, interchangeable equipment and materials, for use in the petroleum and petrochemical industries, and assure broad availability of standards for such procedures, equipment, and materials. API standards address, but are not limited to: industry equipment; operating practices; safety; movement and measurement of petroleum; petroleum products and natural gas; and personnel training.
Developer Name: **American Renewable Energy Standards and Certification Association**

Acronym: **ARESCA**

Committee Title:

Secretariat:

   *Contact:* Bob Sherwin  
   *Title:* Treasurer  
   *Address:* 256 Farrell Farm Road

Norwich, VT 05055

   *Phone:* (802) 291-4934

Alternate Phone:

   *E-Mail:* vtwindpower@gmail.com

WWW URL: [www.aresca.us](http://www.aresca.us)

Accreditation Date: 05/01/2018

Scope: Renewable energy generation - to include Solar-PV, Marine, Wind and interconnection aspects of these technologies, including energy storage

---

Developer Name: **American Society for Nondestructive Testing**

Acronym: **ASNT**

Committee Title:

Secretariat:

   *Contact:* Brian Frye  
   *Title:* NDT Technical Specialist/Quality Manager  
   *Address:* 1711 Arlingate Lane

Columbus, OH 43228

   *Phone:* (614) 384-2468

Alternate Phone: (614) 274-6003

   *E-Mail:* bfrye@asnt.org

WWW URL: [www.asnt.org](http://www.asnt.org)

Accreditation Date: 11/13/1986

Scope: Standards for NDT personnel qualifications and certification
Developer Name: **American Society for Quality**

Acronym: **ASQ**

Committee Title: 

Secretariat:

Contact: Jennifer Admussen
Title: Standards Manager
Address: 600 N Plankinton Avenue

Milwaukee, WI 53203

Phone: (800) 248-1946

Alternate Phone:

E-Mail: standards@asq.org

WWW URL: [www.asq.org](http://www.asq.org)

Accreditation Date: 2/9/1977

**Scope:** The responsibility of the Standards Committee of the American Society for Quality is consensus development and approval of generic standards and other documents in the technical disciplines of quality, environment, dependability and statistics. The requirements contained in these documents are not measurement sensitive, and the use of the metric measurement system is not relevant. Product and sector specific documents are not included in the scope of responsibilities and activities of this Committee.
Developer Name: American Society for Quality
    Acronym: ASQ (ASC Z1)

Committee Title: Quality Assurance
    Secretariat: American Society for Quality
    Contact: Jennifer Admussen
    Title: Standards Manager
    Address: 600 N Plankinton Avenue

                           Milwaukee, WI 53201
    Phone: (414) 272-8575
Alternate Phone:
    E-Mail: jadmussen@asq.org
    WWW URL: www.asq.org
    Accreditation Date: 5/15/1985

Scope: In the field of quality assurance to develop and review generic standards having general application, including the development of appropriate standard guidelines of general nature and to provide advice to other standards activities which cover quality assurance for specific areas, and to interface with appropriate internal standards activities. Preparation of individual product or industry standards is not included in the scope of this Committee.
Developer Name: **American Society of Agricultural and Biological Engineers**

Acronym: **ASABE**

Committee Title: 

Secretariat:

**Contact:** Jean Walsh  
**Title:**  
**Address:** 2950 Niles Road  
Saint Joseph, MI 49085  
**Phone:** (269) 932-7027  
**Alternate Phone:** (269) 757-1213  
**E-Mail:** walsh@asabe.org  
**WWW URL:** [https://www.asabe.org/](https://www.asabe.org/)

**Accreditation Date:** 10/1/1981

**Scope:** The American Society of Agricultural Engineers is an educational and scientific organization dedicated to the advancement of engineering applicable to agricultural, food, and biological systems. Founded in 1907, ASAE comprises 9,000 members representing more than 100 countries. ASAE members serve in industry, academia, and public service and are uniquely qualified to determine and develop more efficient and environmentally sensitive methods of producing food, fiber, and timber for an ever-increasing world population. For nearly 100 years, ASAE has served as the primary U.S. developer of standards, engineering practices and data (collectively referred to as standards) for engineering applicable to agricultural, food, and biological systems. The scope of these documents encompasses, but is not limited to, the following subject areas:

- Agricultural equipment
- Biological and biological systems engineering
- Natural resources management
- Irrigation and drainage
- Agricultural structures and environment
- Livestock production
- Agricultural Waste Management
- Food and bioprocess engineering
- Information and electrical technologies
- Forest engineering
- Energy production and distribution for agricultural locales and operations
- Renewable fuels and biomass

**Dated:** October 14, 2022
- Aquacultural engineering
- Nursery and greenhouse operations
- Agricultural safety and rural health

Developer Name: American Society of Baking
Acronym: ASB (ASC Z50)

Committee Title: Safety Requirements for Bakery Equipment
Secretariat: American Society of Baking
Contact: Toby Steward
Title: Chair, ASB Safety Committee

Accreditation Date: 4/21/1986

Scope:
Developer Name: American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.
  Acronym: ASHRAE
  Audited Designator

Committee Title:
  Secretariat:
    Contact: Stephanie Reiniche
    Title: Manager of Standards
    Address: 180 Technology Parkway

    Peachtree Corners, GA 30092

    Phone: (678) 539-1143

Alternate Phone:
  E-Mail: sreiniche@ashrae.org

WWW URL: www.ashrae.org

Accreditation Date: 5/3/1978

Scope: To direct the standards program of the Society, subject to the direction and review of the Technology Council and the Board of Directors. To control the selection, development, preparation, revision, submittal to the Board of Directors, and publication of standards in the fields of heating, refrigerating, air-conditioning and ventilating engineering. To cooperate with other organizations in the development, preparation and adoption of standards. (558-005-001) To supervise the Society's participation in the standards work of other organizations, including the American National Standards Institute and the International Organization for Standardization. (458-002-001) (500-007-001) To handle other matters relating to standards. To limit the activities of the Committee solely to the development of engineering science and technology. The committee shall not engage in influencing enactment of building or other codes, or in propaganda, or other activities designed to influence legislation. (558-005-002)
Developer Name: American Society of Mechanical Engineers
Acronym: ASME

Committee Title:
Secretariat:
  Contact: Christian Sanna
  Title: Senior Director, Standards Operations
  Address: Two Park Avenue
  New York, NY 10016-5990
  Phone: (212) 591-8513
  Alternate Phone:
  E-Mail: sannac@asme.org
  WWW URL: www.asme.org
  Accreditation Date: 6/21/1979

Scope: The scope of a Code or Standards Development Committee, hereafter called Standards Committee, of the American Society of Mechanical Engineers shall be the development of codes or standards within a specific project scope which is considered to be in the interest of mechanical engineering. These goals of standards may include requirements for safety, health, design, production, construction, maintenance, performance or operation of equipment or qualification of personnel. The standards developed by committee are intended to be submitted to the American National Standards Institute.
Developer Name: American Society of Plumbing Engineers  
Acronym: ASPE

Committee Title:
Secretariat:
  Contact: Gretchen Pienta
  Title: Director, Publications & Standards
  Address: 6400 Shafer Court
     Suite 350
     Rosemont, IL 60018
  Phone: (847) 296-0002
Alternate Phone:
  E-Mail: gpienta@aspe.org
WWW URL: www.aspe.org
Accreditation Date: 5/18/2012

Scope: American Society of Plumbing Engineers (ASPE) standards developed under these procedures are intended to cover plumbing system design related to safety, health, design, construction, maintenance, performance or operation. There is no intended limitation of scope based on any one specific form of application or use (e.g. commercial, residential, healthcare, etc.).

