

The Internet Security Alliance (ISA) and the  
American National Standards Institute (ANSI) present

## THE FINANCIAL MANAGEMENT OF CYBER RISK

An Implementation Framework for CFOs

ISA and ANSI have recently released a framework for managing and reducing the financial risk related to cyber attacks, a critical threat to national security and economic stability.

Find out more about this invaluable resource for cybersecurity.

**Friday, May 7, 2010**

11:30 a.m. – 1:30 p.m. ■ Cannon 311
