

ANNOUNCEMENT FOR ANSI STANDARDS ACTION

AAMI has approved the following as a Provisional American National Standard:

- AAMI EQ93: 2018, Medical Equipment Management—Vocabulary used in Medical Equipment Programs (approved 26 March 2018)

This Provisional American National Standard was developed according to the procedures provided in Annex B of the ANSI Essential Requirements.

The AAMI Equipment Management Committee will begin work to advance this document as an American National Standard at an upcoming meeting in Long Beach on 5-6 June 2018. The Committee invites those interested in participating in the development of the American National Standard to apply for membership at <http://www.aami.org/Standards>. For more information about the Committee or the upcoming meeting, contact Patrick Bernat at pbernat@aami.org.
