**Subject:** RE: ANSI OMF - For your information - Proposed Revision to the ANSI Essential Requirements - Available for Public Comment

Good afternoon Michelle,

AISC has one comment to submit in response to the proposed procedural revision announced in the December 6, 2019, Standards Action, as follows.

In Section 2.5: Please clarify the underlined/ highlighted statement: “Reasonable timely notification of standard activity, including **formation of a consensus body**....”.

Please clarify whether this is intended only for formation of a brand new consensus body only, or every time we reappoint the committee roster, which is every two years for AISC?

Thank you,

**Cynthia J. Duncan**
