Homeland Security Standards Panel**

**May 17, 2005**

# What is a PIDAS?

**P** - Perimeter

**I** - Intrusion

**D** - Detection and

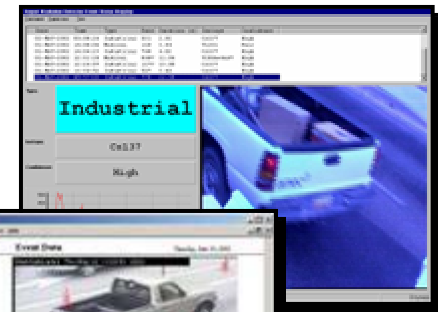

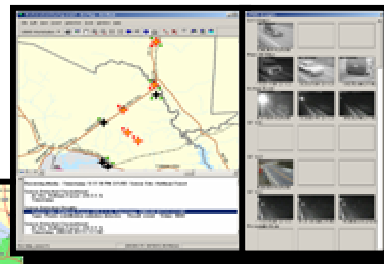

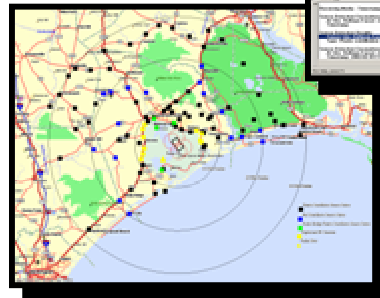

**A** - Assessment

**S** - System

# PIDAS

- A mutually supporting combination of barriers, clear zones, lighting, and electronic intrusion detection, assessment and access control systems constituting the perimeter of a Protected Area and designed to detect, impede, control or deny access to the Protected Area (PA).

# “Hard” PIDAS Requirements

- PA will be protected by a system using Protective Forces, barriers, and intrusion detection

# “Soft” PIDAS Requirements

---

- **Number of Sensors**

- **Sensor types**

- **Sensor layout**

- **Zone width**

- **Lighting type**

- **Lighting placement**

- **Camera types**

- **Camera layout**

**Complimentary**

**Broad dynamic range, light limiting, 5 vertical scan lines**

# User's Performance Requirements

Requirement	Threat	R	N	Comments
Early Detection/Assessment of Ground-Bourne Threats	Unarmed Personnel		X	Do not want to detect unarmed personnel
	Personnel with Weapons	X		Can we discriminate between armed adversaries and workers with tools?
	Personnel with Explosives			
	Personnel with Radioactive Materials			
	"Light" vehicles			
	"Heavy" vehicles			
	Trojan Horse vehicles			
	Explosive vehicles			
Detection/Assessment of Ground-Bourne Threats	Unarmed Personnel			
	Personnel with Weapons			
	Personnel with Explosives			
...				

# Performance

- **Sensor Characteristics**

- **Probability of Detection,  $P_d$**

- **Nuisance Alarm Rate (NAR)**

- **Vulnerability to Defeat**

# Exterior Sensor Technologies

- **Microwave**
- **Ultrasonic**
- **Active Infrared**
- **Passive Infrared**
- **Capacitance**
- **Sonic**
- **Vibration**
- **Fiber Optics**
- **Video Motion Detectors**

