Greetings –

Thank you for submitting the attached public comments in response to the proposed procedural revisions shown in ExSC\_055\_2022. The ExSC discussed all public comments as part of their February 15, 2023 meeting agenda.

In response to your comments, the ExSC disagrees with the two proposed edits for the following reasons: 1) there is a difference between the ExSC’s assessment of a “form” versus an “applicant” and the ExSC’s intention is to allow the ExSC to consider the application form and related documents informally and provide feedback to the applicant, if necessary, before making a final decision; and 2) the phrase “sponsors” means “presently sponsors” as opposed to “has sponsored” in the past and the intent of this criterion is that an ASD currently sponsors 75-100 ANS (that said, this is but one consideration “among other things”).

Again, thank you for taking the time to review the proposed revisions and submit comments.

Sincerely,  
Anne
