

# The 2016 Conference on TBT Measures of ICT Products (Shenzhen)

## Conference Handbook

### I Brief Introduction to the Conference

#### 1. Background

The technical barrier to trade (TBT) measures, as an important technical foundation and principle in economic and trade activities and industrial cooperation, plays a critical role in facilitating economic and trade exchanges, supporting the development of the industries, promoting progress in science and technology and improving social governance. Aiming to enhance international cooperation in the area of quality supervision and inspection, deepen communication on TBT measures, decrease technical protection in trade, accelerate the development of the ICT industry and the foreign trade, on consideration of the local industries distribution and export situation, the General Administration of Quality Supervision, Inspection and Quarantine of the PRC (AQSIQ) and the Shenzhen Municipal Government have decided to jointly hold the 2016 Conference on TBT Measures of ICT Products in Shenzhen.

## **2. Theme**

Focusing on in-depth discussions of the technical measures to trade on ICT products, the theme of this conference is deepening communication on technical measures to trade, and building a mutually beneficial and win-win ecosphere of international trade.
