Good morning -

Thank you for submitting public comments in response to the ANSI Executive Standards Council's (ExSC) third public announcement of a proposed revision to section 3.2 *Commercial terms and conditions* of the *ANSI Essential Requirements: Due process requirements for American National Standards* (www.ansi.org/essentialrequirements). The ExSC considered all public comments received and made several edits, approving the attached final version which will now be submitted to the Executive Committee of the ANSI Board of Directors for final approval.

With respect to your specific proposal (attached), the ExSC notes that the topics raised and your recommendations are outside of the scope of the *ANSI Essential Requirements* and the charge given to the ExSC Task Group that developed the proposed revisions. For your reference, however, please see the attached document that discusses some of the reasons why standards are not free.

Again, thank you for your comments.

Sincerely,
Anne
