STATE OF MAINE LEGISLATURE – SUMMARY OF LD 2048

[LD 2048 \(HP 1432\)](#) "An Act To Protect Children's Health and the Environment from Toxic Chemicals in Toys and Children's Products" Sponsored by Representative Hannah Pingree. Reference Committee: Natural Resources

Wednesday, April 16, 2008, the Maine Legislature enacted a hazard-based, comprehensive chemical policy to drive safer alternatives to dangerous chemicals in consumer products, by an overwhelming margin (129-9 in House, 35-0 in Senate). The bill embodies the precautionary principle in statute and rejects risk assessment. The Governor is expected to sign the bill. See the attached news release for further information, and check online for updated information as it develops.
