# Credential Engine's Credential Registry

- **Credential Engine:** A non-profit whose mission is to create credential transparency, reveal the credential marketplace, increase credential literacy, and empower everyone to make more informed decisions about credentials and their value.

- **Credential Registry:** A cloud-based library that collects, maintains, and connects information on all types of credentials, from diplomas to certifications and from licenses to PhDs.

Discussion Questions

For those who have entered data into the Credential Registry, what were your reasons?

What are the reasons that certification bodies have opted not to include data in the Credential Registry?

Are there barriers to entering data into the Credential Registry? If so, what are they?

What do you see as the value to your certification body?

Have you updated your information since you initially added it?

Have you ever used the Certification Finder?
