

# U.S. – Kenya Workshop on Energy Storage Standards, Conformance, and Technology

## U.S.-AFRICA CLEAN ENERGY STANDARDS PROGRAM

Energy storage increases the flexibility of the electrical grid and helps to incorporate renewable energies into a country's energy mix. If deployed effectively, energy storage will help to levelize on and off-grid systems to support more reliable and cost-effective electricity across Kenya.

This workshop will feature presentations by U.S. and Kenyan experts from both the public and private sectors on critical considerations for Kenya's national energy storage strategy. The workshop will encourage discussion of crosscutting issues and opportunities for U.S. – Kenya cooperation in the energy sector.

**May 24 – 25, 2018**

9:00 am – 5:00 pm  
Nairobi, Kenya

To register, email [us-africacesp@ansi.org](mailto:us-africacesp@ansi.org). Kindly indicate name, title, organization, contact email and telephone number.

The U.S.-Africa Clean Energy Standards Program is sponsored by the [U.S. Trade and Development Agency](#) and coordinated by the American National Standards Institute in partnership with Power Africa. More information is available at [www.standardsportal.org/us-africacesp](http://www.standardsportal.org/us-africacesp).