Developer Name: American Society of Safety Professionals  
Acronym: ASSP (ASC A10)

Committee Title: Safety Requirements for Construction and Demolition Operations
Secretariat: American Society of Safety Professionals
  Contact: Tim Fisher
  Title: Director, Practices and Standards
  Address: 520 N. Northwest Highway
           Park Ridge, IL 60068
  Phone: (847) 768-3411
Alternate Phone:
  E-Mail: tfisher@assp.org
WWW URL: www.assp.org
Accreditation Date: 10/11/1985

Scope: Standards relating to the protection of employees and the public from hazards arising out of, or associated with, construction and demolition operations
Developer Name: American Society of Safety Professionals
Acronym: ASSP (Safety)

Committee Title:

Secretariat:
- Contact: Tim Fisher
  - Title: Director, Practices & Standards
  - Address: 520 N. Northwest Highway

  Park Ridge, IL 60068
  - Phone: (847) 768-3411
  - Alternate Phone:
  - E-Mail: TFisher@ASSP.org

WWW URL: www.assp.org

Accreditation Date: 2/2/1998

Scope: These standards establish, for the occupational safety and health profession, core competencies, technical safety processes, procedures, and requirements, qualification levels and credentials, performance assessments, outcomes, record-keeping, risk assessment, measurement, and learning support resources.
Developer Name: **American Type Culture Collection**

Acronym: **ATCC**

**Committee Title:**

**Secretariat:**

Contact: Sara Sass  
Title: Licensing Associate  
Address: 10801 University Boulevard  
Manassas, VA 20110-2209  
Phone: (703) 365-2700

**Alternate Phone:**

E-Mail: standards@atcc.org; license_reports@atcc.org

**WWW URL:** [www.atcc.org](http://www.atcc.org)

**Accreditation Date:** 9/25/2007

**Scope:** The ATCC SDO will develop consensus standards for biomaterials and related processes including their development, identification, authentication, production, storage, distribution and transfer. Biomaterials include, but are not limited to, bacteria, fungi, yeasts, cell lines, toxins, protozoa, viruses and molecular products such as DNA. These biomaterials may be biosafety level (BSL) 1, 2 or 3. The first topics to be addressed by the ATCC SDO will be material and process standards required for bacteria used in biodefense research and product development. The cell biology community is becoming increasingly aware of the extensive use of misidentified and cross-contaminated cell lines in biomedical research, causing misleading and/or meaningless research. Although money is wasted and health care research is compromised, the scientific community has not adequately responded to this growing problem. To further address the need for remedial action and restoration of confidence in cell culture-based research, ATCC is helping organize and convene the “Expert Forum on the Misidentification and Cross-Contamination of Cell Lines.” The expected outcome of the Expert Forum is an “open letter” including an action plan with recommendations to resolve the problem.
Developer Name: American Water Works Association
   Acronym: AWWA

Committee Title:
   Secretariat:
      Contact: Paul Olson
      Title: Senior Manager of Standards
      Address: 6666 W. Quincy Avenue

      Denver, CO 80235

      Phone: (303) 347-6178

Alternate Phone:
   E-Mail: polson@awwa.org

WWW URL: www.awwa.org

Accreditation Date: 3/5/1990

Scope: AWWA standards are publications that set out the minimum requirements of a product or process used in the water profession. The provisions contained in the standard will establish elements of quality below which the performance of the product or process is likely to be less than adequate for levels of reliability, life and usage necessary and desirable in the water profession. However, the Association establishes no position, either express or implied, concerning the adequacy of products which do or do not comply with an AWWA standard. Standards will address, where appropriate, procedures of design; characteristics of materials, substances, products, equipment, systems or services; processes of manufacturing, assembly, transporting, storage, or installation; techniques of analysis; testing and inspection methods and requirements; parameters of use; and such other elements essential to provide adequate reliability; life and usage in the water profession.
Developer Name: American Welding Society
Acronym: AWS

Committee Title:
Secretariat:
  Contact: Peter Portela
  Title: 
  Address: 8669 NW 36th Street
           Suite 130

    Alternate Phone: (502) 387-4619
    E-Mail: rick.southard@ampp.org
    WWW URL: www.ampp.org
  Accreditation Date: 8/5/2002

Scope: NACE Standards cover corrosion control and corrosion prevention, including methods, design, and materials selection issues

Developer Name: Association for Print Technologies
  Acronym: APTech (ASC B65)

Committee Title: Safety Specifications for Printing Press Equipment and Systems
  Secretariat: Association for Print Technologies
    Contact: Debra Orf
    Title: Sr. Director, Standards & ICC
    Address: 113 Seaboard Lane
    Suite C250
    Franklin, TN 37067
    Phone: (615) 432-5433
    Alternate Phone:
    E-Mail: dorf@aptech.org
    WWW URL: www.printtechnologies.org
  Accreditation Date: 11/14/1983

Scope: This committee develops safety specifications for printing presses, bindery equipment and other graphic arts equipment. Its work impacts the design, arrangement, designation, color scheme and safety interlocking features of controls and signaling devices for graphic arts equipment.
**Developer Name:** Association for Print Technologies  
**Acronym:** APTech (ASC CGATS)

**Committee Title:** Committee for Graphic Arts Technologies Standards  
**Secretariat:** Association for Print Technologies  
**Contact:** Debra Orf  
**Title:** Sr. Director, Standards & ICC  
**Address:** 113 Seaboard Lane  
Suite C250  
Franklin, TN 37067  
**Phone:** (615) 432-5433  
**Alternate Phone:**  
**E-Mail:** dorf@aptech.org  
**WWW URL:** www.printtechnologies.org

**Accreditation Date:** 5/18/1989

**Scope:** The purpose of CGATS is to support and foster standards in the graphic arts industry. To do so, the Committee must first identify areas where standards are needed. It will accomplish this task by identifying those standards presently in place and those under development. The resulting voids will be areas where CGATS will investigate the need for standards and establish technical committees should a need for standards development be identified. Standards developed by Technical Committees of CGATS will be submitted for adoption as American National Standards. For the purpose of developing candidate American National Standards, CGATS' scope includes the terminology, test methods, procedures and specifications relating to the field of graphic arts printing. This includes the preparation of material for, and volume reproduction by, production printing processes which include in particular offset lithography, letterness, flexography, gravure, and screen printing. CGATS will also encourage industry specifications developed by trade organizations in the graphic arts industry to be submitted for adoption as American National Standards and, where appropriate, to be submitted through ANSI as candidate International Standards.
Developer Name: Association for the Advancement of Medical Instrumentation
Acronym: AAMI

Committee Title:
Secretariat:
  Contact: Amanda Benedict
  Title: Vice President, Standards

Alternate Phone: (410) 330-8052
E-Mail: john@nisrinc.com
WWW URL: www.atsip.org
Accreditation Date: 12/2/2016

Scope: Standards related to Motor Vehicle Traffic Crash Classification, which involves the completion of law enforcement reports of crashes involving motor vehicles and/or pedestrians, fixed objects or non-collisions, such as roll-overs or “run off the road” incidents. The standard to be developed will cover the definition of terms related to crashes and crash reporting and provide instructions for classification.
Developer Name: ASTM International

Acronym: ASTM

Audited Designator

Committee Title:

Secretariat:

Contact: Jennifer Rodgers
Title: General Manager, Technical Committee Operations
Address: 100 Barr Harbor Drive

West Conshohocken, PA 19428-2959

Phone: (610) 832-9694

Alternate Phone:

E-Mail: jrodgers@astm.org

WWW URL: www.astm.org

Accreditation Date: 5/8/1995

Scope: The subjects encompassed for standardization are broad. Generally, ASTM develops standards on characteristics and performance of materials, products, systems and services. Its technical committees are involved currently in the following broad categories: 4 for "Ferrous Metals," 8 for "Nonferrous Metals," 20 for "Cementitious, Ceramic, Concrete and Masonry Materials," 31 for "Miscellaneous Materials," 29 for "Materials for Specific Applications," 4 for "Corrosion, Deterioration and Degradation of Materials," and 35 for "Miscellaneous Subjects." New committees have been and are continually formed at the request of interest and affected parties depending on priorities, resources, and needs for industry, manufacturing, commerce, health and safety, and environmental protection in order to meet the challenges and requirements on the national and international levels.

_Dated: October 14, 2022_
Accredited Standards Developers

Developer Name: Clinical and Laboratory Standards Institute (formerly NCCLS)
Acronym: CLSI

Committee Title:
Secretariat:

Contact: Jennifer Adams
Title: Vice President, Standards and Quality
Address: 5 Great Valley Parkway
          Suite 219
          Malvern, PA 19355
Phone: (484) 588-5941

Alternate Phone:
E-Mail: jadams@clsi.org
WWW URL: www.clsi.org

Accreditation Date: 6/10/1994

Scope: The CLSI (formerly NCCLS) Administrative Procedures serve the following purposes:
- to compile the operating procedures of NCCLS dealing with the general administration of the organization, the committee structure for development of standards, and the standards development process itself.
- to provide continuity in the way NCCLS is organized and operates in the development of consensus standards. The procedures recognize that participation in NCCLS is voluntary, and will often involve the use of scientific experts for indeterminate periods of time. An understanding of these procedures enables participants to familiarize themselves with the procedures and principles of NCCLS, maximize their level of participation, and appreciate the significance of their individual and collective contributions. For those in leadership roles, the manual assists in organizing their standards efforts and outlining their responsibilities for supervising and documenting the development of standards.
- to provide a mechanism for setting priorities for NCCLS projects based on real medical usefulness and clinical relevance.
- to assure that the consensus process is appropriately applied to the development of standards and guidelines.
- to assure the existence of balance representation in the NCCLS consensus process. It is essential that those who elect to use NCCLS standards have confidence that they were developed without undue influence exerted by any special interest group.
- to assure that standards and guidelines developed by NCCLS are not unduly exclusionary nor widely permissive in their requirements. Avoidance of these extremes is essential for NCCLS publications to be useful in practice.
Developer Name: Commission on Accreditation of Ambulance Services
Acronym: CAAS

Committee Title: Secretariat:
  Contact: Marcie McGlynn
  Title: Director of Administration
  Address: 1926 Waukegan Road
  Suite 300
  Glenview, IL 60025
  Phone: (847) 657-6828
  Alternate Phone:
  E-Mail: marciem@tcag.com
  WWW URL: www.caas.org
  Accreditation Date: 11/06/2015

Scope: The Commission on Accreditation of Ambulance Services (CAAS) has developed two sets of standards. The CAAS Standards which are standards for the operations of ambulance services were developed 20 years ago and we have maintained these standards for over the last 20 years. We are also currently developing Ground Vehicle Standards for ambulances.

