The U.S. Department of Homeland Security Privacy Office cordially invites you to attend a public workshop:

“Privacy and Technology: Government Use of Commercial Data for Homeland Security”

September 8, 2005, from 8:30 a.m. to 4:30 p.m.; and September 9, 2005, from 8:30 a.m. to 12:30 p.m.

Auditorium, GSA Regional Headquarters Building
7th and D Streets, SW, Washington, D.C., 20024
(Across from the L’Enfant Plaza metro station)

Due to limited space, registration is recommended, but not required.
Attendees may RSVP to PrivacyWorkshop@dhs.gov or 571-227-3813.

The program will include a broad range of experts and perspectives, including representatives from academia, business leaders, privacy advocates, legal experts, technologists, and policy leaders. The panels will address the following questions:

- **Panel 1**: How are government agencies using commercial data to aid in homeland security?
- **Panel 2**: What are the privacy and legal issues raised by government use of commercial data?
- **Panel 3**: What are the current as well as developing technologies to aid government in its data analysis for homeland security?
- **Panel 4**: How can technology help protect individual privacy while enabling government agencies to analyze data?
- **Panel 5**: How can we build privacy protections into the government’s use of commercial data – recommending a roadmap for DHS?

Additional information about the workshop will be posted on the workshop’s website, which will be accessible through [www.dhs.gov/privacy](http://www.dhs.gov/privacy). A transcript of the workshop will be posted following the event.
