Registration for the open meeting is requested. The [registration form](#) is available from the CEN www.cen.eu and CENELEC Website www.cenelec.eu

Meeting Agenda is attached

No WIFI is available in the meeting room.

Plugs and Sockets

For many years Spain uses the standard European socket with a two pin arrangement and side earth. There are two types of plug, both of which fit the standard socket. A smaller two pin plug for double insulated appliances which don't need an earth, and a larger two pin and side earth strip for those requiring an earth. Line and neutral are not distinguished - plugs can go into sockets either way. Plugs are not individually fused. Appliances with UK sockets can be adapted to work with Spanish sockets by using a cheap and widely available adaptor.

JPG – ANSI MEETING

Madrid, Tuesday 23 February 2010

Hosted by: **AENOR**

- 09.00 – 13:00 **Part 1: JPG – ANSI meeting on standardization**
- 14:30 – 16:30 **Part 2: JPG – ANSI meeting on “better regulation” TEC report**

Venue: **AENOR**, Meeting Centre, Génova 6, ES-28004 Madrid, Spain

Agenda Item	Time	Title
09.00–13:00	PART 1: JPG – ANSI STANDARDIZATION MEETING