The current CAAS standards encompass the operational areas of organizational management, interagency relations, general management, financial management, community relations, public affairs, human resources, clinical standards, safe operations, managing risk, equipment, vehicles, facilities and communications centers.

CAAS is also developing consensus based ground ambulance vehicles standards called CAAS GVS 2015. These standards identify the minimum requirements for new automotive Emergency Medical Services (EMS) ambulances (except combat operations and combat support ambulances) built on Original Equipment Manufacturer’s Chassis (OEM) that are prepared by the OEM for use as an ambulance. Refurbishing and remounted vehicles are not covered by these standards. These standards apply to new vehicles only. The object of the Ground Vehicle Standard (CAAS GVS 2015) is to best serve patients by providing ground ambulances that are safe, nationally recognized, properly constructed, easily maintained, and when professionally staffed and provisioned, will function reliably in pre-hospital and other mobile emergency medical service. The CAAS GVS 2015 establishes minimum requirements, performance parameters and essential criteria for the design of ground ambulances in an effort to provide a practical degree of standardization.

By definition an ambulance is a vehicle used for emergency medical care and patient transport. These standards are for the construction of ambulances, not for vehicles intended for use as fire apparatus. National and international standards exist for automotive fire apparatus. These standards can be obtained from organizations such as the National Fire Protection Association (NFPA).

Accreditation Date: 7/18/1984

Scope: Standards for the areas in which CSA Group conducts business
Developer Name: Custom Electronics Design and Installation Association
  Acronym: CEDIA

Committee Title:

Secretariat:
  Contact: Walt Zerbe
  Title: Sr. Director, Technology & Standards
  Address: 8475 Nightfall Drive

  Fishers, IN 46037
  Phone: (800) 669-5329

Alternate Phone:
  E-Mail: wzerbe@cedia.org

WWW URL: www.cedia.net

Accreditation Date: 07/28/2020

Scope: CEDIA recommends best practice and specifies standards for system design, installation, and integration of technology for people to support their lifestyles including, but not limited to, audio/video systems, data networking, communications, security, IoT, “smart home”, automation, control of environment, lighting, wellness and any other supporting technologies
Developer Name: Dental Standards Institute, Inc.
Acronym: DSI

Committee Title:
Secretariat:
  Contact: Bryan Laskin
  Title: Chair of the Board, President, Treasurer and CEO
  Address: 109 Bushaway Road
            Suite 100
            Wayzata, MN 55391
  Phone: (952) 270-1069
Alternate Phone:
  E-Mail: bryan@upgradedental.com
WWW URL: https://dentalstandardsinstitute.com/
Accreditation Date: 02/28/2020

Scope: Matters of common interest and concern of boards of dentistry affecting public health, safety and welfare, including improving the transfer and storage of the Electronic Dental Record (EDR) containing electronic Personal Health Information (ePHI), as well as creating the opportunity for accelerating the development of technologies through shared platforms
Developer Name: **Dimensional Metrology Standards Consortium, Inc.**  
**Acronym:** **DMSC, Inc.**

**Committee Title:**  
**Secretariat:**
- **Contact:** Mark Thomas  
- **Title:** Executive Director  
- **Address:** 3245 Latta Road  
  No. 16595  
  Rochester, NY 14616  
- **Phone:** (585) 451-5800  
- **Alternate Phone:**  
- **E-Mail:** mark.thomas@qifstandards.org  
- **WWW URL:** [www.dmis.org](http://www.dmis.org)

**Accreditation Date:** 12/20/2005

**Scope:** Development of standards in the field of dimensional metrology, and the interoperability of standards related to such technology. This includes not only metrology-specific standards but also related standards that are used by metrologists to perform jobs such as product and tolerance exchange. In general, DMSC, Inc. will not operate in the field of hardware standards.

Scope: To develop standards and test methods for Exterior Insulation Finish Systems (EIFS)
**Developer Name:** Electrical Apparatus Service Association  
**Acronym:** EASA

**Committee Title:**

**Secretariat:**

- **Contact:** Linda Raynes  
  - **Title:** Acting Executive Vice President  
  - **Address:** 1331 Baur Road  
  
  St. Louis, MO 63132  
  - **Phone:** (314) 993-2220  
  - **E-Mail:** lraynes@easa.com  
  - **WWW URL:**

**Accreditation Date:** 11/25/1998

**Scope:** The EASA publishes Recommend Practice for the Repair of Rotating Electrical Apparatus. This document describes recordkeeping, tests, analysis, and general guidelines for the repair of rotating electrical apparatus, including generators and motors. The purpose of EASA documents is to establish requirements in each step of electrical apparatus rewinding and rebuilding. They are not intended to take the place of the customer's or the machine manufacturer's specific instructions or specifications. EASA standards related documents are intended to aid in assuring the continued reliability of electrical apparatus, by providing good work practice guidance. Further, they are intended as guides for maintaining the energy efficiency of rewound and rebuilt electrical apparatus. The scope of EASA’s standards activities differs from that of IEEE, NEMA, and NFPA. It is the intention of EASA to continue to reference IEEE, NEMA, and NFPA standards where they apply to a document.
Developer Name:  **Electronic Components Industry Association**  

Acronym: **ECIA**

Committee Title:  

Secretariat:  

Contact: Edward Mikoski  

Title: Vice President, EIA Standards and Technology  

Address: 13873 Park Center Road  

Suite 315  

Herndon, VA 20171

WWW URL: [www.ecianow.org](http://www.ecianow.org)  

Accreditation Date: 5/1/1984

**Scope:** The Engineering Department of the Electronic Components Association (formerly EIA) is organized to conduct standardization and to provide other appropriate technical and engineering services within the scope of the Association's By-laws and subject to polices established by the Board of Governors. All activities must be conducted within the Legal Guides' established by the Association.
Developer Name: Emergency Management Accreditation Program
Acronym: EMAP

Committee Title:

Secretariat:
Contact: Nicole Ishmael
Title: Executive Director
Address: 201 Park Washington Court

        Falls Church, VA 22046-4527
Phone: (859) 351-2350
Alternate Phone:
E-Mail: nishmael@emap.org
WWW URL: www.emap.org
Accreditation Date: 6/25/2008

Scope: The scope of EMAP standards will be strictly limited to standards that specifically apply to Emergency Management programs and their operations before, during, and after disasters or unforeseen events.
**Developer Name:** Entertainment Services and Technology Association  
**Acronym:** ESTA

**Committee Title:**

**Secretariat:**

- **Contact:** Karl Ruling  
- **Title:** Technical Standards Manager  
- **Address:** 271 Cadman Plaza  
  P.O. Box 23200  
  Brooklyn, NY 11202-3200  
- **Phone:** (212) 244-1505  
- **Alternate Phone:** (646) 619-2787  
- **E-Mail:** standards@esta.org  
- **WWW URL:** [www.esta.org](http://www.esta.org)

**Accreditation Date:** 12/16/1996

**Scope:** ESTA standards, developed through the Technical Standards Committee (TSC) will represent the consensus of live entertainment industry equipment and service providers. ESTA principally seeks to develop technical standards that will promote compatibility among equipment, products, and systems of competing manufacturers. ESTA may also seek to develop standards that are designed to insure that equipment or products or the manner in which they are to be used to not create unreasonable risks of injury to either persons or property.
Developer Name: ESD Association, Inc.  
Acronym: EOS/ESD  

Committee Title:  
Secretariat:  
  Contact: Christina Earl  
  Title: Business Operations Manager  
  Address: 218 W. Court Street  
  Rome, NY 13440  
  Phone: (315) 339-6937  
Alternate Phone:  
  E-Mail: info.eosesda@esda.org  
WWW URL: www.esda.org  
Accreditation Date: 1/30/1992  

Scope: The EOS/ESD Association Standards Committee concentrates on development of test methods and guidelines used for the control of Electrostatic Overstress and Electrostatic Discharge. While the Association's current efforts are related to electronic manufacturing and using environments, documents are applicable to many other industries and environments which require control of static electricity.

