

Federal Training Session Sponsorship Opportunity

On May 15, Workcred will host its second federal training session in Washington DC. Building on the success of the October 2016 training session, the event is geared to federal employees involved in managing, leading, or creating credentialing programs, including chief learning officers, training officers, and HR professionals. The training session is designed to educate federal credentialing employees so they can be more effective in their jobs, provide insights on credentialing trends and developments, and illustrate best practices in developing and maintaining credentialing programs.

Sponsorships help to cover the operating costs of organizing, catering, and executing the event.
