

The background features a person in a dark suit and tie, looking down thoughtfully. The image is overlaid with a semi-transparent blue filter. Scattered across the background are various alphanumeric characters (0-9, A-Z) and symbols (like squares) in a lighter blue color, creating a digital or data-themed aesthetic.

# **NSA/DHS National Centers of Academic Excellence in Cyber Defense**

## **CAE-CD Approach to Competency Measurement**

# CAE-CD Background Information

## CAE National Resource Centers

- Whatcom Community College
- Cal State University San Bernardino
- University of Houston
- Northern Virginia Community College

## CAE Regional Resource Centers

- University of Washington
- Coastline Community College
- Dakota State University
- San Antonio College
- Moraine Valley Community College
- Mohawk Valley Community College
- Capital University
- Forsyth Technical Community College
- University of West Florida

Dual CDE/R 46  
 Research only (R) 29  
 Cyber Defense Education only (CDE) 116  
 Community Colleges (2Y) 84  
**Total CAE-CD Institutions 276**

As of June 2019

Number with state name denotes total number of CAE-C designations in state  
 Number in blue circle denotes Community College designations in the state

# Designation Requirements

Regional Accreditation  
Institutional Commitment (President's Letter)

## Program Criteria

Campus-wide Cybersecurity Practice  
Faculty (# and Quality)  
Community Outreach  
Multidisciplined