Suite 450
Herndon, VA 20170
Phone: (703) 790-1745
Alternate Phone:
E-Mail: awride-graney@burkinc.com
WWW URL: www.hps.org
Accreditation Date: 8/27/1985

Scope: The development of national standards dealing with or pertaining to radiation protection. Radiation protection include the protection of individuals or groups from occupational or environmental exposure to radiation or radioactive materials
Developer Name: Health Physics Society
Acronym: HPS (ASC N43)

Committee Title: Equipment for Non-Medical Radiation Applications
Secretariat: Health Physics Society
Contact: Amy Wride-Graney
Title: Standards Coordinator
Address: 950 Herndon Parkway
Suite 450
Herndon, VA 20170
Phone: (703) 790-1745
Alternate Phone:
E-Mail: awride-graney@burkinc.com
WWW URL: www.hps.org
Accreditation Date: 7/11/1986

Scope: Standards pertaining to products and equipment for non-medical scientific, industrial, and educational uses, involving ionizing radiation sources including radioactive materials, accelerators, and x-ray equipment. This scope excludes instrumentation, except for its radiation safety aspects, and nuclear reactors
Developer Name: **Healthcare Standards Institute**  
Acronym: **HSI**

**Committee Title:**

**Secretariat:**

- **Contact:** Veronica Muzquiz Edwards  
  **Title:** CEO  
  **Address:** 10231 Kotzebue Street  
  San Antonio, TX 78217  
  **Phone:** (210) 366-0033  
  **E-Mail:** hboisjoly@ingenesis.com  
  **WWW URL:** [www.hsi.health/](http://www.hsi.health/)

**Accreditation Date:** 10/16/2019

**Scope:** Standardization in the field of healthcare administration will include classification, terminology and nomenclature, management practices and metrics that comprise the “business” operations among healthcare entities. Covered subjects would include healthcare supply chain, capital (financial) management, patient admission and discharge approaches, human resource management specific to healthcare management, facilities management specific to healthcare facilities”, and all other non-clinical organizational support functions. These practices and metrics will be limited to staff and operational management of healthcare entities. For the purposes of this committee’s work, this proposal identifies healthcare entities as those organizations “whose principal operations consist of agreeing to provide health care services and entities whose primary activities are the planning, organization, and oversight of such entities, such as parent or holding companies of healthcare providers.

  Alternate Phone:
  E-Mail: d.ringle@ieee.org
  WWW URL: www.ieee.org
  Accreditation Date: 9/21/1982

Scope: The scope of IEEE Standardization activities falls within the technological field stated in the IEEE Constitution (see [9]): the advancement of the theory and practice of electrical engineering, electronics, radio and the allied branches of engineering, and the related arts and sciences. This scope includes the defined scopes of the Societies and the Technical Committees. As a transnational organization IEEE strives to generate standards publications that will have the broadest potential international acceptance. The IEEE Standards Board has overall responsibility for IEEE Standards development and approval, and sole responsibility for appointment to and participation in, cooperation with, other organizations on all standards matters. IEEE develops and publishes standards in such categories as definitions and terminology; methods of measurement and tests; ratings structures, temperature limits, application guides; recommended practices; and safety. Rating and dimensional information included in an IEEE Standard should result from technical considerations. Arbitrary rating information developed by other competent organizations may be included provided it is consistent with good engineering practice. The approval and publication of an IEEE Standard implies that the document represents a consensus of all parties who have participated in its development and review. Since every attempt is made to involve all interests in the activity, it can be presumed that the document represents a consensus of all interests concerned with the scope of the standard. When appropriate, IEEE will cooperate with standardizing groups throughout the world in the preparation of standards involving an area of interest within its scope. Approval by the IEEE signifies that the IEEE believes the document to be consistent with good engineering practice.

Developer Name: InterNational Electrical Testing Association
Acronym: NETA

Committee Title:
Secretariat:
Contact: Melissa Richard
Title: Executive Director
Address: 3050 Old Centre Road
        Suite 101
        Portage, MI 49024
Phone: (888) 300-6382
Alternate Phone:
E-Mail: mrichard@netaworld.org
WWW URL: www.netaworld.org
Accreditation Date: 7/8/1996

Scope: The InterNational Electrical Testing Association (NETA) publishes Acceptance Testing Specifications for Electrical Power Distribution Equipment and Systems which provide requirements for the testing of newly installed electrical equipment and systems. NETA also publishes Maintenance Testing Specifications for Electrical Power Distribution Equipment and Systems which provide requirements for the testing of existing electrical facilities. The NETA acceptance standards address acceptance testing of newly installed power systems and apparatus prior to energizing to ensure that the installation and equipment comply with specifications, manufacturer's standards, regulatory and safety requirements, and intended use. The NETA maintenance testing standards aid in ensuring safe, reliable operation of existing electrical power systems and equipment. Maintenance testing can identify potential problem areas before they become major problems requiring extensive and time-consuming solutions. NETA's scope of standards activity is different from that of the IEEE, NEMA and UL. In matters of testing electrical equipment and systems it is the intention of NETA to continue to reference IEEE, NEMA, and UL standards where required.

WWW URL: www.irecusa.org
Accreditation Date: 6/19/2013

Scope: Clean energy - The focus of this scope includes workforce training, education and instruction, and specific IREC standards will address components related to these aspects of workforce credentialing. IREC will submit Standard 14732:2013 General Requirements for Clean Energy Certificate Programs for recognition as an American National Standard. Submission of subsequent standards for accreditation will follow.
Developer Name: IPC - Association Connecting Electronics Industries
Acronym: IPC

Committee Title:

Secretariat:

Contact: Kieron Roberson
Title: Standards Coordinator
Address: 3000 Lakeside Drive
         Suite 105 N
         Bannockburn, IL 60015
Phone: (847) 597-2847

Alternate Phone:

E-Mail: kieronroberson@ipc.org
WWW URL: www.ipc.org
Accreditation Date: 10/15/1985

Scope: Design and performance standards for all types of interconnections, including printed wiring boards, flexible circuits, flat cable and discrete wiring devices. In addition, IPC develops standards for materials used in these products. Also, IPC is involved in standards for computer-aided technology, used to define electronic description. IPC is therefore also involved not only in the development of product standards, but in standardization and in guidelines that will impact the electronic packaging community. A roster of committees has been provided, including a brief description of the scope of standardization programming for each group.

Accreditation Date: 12/9/2005

Scope: The development of sustainability standards for measuring the overall sustainability performance and reduced environmental impacts of individuals, families, businesses, government, other organizations, vehicles, events; and standards for emission reductions actions. The scope of these include: 1. Standards for Sustainable Organizations (Sustainability Achievements of Organizations) that provide a scale for measuring the achievement of businesses, governments, government agencies and other organizations in reducing their negative impacts and increasing their positive impacts on the environment, the economy and society. Components of sustainable organization performance include both direct and indirect impacts on the land, water, and atmosphere, including the environmental impacts of supply chains for the goods and services purchased and/or produced by the organization. 2. Standards for Sustainable Vehicles that provide a scale for measuring the achievements of manufacturers of vehicles and others in reducing the negative impacts of vehicles on the environment, the economy and society. Components of sustainable vehicle performance include both direct and indirect environmental impacts on the land, water, and atmosphere during all phases of the vehicle life, including manufacturing, operation, and end-of-life disposal. 3. Standards for Sustainable Events that provide a scale for measuring the achievements of events organizers and participants in reducing the negative impacts of events on the environment, the economy and society. Components of sustainable event performance include both the direct and indirect impacts of the event on the land, water, and atmosphere as related to the goods and services consumed during the planning, implementation, and clean up phases of the event and other event-related activities. 4. Standards for Emissions Reductions that quantify the environmental emissions caused by individuals, businesses, government, and other organizations; quantify and credit emission reductions and sequestration, and offsets; and quantify the net environmental emissions caused by individuals, businesses, government, and other organizations.
Developer Name: Licensing Executives Society (U.S. and Canada)

Acronym: LES

Committee Title:

Secretariat:

Contact: Alexandra Rehmeier
Title: Chair of LES SDO Board, Boeing IP
Address: 11130 Sunrise Valley Drive
Suite 350
Reston, VA 20191
Phone: (949) 981-1562

Alternate Phone:

E-Mail: alexandra.l.rehmeier@boeing.com

WWW URL: www.les.org

Accreditation Date: 01/17/2017

Scope: The key purposes of the LES standards development activities are the following:
- Raise the standards of business conduct in IP-oriented transactions
- Improve the practice of IP management and by doing so mitigate its risks
- Reduce the cost and time required to do IP-oriented transactions and IP management
- Protect and preserve the value of IP for innovative individuals and enterprises

The scope of the work is all of IP management (The focus right now is on Management Systems Standards). LES intends for the standards it develops to be relevant and useful internationally. When we use the term “IP,” we are actually referring to intangible property generally or what some people call intellectual capital. In other words, we are not limiting our application of standards development disciplines only to patents, copyrights, trademarks and trade dress, and trade secrets. We are also including management of knowhow, proprietary, confidential, and commercial information, enterprise processes, financial information, enterprise strategies, and any other non-public information or ways of doing business belonging to an enterprise.

