

IEEE STANDARDS ASSOCIATION INTRODUCTION

RAISING THE WORLD'S STANDARDS

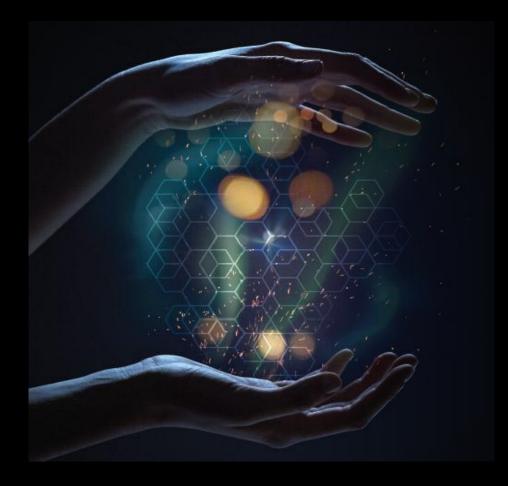

RAVI SUBRAMANIAM, DIRECTOR – STRATEGIC INITIATIVES, CONFORMITY ASSESSMENT

SEPTEMBER 2022

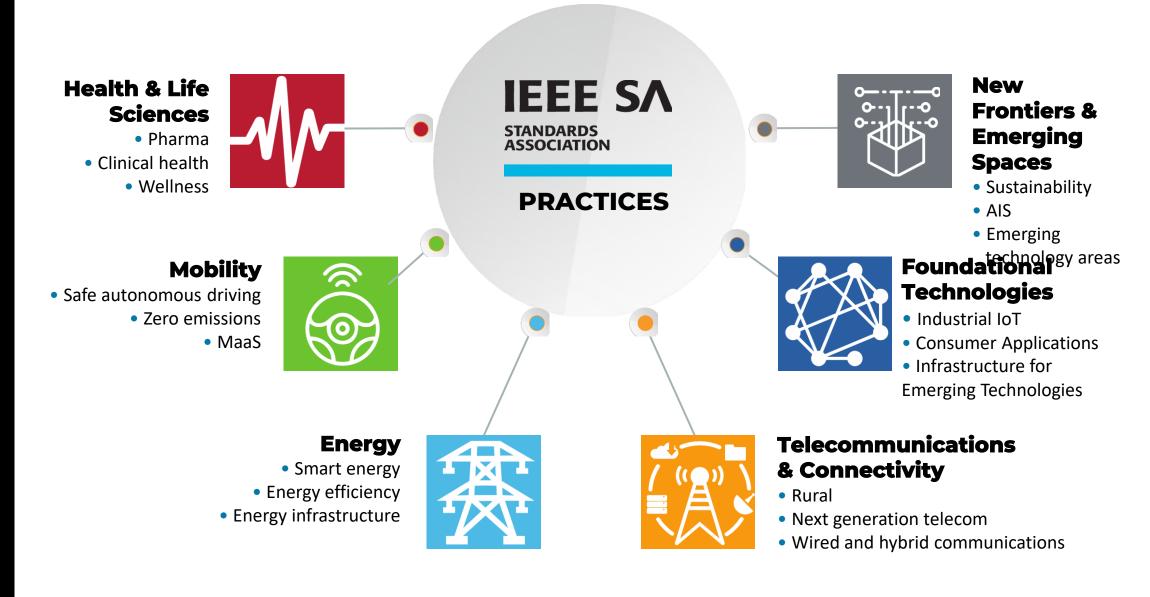

ADVANCING TECHNOLOGY FOR HUMANITY

ABOUT IEEE

- 420,000+ Members
- 160+ Countries
- 46 Technical Societies and Councils
- 2100+ Annual Conferences
- Global Humanitarian Efforts

NEW APPROACHES: IEEE SA Centers of Competence

Standards Landscape

PORTFOLIO OF PROGRAMS & SERVICES

Industry Connections

Exploring & incubating new tech & its use

Open Source

Providing a community-powered platform to support open source projects

Creating markets & protecting public safety through standards development

Alliance Management

Providing support to alliances & trade associations

Membership

Connecting to experts & resources with advanced participation options

Registries

0

Providing unique identifiers to support global compatibility & interoperability

Conformity Assessment

Providing confidence & assurance & accelerating market adoption

RAISING

IEEE SA OPEN

Welcome to IEEE SA Open

A community-powered platform for open source projects

saopen.ieee.org

standards.ieee.org/ opensource

Existing open source projects

- 1076 VHDL
- P1752 Open mHealth
- ICICLE
- OSVVM
- P2050 TRON
- P9274.4.2
- P9274.1.1 xAPI

- P1451.1.4 XMPPI
- P370 Elec Characterization
- IEEE 2791 BioCompute
- TagVault.org
- Blockchain Asset Exchange
- Knowledge Graph

- A global home to enable independent software developers, startups, projects, academia, foundations and industry organizations around the world to create, test, manage and deploy innovative projects in a collaborative, safe and responsible environment.
- Aims to bridge the gap between global standards development, and open-source developer communities, accelerating the development and adoption of technical solutions aimed at benefiting society.
 - Participation is open to anyone
 - Staff supported, self-hosted develops and collaboration infrastructure
 - Multiple models available based on user, community, project needs
 - Use cases for standards and non-standards projects alike
 - Get guidance and support, if you need it, from Open Source Community Manager, helpdesk, and community members
 - Connect with IEEE's extensive network of Members, Societies,
 Standards Committees and Working Groups for collaboration

IEEE CONFORMITY ASSESSMENT PROGRAM (ICAP)

Interconnection of Distributed Energy Resources (DER)

Phasor Measurement Unit (PMU)

Electric Vehicle (EV) Charging Now Accepting Applications

Nuclear Power Electrical Equipment

Camera Phone Image Quality

Sensors Certification Committee Now Accepting Applications

THE IEEE GOVERNMENT ENGAGEMENT PROGRAM ON STANDARDS (GEPS)

A platform allowing government ministries from around the world to increase their understanding of IEEE's standards process, and to facilitate input on government priorities into IEEE's standardization ecosystem.

The Program aims to:

- Increase governments' understanding for the globally open IEEE standardization process,
- Inform governments about IEEE SA's key initiatives,
- Gain input from government experts to the Standards Board and other standards-related discussions,
- Engage with countries from around the world to foster a global perspective.

A Sample of Participants:

Ramy Ahmed

National Telecom Regulatory Authority (NTRA)

Rajeev Sharma India

Bureau of Indian Standards

Hemant Darbari

India

Centre for Development of Advanced Computing (C-DAC)

Ashok Rajput (primary)
Vandana Singhal (secondary)

India

Central Electricity Authority (CEA)

Sudhir Bhandari (primary)
Premjit Lal (secondary)

India

(ICTA)

Telecommunication
Engineering Center (TEC)

Samyoung Chung Republic of Korea Ministry of Science and ICT

(MSIT)

Afşin BÜYÜKBAŞ (primary), Fazlı Kaybal (secondary) Turkey Information and Communication Technologies Regulatory Authority of Turkey

Simon Hicks
United Kingdom
Department for Digital,
Culture, Media & Sport (DCMS)

Marla Dowell
United States
National Institute of Standards

Thomas Koshy United States Nuclear Regulatory

RAISING THE WORLD'S STANDARDS

Developing market relevant open standards and solutions:

- Advancing global technologies and technology platforms
- Promoting innovation
- Protecting public safety, health & wellbeing
- Contributing to a sustainable future

WE INVITE YOU TO CONNECT WITH US.