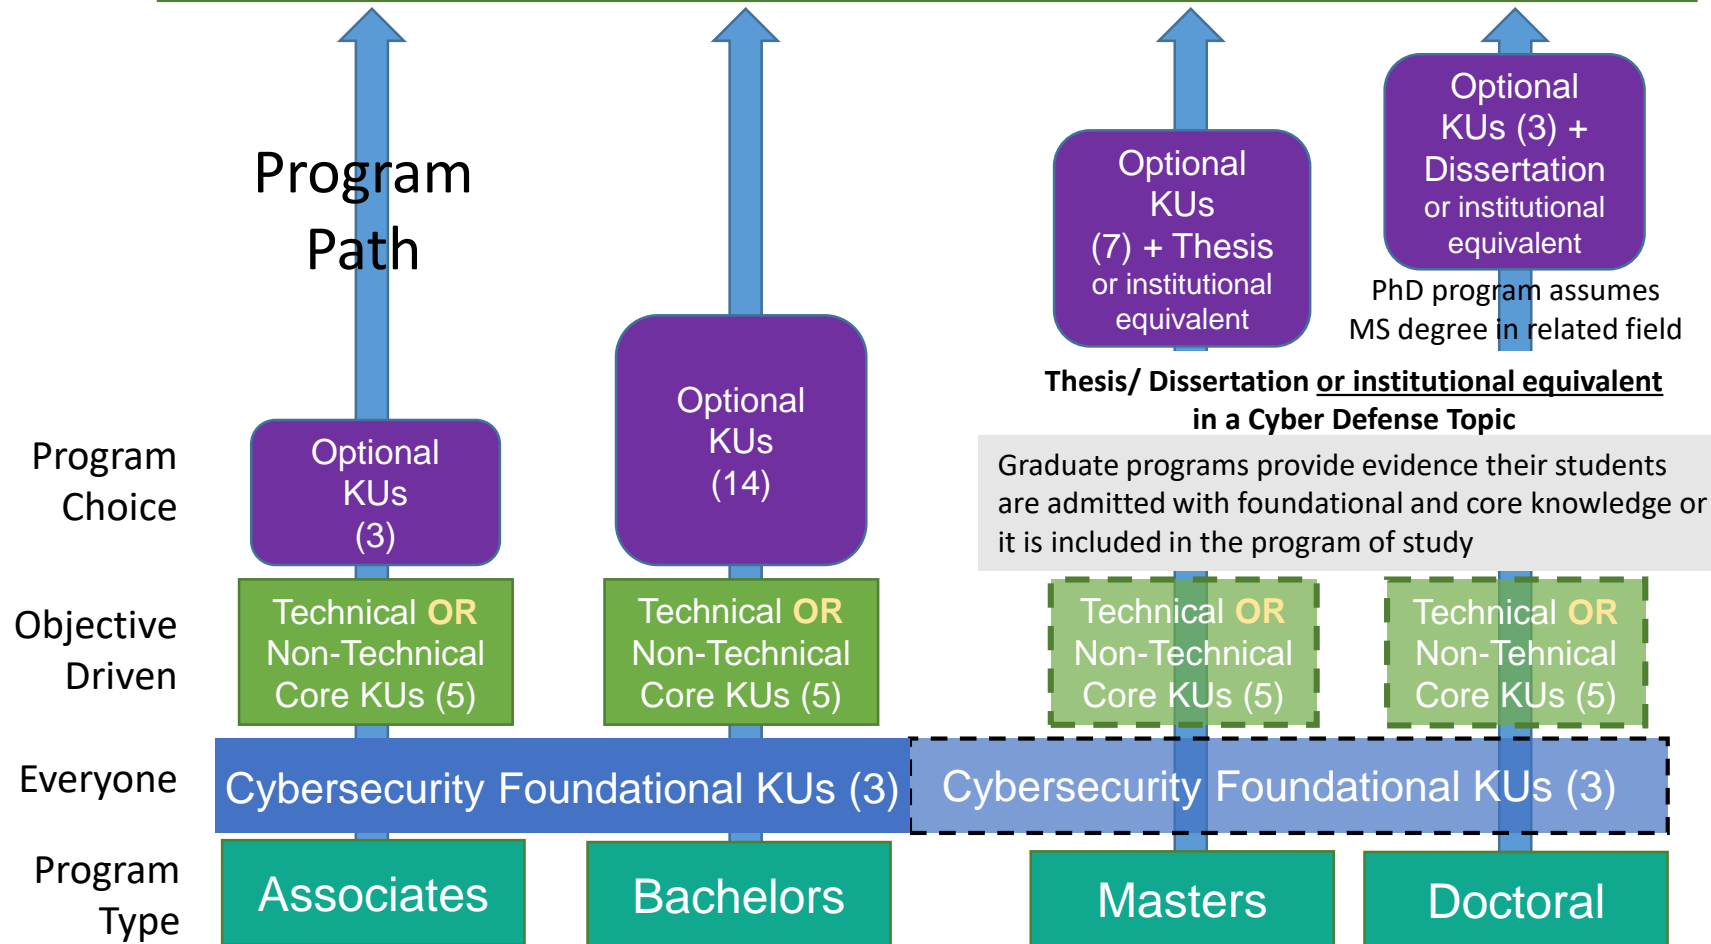

## Academic Criteria

Curriculum for a defined  
academic program path  
mapped to required Knowledge Units

# CAE-CD Academic Requirements for Designation

## NICE Cybersecurity Workforce Framework: Seven Categories

### Designations

- CAE-CDE: All degrees or certificates
- CAE-R: Doctoral only

### CAE-CD Knowledge Units

- Total 73 KUs
- Defined by outcomes & required topics
- Linked to NICE Framework Categories

# CAE-CD & Evidencing Student Competency

Competency = Ability to perform a task in the context of a work role

## Program Issues

- Integrating workforce and education issues
- Program Requirements?
- Measurement/Metrics
- Resources
- Faculty workload

### Management

Lexicon  
Documentation  
Metrics

### Tools

Functionality  
Education Value  
Cost

### Competitions

Education Value  
Competence Efficacy  
Documentation

### Professionalism

Soft Skills  
Career Path  
Ethics Challenges

# First Year Progress on Competency

- Not a requirement for designation, but reporting required
- Student documentation: Portfolio options – useful to employer?
- Evaluated 4 tools; six more in line
- Identified preferred competitions; developing new
- Producing and distributing professional development for faculty and students
- Competency-related CAE-CD program areas of emphasis:
  - Articulation/transfer from 2Y to University

# Future Objective

Cybersecurity should be viewed by educators and employers as a professional field requiring preparation for the workforce in the same way as education prepares medical personnel, lawyers, engineers, etc.

CAE-CD program information available to employers, students & parents:

School Name	Original designation year	Current designation period	Designated Program	NICE Framework Categories	On campus, online or hybrid	Competency participant
Sort alphabetically			Sort by degree	Link to explanation	Sort by	Link to
or by State			or certificate	of how designated	instruction	annual
				program links to	type	reporting
				NICE Framework		
				work roles

# NICE Cybersecurity Framework

Analyze

Collect & Operate

Investigate

Operate & Maintain

Oversee & Govern

Protect & Defend

Securely Provision

Each Category has SPECIALTY AREAS:

All-Source Analysis	Collection Operations	Cyber Investigation	Customer Service & Tech Support	Cybersecurity Management	Cyber Defense Analysis	Risk Management
Exploitation Analysis	Cyber Operational Planning	Digital Forensics	Data Administration	Executive Cyber Leadership	Cyber Defense Infrastructure Support	Software Develop
Language Analysis	Cyber Operations		Knowledge Management	Legal Advice & Advocacy	Incident Response	System Architecture
Targets			Network Services	Program Management & Acquisition	Vulnerability Assess & Management	Systems Development
Threat Analysis			Systems Admin	Strategic Planning & Policy		Systems Requirements Planning
			Systems Analysis	Training, Education & Awareness		Technology R&D
						Test & Evaluation

Each Specialty Area has Work Roles with associated KSAs

52 total work roles in the framework; many of them repeat among Specialty Areas and Categories