The standards that LES intends to develop will apply, for example, to the behavior of parties to a transaction involving intellectual capital – whether licensing or assignment of rights – the valuation of the intellectual capital, the development and securing of rights to intellectual property capital, the sharing and use of IP in commercial transactions, and the protection of (whether through legal or business process means of own-enterprise or other-enterprise) intellectual capital.
Developer Name: Manufacturers Standardization Society
Acronym: MSS

Committee Title:
Secretariat:
  Contact: David Thompson

**Accreditation Date:** 7/19/2007

**Scope:** NADCA has committed to the development of American National Standards for the assessment, cleaning, and restoration of HVAC systems including, but not limited to, residential, commercial, institutional, industrial and maritime systems.
Developer Name: National Association of Architectural Metal Manufacturers
Acronym: NAAMM

Committee Title:
Secretariat:
  Contact: Vernon (Wes) Lewis
  Title: Technical Consultant
  Address: 123 College Place
            #1101
            Norfolk, VA 23510
  Phone: (757) 489-0787
Alternate Phone:
  E-Mail: wlewis7@cox.net
WWW URL: www.naamm.org
Accreditation Date: 12/14/1983

Scope: Standards, specifications, procedures, and terminology for metal bar grating, expanded metal, hollow metal doors and frames, metal flagpoles, metal stairs and railings, and metal lathing and furring

Developer Name: National Association of State Boating Law Administrators
Acronym: NASBLA

Committee Title:
Secretariat:
  Contact: Kaci Christopher
  Title:    
  Address: 1020 Monarch Street
            Suite 200
            Lexington, KY 40513
  Phone:   859-225-7364
Alternate Phone:
  E-Mail:  Kaci.christopher@nasbla.org
WWW URL: www.nasbla.org
Accreditation Date: 09/19/2014

Scope: Knowledge and competencies for the recreational boater and boating professionals working within or on behalf of the recreational boating community in North America.
Developer Name: National Board of Boiler and Pressure Vessel Inspectors
   Acronym: NBBPVI

Committee Title:
   Secretariat:
      Contact: Jonathan Ellis
      Title: 
      Address: 1055 Crupper Avenue
               Columbus, OH 43229-1183
      Phone: (614) 431-3236
      Alternate Phone:
      E-Mail: NBICSecretary@nbbi.org
      WWW URL: www.nationalboard.org
   Accreditation Date: 1/8/1992

Scope: The (NBBPVI) committee is constituted for the purpose of maintaining the National Board Inspection Code (National Board publication ANSI/ NB-23), a code whose purpose is to provide rules for jurisdictional adoption and help ensure that pressure-retaining equipment may continue to be safely used. The code includes guidelines for inspection, installation, welding, nondestructive examination methods, maintenance and testing of pressure-retaining items including pressure relief valves, applicable appurtenances and other specialized obsolete and unique pressure-retaining equipment. The code provides rules for repair and alteration to pressure-retaining items and repair of pressure relief devices and rules for accreditation of organizations that conduct this work.
Developer Name: National Conference of Standards Laboratories
Acronym: NCSLI (ASC Z540)

Committee Title: Standards Writing Group on Metrology and Testing
Secretariat: National Conference of Standards Laboratories
Contact: Craig Gulka
Title: Executive Director
Address: 5766 Central Ave.
        Suite 150
        Boulder, CO 80301
Phone: (303) 440-3385
Alternate Phone: (303) 440-3339
E-Mail: cgulka@ncsli.org
WWW URL: www.ncsli.org
Accreditation Date: 2/28/1994

Scope: To develop and maintain standards for the operation and design of calibration laboratories, requirements for the control and use of measuring and test equipment, and requirements or guides for metrological functions associated with calibration laboratories and/or measuring and test equipment. These standards may be new development projects or may be based upon current ISO/IEC standards or guides, other international standards, recommended practices developed by the National Conference of Standards Laboratories (NCSL) or other industry good practices.

Dated: October 14, 2022
Developer Name: National Contract Management Association  
Acronym: NCMA

Committee Title:

Secretariat:
  Contact: Kraig Conrad  
  Title: Chief Executive Officer  
  Address: 21740 Beaumeade Circle  
          Suite 125  
          Ashburn, VA 20147  
  Phone: (800) 344-8096  
Alternate Phone:
  E-Mail: kconrad@ncmahq.org  
WWW URL: www.ncmahq.org

Accreditation Date: 04/20/2018

Scope: NCMA standards and other subject matter documents will reflect the combined knowledge of government and commercial buyers and sellers, as well as academicians, regulatory authorities, and consultants. They are intended to be applied by contract managers using the judgment required to adapt to any unique circumstances of the reader. Consequently, the NCMA standards program will provide guidance to the contract management profession without restricting technological advancement or freedom to operate.
Developer Name: National Council for Prescription Drug Programs  
Acronym: NCPDP

Scope: The scope of the standards that NCPDP develops are those for information processing for the pharmacy sector of the health care industry
Developer Name: National Electrical Contractors Association
Acronym: NECA

Committee Title:
Secretariat:
  Contact: Michael Johnston
  Title: Executive Director Standards and Safety
  Address: 1201 Pennsylvania Avenue
            Suite 1200
            Washington, DC 20004
  Phone: (202) 991-6262
  Alternate Phone: (301) 789-8559
  E-Mail: me@necanet.org
  WWW URL: www.neca-neis.org
Accreditation Date: 3/14/1996

Scope: NECA installation standards are recommended practices intended to establish a baseline level of quality for electrical construction. They are intended to define what is meant by a "neat and workmanlike installation". NECA installation standards are not mandatory electrical safety rules. The governing electrical safety requirements for electrical construction are contained in ANSI/NFPA 70, National Electrical Code (NEC). Nothing in NECA installation standards is intended to conflict with this standard. All recommended practices are intended to be in conformance with the edition of the NEC in effect at the time of publication. NECA installation standards are intended to provide advice and guidance only. Adherence to these recommendations is strictly voluntary. NECA installation standards are not intended to be adopted into law for regulatory use by jurisdictions.

Developer Name: National Emergency Number Association
Acronym: NENA

Committee Title:
Secretariat:
Contact: Brandon Abley
Title: Director of Technology
Address: 1700 Diagonal Road
        Suite 500
        Alexandria, VA 22314
Phone: (202) 618-4401

Alternate Phone:
E-Mail: standardscoord@nena.org
WWW URL: www.nena.org
Accreditation Date: 4/19/2013

Scope: The National Emergency Number Association (NENA) develops requirements, standards, specifications, recommended procedures, and information documents through the NENA Development Group (NDG) and its related committees and working groups. NENA also sponsors interoperability verification testing. This work supports 9-1-1 emergency call routing and data management. 9-1-1 service systems are comprised of transport networks, hardware, software, data, and, personnel, and operational policies and procedures that:

A. enable processing of emergency calls from originating services including but not limited to providers of voice telephony, text messaging, data transmission, and multimedia transmission or streaming;

B. provide standardized interfaces to originating service providers and/or network providers to support emergency communications; acquire and integrate emergency call data (including but not limited to caller location) useful to call routing and handling;

C. deliver emergency calls, video, and data to the appropriate public safety answering point and/or other appropriate emergency entities; and

D. answer, process, and support emergency calls.

Parts of NENA’s development work concern standards, procedures, and practices for the management of databases which control software functions, procedures for overall system management, and guidelines for the maintenance and evolution of systems intended to ensure emergency service quality and consistency.

NENA’s interest in ANSI accreditation is specific to 9-1-1 service systems and their design, deployment, maintenance, operation, and upgrade. NENA’s ANSI standards scope starts at the point an originating service provider interfaces to the 9-1-1 system, encompasses the above areas, and ends at the point where the call, message, and/or data has been interpreted and processed by public safety call taking functions.
and/or interconnected to other emergency entities (such as trauma centers, hospitals, sensor monitoring centers, etc.).

