U.S.-Indonesia Healthcare Standards and Innovations Virtual Workshop

July 27, 2022 | 8:30-10:30 AM (WIB) || July 26, 2022 | 9:30-11:30 PM (EDT) || Zoom
August 3, 2022 | 8:30-10:30 AM (WIB) || August 2, 2022 | 9:30-11:30 PM (EDT) || Zoom

U.S.-Indo-Pacific Standards and Technology Cooperation Program

Join our discussion on Indonesia's digital healthcare transformation and best practices in a regional and global context. Participants will engage with key Indonesian and U.S. regulators and industry experts to share technical advice and best practices for implementing policies that advance healthcare standards, procurement, and innovation goals.

BACKGROUND

Innovation and digitalization in healthcare will require regulators and practitioners to respond quickly to new developments across the sector. How Indonesia respond to these innovations will directly impact healthcare availability, along with other applications in healthcare technologies.

This workshop, co-organized with the Indonesia Ministry of Health, will allow participants to share insights into domestic and international regulatory considerations, highlight industry experiences, economic opportunities, and promote standards harmonization. The objectives of this workshop are to:

- Discuss how harmonization of healthcare and medical product standards can be achieved.
- Share insights on how inclusive standards and procurement practices can foster and promote innovation
- Introduce participants to new technologies and innovation in the healthcare sector.

Key participants will include Indonesian and the U.S. government officials, industry experts, as well as other key stakeholders.

ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority infrastructure projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding project preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. and Indonesian individuals, firms, or consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at www.USTDA.gov.

REQUEST REGISTRATION NOW

WHY YOU SHOULD ATTEND

- Identify Indonesia's relevant digital healthcare priorities
- Learn approaches to digital healthcare
- Engage with key decision makers
- Inform development of new regulations
- Discover new commercial opportunities
- Learn about equipment and applications that enable innovation and digitization across healthcare practices
- Discuss vertical use cases such as AI, IoT, advanced procedures, and other emerging technologies

INDO-PACIFIC STCP

USTDA's U.S.-Indo-Pacific Standards and Technology Cooperation Program provides a forum for cooperation and exchange on issues related to standards development, technical regulations, and conformity assessment policies and procedures.