# Features of a Good Barrier System

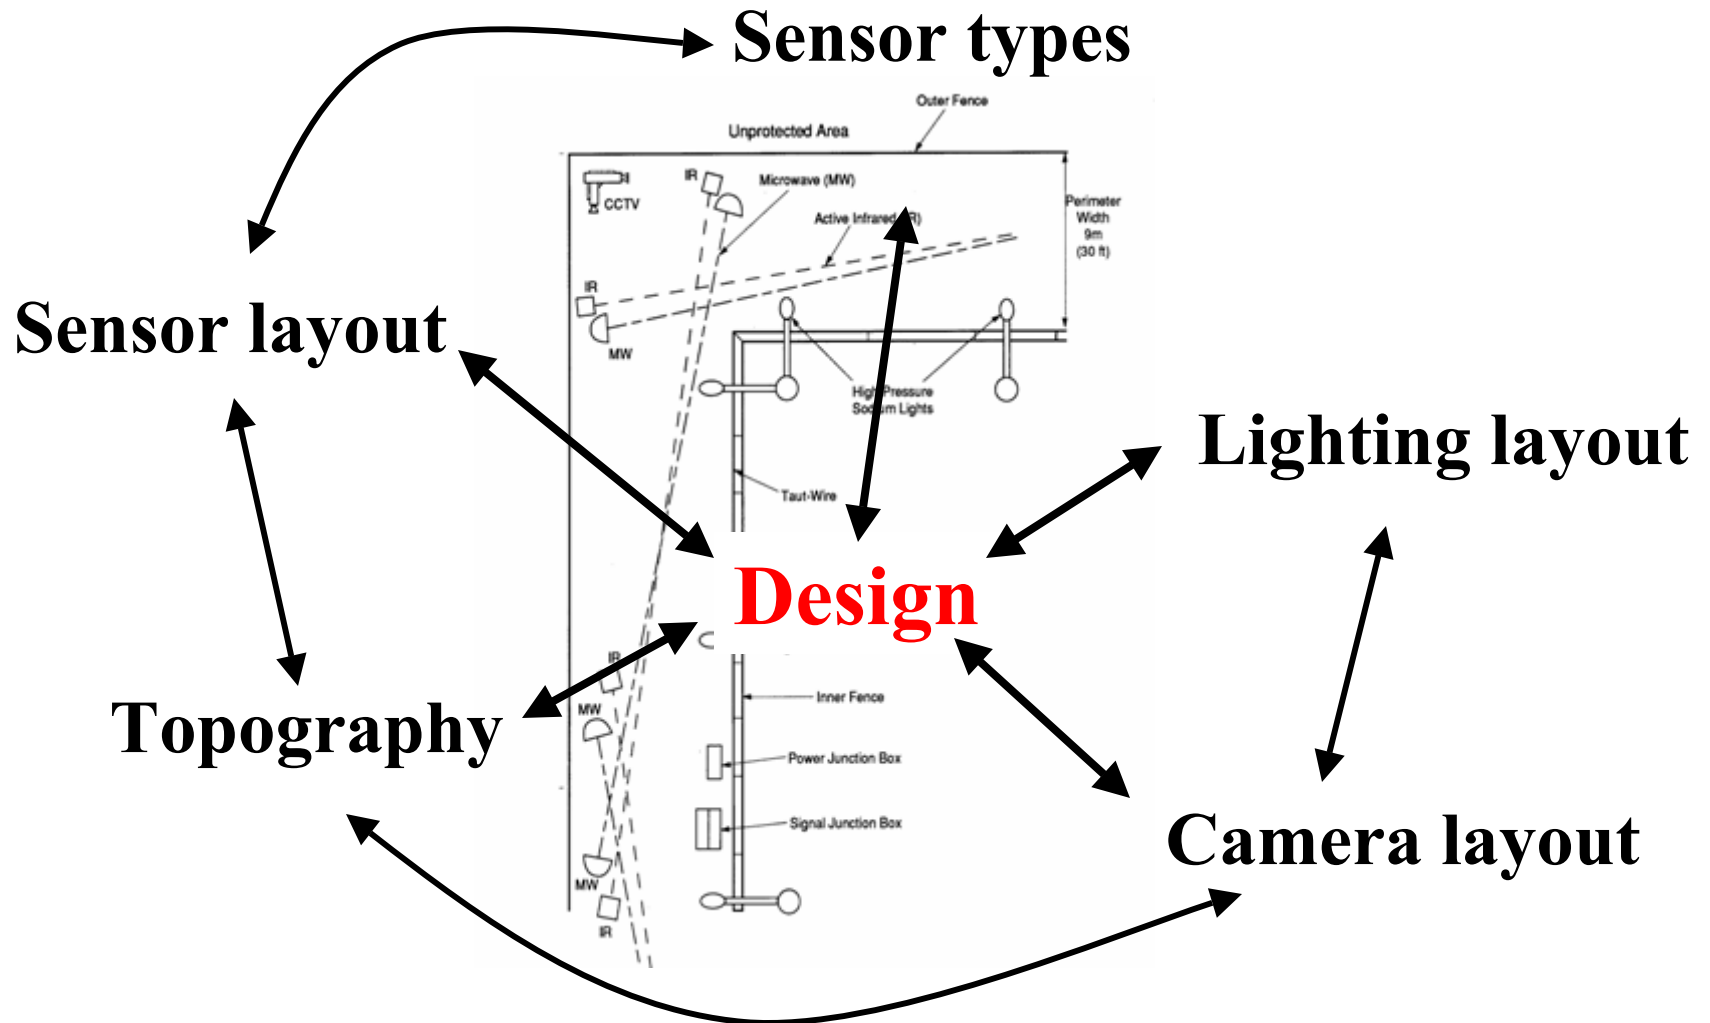

- Provides delay after detection
- Exhibits balanced design; no weak links
- Uses delay-in-depth
- Designed for maximum credible threat

# Schematic of Typical System

# Soft Requirements

# Exterior CBRN Detection Technologies

- Chemical
- Biological
- Radiation
- Medical Surveillance
- Intrusion Detection
- Etc.

# Early Warning Detection

**LaserGuard**

**AES**

**CEDAR**

**SPIDER**

**PSRS**

**M-Star**

**QUPID**

**SPIDER**

**PSRS**

**M-Star**

**CEDAR**

**QUPID**

**SPIDER**

**PSRS**

**M-Star**

**QUPID**