Scope: To develop voluntary, consensus technical standards relevant to information systems; products, including hardware and supplies; and services, as they relate to libraries, bibliographic and information services, and publishing.
Developer Name: National Infusion Center Association
Acronym: NICA

Committee Title:
Secretariat:
  Contact: Kaitey Morgan
  Title: RN, BSN, CRNI, Chief Medical Officer
  Address: 3307 Northland Drive
           Suite 160
           Austin, TX 78731
  Phone: (512) 761-7870
  Alternate Phone:
  E-Mail: kaitey.morgan@infusioncenter.org
  WWW URL: https://infusioncenter.org/
Accreditation Date: 3/8/2021

Scope: The National Infusion Center Association (NICA) is a trade association dedicated to representing the interests of office-based outpatient care settings where infusible and/or injectable biologics and specialty medications are prepared and administered. This treatment modality is colloquially referred to simply as “infusion” or “infusion therapy” and the aforementioned care settings are often called “infusion centers;” however, NICA Standards are intended to apply to all ambulatory care settings where patients receive non-hazardous* provider-administered medications via parenteral (i.e. intravenous, intramuscular, subcutaneous or intradermal) routes. With the emergence of novel treatment modalities, standards may also be applicable to medications administered by healthcare providers via additional routes (ex. nasal spray).

Scope: Standards and guidelines for information exchange relating to automatic data processing and related systems

Dated: October 14, 2022
Developer Name: National Marine Electronics Association
Acronym: NMEA

Committee Title:
Secretariat:
  Contact: Mark Oslund
  Title: Director of Standards
  Address: 846 Ritchie Highway
            Suite L4
            Severna Park, MD 21146
  Phone: (410) 975-9425
Alternate Phone:
  E-Mail: moslund@nmea.org
WWW URL: www.nmea.org
Accreditation Date: 6/24/2009

Scope: National Marine Electronics Association (NMEA) is a 50 year old membership driven association. The association began with marine electronic dealers collaborating to trade information, technical installation techniques and to discuss new and innovative technical products. Now, NMEA has over 500 members worldwide comprised of diverse stakeholders directly and indirectly involved in marine electronics. This diverse group includes marine electronic dealers/retailers, marine industry distributors, manufacturers, boat builders, trade, government entities and associates of the marine electronics industry. The National Marine Electronics Association is the unifying force behind the entire marine electronics industry worldwide, bringing together all aspects of the industry for the manufacture and operational safety of electronics devices for the boating public both recreationally and commercially with the creation, production and distribution of international communication standards and installation standards. NMEA further enhances the industry with educational programming for the trade and opportunities for the boating public. The NMEA develops voluntary industry standards recommending technical installation practices, communication protocols of marine electronic devices and educational materials which ultimately provide a high level of safety to the boating consumer in the recreational and commercial markets, worldwide. NMEA Standards are designed to establish a minimum level of quality for marine electronic devices on vessels.
Developer Name: National Operating Committee on Standards for Athletic Equipment
Acronym: NOCSAE

Committee Title:

Secretariat:
Contact: Michael Oliver
Title: Executive Director and General Counsel
Address: 11020 King Street
         Suite 215

E-Mail: scampbell@nrmca.org
WWW URL: https://www.nrmca.org/
Accreditation Date: 9/30/2022

Scope: Those standards that directly affect the ready mixed concrete industry, including design, sustainability, resilience and production

Dated: October 14, 2022
Developer Name: National Ski Areas Association
Acronym: NSAA (ASC B77)

Committee Title: Aerial Passenger Ropeways
Secretariat: National Ski Areas Association
Contact: Michael Lane
Title: Director of Technical Services
Address: 133 S Van Gordon Street
          Suite 300
          Lakewood, CO 80228
Phone: (720) 963-4210
Alternate Phone:
E-Mail: mlane@nsaa.org
WWW URL:
Accreditation Date: 10/12/1984

Scope: To develop a system of principles, specifications, and performance objectives, which will reflect the current state of the art of passenger tramway design, operation, and maintenance, and which will be acceptable for adoption by government agencies and others. It is recognized that certain dangers and risks are inherent in the riding, operation, construction, and maintenance of machines of this type. These objectives are intended to result in passenger tramways that are designed, constructed, operated, and maintained in a manner that minimizes danger and exposure to risk to its passengers, operators, and maintenance personnel, and will encourage improvements in productivity, efficiency, development and progress consistent with these objectives.
Developer Name: National Waste & Recycling Association
Acronym: NW&RA (ASC Z245)

Committee Title: Equipment Technology & Operations for Wastes & Recyclable Materials
Secretariat: National Waste & Recycling Association
Contact: Kirk Sander
Title: Chief of Staff & Vice President, Safety and Standards
Address: 1550 Crystal Drive
         Suite #804
         Arlington, VA 22202
Phone: (202) 364-3750
Alternate Phone: (813) 735-9075
E-Mail: ksander@wasterecycling.org
WWW URL: www.wasterecycling.org
Accreditation Date: 9/23/1986

Scope: To develop requirements for the design, manufacture, installation, modification, servicing, maintenance, and use of equipment technology, including the operations of facilities and activities in which this technology is incorporated, for the purposes of collection, transportation, containment, processing, treatment and disposal of wastes and the collection, transportation, containment, and processing of recyclable materials
Developer Name: Non-Emergency Medical Transportation Accreditation Commission
Acronym: NEMTAC

Committee Title:
Secretariat:
  Contact: Peter Hicks
  Title: Executive Director
  Address: 4381 N. 75th Street
           Suite 201
           Scottsdale, AZ 85251
  Phone: (866) 636-8221
  Alternate Phone: (512) 629-3262
  E-Mail: phicks@nemtac.org
  WWW URL: www.nemtac.org

Accreditation Date: 07/13/2018

Scope: NEMTAC is seeking to become the standardization making and accrediting body for all aspects of the Non-Emergency Medical Transportation (NEMT) industry. NEMTAC standards and accreditation will be used throughout the NEMT industry and by ancillary providers, including but not limited to large organizations, specialized groups, independent providers and drivers. NEMTAC will develop a robust set of NEMT best practice standards and will offer accreditation to those organizations, groups and individuals that are able to demonstrate adherence to best practice standards along with a willingness to collect and share statistics, especially regarding safety and care delivery.
**Developer Name:** North American Electric Reliability Corporation  
**Acronym:** NERC

**Committee Title:**

**Secretariat:**

- **Contact:** Howard Gugel  
  **Title:** Vice President, Engineering and Standards  
- **Address:** 3353 Peachtree Road NE  
  Suite 600 North Tower  
  Atlanta, GA 30326  
- **Phone:** (404) 446-9693  
  **Alternate Phone:** (609) 651-2269  
- **E-Mail:** howard.gugel@nerc.net  
- **WWW URL:** [www.nerc.com](http://www.nerc.com)

**Accreditation Date:** 3/24/2003

**Scope:** The North American Electric Reliability Corporation (NERC) is a not-for-profit organization formed to assure the reliability of the bulk electric systems that serve North America. The roles of NERC include:

- Work with the industry to develop reliability standards
- Enforce compliance with reliability standards and assesses monetary and non-monetary penalties for noncompliance
- Assesses future bulk power system reliability via annual summer, winter and 10-year forecasts of the ability of the
- Analyze system disturbance events
- Promote a culture of reliability excellence by identifying areas for improvement
- Monitor the status of the bulk power system and report on its performance
- Coordinate physical and cyber security responses
- Help the industry train and educate system operators
- Certify system operators

NERC works with all segments of the electric power industry, as well as customers, to develop and enforce mandatory compliance with industry developed standards. NERC works in conjunction with the eight Regional Reliability Entities to implement its role as the designated Electric Reliability Organization (ERO) under the jurisdiction of the Federal Energy Regulatory Commission (FERC) in the US and by agreement with nine provinces in Canada. NERC works with all segments of the electric industry and its customers to develop mandatory standards for the reliable planning and operation of bulk electric systems. The NERC standards define certain requirements of registered entities that own, use or operate the bulk electric
systems of North America. The purpose of a standard is to support the reliability of the North American bulk electric systems without causing undue restrictions or adverse impacts on competitive electricity markets.

Developer Name: **North American Energy Standards Board**  
Acronym: **NAESB**

Committee Title:  
Secretariat:  
Contact: Rae McQuade  
Title: Executive Director

Accreditation Date: 11/3/2008

Scope: Establishment of minimum requirements for recreational off-highway vehicles (ROVs) as defined herein. These vehicles are intended by the manufacturers primarily for recreational use by one or more persons and may have secondary general utility applications. The related proposed standard will address design, configuration and performance aspects of ROVs, including among other items, requirements for mechanical suspension; accelerator, clutch and gearshift controls; engine controls; lighting; tires; service and parking brake/mechanism performance; lateral and pitch stability; occupant handholds and occupant protection systems; and requirements for permanent safety labels and owner’s manual. The proposed standard will require manufacturers of conforming ROVs to affix a certification label to the ROV.
Developer Name: **Recreational Scuba Training Council**  
**Acronym:** RSTC (ASC Z375)

**Committee Title:** Diving Instructional Standards and Safety  
**Secretariat:** Recreational Scuba Training Council  
**Contact:** Jeff Nadler  
**Title:** Member, RSTC Board of Directors  
**Address:** PO Box 3275  
Stuart, FL 34995

   E-Mail: info@spri.org
WWW URL: www.spri.org
Accreditation Date: 6/10/1994
Scope: Test procedures for evaluating performance of systems and products associated with the use of
prefabricated sheet membrane roofing materials

Dated: October 14, 2022
Developer Name: Snow and Ice Management Association
Acronym: SIMA

Committee Title:
Secretariat:
  Contact: Martin Tirado
  Title: Chief Executive Officer
  Address: 10140 N. Port Washington Road
  Phone: (414) 375-1940
  Alternate Phone:
  E-Mail: martin@sima.org
  WWW URL: http://www.sima.org

Accreditation Date: 08/01/2018

Scope: The mission of the Snow & Ice Management Association (SIMA) is empowering snow and ice management professionals for success. Development of ANSI recognized standards will enable social, economic, and environmental guidelines of policy and practice for: 1) Delivery of safe and cost-efficient winter management operations and service verification; 2) Continuation of emergency services, commerce, public, and social activities; 3) Environmentally responsible awareness and use of salt and other anti-icing and de-icing products, as recent research has confirmed such snow and ice melt products can contribute to chloride pollution of freshwater.

Sustainable winter management operations are accomplished by standards that are easily understood and readily adopted - by property managers, facility managers, and the diverse array of property owners - in order to provide safe and clear passage in parking lots, pedestrian walkways and access routes, and other areas used by the public.

During snow and ice storms, the public assumes varied levels of continuation in their lives including safe and clear passage of their means for transportation. Formal standards will provide the necessary third-party credibility for establishing guidelines of policy that define levels of service (LOS) for clients (facilities/properties), and standards of practice for snow management industry personnel.

Expected results: ANSI standards will enable increased confidence by property managers, facility managers and the general public who are seeking, qualifying, and hiring winter management professionals, increasing safety and reducing winter-related outdoor slip and fall risk and accidents.

SIMA’s intended scope of standards development activities will include and are not limited to:

Dated: October 14, 2022
1) Economic standards of policy and practice including: a) requests for proposals (RFPs) and contractual terms of agreement between the buyers and service providers in the industry.

2) Social standards of policy and practice including: a) guidelines for defining scope of work (SOW); b) level(s) of service (LOS); c) liability and risk assessment.

  E-Mail: bob@sdi.org  
  WWW URL: [www.sdi.org](http://www.sdi.org)

Accreditation Date: 2/11/2003

Scope: The Steel Deck Institute (SDI) was incorporated in 1939 as a not for profit trade organization representing manufacturers of steel decks and products used in conjunction with steel deck. The SDI has provided uniform industry standards for the engineering, design, manufacture and field usage of steel roof decks, composite floor decks, and form decks. As developments in steel products, steel manufacturing, steel design, and building methods have occurred, the SDI has continually revised and upgraded its standards as necessary. Continuing SDI functions include preparation, review, and distribution of literature, referral of inquiries to appropriate sources, coordination of research and testing, and liaison with other construction industry associations on matters of common interest. The Institute has been a major source of information and standards to the design community for their use in the preparation of project specifications and plans for the use of steel deck in construction. As an ANSI Accredited Standards Developer, SDI submits specifications and commentary for composite steel floor deck, non-composite steel floor deck (form deck), and steel roof deck as standards.

  **WWW URL:** [www.steeljoist.org](http://www.steeljoist.org)

  **Accreditation Date:** 11/5/1996

**Scope:** The Steel Joist Institute was incorporated in 1928 as a not for profit trade organization representing manufacturers of open web steel joists. The SJI has operated continually since its inception; it is a worldwide organization and is the only organization representing the steel joist industry. For the almost 70 years of its existence, the Institute has developed standards for product design and use, and performed extensive clinical and field research. The Institute continuously monitors these standards, reviewing them in light of new developments in steel products, steel manufacturing, steel design, and building methods. Consequently, continual upgrading is mandatory; the SJI has done this, and continues to oversee this function. The Institute also works closely with federal, state and local governments; works with and is recognized by the three major Building codes; and provides technical assistance on a daily basis for the design professional.

Accreditation Date: 6/11/2004

Scope: The Masonry Society (TMS) is a Not-for-Profit (501c(3)) educational society dedicated to the advancement of knowledge of masonry. TMS develops standards for the design, specification, construction, evaluation, repair, and renovation of masonry as sole sponsor or jointly with other organizations that are ANSI Accredited Standards Developers. The scopes of TMS standards are described below.

- **Building Code Requirements for Masonry Structures** (TMS 402 and prior to 2013, developed jointly as the Masonry Standards Joint Committee (MSJC) and designated as ACI 530/ASCE 5/TMS 402). Scope: This Code provides minimum requirements for the structural design and construction of masonry elements consisting of masonry bedded in mortar in any structure erected under the requirements of a legally adopted general building code of which this Code forms a part in areas without a legally adopted building code, this Code defines minimum acceptable standards of design and construction practice.

- **Specification for Masonry Structures** (TMS 602 and prior to 2013, developed jointly as the Masonry Standards Joint Committee (MSJC) and designated as ACI 530.1/ASCE 6/TMS 602) Scope: This Specification is written as a master specification and is required by the Building Code Requirements for Masonry Structures to control materials, labor and construction. It contains the minimum requirements to ensure the structural integrity of the masonry.

- **Code Requirements for Determining Fire Resistance of Concrete and Masonry Construction Assemblies** (ACI/TMS 216.1 and formerly developed as and ANS) Scope: This standard describes acceptable methods for determining the fire resistance of concrete and masonry assemblies including walls, floors and roof slabs, beams, columns, lintels, and masonry fire protection for structural steel columns.

- **Standard Method for Determining the Sound Transmission Rating for Masonry Assemblies** (TMS 302) Scope: This Standard provides minimum requirements for rating masonry walls for sound transmission class (STC) and outdoor-indoor transmission class (OITC) based on testing calibrated calculation procedures. Topics covered include reference standards, definitions and notations, materials, construction, and methods to STC and OITC rating for concrete masonry and clay masonry assemblies.

WWW URL: [www.NELAC-Institute.org](http://www.NELAC-Institute.org)

**Accreditation Date:** 11/17/2005  
**Scope:** Standards for the accreditation of environmental laboratories.

---

Developer Name: **The Society for Imaging Science & Technology**  
Acronym: **IS&T**

Committee Title:  
Secretariat:  
Contact: Ann McCarthy  
Title: Standards Coordinator  
Address: 7003 Kilworth Lane  

Springfield, VA 22151  
Phone: (703) 642-9090  
Alternate Phone: (585) 746-2763  
E-Mail: standards@imaging.org  
WWW URL: [www.imaging.org](http://www.imaging.org)

**Accreditation Date:** 4/30/2013  
**Scope:** The field of imaging that results from photochemical, electronic, and hybrid technologies. This includes all related system aspects of imaging (acquisition, photo-optics, recording, structure, processing, stabilization, evaluation, viewing), and media (physical properties, storage, preservation, dimensioning, packaging, distribution, recycling), and also includes interfacing, transcoding, and accompanying signals (audio and data). Imaging media includes film, paper, prints, storage materials and devices including, but not limited to magnetic tape, optical discs and removable flash memory.
Developer Name: The Vision Council
Acronym: VC (ASC Z80)

Committee Title: Ophthalmic Standards
Secretariat: The Vision Council
Contact: Michael Vitale
Title: Technical Director & Lens Division Liaison
Address: 225 Reinekers Lane
         Suite 700
         Alexandria, VA 22314
Phone: (703) 548-2684
Alternate Phone: (682) 300-9458
E-Mail: mvitale@thevisioncouncil.org
WWW URL: www.z80asc.com
Accreditation Date: 5/21/1985

Scope: The establishment of standards that shall apply to ophthalmic lenses and to equipment, instruments and to processes used in the final fabrication level which affect their performance; to ophthalmic frames, sunglasses, and fashion eyewear; to contact lenses and accessories for their use; to intraocular implant lenses; to low vision aids and ophthalmic contact devices in addition to contact lenses; and to optical instrumentation used in ophthalmic procedures and vision evaluation. Standards established by this Committee do not apply to industrial safety devices, or to procedures used in clinical ophthalmic examinations.
Developer Name: **Tile Council of North America**  
**Acronym:** TCNA (ASC A108)

**Committee Title:** Accredited Standards Committee on Ceramic and Glass Tile  
**Secretariat:** Tile Council of North America  
**Contact:** Katelyn Simpson  
**Title:** Industry Relations  
**Address:** 100 Clemson Research Blvd.

Anderson, SC 29625  
**Phone:** (864) 646-8453  
**E-Mail:** KSimpson@tileusa.com  
**WWW URL:** www.tcnatile.com  
**Accreditation Date:** 6/22/1984

**Scope:** The scope of ASC A108 is to develop standards which define the installation of ceramic, glass, stone, and other hard surface tiles and panels as well as the test methods and physical properties for ceramic, glass, stone, and other hard surface flooring and wall covering materials, and related installation materials. These are voluntary standards which are intended to serve as a guide to the general public, manufacturers, distributors, etc. and others in the tile industry.

Developer Name: **Toy Industry Association**  
**Acronym:** TOY-TIA

**Committee Title:**  
**Secretariat:**  
**Contact:** Joan Lawrence  
**Title:** Vice President, Standards & Regulatory Affairs  
**Address:** 1115 Broadway  
Suite 400  
New York, NY 10010  
**Phone:** (212) 675-1141  
**E-Mail:** jlawrence@toyassociation.org  
**WWW URL:** www.toyassociation.org  
**Accreditation Date:** 11/8/1984

**Scope:** Safety requirements for tricycles; paints and surface coatings for children's products.
Developer Name: Tree Care Industry Association
  Acronym: TCIA (ASC A300)

Committee Title: Standard Practices for Shade Tree Maintenance
  Secretariat: Tree Care Industry Association
  Contact: Robert Rouse
  Title: Vice President of Industry Standards & Credentialing
  Address: 136 Harvey Road
           Suite 101
           Londonderry, NH 03053
  Phone: (603) 314-5380
  Alternate Phone:
  E-Mail: rrouse@tcia.org
  WWW URL: www.treecareindustry.org
  Accreditation Date: 6/28/1991

Scope: The scope of the committee is to develop standards that would encompass, but not be limited to pruning, cabling, bracing, guying, fertilizing, and lightning protection installation for shade trees and hydraulic operation.

Dated: October 14, 2022
Developer Name: **Truss Plate Institute**  
Acronym: **TPI**  

Committee Title:  
Secretariat:  
  Contact: Jay Jones  
  Title: Executive Director  
  Address: 2670 Crain Highway  
          Suite 203  
          Waldorf, MD 20601  
  Phone: (240) 587-5582  
Alternate Phone:  
  E-Mail: jpjones@tpinst.org  
WWW URL: [www.tpinst.org](http://www.tpinst.org)  

Accreditation Date: 7/9/1992  

**Scope:** The Truss Plate Institute (TPI) is a n-f-p association of manufacturers actively engaged in the production of structural metal connector plates for the wood truss industry, individual or firms engaged in related activities. The TPI was organized in 1961 for the purpose of maintain industry on a sound engineering basis. To accomplish its purpose, the Institute establishes methods of design and construction for wood trusses using metal connector plates, supports and disseminates test and research data, assists in the development of proper building code regulations, recommends quality control standards, and distributes information on the use of metal plate connected wood trusses in the interest of public safety. The Truss Plate Institute (TPI) provides the state-of-the-art standards on metal plate connected wood truss design and construction utilizing allowable stress design, load resistance factor design, and reliability based design methodologies. TPI consensus-based project committees developed mandatory metal connector plate test and evaluation procedures, design data for lumber and truss connections, truss lumber and joint design criteria, truss and joint manufacturing tolerances, truss installation tolerances, and full scale (destructive and non-destructive) truss test and evaluation procedures. In addition, TPI consensus standards are developed in accordance with ANSI procedures for coordination and development of American National Standards.
Scope: Over the course of the past decade, USGBC has employed a consensus-based process to develop the Leadership in Energy and Environmental Design Green Building Rating Systems (“LEED®”). LEED® green building rating systems are designed to accelerate the development and implementation of sustainable building practices. LEED rating systems have been developed for use with new construction, existing buildings, and commercial interiors, and LEED rating systems are under development for use with homes, core and shell, and neighborhood development. It should be emphasized that the LEED rating systems do not purport to be “standards” that will be met by all buildings in the U.S. Instead, they provide a sound and certifiable basis for identifying buildings that represent leadership in use of sustainable building practices and design. Moreover, the rating systems are designed to provide flexibility to the users, allowing users to qualify for LEED ratings by selecting among many different combinations of credits under the rating system.

E-Mail: samick@ustires.org  
WWW URL: [www.ustires.org](http://www.ustires.org)

**Accreditation Date:** 5/28/1984

**Scope:** Specifications for hoses; drives using power transmission belts and pulleys; and safety requirements for equipment used in the hose industry.
Developer Name: **UL Standards & Engagement**

Acronym: **ULSE**

Audited Designator

Committee Title:

Secretariat:

Contact: Patricia Sena

Title: Standards Engineer

Address: 12 Laboratory Drive

Research Triangle Park, NC 27709-3995

Phone: (919) 549-1636

Alternate Phone:

E-Mail: patricia.a.sena@ul.org

WWW URL: [https://ul.org/](https://ul.org/)

Accreditation Date: 11/18/1976

**Scope:** UL is committed to promoting safe living and working environments through its support of the development and use of products and services that are physically and environmentally safe. UL standards documents benefit all users of products and services in many ways, including through the mitigation of safety hazards, protection of life and health, protection of property, and protection of the environment. New standards activities may be initiated at the request of stakeholders in all areas covered by UL’s business units. UL’s Standards program supports UL’s broad mission through the development of consensus standards documents by Standards Technical Panels.

Accreditation Date: 7/17/1995

Scope: Our mission is to develop performance and safety standards for Venetian blinds, vertical blinds, drapery hardware. These documents are guidelines of the minimum requirements to ensure products with substantial life, quality and safety. The associated developed Document 1029-86 known as the Commercial item Description for Venetian Blinds. Federal agencies including Pentagon and HUD use Document 1029-86 in purchasing horizontal blinds. This is the performance specification used by the General Services Administration. we are also beginning to develop our safety standard, working with the Consumer Product Safety Commission for the protection of children and blind cords.
Developer Name: **Wood Machinery Manufacturers of America**

**Acronym:** WMMA (ASC O1)

**Committee Title:** Safety Requirements for Woodworking Machinery

**Secretariat:** Wood Machinery Manufacturers of America

**Contact:** Nikki Augsburger

**Title:** Associate Director

**Address:** 2331 Rock Spring Road

Forest Hill, MD 21050

**Phone:** (443) 640-1052

**Alternate Phone:**

**E-Mail:** niki@wmma.org

**WWW URL:** [www.wmma.org](http://www.wmma.org)

**Accreditation Date:** 12/15/1983

**Scope:** Standards for the safe design, installation and use of woodworking and accessory equipment, used in industrial and commercial applications, having a total connected power of 3.7kw (5hp) or greater, or having 3-phase wiring.
Developer Name: **World Millwork Alliance**  
Acronym: **WMA**

Committee Title:  
Secretariat:  
  Contact: Jessica Ferris  
  Title: Director of Codes and Standards  
  Address: 10047 Robert Trent Jones Parkway  
  New Port Richey, FL 34655  
  Phone: (727) 372-3665  
  Alternate Phone:  
  E-Mail: jferris@worldmillworkalliance.com  
  WWW URL: [http://worldmillworkalliance.com](http://worldmillworkalliance.com)  
  Accreditation Date: 10/2/2009

**Scope:** The Wold Millwork Alliance, formerly known as Association of Millwork Distributors (AMD,) has been approved as an ANSI Accredited Standards Developer for its method of testing side hinged exterior doors (SHED) and their components as an American National Standard. This standard identifies a minimal procedure for testing SHED and their components against air infiltration, water resistance, static pressure and impact. This standard would cover SHED not currently under the scope of ANSI SDI 250.13. The AMD is a 501(c) (6) non-profit organization, comprised of millwork product manufacturers, distributors and other interested parties. The AMD association is the largest millwork U.S. representative of SHED distributors, prehangers and component manufacturers.
